For the 2012–13 migratory bird hunting season, we proposed regulations for 30 tribes and/or Indian groups that followed the 1985 guidelines. Only 26 tribes were considered appropriate for final rulemaking because we did not receive proposals from 4 of the tribes for whom we had proposed regulations. Some of the tribal proposals had both early- and late-season elements. However, as noted earlier, only those with early-season proposals are included in this final rulemaking; 21 tribes have proposals with early seasons. The comment period for the proposed rule, published on August 16, 2012, closed on August 27, 2012. Because of the necessary brief comment period, we will respond to any comments on the proposed rule and/or these regulations postmarked by August 27, but not received prior to final action by us, in the September late-season final rule. At this time, we have received three comments.
Great Lakes Indian Fish and Wildlife Commission’s (GLIFWC) Proposal

We received two comments on GLIFWC’s initial proposal from the State of Wisconsin and the Mississippi Flyway Council (MFC). We also received a subsequent comment from the GLIFWC in response to our August 16 proposed rule.

The State of Wisconsin, Department of Natural Resources (WIDNR) and MFC noted the long history of working cooperatively with GLIFWC and individual tribes in the conservation of Wisconsin’s waterfowl and wetland resources. However, WIDNR and MFC believed the most significant problem with the GLIFWC proposal was the request to allow tribal members to hunt with the use of electronic calls for ducks and geese in the ceded territory. WIDNR and MFC believe that, since the ceded territory covers one-third of the State of Wisconsin, one-half of the State of Michigan, significant areas of Minnesota, and significant areas of public hunting grounds and waters in those States, the use of electronic calls by tribal hunters would put any nontribal hunters in violation of the law when hunting in these areas. Thus, GLIFWC’s proposal would, in effect, close public lands to hunting, increase conflicts among the hunting public, and create a safety concern and an unmanageable law enforcement environment. WIDNR and MFC also opposed the extension of shooting hours to 60 minutes past sunset and removing species restrictions from the daily bag limit because of safety and resource concerns. WIDNR and MFC believe that GLIFWC’s proposal to remove all species restrictions in hunting regulations fails to recognize the different status and regulations of each species and as such is inconsistent with established cooperative management practices. WIDNR and MFC believe that management decisions could not be honored without species-level restrictions. WIDNR and MFC believe that a tribal tundra swan hunting season in the ceded territory should not be implemented in 2012 because additional biological evaluation and harvest planning should be conducted, especially in light of the trumpeter swan issues. WIDNR asks that the same criteria of not implementing duck hunting seasons prior to September 15 because of impacts to breeding ducks in Wisconsin be applied to tribal seasons as well. WIDNR also opposes the tribes being exempt from decoy restrictions. GLIFWC reiterated that their proposal was consistent with their underlying treaty rights and values, and that their proposals were biologically sound and culturally appropriate. More specifically, they proposed allowing the use of electronic calls for geese from September 1 to 21, and for ducks from September 4 to 21 in the 1837 and 1842 Treaty areas. They stated that the proposed revision to their initial proposal would minimize any user conflicts since waterfowl seasons in Michigan, Minnesota, and Wisconsin are closed. They also offered to conduct a post-season harvest survey on the use of and harvest associated with electronic calls.

Regarding expanded shooting hours, GLIFWC proposed to extend shooting hours from 45 minutes before sunrise to 45 minutes after sunset, a reduction of 15 minutes from their initial proposal. They stated that this proposal was consistent with other Service-approved tribal proposals (69 FR 53990; September 3, 2004) and was consistent with recent changes in Wisconsin allowing the harvest of wolves at night. GLIFWC made changes to the swan hunting proposal. They requested the establishment of an experimental season in Ashland, Bayfield, Forest, and Oneida Counties in Wisconsin with a 2-day daily bag limit, mandatory registration, and carcass verification. Lastly, GLIFWC proposed to correct an oversight in the initial season proposal pertaining to mergansers and woodcock seasons. They amended the proposed season opening dates in the 1836 Treaty area for both species from September 4, rather than September 15.

Service Response: The GLIFWC 2012 proposal, and subsequent proposed revisions, had several significant changes from regulations approved last season. In the 1837 and 1842 Treaty Areas, the GLIFWC proposal would allow the use of electronic calls in September; would extend shooting hours by 15 minutes in both the morning and the evening to 45 minutes before sunrise and 45 minutes after sunset; would increase the daily bag limits to 50 ducks and remove all species restrictions within the daily bag limit for ducks; would allow the first harvest of sandhill cranes and tundra swans; would open the season (other than for geese) on September 4; and would remove restrictions for decoy use in Wisconsin. In the 1836 Treaty Area, the GLIFWC proposal would remove all species restrictions within the daily bag limit for ducks.

GLIFWC states that the regulatory changes are intended to provide tribal members a harvest opportunity within the scope of their various treaties and increase tribal subsistence harvest opportunities, while protecting migratory bird populations. Under the GLIFWC proposed regulations, GLIFWC expects total ceded territory harvest to be approximately 1,575 ducks, 300 geese, 50 sandhill cranes, and 50 tundra swans, which is roughly similar to anticipated levels in previous years for those species for which seasons were established. GLIFWC further anticipates that tribal harvest will remain low given the small number of tribal hunters and the limited opportunity to harvest more than a small number of birds on most hunting trips.

Recent GLIFWC harvest surveys (1996–98, 2001, 2004, 2007–08, and preliminary 2011) indicate that tribal off-reservation waterfowl harvest has averaged less than 1,050 ducks and 200 geese annually. In the latest survey year for which we have specific results (2004), an estimated 53 hunters took an estimated 421 trips and harvested 645 ducks (1.5 ducks per trip) and 84 geese (0.2 geese per trip). Analysis of hunter survey data over 1996–2004 indicates a general downward trend in both harvest and hunter participation.

Many of the components of the GLIFWC proposal are acceptable to the Service and are adopted in this rule. However, a number of the components are not in the best interest of the conservation of migratory birds. More specific discussion follows below.

