would prevent a child from obtaining objectionable content from outside the home and later viewing or listening to it on equipment in the home? In light of the ways in which blocking technology might be circumvented, what role should education play in protecting children from objectionable content? How can the value of the Internet as an educational and informational tool for children be balanced against efforts to ensure children’s online safety?

F. Blocking Technologies Compatible With Multiple Platforms

43. Finally, we seek general comment on whether there are blocking technologies currently available or in development that are capable of operating across multiple platforms. Because children today have access to multiple media platforms, content that parents may have blocked on one medium could potentially be accessed by children on another medium. For example, while parents may have activated the V-chip to block TV–14 content on the family television set, a child may be able to access the same content over the Internet on the family computer or on the child’s own laptop or wireless device. To what extent could blocking technologies compatible with multiple platforms provide a solution to parents in this situation? For example, are there technologies that could operate on a wireless network or wireless device as well as another platform (such as cable or wireline service)? Are Internet filters able to filter Internet content to both wireline and wireless devices, or are they limited to computers (which would include wireless modem cards used on laptops or other portable devices, but not wireless smartphones)? To the extent that blocking technologies are able to filter Internet content to both wireline and wireless devices, are there any technical limitations for filters operating on laptops using wireless laptop cards, due to the potentially slower speed of a wireless broadband service? Are there other issues that need to be resolved in order to ensure that blocking technologies can operate seamlessly across platforms?

Administrative Matters

44. Ex Parte Rules. Pursuant to § 1.1204(b)(1) of the Commission’s rules, 47 CFR 1.1204(b)(1), this is an exempt proceeding. Ex parte presentations are permitted, and need not be disclosed.

45. Comments and Reply Comments. Pursuant to §§ 1.415 and 1.419 of the Commission’s rules, 47 CFR 1.415, 1.419, interested parties may file comments on the Notice of Inquiry, MB Docket No. 09–26, on or before the dates indicated on the first page of this document. Comments may be filed using: (1) The Commission’s Electronic Comment Filing System (ECFS), (2) the Federal Government’s eRulemaking Portal, or (3) by filing paper copies. See Electronic Filing of Documents in Rulemaking Proceedings, 63 FR 24121, May 1, 1998.

For ECFS filers, if multiple docket or rulemaking numbers appear in the caption of this proceeding, filers must transmit one electronic copy of the comments for each docket or rulemaking number referenced in the caption. In completing the transmittal screen, filers should include their full name, U.S. Postal Service mailing address, and the applicable docket or rulemaking number. Parties may also submit an electronic comment by Internet e-mail. To get filing instructions, filers should send an e-mail to ecfsc FCC.gov, and include the following words in the body of the message, “get form.” A sample form and directions will be sent in response.

47. Paper Filers: Parties who choose to file by paper must file an original and four copies of each filing. If more than one docket or rulemaking number appears in the caption of this proceeding, filers must submit two additional copies for each additional docket or rulemaking number.

48. Filings can be sent by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail (although we continue to experience delays in receiving U.S. Postal Service mail). All filings must be addressed to the Commission’s Secretary, Office of the Secretary, Federal Communications Commission.

• The Commission’s contractor will receive hand-delivered or messenger-delivered paper filings for the Commission’s Secretary at 236 Massachusetts Avenue, NE., Suite 110, Washington, DC 20002. The filing hours at this location are 8 a.m. to 7 p.m. All hand deliveries must be held together with rubber bands or fasteners. Any envelopes must be disposed of before entering the building.

• Commercial overnight mail (other than U.S. Postal Service Express Mail and Priority Mail) must be sent to: 9300 East Hampton Drive, Capitol Heights, MD 20743.

• U.S. Postal Service first-class, Express, and Priority mail should be addressed to 445 12th Street, SW., Washington, DC 20554.

• In addition, parties must serve the following with either an electronic copy via e-mail or a paper copy of each pleading: (1) the Commission’s duplicating contractor, Best Copy and Printing, Inc., Portals II, 445 12th Street, SW., Room CY–B402, Washington, DC 20554, telephone 1–800–378–3160, or via e-mail at http://www.bcpweb.com; and (2) Kim Matthews, Media Bureau, 445 12th Street, SW., Room 4–A813, Kim Matthews@fcc.gov.

