100-point scale; however, the 40 Need points previously allocated to projects will be redistributed into the existing point structure. The exact redistribution of points will be announced in the FY2008 CoC NOFA. Need will continue to be accounted for through the formula that determines Preliminary Pro Rata Need or the Hold Harmless Need amounts for the CoC.

5. As directed by Congress in the FY2008 HUD Appropriation (Consolidated Appropriations Act, 2008, H.R. 2764), HUD will implement a Rapid Re-Housing for Families Demonstration Program through the FY2008 CoC NOFA. This demonstration program will serve homeless households with dependent children.

6. Safe Havens (SH) will no longer be given Transitional Housing (TH) or Permanent Housing (PH) classifications and grantees will have an opportunity through the FY2008 CoC NOFA to change the classification of their project without a grant amendment. Under the newly defined Safe Haven SH program type, any chronically homeless person entering a Safe Haven will maintain his/her status as chronically homeless and will therefore be eligible to enter a funded Samaritan Housing Initiative project.

7. HUD is aware that there has been some confusion over Shelter Plus Care (S+C) and new SRO grant amounts and is reminding grantees and applicants that S+C and new SRO grants may not exceed 100 percent of the Fair Market Rent (FMR) for the Metropolitan Statistical Area (MSA) and unit size.

8. CoCs that are in “Hold Harmless Need Status” may now use the reallocation process to create new dedicated HMIS projects.

9. HUD will allow only one applicant for HMIS dedicated grants within a CoC.

10. HMIS funds contained in the Training and Technical Assistance line item of the HMIS budget may be used for travel, hotel, and per diem costs associated with the provision of technical assistance and training sessions by local HMIS staff; attendance at training sessions provided by local HMIS staff and/or outside trainers; attendance at HUD-sponsored HMIS training sessions or symposiums; attendance at HMIS vendor-sponsored user meetings; and attendance at other HMIS-related events as qualified and pre-approved by HUD Headquarters. Applicants may be asked to identify the number and type of HMIS training sessions for which they are requesting SHP funds during the technical submission process. Payments will be limited to the reasonableness of travel expenses as listed in 24 CFR Parts 84 and 85.

Nelson R. Bregon
General Deputy Assistant Secretary for Community Planning and Development.

DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service
Information Collection Sent to the Office of Management and Budget (OMB) for Approval; OMB Control Number 1018–0101; Monitoring Recovered Species After Delisting—American Peregrine Falcon

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (Fish and Wildlife Service) have sent an Information Collection Request (ICR) to OMB for review and approval. The ICR, which is summarized below, describes the nature of the collection and the estimated burden and cost. This information collection is scheduled to expire on April 30, 2008. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. However, under OMB regulations, we may continue to conduct or sponsor this information collection while it is pending at OMB.

DATES: You must submit comments on or before May 30, 2008.

ADDRESSES: Send your comments and suggestions on this ICR to the Desk Officer for the Department of the Interior at OMB–IRA at (202) 395–6566 (fax) or OIRA_DOCKET@OMB.eop.gov (e-mail). Please provide a copy of your comments to Hope Grey, Information Collection Clearance Officer, Fish and Wildlife Service, MS 222–ARLSQ, 4401 North Fairfax Drive, Arlington, VA 22203 (mail); (703) 358–2269 (fax); or hope_grey@fws.gov (e-mail).

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Hope Grey by mail, fax, or e-mail (see ADDRESSES) or by telephone at (703) 358–2482.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 1018–0101.
Title: Monitoring Recovered Species After Delisting—American Peregrine Falcon.

Service Form Number(s): FWS Forms 3–2307, 3–2308, and 3–2309.
Type of Request: Extension of currently approved collection.
Affected Public: Professional biologists employed by State agencies and other organizations, and volunteers that have been involved in past peregrine falcon conservation efforts.
Respondent’s Obligation: Voluntary.
Frequency of Collection: On occasion. Monitoring is conducted every 3 years. For eggs and feathers, 15 to 20 of each are collected over a period of no more than 5 years.

Estimated Nonhour Cost Burden: We estimate the total nonhour burden cost to be $156,00 for expenses incurred when contaminants samples must be shipped to designated labs for analysis and storage.

Abstract: This information collection (IC) implements the requirements of the Endangered Species Act (16 U.S.C. 1539). There are no corresponding Service regulations for the ESA’s post-delisting monitoring requirement. This IC also implements the Migratory Bird Treaty Act (16 U.S.C. 704) contained in Service regulations in Chapter I, Subchapter B of Title 50 of the Code of Federal Regulations (CFR).