Allowing Electronic Calls

As we stated last year (76 FR 54676, September 1, 2011), the issue of allowing electronic calls and other electronic devices for migratory game bird hunting has been highly debated and highly controversial over the last 40 years, similar to other prohibited hunting methods such as baiting. Electronic calls, i.e., the use or aid of recorded or electronic amplified bird calls or sounds, or recorded or electrically amplified imitations of bird calls or sounds to lure or attract migratory game birds to hunters, was Federally prohibited in 1957 because of its effectiveness in attracting and aiding the harvest of ducks and geese and is generally not considered a legitimate component of hunting. In 1999, after much debate, the migratory bird regulations were revised to allow the use of electronic calls for the take of light geese (lesser snow and Ross geese) during a light-geese-only season when all other waterfowl and crane hunting seasons, excluding falconry, were closed (64 FR 7507, February 16, 1999; 64 FR 71236, December 20, 1999; and 73 FR 65926, November 5, 2008). The regulations were subsequently changed also in 2006 to allow the use
of electronic calls for the take of resident Canada goose during Canada-goose-only September seasons when all other waterfowl and crane seasons, excluding falconry, were closed (71 FR 45964, August 10, 2006). In both instances, these changes were made in order to significantly increase the take of these species for population management due to either serious population overabundance, or depredation issues, or public health and safety issues, or both.

Available information from the use of additional hunting methods, such as electronic calls, during the special light-goose seasons indicate that total harvest increased approximately 50–69 percent. On specific days when light-goose special regulations were in effect, the mean light goose harvest increased 244 percent. One research study found that lesser snow goose flocks were 5.0 times more likely to fly within gun range (550 meters) in response to electronic calls than to traditional calls and the mean number of snow goose killed per hour per hunter averaged 9.1 times greater for electronic calls than for traditional calls. While these results are only directly applicable to light geese, we believe these results are applicable to most waterfowl species, and indicative of some likely adverse harvest impacts on other geese and ducks.

Removal of the electronic call prohibition would be inconsistent with our long-standing conservation concerns. Given available evidence on the effectiveness of electronic calls, and the lack of uncertainty surrounding any widespread use of electronic calls, we believe the potential for overharvest could contribute to long-term population declines. Further, migratory patterns, distribution, and localized abundance of migratory birds could be affected and it is possible that hunter participation could increase beyond GLIFWC’s estimates (50 percent) and could result in additional conservation impacts, particularly on local breeding populations. Thus, we do not support allowing the use of electronic calls in the 1837 and 1842 Treaty Areas.

Additionally, given the fact that tribal waterfowl hunting covered by this proposal would occur on ceded lands that are not in the ownership of the Tribes, we believe the use of electronic calls to take waterfowl would lead to confusion on the part of the public, wildlife-management agencies, and law enforcement officials in implementing the requirements of 50 CFR part 20.

Restricting use to September 4–21 does not alleviate these concerns. Similar to the impacts of baiting, uncertainties concerning the zone of influence attributed to the use of electronic calls could potentially increase harvest from nontribal hunters operating within areas electronic calls are being used, or were used, thereby posing risks to the migratory patterns and distribution of migratory waterfowl.

Lastly, we remind GLIFWC that electronic calls are permitted for the take of resident Canada goose during Canada-goose-only September seasons when all other waterfowl and crane seasons are closed. In the case of GLIFWC’s proposed seasons, electronic calls could only be used September 1–3 for resident Canada goose (as GLIFWC’s duck and crane season begins September 4, as they proposed). This specific regulatory change was implemented in 2006 in order to significantly control resident Canada goose due to widespread population overabundance, depredation issues, and public health and safety issues.

Expanded Shooting Hours

Normally, shooting hours for migratory game birds are one-half hour before sunrise to sunset. A number of reasons and concerns have been cited for extending shooting hours past sunset. Potential impacts to some locally breeding populations (e.g., wood ducks), hunter safety, difficulty of identifying birds, retrieval of downed birds, and impacts on law enforcement are some of the normal concerns raised when discussing potential expansions of shooting hours. However, despite these concerns, in 2007, we supported the expansion of shooting hours by 15 minutes after sunset in the 1837, 1842, and 1836 Treaty Areas (72 FR 58452, October 15, 2007). We had previously supported this expansion in other tribal areas and have not been made aware of any wide-scale problems. At that time, we further believed that the continuation of a specific species restriction within the daily bag limit for mallards, and the implementation of a species restriction within the daily bag limit for wood ducks, would allay potential conservation concerns for these species. We supported the increase with the understanding that we would need to closely monitor tribal harvest through either GLIFWC’s own harvested surveys or GLIFWC’s assisting the Service to survey tribal hunters.

Last year, in deference to tribal traditions and in the interest of cooperation, we approved shooting 30 minutes after sunset (an extension of 15 minutes after sunset) (76 FR 54676, September 1, 2011). This was consistent with other Tribes in the general area (Fond du Lac, Leech Lake, Oneida, Sault Ste Marie, and White Earth). Extending shooting hours on both the front end and the back end of the day to 45 minutes before sunrise and 45 minutes after sunset as GLIWFC has proposed would be contrary to public safety and only heightens our previously identified concerns. It is widely considered dark 45 minutes after sunset (and 45 minutes before sunrise), and we see no viable remedies to allay our concerns.

Shooting this early or late would also significantly increase the potential take of non-game birds. Thus, we cannot support increasing the shooting hours by 15 minutes in the 1837 and 1842 Treaty Areas (to 45 minutes before sunrise and 45 minutes after sunset).

Regarding GLIFWC’s comments concerning our consistency with other previous tribal proposals and recent changes in Wisconsin wolf hunting regulation, we note that the referenced approval of shooting hours 45 minutes after sunset was for on-reservation hunting only at Sokaogon Chippewa Community in Cranston, Wisconsin. Ceded lands were not part of the Sokaogon’s proposal or our approval. Lastly, we view the State of Wisconsin’s allowance for the hunting of wolves at night as a State prerogative and not germane to the hunting of migratory birds (to improve public safety, the Wisconsin Department of Natural Resources has imposed additional restrictions for night wolf hunting to include: (1) Using bait or predator call, which the Service prohibits for waterfowl; and (2) from a stationary position). We also note that 29.185(6)(d) (published April 16, 2012) limits wolf night hunting until after the close of the deer season for safety concerns. This new State allowance does not alleviate our previously identified concerns.

