ENDANGERED AND THREATENED WILDLIFE AND PLANTS; PERMIT APPLICATIONS

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of applications; request for public comment.

SUMMARY: The following applicants have applied for scientific research permits to conduct certain activities with endangered species under the Endangered Species Act of 1973, as amended (Act). The Act requires that we invite public comment on these permit applications.

DATES: To ensure consideration, written comments must be received on or before October 19, 2009.

ADDRESSES: Written comments should be submitted to the Chief, Endangered Species Division, Ecological Services, P.O. Box 1306, Room 6034, Albuquerque, NM 87103. Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act. Documents will be available for public inspection, by appointment only, during normal business hours at the U.S. Fish and Wildlife Service, 500 Gold Ave, SW., Room 6034, Albuquerque, NM. Please refer to the respective permit number for each application when submitting comments.

FOR FURTHER INFORMATION CONTACT: Susan Jacobsen, Chief, Endangered Species Division, P.O. Box 1306, Albuquerque, NM 87103; (505) 248–6920.

SUPPLEMENTARY INFORMATION:

Public Availability of Comments

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Permit TE–829996

Applicant: Houston Zoo, Houston, Texas.

Applicant requests an amendment to their current permit for research and recovery purposes to conduct presence/absence surveys of jaguarundi (Felinus yagouroundi cacomitl) within Texas.

Permit TE–051832

Applicant: The Phoenix Zoo, Phoenix, Arizona.

Applicant requests an amendment to a current permit to capture and breed Mt. Graham red squirrels (Tamiasciurus hudsonicus Grahamensis) to be held in the zoo and eventually released back into the wild.

Permit TE–225730

Applicant: Scott Cutler, El Paso, Texas.

Applicant requests a new permit for education purposes to display skeletons and skins of salvaged California condors (Gymnogyps californianus) at the Centennial Museum within the University of Texas at El Paso.

Permit TE–226653

Applicant: The Arboretum at Flagstaff, Flagstaff, Arizona.

Applicant requests a new permit for research and recovery purposes to conduct presence/absence surveys of the following plants: sentry milk-vetch (Astragalus cremnophylax var. cremnophylax), Mancos milk-vetch (Astragalus humilimus), Arizona cliffrose (Purshia subintegra), and autumn buttercup (Ranunculus aestivalis) within New Mexico, Arizona, and Utah.

Permit TE–192855

Applicant: Amnis Opes Institute, LLC., Cornvallis, Oregon.

Applicant request a new permit for research and recovery purposes to conduct presence/absence surveys of humpback chub (Gila cypha) within the Colorado River, Arizona.

Authority: 16 U.S.C. 1531 et seq.

Brian Millsap,
Regional Director, Southwest Region, Fish and Wildlife Service.

SUPPLEMENTARY INFORMATION:

Background

We invite public comment on the following permit applications for certain activities with endangered species authorized by section 10(a)(1)(A) of the Act (16 U.S.C. 1531 et seq.) and our regulations governing the taking of endangered species in the Code of Federal Regulations at 50 CFR 17. Submit your written data, comments, or request for a copy of the complete application to the address shown in ADDRESSES. When submitting comments, please refer to the appropriate permit application number.
Permit Applications

Permit Application Number: TE224720
Applicant: ABR, Inc., Environmental Research & Services, Forest Grove, Oregon.

The applicant requests a permit to take (harass through capture and release; collection of hair and tissue samples) Indiana bats (Myotis sodalis) and gray bats (Myotis grisescens) throughout the States of Indiana, Iowa, Illinois, Michigan, Missouri, Ohio, and Wisconsin. Proposed activities under this permit application include surveys to document species’ presence or absence in areas proposed for wind-energy development, studies to document habitat use, collection of echolocation data and hair/tissue sampling for scientific research. The applicant’s proposed activities are aimed at enhancement of the survival of the species in the wild.

Permit Application Number: TE226335
Applicant: Michael C. Quist, Ames, Iowa.

The applicant requests renewal of a permit to take the Lake Erie water snake (Nerodia sipedon insularum) in the State of Ohio. Proposed activities include capture and release of snakes, insertion of PIT tags or radio transmitters, blood sampling, stomach sampling, and temporarily holding snakes for scientific study or public exhibition. These proposed activities are for enhancement of the survival of the species in the wild.

Permit Application Number: TE224719
Applicant: Richard B. King, DeKalb, Illinois.

The applicant requests renewal of a permit to take the Topeka shiner (Notropis topeka) in the State of Iowa. Proposed activities include capture and release of the species in formerly undocumented sites or in sites where documentation is over 20 years old. These proposed activities are for the enhancement of survival of the species in the wild.

Permit Application Number: TE195082–1
Applicant: Thomas E. Tomasi, Springfield, Missouri.

The applicant requests an amendment to his permit to add Virginia big-eared bats (Corynorhinus townsendii virginianus) to the list of species covered by the permit. In addition, this amendment request seeks authorization to capture and temporarily hold Virginia big-eared bats and gray bats at Missouri State University for a period of five months during hibernation. Bats are proposed to be captured from caves in Missouri and Kentucky and will be returned unharmed to point of capture at the end of the hibernation period. The proposed research activity is aimed at enhancement of survival of the species in the wild.

Public Comments

We seek public review and comments on these permit applications. Please refer to the permit number when you submit comments. Comments and materials we receive are available for public inspection, by appointment, during normal business hours at the address shown in the ADDRESSES section. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

National Environmental Policy Act (NEPA)

In compliance with NEPA (42 U.S.C. 4321 et seq.), we have made an initial determination that the proposed activities in these permits are categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement (516 DM 6 Appendix 1, 1.4C(1)).

Lynn M. Lewis,
Assistant Regional Director, Ecological Services, Region 3.

SUPPLEMENTARY INFORMATION:

DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service

Buck Island, Green Cay, and Sandy Point National Wildlife Refuges, U.S. VI

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability: draft comprehensive conservation plan and environmental assessment; request for comments.

SUMMARY: We, the Fish and Wildlife Service (Service), announce the availability of a draft comprehensive conservation plan and environmental assessment (Draft CCP/EA) for Buck Island, Green Cay, and Sandy Point National Wildlife Refuges for public review and comment. In this Draft CCP/EA, we describe the alternative we propose to use to manage these three refuges for the 15 years following approval of the final CCP.

DATES: To ensure consideration, we must receive your written comments by October 19, 2009.

ADDRESS: Send comments, questions, and requests for information to: Mr. Michael Evans, Refuge Manager, Sandy Point National Wildlife Refuge, 3013 Estate Golden Rock, Christiansted, VI 00820; telephone: 340/773–4554. The Draft CCP/EA is also available at the Service’s Internet Site: http://southeast.fws.gov/planning/.

FOR FURTHER INFORMATION CONTACT: Mr. Michael Evans; telephone: 340/773–4554; e-mail: michael.evans@fws.gov.

Introduction

With this notice, we continue the CCP process for Buck Island, Green Cay, and Sandy Point National Wildlife Refuges. We started the process through a notice in the Federal Register on March 12, 2007 (72 FR 11046).

Background

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd–668eee) (Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each national wildlife refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year strategy for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation, wildlife photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years in accordance with the Administration Act.
