SUPPLEMENTARY INFORMATION:

I. Abstract

This information collection is associated with regulations implementing the Migratory Bird Treaty Act (MBTA) (16 U.S.C. 703 et seq.). Under the MBTA, it is unlawful to take, possess, import, export, transport, sell, purchase, barter, or offer for sale, purchase, or barter, migratory birds or their parts, nests, or eggs, except as authorized by regulations implementing the MBTA.

The regulations at 50 CFR 21.47 (Aquaculture Depredation Order) authorize aquaculture producers in 13 States to take double-crested cormorants when the birds are found committing or about to commit depredations on commercial freshwater aquaculture stocks. The regulations at 50 CFR 21.48 (Public Resource Depredation Order) authorize State fish and wildlife agencies, the U.S. Department of Agriculture (APHIS-Wildlife Services), and federally recognized tribes in 24 States to take double-crested cormorants to prevent depredations on the public resources of fish, wildlife, plants, and their habitats.

Both 50 CFR 21.47 and 21.48 impose reporting and recordkeeping requirements on those operating under the depredation orders. We use the information collected to:

(1) Help assess the impact of the depredation orders on double-crested cormorant populations.

(2) Protect nontarget migratory birds or other species.

(3) Ensure that agencies and individuals are conforming to the terms, conditions, and purpose of the orders.

(4) Help gauge the effectiveness of the orders at mitigating cormorant-related damages.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Endangered Species Act (16 U.S.C. 1531 et seq.) makes it unlawful to import or export fish, wildlife, or plants without filing a declaration or report deemed necessary for enforcing the Act or upholding the Convention on International Trade in Endangered Species (CITES) (see 16 U.S.C. 1538(e)). With a few exceptions, businesses or individuals importing into or exporting from the United States any fish, wildlife, or wildlife product must complete and submit to the Service an FWS Form 3–177 (Declaration for Importation or Exportation of Fish or Wildlife). This form as well as FWS Form 3–177a (Continuation Sheet) and instructions for completion are available for electronic submission at https://edecs.fws.gov. These forms are also available in hard copy at http://www.fws.gov/forms/.

The information that we collect is unique to each wildlife shipment and enables us to:

• Accurately inspect the contents of the shipment;

• Enforce any regulations that pertain to the fish, wildlife, or wildlife products contained in the shipment; and

• Maintain records of the importation and exportation of these commodities.

Additionally, we use information from FWS Forms 3–177 and 3–177a to compile an annual report that we provide to the CITES Secretariat in Geneva, Switzerland. This annual report on the number and types of imports and exports of fish, wildlife, and wildlife products is one of our treaty obligations under CITES. The report does not contain any personally identifying information.

We also use the information obtained from FWS Form 3–177 as an enforcement tool and management aid to monitor the international wildlife market and detect trends and changes in the commercial trade of fish, wildlife, and wildlife products. Our Division of Scientific Authority and Division of Management Authority use this information to assess the need for additional protection for native species.

The information we collect is part of a system of records covered by the Privacy Act (5 U.S.C. 552(a)).

Businesses or individuals must file FWS Forms 3–177 and 3–177a with us at the time and port where they request clearance of the import or export of wildlife or wildlife products. Our regulations allow for certain species of wildlife to be imported or exported between the United States and Canada or Mexico at U.S. Customs and Border Protection ports, even though our wildlife inspectors may not be present. In these instances, importers and exporters may file the forms with U.S. Customs and Border Protection. We collect the following information:

(1) Name of the importer or exporter and broker.

(2) Scientific and common name of the fish or wildlife.

(3) Permit numbers (if permits are required).

(4) Description, quantity, and value of the fish or wildlife.

(5) Natural country of origin of the fish or wildlife.

In addition, certain information, such as the airway bill or bill of lading number, the location of the fish or wildlife for inspection, and the number of cartons containing fish or wildlife, assists our wildlife inspectors if a physical examination of the shipment is necessary.