Increasing the Overall Daily Bag Limit for Ducks

Based on the proposed increased daily bag limits (from 30 to 50 ducks per day in the 1837 and 1842 Treaty Areas), GLIFWC is estimating a relatively small additional duck harvest (1,050 to 1,575 ducks). While it is possible that hunter participation and harvest could increase beyond their estimates (50 percent), we do not anticipate such an increase given their relatively small average daily harvest (2.2 ducks per day) and the GLIFWC proposals we are adopting. Further, GLIFWC reports that the largest number of ducks reportedly harvested in a single day was 20. Thus, we do not anticipate any large-scale harvest shifts or significant biological conservation impacts with GLIFWC’s proposal.
However, we also note that GLIFWC’s own dated harvest data indicates that present daily bag limits do not appear to be a hindrance or limiting factor for Tribal harvest, and increasing the daily bag limit to 50 ducks from the present 30-duck daily bag limit would be far in excess of anything we currently have experience with regarding tribal migratory bird hunting regulations. We further note that in 2007, in an effort to obtain the necessary information, we implemented a pilot expansion of the daily bag limit for ducks to 30 birds per day in the 1837 and 1842 Treaty Areas. We supported this change with the understanding that we would need to closely monitor tribal harvest through either GLIFWC’s own increased harvest surveys or GLIFWC’s assisting the Service to survey tribal hunters. We have reiterated our request over the past several years for GLIFWC to continue their current harvest survey based on our implementation of this pilot bag limit increase for ducks in the 1837 and 1842 Treaty Areas in 2007, particularly for species such as mallards, the bag limits for which were subsequently significantly increased in 2008 (from 10 to 30 per day). To date, we have not been presented with any new final reports since the 2008 harvest survey results.

Remove Restrictions on Decoy Use in Wisconsin

In Wisconsin, State law requires that decoys may not be placed more than an hour before legal shooting hours or left out more than 20 minutes after legal shooting hours. As we stated last year concerning a similar decoy restriction in Michigan (76 FR 54676, September 1, 2011), while we believe that there may be safety concerns with elimination of such a restriction, we take no position on the relative need or lack of need for such a restriction. Other than regulations on National Wildlife Refuges and other Federal lands, there are no Federal restrictions requiring the removal of unattended decoys.

Additionally, given the fact that tribal waterfowl hunting covered by this rule would occur on ceded lands that are not in the ownership of the Tribes, we believe the use of unattended decoys to “reserve” hunting areas in public waters (i.e., those lands in the ceded territories outside of lands directly controlled by the Tribes) could lead to confusion and frustration on the part of the public, hunters, wildlife-management agencies, and law enforcement officials due to the inherent difficulties of different sets of hunting regulations for different areas and groups of hunters. However, we view this issue as a Tribal-State issue, and the Service takes no position on it in this rule.

Removal of Species Restrictions for Ducks

We have several concerns with GLIFWC’s proposal to remove all species restrictions within the overall duck daily bag limits in the 1837 and 1842 Treaty Areas. We have a number of duck species that are either showing long-term downward population trends (pintails and black ducks), or other species for which an increased daily bag limit of 50 birds per day could potentially have conservation impacts (scaup, canvasbacks), particularly on locally breeding ducks (mallards and wood ducks). Overharvest of these species in localized areas due to removal of species restrictions could contribute to long-term declines. However, while we believe the proposal to eliminate all species restrictions within the daily bag limit for ducks could potentially have resource conservation implications for locally breeding duck populations, and would prefer not to implement such a change at this time, we are willing to remove the restrictions for tribal harvest in the 1836, 1837, and 1842 ceded areas. As we stated last year regarding the removal of possession limits (76 FR 54676, September 1, 2011), we make this change with some trepidation. However, we see no significant conservation implications given the relatively small numbers of tribal hunters, and in the interest of our long-term relationship with GLIWFC and the understanding that if significant conservation impacts are discovered, we would adjust the duck season opening date accordingly.

Sandhill Crane Season

We have no objections to the establishment of a sandhill crane season in the 1837 and 1842 Treaty Areas. We note that at least one other Tribe currently has a sandhill crane season (see (c) Fond du Lac Band of Lake Superior Chippewa in Minnesota elsewhere in this rule) and another proposed establishing a new season this year (see (d) Grand Traverse Band of Ottawa and Chippewa in Michigan elsewhere in this rule). All cranes in these current and new hunt areas are Eastern Population (EP) sandhill cranes. EP sandhill cranes rebounded from near extinction in the late 1800s to more than 30,000 cranes by 1996. As of last year, the current 3-year average population index for EP cranes was 51,217 cranes. As a result of this rebound and their continued range expansion, the Atlantic and Mississippi Flyway Councils developed a cooperative management plan for this population, and criteria were developed describing when hunting seasons could be opened. The State of Kentucky held its first hunting season on this population in 2011–12 and harvested 50 cranes. Further, allowance for Tribal harvest is specifically considered in the EP plan.

GLIFWC estimates that no more than 50 cranes will be harvested during the season. We note that two cranes were harvested last year in the inaugural Fond du Lac sandhill crane season. We support the establishment of GLIFWC’s new sandhill crane season. However, given the need to closely monitor the harvest of this species, we requested that GLIFWC implement either a special crane harvest tag reporting system/survey to track crane harvest, similar to that implemented by
Fond du Lac last year, and requested of Grand Traverse this year (see (d) Grand Traverse Band of Ottawa and Chippewa Indians in Michigan elsewhere in this rule).

**Tundra Swan Season**

As we stated with sandhill cranes, we are not opposed to the establishment of a tundra swan season in Wisconsin. However, unlike the sandhill crane issue, the establishment of a new tundra swan season in the ceded territory areas in question involves several significant concerns and special considerations. We believe these concerns need further study and consideration before any implementation of a new tundra swan season in the ceded territories.