The American peregrine falcon was removed from the List of Endangered and Threatened Wildlife on August 25, 1999. Section 4(g) of the Endangered Species Act (ESA) requires that all species that are recovered and removed
from the List of Endangered and Threatened Wildlife (delisted) be monitored in cooperation with the States for a period of not less than 5 years. The purpose of this requirement is to detect any failure of a recovered species to sustain itself without the protections of the ESA. We work with relevant State agencies and other species experts to develop appropriate plans and procedures for systematically monitoring recovered wildlife and plants.

The American peregrine falcon has a large geographic distribution that includes a substantial amount of non-Federal land. Although the ESA requires that monitoring of recovered species be conducted for not less than 5 years, the life history of American peregrine falcons is such that it is appropriate to monitor this species for a longer period of time in order to meaningfully evaluate whether or not the recovered species continues to maintain its recovered status. The Monitoring Plan for the American Peregrine Falcon is available on our website at http://www.fws.gov/endangered/pdfs/peregrin/Peregrineplan2003.pdf. Formal collection of monitoring data commenced in 2003. Range-wide population monitoring of American peregrine falcons under the Monitoring Plan will take place every 3 years through 2015.

We will use the information supplied on the FWS Forms 3–2307, 3–2308, and 3–2309 to review the status of the American peregrine falcon in the United States and determine if it remains recovered and, therefore, does not require the protections of the ESA: (1) FWS Form 3–2307 (Peregrine Falcon Monitoring Form) addresses the reporting requirements to record observations on the nesting pair, and the numbers of eggs and young during each nest visit. Each nest will be visited two (or more) times; (2) FWS Form 3–2308 (Peregrine Falcon Egg Contaminants Data Sheet) addresses the reporting requirements to record data on eggs collected opportunistically during a nest visit; (3) FWS Form 3–2309 (Peregrine Falcon Feather Contaminants Data Sheet) addresses the reporting requirements to record data on feathers collected opportunistically during a nest visit. Once collected, the eggs and feathers will be archived in a deep freeze for analysis at a later time.

Comments: On February 25, 2008, we published in the Federal Register (73 FR 10040) a notice of our intent to request that 60 days be added to this collection of information. We solicited comments for 60 days, ending on April 25, 2008. We did not receive any comments in response to this notice.

We again invite comments concerning this information collection on: (1) whether or not the collection of information is necessary, including whether or not the information will have practical utility; (2) the accuracy of our estimate of the burden for this collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.

Hope Grey,
Information Collection Clearance Officer,
Fish and Wildlife Service.

BILLING CODE 4310–55–S

DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service
Endangered and Threatened Wildlife and Plants; Permits
AGENCY: Fish and Wildlife Service, Interior.
ACTION: Notice of receipt of permit renewal application; request for comment.
SUMMARY: We, the Fish and Wildlife Service (Service), invite the public to comment on the following application to renew an existing permit to conduct certain activities involving endangered species.
DATES: We must receive comments on this permit application on or before May 30, 2008.

FOR FURTHER INFORMATION CONTACT: Mary Parkin, at the above address.

SUPPLEMENTARY INFORMATION: The following applicant has requested renewal of an existing scientific research recovery permit to conduct specific activities with all listed species in the States of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, and West Virginia, and in the District of Columbia, under section 10(a)(1)(A) of the Endangered Species Act (16 U.S.C. 1531 et seq.). We solicited review and comment from local, State, and Federal agencies and the public on the following permit request:
Permit No. TE–697823
Applicant: Assistant Regional Director, Ecological Services, U.S. Fish and Wildlife Service, Hadley, Massachusetts.

The applicant requests renewal of a permit for take of all listed species in the States specified above for scientific purposes, or the enhancement of propagation or survival permits as prescribed by Service recovery documents.

The original permit became effective on July 15, 1994, and has been renewed twice since then, on May 6, 1998, and May 6, 2003. Opportunity for public review of the renewal applications was provided in 63 FR 14471 (March 25, 1998) and 68 FR 12098 (March 13, 2003), respectively.

Public Review of Comments
Please refer to the permit number when submitting comments.

We solicit public review and comment on this recovery permit application. Before including your address, phone number, electronic address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Comments and materials received will be available for public inspection, by appointment, during normal business hours at the above address.

Authority: The authority for this section is the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.).
