The proposed Federal decision to approve and fund grants triggers the need for compliance with the NEPA. After an independent review, we find that the EIS/EIR and the ROD, adequately addresses appropriate alternatives and their environmental effects relative to the activities proposed to be funded by our grant. Based on an independent evaluation, the EIS/EIR would meet Department of Interior (DOI) and Service NEPA procedures and guidelines, and would be appropriate for adoption.

Public Review

We provide this notice under regulations implementing NEPA and invite the public to review the final EIS/EIR during the 30-day public comment period (see DATES). Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Conclusion

Based on the information summarized above, we intend to adopt the NPS’s final EIS/EIR to fully comply with the regulations for implementing NEPA for the proposed Federal grant decision.

After the close of the comment period, we anticipate the preparation and issuance of our Record of Decision to occur in the fall of 2010.

Alexandra Pitts,
Regional Director, Region 8.