First, the GLIFWC proposed areas in question are also home to trumpeter swans. Many cooperators, including GLIFWC, worked together to reestablish a breeding trumpeter swan population in the Great Lakes. These efforts have been largely successful with the removal of this species from the Wisconsin endangered species list in 2009. After a 25-year recovery program, there are currently about 200 breeding pairs in Wisconsin. However, it is very difficult to distinguish between tundra and trumpeter swans unless swans vocalize in flight. We have significant concerns over the accidental harvest of trumpeter swans by tribal hunters hunting during a tundra swan season. Further, within Wisconsin, the northern ceded territory is an area of high trumpeter swan use containing over 80 percent of the breeding pairs. We believe such areas should be avoided either temporally or geographically to the extent possible. When a hunting season on tundra swans is ultimately implemented, we believe it would be best to focus hunting efforts on the primary tundra swan migration concentration areas while avoiding areas of significant trumpeter swan numbers. Unfortunately, most such areas are located outside of the ceded territories of northern Wisconsin. In addition to the concerns about potential impacts to trumpeter swans, we believe it is imperative that any tribal tundra swan hunting proposal follow the Eastern Population of tundra swans management plan including a quota permit system and harvest reporting. The EP tundra swan management plan was cooperatively developed by the Atlantic, Central, and Mississippi Flyway Councils in 2007 and guides the management and harvest of EP tundra swans.

While we appreciate GLIFWC’s proper revisions to their initial tundra swan season proposal (area restrictions, mandatory registration, and carcass verification), we continue to believe that a tribal tundra swan hunting season in the ceded territory should not be implemented this year. Given that all these concerns can be worked through over the next year, we do not believe that implementation of a tundra swan season next season is unrealistic. We note that both the Service and the State wildlife agencies have considerable trumpeter swan information that would be helpful in conducting additional biological evaluation and harvest planning and are available to work with GLIFWC on resolution of these issues. We would prefer that all these issues be carefully considered and resolved by all involved parties to ensure that whatever action permitted for tundra swans in the future is not detrimental to trumpeter swans. We encourage GLIFWC to contact the Service early next year to cooperatively work through the issues involved with implementing a tundra swan season in the ceded territories.

**Correction to Merganser and Woodcock Seasons**

As we stated regarding the earlier duck season opening date, while we would prefer that GLIFWC not implement such a change at this time, we see no significant conservation implications given the relatively small numbers of tribal hunters and are willing to allow GLIFWC to begin both the merganser and woodcock seasons on September 4 in the 1836 Treaty ceded areas. We are implementing this change in the interest of our long-term relationship with GLIFWC and the understanding that if significant conservation impacts are discovered, we would adjust the season opening dates accordingly.

**NEPA Consideration**

NEPA considerations are covered by the programmatic document “Final Supplemental Environmental Impact Statement: Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FSES 88–14),” filed with the Environmental Protection Agency on June 9, 1988. We published a notice of availability in the Federal Register on June 16, 1988 (53 FR 22582). We published our Record of Decision on August 18, 1988 (53 FR 31341). In addition, an August 1985 environmental assessment entitled “Guidelines for Migratory Bird Hunting Regulations on Federal Indian Reservations and Ceded Lands” is available from the address indicated under the caption FOR FURTHER INFORMATION CONTACT.

In a notice published in the September 8, 2005, Federal Register (70 FR 53376), we announced our intent to develop a new Supplemental Environmental Impact Statement (SEIS) for the migratory bird hunting program. Public scoping meetings were held in the spring of 2006, as detailed in a March 9, 2006, Federal Register (71 FR 12216). We released the draft SEIS on July 9, 2010 (75 FR 39577). The draft SEIS is available either by writing to the address indicated under FOR FURTHER INFORMATION CONTACT or by viewing our Web site at http://www.fws.gov/migratorybirds.

**Endangered Species Act Consideration**

Section 7 of the Endangered Species Act, as amended (16 U.S.C. 1531–1543; 87 Stat. 884), provides that, “The Secretary shall review other programs administered by him and utilize such programs in furtherance of the purposes of this Act” (and) shall “insure that any action authorized, funded, or carried out * * * is not likely to jeopardize the continued existence of any endangered species or threatened species or result in the destruction or adverse modification of [critical] habitat. * * *”

Consequently, we conducted formal consultations to ensure that actions resulting from these regulations would not likely jeopardize the continued existence of endangered or threatened species or result in the destruction or adverse modification of their critical habitat. Findings from these consultations are included in a biological opinion, which concluded that the regulations are not likely to jeopardize the continued existence of any endangered or threatened species. Additionally, these findings may have caused modification of some regulatory measures previously proposed, and the final frameworks reflect any such modifications. Our biological opinions resulting from this section 7 consultation are public documents available for public inspection at the address indicated under ADDRESSES.

**Regulatory Planning and Review**

Executive Order 12866 provides that the Office of Management and Budget’s (OMB) Office of Information and Regulatory Affairs (OIRA) will review all significant rules. OIRA has determined that this rule is significant because it will have an annual effect of $100 million or more on the economy. Executive Order 13563 reaffirms the principles of E.O. 12866 while calling for improvements in the Nation’s regulatory system to promote predictability, to reduce uncertainty,
and to use the best, most innovative, and least burdensome tools for achieving regulatory ends. The executive order directs agencies to consider regulatory approaches that reduce burdens and maintain flexibility and freedom of choice for the public where these approaches are relevant, feasible, and consistent with regulatory objectives. E.O. 13563 emphasizes further that regulations must be based on the best available science and that the rulemaking process must allow for public participation and an open exchange of ideas. We have developed this rule in a manner consistent with these requirements.

An economic analysis was prepared for the 2008–09 season. This analysis was based on data from the 2006 National Hunting and Fishing Survey, the most recent year for which data are available (see discussion in Regulatory Flexibility Act section below). This analysis estimated consumer surplus for three alternatives for duck hunting (estimates for other species are not quantified due to lack of data). The alternatives are (1) Issue restrictive regulations allowing fewer days than those issued during the 2007–08 season, (2) Issue moderate regulations allowing more days than those in alternative 1, and (3) Issue liberal regulations identical to the regulations in the 2007–08 season. For the 2008–09 season, we chose alternative 3, with an estimated consumer surplus across all flyways of $205–$270 million. We also chose alternative 3 for the 2009–10 and the 2010–11 seasons. At this time, we are proposing no changes to the season frameworks for the 2012–13 season, and as such, we will again consider these three alternatives. However, final frameworks for waterfowl will be dependent on population status information available later this year. For these reasons, we have not conducted a new economic analysis, but the 2008–09 analysis is part of the record for this rule and is available at http://www.fws.gov/migratorybirds/NewReports/Publications/SpecialTopics/SpecialTopics.htm#HuntingRegs or at http://www.regulations.gov at Docket No. FWS–R9–MB–2012–0005.