49. People with Disabilities: Contact the Commission to request materials in accessible formats (Braille, large print, electronic files, audio format, etc.) by e-mail at Commission504@Commission.gov or call the Consumer & Governmental Affairs Bureau at 202–418–0530 (voice), 202–418–0432 (TTY).

50. Additional Information. For additional information on this proceeding, contact Kim Matthews, Media Bureau, at (202) 418–2154, or at kim.mathew@sfcc.gov.

Ordering Clause

51. Accordingly, it is ordered that, pursuant to the authority contained in sections 4(i), 303(g), and 403 of the Communications Act, 47 U.S.C. 154(i), 303(g), and 403, and pursuant to the Child Safe Viewing Act of 2007, this Notice of Inquiry is adopted.

Federal Communications Commission.

Marlene H. Dortch, Secretary.

BILLING CODE 6712–01–P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

RIN 1018–AW34

Endangered and Threatened Wildlife and Plants; Listing the Plant Lepidium papilliferum (Slipskirt Peppergrass) as Endangered

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule; reopening of comment period and notice of document availability.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the availability of new information relevant to our consideration of the status of
Lepidium papilliferum (slickspot peppergrass), proposed for listing as endangered, under the Endangered Species Act of 1973, as amended (Act). We, therefore, announce the reopening of the comment period on the proposed listing and invite interested members of the public to submit comments on this new information as it applies to the status and proposed listing of L. papilliferum. Information previously submitted for this proposed listing need not be resubmitted, as all information already received regarding this proposed listing will be incorporated into the public record and fully considered in our evaluation.

DATES: To allow adequate time for consideration of your comments, all information should be submitted to us by April 16, 2009.

ADDRESSES: You may submit comments by one of the following methods:
• Federal eRulemaking Portal: http://www.regulations.gov. Follow the instructions for submitting comments.
• U.S. mail or hand-delivery: Public Comments Processing, Attn: Docket FWS–R1–ES–2008–0096; Division of Policy and Directives Management; U.S. Fish and Wildlife Service; 4401 N. Fairfax Drive, Suite 222; Arlington, VA 22203.

We will not accept e-mail or faxes. We will post all comments on http://www.regulations.gov. This generally means that we will post any personal information you provide us (see the Public Comments section below for more information).

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

Background

For a detailed description of Federal actions concerning Lepidium papilliferum, please refer to the September 19, 2008, Notice Reopening the Comment Period on the Proposed Rule to List Lepidium papilliferum as Endangered (73 FR 54345) and the January 12, 2007, Withdrawal Notice published in the Federal Register (72 FR 1621). In addition, a number of the most recent Federal actions concerning the species is provided here.

The notice that published on January 12, 2007 (72 FR 1621), served to withdraw our July 15, 2002, proposed rule (67 FR 46441) to list Lepidium papilliferum as endangered under the Act. The withdrawal of the proposed rule was based on our conclusion that, while the best available information indicated that certain threat factors were degrading the species’ sagebrush-steppe matrix habitat, there was little evidence that these threats were negatively affecting the abundance of L. papilliferum, which inhabits slickspot microsites within the sagebrush-steppe ecosystem. In addition, we concluded that annual abundance of the plant was strongly correlated with spring precipitation, and therefore the high degree of variability observed in plant abundance over time was to be expected. Information on the plant’s overall population trend was inconsistent, as it appeared to be decreasing in recent years in a subset of the species’ range, but appeared to be increasing over those same years on a rangewide scale as expected in response to increased rainfall. Finding no consistent evidence of a rangewide negative population trend for the species, we concluded that L. papilliferum did not meet the definition of a threatened or endangered species under the Act.

On June 4, 2008, the U.S. District Court for the District of Idaho vacated the Service’s January 2007 withdrawal notice and remanded the decision to the Service for further consideration consistent with the Court’s opinion (Western Watersheds Project v. Jeffery Foss et al., Case No. 07–161–E–MHW). In response to the Court’s decision, the Service notified the public on September 19, 2008, of the reinstatement of the July 15, 2002, proposed rule to list Lepidium papilliferum as endangered and opened a public comment period for 30 days through October 20, 2008. We received a total of seven comments during that comment period.

