SUPPLEMENTARY INFORMATION:  Background

On August 22, 2011, we published a proposed rule (76 FR 52297) to amend the captive-bred wildlife (CBW) regulations that implement the Act by removing inter-subspecific crossed or generic tiger (Panthera tigris) (i.e., specimens not identified or identifiable as members of the Bengal, Sumatran, Siberian, or Indochinese subspecies (Panthera tigris tigris, P. t. sumatrae, P. t. altaica, and P. t. corbetti, respectively) from paragraph (g)(6) of 50 CFR 17.21. This action would eliminate the exemption from registering and reporting under the CBW regulations by persons who want to conduct otherwise-prohibited activities under the Act with live inter-subspecific crossed or generic tigers born in the United States. Inter-subspecific crossed or generic tigers remain listed as endangered under the Act, and a person would need to qualify for an exemption or obtain an authorization under the remaining statute and regulatory requirements to conduct any prohibited activities.

The comment period was opened for 30 days from August 22, 2011, to September 21, 2011. We have received several requests to extend the comment period in order to give all interested parties an increased opportunity to fully research this issue and provide more substantial comments. Accordingly, we are extending the comment period by 30 days. Our August 22, 2011, proposed rule (79 FR 52297) specifies the information that we seek from the public. If you submitted comments previously, you do not need to resubmit them because we have already incorporated them into the public record and will fully consider them in preparation of the final rule.