Regulatory Flexibility Act

The annual migratory bird hunting regulations have a significant economic impact on substantial numbers of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). We analyzed the economic impacts of the annual hunting regulations on small business entities in detail as part of the 1981 cost-benefit analysis. This analysis was revised annually from 1990–95. In 1995, the Service issued a Small Entity Flexibility Analysis (Analysis), which was subsequently updated in 1996, 1998, 2004, and 2008. The primary source of information about hunter expenditures for migratory game bird hunting is the National Hunting and Fishing Survey, which is conducted at 5-year intervals. The 2008 Analysis was based on the 2006 National Hunting and Fishing Survey and the U.S. Department of Commerce’s County Business Patterns, from which it was estimated that migratory bird hunters would spend approximately $1.2 billion at small businesses in 2008. Copies of the Analysis are available upon request from the Division of Migratory Bird Management (see ADDRESSES) or from our Web site at http://www.fws.gov/migratorybirds/NewReports/Publications/SpecialTopics/SpecialTopics.htm#HuntingRegs or at http://www.regulations.gov at Docket No. FWS–R9–MB–2012–0005.

Small Business Regulatory Enforcement Fairness Act

This rule is a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. For the reasons outlined above, this rule will have an annual effect on the economy of $100 million or more. However, because this rule establishes hunting seasons, we are not deferring the effective date under the exemption contained in 5 U.S.C. 808(1).

Paperwork Reduction Act

We examined these regulations under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). The various recordkeeping and reporting requirements imposed under regulations established in 50 CFR part 20, subpart K, are utilized in the formulation of migratory game bird hunting regulations. Specifically, OMB has approved the information collection requirements of our Migratory Bird Surveys and assigned control number 1018–0023 (expires 4/30/2014). This information is used to provide a sampling of our national surveys to improve our harvest estimates for all migratory game birds in order to better manage these populations. A Federal agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Unfunded Mandates Reform Act

We have determined and certify, in compliance with the requirements of the Unfunded Mandates Reform Act, 2 U.S.C. 1502 et seq., that this rulemaking will not impose a cost of $100 million or more in any given year on local or State government or private entities. Therefore, this rule is not a “significant regulatory action” under the Unfunded Mandates Reform Act.

Civil Justice Reform—Executive Order 12988

The Department, in promulgating this rule, has determined that this rule will not unduly burden the judicial system and that it meets the requirements of sections 3(a) and 3(b)(2) of Executive Order 12988.

Takings Implication Assessment

In accordance with Executive Order 12630, this rule, authorized by the Migratory Bird Treaty Act, does not have significant takings implications and does not affect any constitutionally protected property rights. This rule will not result in the physical occupancy of property, the physical invasion of property, or the regulatory taking of any property. In fact, this rule allows hunters to exercise otherwise unavailable privileges and, therefore, reduce restrictions on the use of private and public property.

Energy Effects—Executive Order 13211

Executive Order 13211 requires agencies to prepare Statements of Energy Effects when undertaking certain actions. While this rule is a significant regulatory action under Executive Order 12866, it is not expected to adversely affect energy supplies, distribution, or use. Therefore, this action is not a significant energy action and no Statement of Energy Effects is required.

Government-to-Government Relationship With Tribes

In accordance with the President’s memorandum of April 29, 1994, “Government-to-Government Relations with Native American Tribal Governments” (59 FR 22951), Executive Order 13175, and 512 DM 2, we have evaluated possible effects on Federally-recognized Indian tribes and have determined that there are no effects on Indian trust resources. However, in the April 17 Federal Register, we solicited proposals for special migratory bird hunting regulations for certain Tribes on Federal Indian reservations, off-reservation trust lands, and ceded lands for the 2012–13 migratory bird hunting season. The resulting proposals were contained in a separate August 16, 2012, proposed rule (77 FR 49680). By virtue of these actions, we have consulted with Tribes affected by this rule.
Federalism Effects

Due to the migratory nature of certain species of birds, the Federal Government has been given responsibility over these species by the Migratory Bird Treaty Act. We annually prescribe frameworks from which the States make selections regarding the hunting of migratory birds, and we employ guidelines to establish special regulations on Federal Indian reservations and ceded lands. This process preserves the ability of the States and tribes to determine which seasons meet their individual needs. Any State or Indian tribe may be more restrictive than the Federal frameworks at any time. The frameworks are developed in a cooperative process with the States and the Flyway Councils. This process allows States to participate in the development of frameworks from which they will make selections, thereby having an influence on their own regulations. These rules do not have a substantial direct effect on fiscal capacity, change the roles or responsibilities of Federal or State governments, or intrude on State policy or administration. Therefore, in accordance with Executive Order 13132, these regulations do not have significant federalism effects and do not have sufficient federalism implications to warrant the preparation of a federalism summary impact statement.

Regulations Promulgation

The rulemaking process for migratory game bird hunting must, by its nature, operate under severe time constraints. However, we intend that the public be given the greatest possible opportunity to comment. Thus, when the preliminary proposed rulemaking was published, we established what we believed were the longest periods possible for public comment. In doing this, we recognized that when the comment period closed, time would be of the essence. That is, if there were a delay in the effective date of these regulations after this final rulemaking, States and Tribes would have insufficient time to select season dates and limits; to communicate those selections to us; and to establish and publicize the necessary regulations and procedures to implement their decisions. We therefore find that “good cause” exists, within the terms of 5 U.S.C. 553(d)(3) of the Administrative Procedure Act, and these seasons will, therefore, take effect less than 30 days after the date of publication. Accordingly, with each participating Tribe having had an opportunity to participate in selecting the hunting seasons desired for its reservation or ceded territory on those species of migratory birds for which open seasons are now prescribed, and consideration having been given to all other relevant matters presented, certain sections of title 50, chapter I, subchapter B, part 20, subpart K, are hereby amended as set forth below.