Since the closure of the last comment period, new information has become available that is relevant to our evaluation of the proposed listing of Lepidium papilliferum. To ensure that our review of the species’ status is complete and based on the best available scientific and commercial information, we are soliciting comments on this new information as it relates to the status and proposed listing of L. papilliferum. We have also specifically requested peer review of this new information and its relevance to the status of L. papilliferum from experts familiar with the species or its habitat; these reviews will also be accepted during this comment period.

New Information Available for Review

Information received, developed, or analyzed since the last comment period ended on October 20, 2008, is available for review by accessing the Web site http://www.regulations.gov (Docket ID FWS–R1–ES–2008–0096) or by contacting the State Supervisor (see FOR FURTHER INFORMATION CONTACT above). This information includes, but is not limited to, the following documents:
(1) Analysis of Slickspot Peppergrass (Lepidium papilliferum) Population Trends on Orchard Training Area and Rangeland Implications (Sullivan and Nations 2009);
(2) Lepidium papilliferum (Slickspot peppergrass) Evaluation of Trends 2004–2007 (Unnasch 2008);
(4) GIS Analysis for the 2009 Status Review of Slickspot Peppergrass (Lepidium papilliferum) (Stoner 2009).

The public comments received during the most recent public comment period, which closed on October 20, 2008, are also accessible for viewing at http://www.regulations.gov (Docket ID FWS–R1–ES–2008–0096), or by contacting the State Supervisor (see FOR FURTHER INFORMATION CONTACT above).

Public Comments

We will base any final action resulting from the proposed rule on the best scientific and commercial data available and intend to be as accurate and as effective as possible. Therefore, we request comments or suggestions on the proposed rule from the public, other concerned governmental agencies, the scientific community, industry, and any other interested parties.

We ask for comments concerning the new information contained in the analyses of Lepidium papilliferum population trends on the Orchard Training Area in southwest Idaho (Sullivan and Nations 2009), on the rangewide Habitat Integrity and Population (HIP) monitoring (Unnasch 2008), a recent analysis of L. papilliferum data collected on the Inside Desert (Owyhee Plateau) from 2000 to 2002 (Wells and Popovich 2009), and GIS analysis of Lepidium papilliferum (Stoner 2009). In particular, comments are sought regarding the relevance of the new information to the proposed listing status of L. papilliferum, as it pertains to the following:
(1) Biological, commercial trade, or other relevant data concerning threats (or lack thereof) to *Lepidium papilliferum*;

(2) Additional information concerning the range, distribution, and population size of *Lepidium papilliferum*, including the locations of any additional populations of the species;

(3) Any information on the biological or ecological requirements of *Lepidium papilliferum*;

(4) Current or planned activities in the areas occupied by *Lepidium papilliferum* and their possible impacts on the species.

If you wish to comment, you may submit your comments and materials concerning this new information by one of the methods listed in the ADDRESSES section.

If you submit information via [http://www.regulations.gov](http://www.regulations.gov), your entire submission—including your personal identifying information—will be posted on the Web site. If your submission is made via a hardcopy that includes personal identifying information, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so. We will post all hardcopy submissions on [http://www.regulations.gov](http://www.regulations.gov).

All comments and materials we receive, as well as supporting documentation used, will be available for public inspection on [http://www.regulations.gov](http://www.regulations.gov), or by appointment during normal business hours at the U.S. Fish and Wildlife Service, Idaho Fish and Wildlife Office (see FOR FURTHER INFORMATION CONTACT).

At this time, we are soliciting new information on the status of *Lepidium papilliferum*. We will base our determination as to whether listing is warranted on a review of the best scientific and commercial information available, including all such information received as a result of this notice.

**Authors**

The primary authors of this notice are staff of the Idaho Fish and Wildlife Office, U.S. Fish and Wildlife Service.

**Authority**

The authority for this action is the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.).

Elizabeth H. Stevens,
Acting Deputy Director, Fish and Wildlife Service.