List of Subjects in 50 CFR Part 20

Exports, Hunting, Imports, Reporting and recordkeeping requirements, Transportation, Wildlife.

Accordingly, part 20, subchapter B, chapter I of title 50 of the Code of Federal Regulations is amended as follows:

PART 20—[AMENDED]

1. The authority citation for part 20 continues to read as follows:

Note: The following hunting regulations provided for by 50 CFR 20.110 will not appear in the Code of Federal Regulations because of their seasonal nature.

2. Section 20.110 is revised to read as follows:

§20.110 Seasons, limits, and other regulations for certain Federal Indian reservations, Indian Territory, and ceded lands.

Unless specifically provided for below, all of the regulations contained in 50 CFR part 20 apply to the seasons listed herein.

(a) Colorado River Indian Tribes, Parker, Arizona (Tribal Members and Nontribal Hunters).

Doves
Season Dates: Open September 1 through 15, 2012; then open November 10 through December 24, 2012. Daily Bag and Possession Limits: For the early season, daily bag limit is 10 mourning or white-winged doves, singly, or in the aggregate. For the late season, the daily bag limit is 10 mourning doves. Possession limits are twice the daily bag limits after the first day of the season. General Conditions: All persons 14 years and older must be in possession of a valid Colorado River Indian Reservation hunting permit before taking any wildlife on tribal lands. Any person transporting game birds off the Colorado River Indian Reservation must have a valid transport declaration form. Other tribal regulations apply, and may be obtained at the Fish and Game Office in Parker, Arizona. The early season will be open from one-half hour before sunrise until noon. For the late season, shooting hours are from one-half hour before sunrise to sunset.

(b) Confederated Salish and Kootenai Tribes, Flathead Indian Reservation, Pablo, Montana (Tribal Hunters).

Tribal Members Only
Ducks (Including Mergansers)
Season Dates: Open September 2, 2012, through March 9, 2013. Daily Bag and Possession Limits: The Tribe does not have specific bag and possession restrictions for Tribal members. The season on harlequin duck is closed.

Coots
Season Dates: Same as ducks. Daily Bag and Possession Limits: Same as ducks.

Geese
Season Dates: Same as ducks. Daily Bag and Possession Limits: Same as ducks.

General Conditions: Tribal and nontribal hunters must comply with all basic Federal migratory bird hunting regulations contained in 50 CFR part 20 regarding manner of taking. In addition, shooting hours are sunrise to sunset, and each waterfowl hunter 16 years of age or older must carry on his/her person a valid Migratory Bird Hunting and Conservation Stamp (Duck Stamp) signed in ink across the stamp face. Special regulations established by the Confederated Salish and Kootenai Tribes also apply on the reservation.

(c) Fond du Lac Band of Lake Superior Chippewa Indians, Cloquet, Minnesota (Tribal Members Only).

Ducks
Season Dates: Begin September 15 through 18, 2012. Daily Bag Limit: 18 ducks, including no more than 9 mallards (only 2 of which may be hens), 9 black ducks, 9 scaup, 9 wood ducks, 9 redheads, 9 pintails, and 9 canvasbacks. Reservation: Season Dates: Begin September 1 and end November 25, 2012. Daily Bag Limit: 12 ducks, including no more than 9 mallards (only 2 of which may be hens), 6 black ducks, 6 scaup, 6 redheads, 6 pintails, 6 wood ducks, and 6 canvasbacks.

Mergansers
Season Dates: 1854 and 1837 Ceded Territories: Season Dates: Begin September 15 and end November 25, 2012. Daily Bag Limit: 18 ducks, including no more than 9 mallards (only 2 of which may be hens), 6 black ducks, 6 scaup, 6 redheads, 6 pintails, 6 wood ducks, and 6 canvasbacks.

1854 and 1837 Ceded Territories: Season Dates: Begin September 15 and end November 25, 2012. Daily Bag Limit: 12 ducks, including no more than 9 mallards (only 2 of which may be hens), 6 black ducks, 6 scaup, 6 redheads, 6 pintails, 6 wood ducks, and 6 canvasbacks.
Daily Bag Limit: 15 mergansers, including no more than 6 hooded mergansers.

Reservation:
Season Dates: Begin September 1 and end November 25, 2012.
Daily Bag Limit: 10 mergansers, including no more than 4 hooded mergansers.

Canada Geese: All Areas
Season Dates: Begin September 1 and end November 25, 2012.
Daily Bag Limit: 20 geese.

Coots and Common Moorhens (Common Gallinules)
1854 and 1837 Ceded Territories:
Daily Bag Limit: 20 coots and common moorhens, singly or in the aggregate.

Season Dates: Begin September 1 and end November 25, 2012.
Daily Bag Limit: 20 coots and common moorhens, singly or in the aggregate.

Sandhill Cranes: 1854 Ceded Territory only:
Season Dates: Begin September 1 and end November 25, 2012.
Daily Bag Limit: Two sandhill cranes. Crane carcass tags are required prior to hunting.

Sora and Virginia Rails: All Areas.
Season Dates: Begin September 1 and end November 25, 2012.
Daily Bag Limit: 25 sora and Virginia rails, singly or in the aggregate.

Common Snipe: All Areas.
Season Dates: Begin September 1 and end November 25, 2012.
Daily Bag Limit: Eight common snipe.

Woodcock: All Areas.
Season Dates: Begin September 1 and end November 25, 2012.
Daily Bag Limit: Three woodcock.

Mourning Dove: All Areas.
Season Dates: Begin September 1 and end October 30, 2012.
Daily Bag Limit: 30 mourning dove.

General Conditions:
1. While hunting waterfowl, a tribal member must carry on his/her person a valid tribal waterfowl hunting permit.
2. Except as otherwise noted, tribal members will be required to comply with tribal codes that will be no less restrictive than the provisions of Chapter 10 of the Model Off-Reservation Code. These regulations parallel Federal requirements in 50 CFR part 20 as to hunting methods, transportation, sale, exportation, and other conditions generally applicable to migratory bird hunting.
3. Band members in each zone will comply with State regulations providing for closed and restricted waterfowl hunting areas.
4. There are no possession limits on any species, unless otherwise noted above. For purposes of enforcing bag and possession limits, all migratory birds in the possession or custody of band members on ceded lands will be considered to have been taken on those lands unless tagged by a tribal or State conservation warden as having been taken on-reservation. All migratory birds that fall on reservation lands will not count as part of any off-reservation bag or possession limit.

(d) Grand Traverse Band of Ottawa and Chippewa Indians, Suttons Bay, Michigan (Tribal Members Only).
All seasons in Michigan, 1836 Treaty Zone:
Ducks
Daily Bag Limit: 20 ducks, which may include no more than 5 pintail, 3 canvasback, 5 black ducks, 1 hooded merganser, 5 wood ducks, 3 redheads, and 9 mallards (only 4 of which may be hens).

Canada and Snow Geese
Season Dates: Open September 1 through November 30, 2012; and open January 1, 2013, through February 8, 2013.
Daily Bag Limit: 10 geese.

Other Geese (White-fronted Geese and Brant)
Season Dates: Open September 15 and end December 31, 2012. In addition, any portion of the ceded territory that is open to State-licensed hunters for goose hunting after December 1 will also be open concurrently for tribal members.
Daily Bag Limit: 20 geese in aggregate.

Other Migratory Birds
Coots and Common Moorhens (Common Gallinules):
Season Dates: 1836 Treaty Area
Season Dates: Begin September 15 and end December 31, 2012.
1837 and 1842 Treaty Area Season Dates: Begin September 4 and end December 31, 2012.
Daily Bag Limit: 20 coots and common moorhens (common gallinules), singly or in the aggregate.

Sora and Virginia Rails
Season Dates: 1836 Treaty Area
Season Dates: Begin September 15 and end December 31, 2012.
1837 and 1842 Treaty Area Season Dates: Begin September 4 and end December 31, 2012.
Daily Bag Limit: 20 sora and Virginia rails, singly or in the aggregate.

Common Snipe
Season Dates: 1836 Treaty Area
Season Dates: Begin September 15 and end December 31, 2012.
1837 and 1842 Treaty Area Season Dates: Begin September 4 and end December 31, 2012.
Daily Bag Limit: 10 rails, 10 snipe, and 5 woodcock.

Mourning Doves
Season Dates: Open September 1 through November 14, 2012.
Daily Bag Limit: 10 rails, 10 snipe, and 5 woodcock.

Sandhill Cranes
Season Dates: Open September 1 through November 30, 2012.
Daily Bag Limit: One sandhill crane. General Conditions: A valid Grand Traverse Band Tribal license is required and must be in possession before taking any wildlife. All other basic regulations contained in 50 CFR part 20 are valid. Other tribal regulations apply, and may be obtained at the tribal office in Suttons Bay, Michigan.

(e) Great Lakes Indian Fish and Wildlife Commission, Odanah, Wisconsin (Tribal Members Only).
The 2012–13 waterfowl hunting season regulations apply to all treaty areas (except where noted):

Ducks
Season Dates: Begin September 4 and end December 31, 2012.
Daily Bag Limit: 1837 and 1842 Ceded Territories: 50 ducks.
1836 Ceded Territory: 30 ducks.

Mergansers
Season Dates: Begin September 4 and end December 31, 2012.
Daily Bag Limit: 10 mergansers.

Geese
Season Dates: Begin September 1 and end December 31, 2012. In addition, any portion of the ceded territory that is open to State-licensed hunters for goose hunting after December 1 will also be open concurrently for tribal members.
Daily Bag Limit: 20 geese in aggregate.

Other General Conditions:
Season Dates: Open September 1 through November 30, 2012.
Daily Bag Limit: 10 woodcock.

Sandhill Cranes
Season Dates: 1821 Ceded Territory:
Season Dates: Open September 1 through November 30, 2012.
Daily Bag Limit: 1836 Ceded Territory:
Season Dates: Open September 4 and end December 31, 2012.

Common Snipe
Season Dates: 1836 Treaty Area
Season Dates: Begin September 15 and end December 31, 2012.
1837 and 1842 Treaty Area Season Dates: Begin September 4 and end December 31, 2012.
Daily Bag Limit: 10 rails, 10 snipe, and 5 woodcock.

Mourning Doves
Season Dates: 1836 Treaty Area
Season Dates: Begin September 15 and end December 31, 2012.
1837 and 1842 Treaty Area Season Dates: Begin September 4 and end December 31, 2012.
Daily Bag Limit: 10 woodcock.

Woodcock
Season Dates: 1836 Treaty Area
Season Dates: Begin September 15 and end December 31, 2012.
1837 and 1842 Treaty Area Season Dates: Begin September 4 and end December 31, 2012.
Daily Bag Limit: 16 common snipe.

Woodcock
Season Dates: Begin September 1 and end November 9, 2012.
Sandhill Cranes: 1837 and 1842 Ceded Territories only.

Season Dates: Begin September 4 and end December 31, 2012.
Daily Bag Limit: 1 crane.

General Conditions

A. All tribal members will be required to obtain a valid tribal waterfowl hunting permit.
B. Except as otherwise noted, tribal members will be required to comply with tribal codes that will be no less restrictive than the model ceded territory conservation codes approved by Federal courts in the Lac Courte Oreilles v. State of Wisconsin (Voigt), Mille Lacs Band v. State of Minnesota, and United States v. Michigan cases.

Chapter 10 in each of these model codes regulates ceded territory migratory bird hunting. Both versions of Chapter 10 parallel Federal requirements as to hunting methods, transportation, sale, exportation, and other conditions generally applicable to migratory bird hunting. They also automatically incorporate by reference the Federal migratory bird regulations adopted in response to this regulation.

C. Particular regulations of note include:

1. Nontoxic shot will be required for all waterfowl hunting by tribal members.
2. Tribal members in each zone will comply with tribal regulations providing for closed and restricted waterfowl hunting areas. These regulations generally incorporate the same restrictions contained in parallel State regulations.
3. There is no possession limit. For purposes of enforcing bag limits, all migratory birds in the possession and custody of tribal members on ceded lands will be considered to have been taken on those lands unless tagged by a tribal or State conservation warden as taken on reservation lands. All migratory birds that fall on reservation lands will not count as part of any off-reservation bag or possession limit.
4. The baiting restrictions included in the respective section 10.05(2)(b) of the model ceded territory conservation codes will be amended to include language which parallels that in place for nontribal members as published at 64 FR 29799, June 3, 1999.
5. The shell limit restrictions included in the respective section 10.05(2)(b) of the model ceded territory conservation codes will be removed.
6. Hunting hours shall be from a half hour before sunrise to 30 minutes after sunset.

Geese

Season Dates: Open September 1 through 13, 2012, for the early-season, and open October 1, 2012, through January 31, 2013, for the late-season. During this period, days to be hunted are specified by the Kalispel Tribe. Nontribal hunters should contact the Tribe for more detail on hunting days.

Daily Bag and Possession Limits: 5 Canada geese for the early season, and 3 light geese and 4 dark geese, for the late season. The daily bag limit is 2 brant (when the State’s season is open) and is in addition to dark goose limits for the late-season. The possession limit is twice the daily bag limit.

Tribal Hunters Within Kalispel Ceded Lands

Daily Bag and Possession Limits: 7 ducks, including no more than 2 female mallards, 2 pintail, 1 canvasback, 3 scaup, and 2 redheads. The possession limit is twice the daily bag limit.

Mourning Doves

Season Dates: Open September 1 through December 31, 2012.

Canada Geese

Season Dates: Open September 1, 2012, through February 8, 2013.

Sora and Virginia Rails

Season Dates: Open September 1 through December 31, 2012.

Coots and Gallinules

Season Dates: Open September 1 through December 31, 2012.

Snipe

Season Dates: Open September 1 through November 14, 2012.
Daily Bag Limit: 15.

Woodcock

Season Dates: Open September 5 through December 1, 2012.
Daily Bag Limit: 10.

General: Possession limits are twice the daily bag limits.

(f) [Reserved.]

(g) Kalispel Tribe, Kalispel Reservation, Usk, Washington (Tribal Members and Nontribal Hunters).

Nontribal Hunters on Reservation

Geese

Season Dates: Open September 1 through December 31, 2012.
Daily Bag Limits: 10 geese.

General: Possession limits are twice the daily bag limits. Shooting hours are one-half hour before sunrise to one-half hour after sunset. Nontoxic shot is required. Use of live decoys, bait, and commercial use of migratory birds are prohibited. Waterfowl may not be pursued or taken while using motorized craft.

(i) [Reserved.]

(k) The Little Traverse Bay Bands of Odawa Indians, Petoskey, Michigan (Tribal Members Only).

Ducks

Daily Bag Limits: 20 ducks, including no more than 5 hen mallards, 5 black ducks, 5 pintail, 5 hooded merganser, 5 scaup, and 5 canvasback.

Coots and Gallinules

Season Dates: Open September 15 through December 31, 2012.

Snipe

Season Dates: Open September 1 through January 31, 2013.

Mourning Doves

Season Dates: Open September 1 through December 31, 2012.

Woodcock

Season Dates: Open September 5 through December 1, 2012.
Daily Bag Limit: 10.

General: Possession limits are twice the daily bag limits.

(1) [Reserved.]

(m) Lower Elwha Klallam Tribe, Port Angeles, Washington (Tribal Members Only).

Ducks

Season Dates: Open September 15 through December 31, 2012.
Daily Bag Limit: 10 geese.

General: Possession limits are twice the daily bag limits. Shooting hours are one-half hour before sunrise to one-half hour after sunset. Nontoxic shot is required. Use of live decoys, bait, and commercial use of migratory birds are prohibited. Waterfowl may not be pursued or taken while using motorized craft.

(i) [Reserved.]

(k) The Little Traverse Bay Bands of Odawa Indians, Petoskey, Michigan (Tribal Members Only).

Ducks

Daily Bag Limits: 20 ducks, including no more than 5 hen mallards, 5 black ducks, 5 pintail, 5 hooded merganser, 5 scaup, and 5 canvasback.

Coots and Gallinules

Season Dates: Open September 15 through December 31, 2012.

Snipe

Season Dates: Open September 1 through January 31, 2013.

Mourning Doves

Season Dates: Open September 1 through December 31, 2012.

Woodcock

Season Dates: Open September 5 through December 1, 2012.
Daily Bag Limit: 10.

General: Possession limits are twice the daily bag limits.

(1) [Reserved.]

(m) Lower Elwha Klallam Tribe, Port Angeles, Washington (Tribal Members Only).

Ducks

Season Dates: Open September 15 through December 31, 2012.
Daily Bag Limit: 10 geese.

General: Possession limits are twice the daily bag limits. Shooting hours are one-half hour before sunrise to one-half hour after sunset. Nontoxic shot is required. Use of live decoys, bait, and commercial use of migratory birds are prohibited. Waterfowl may not be pursued or taken while using motorized craft.

(i) [Reserved.]

(k) The Little Traverse Bay Bands of Odawa Indians, Petoskey, Michigan (Tribal Members Only).

Ducks

Daily Bag Limits: 20 ducks, including no more than 5 hen mallards, 5 black ducks, 5 pintail, 5 hooded merganser, 5 scaup, and 5 canvasback.
(1) As per Makah Ordinance 44, only shotguns may be used to hunt any species of waterfowl. Additionally, shotguns must not be discharged within 0.25 miles of an occupied area.

(2) Hunters must be eligible, enrolled Makah tribal members and must carry their Indian Treaty Fishing and Hunting Identification Card while hunting. No tags or permits are required to hunt waterfowl.

(3) The Cape Flattery area is open to waterfowl hunting, except in designated wilderness areas, or within 1 mile of Cape Flattery Trail, or in any area that is closed to hunting by another ordinance or regulation.

(4) The use of live decoys and/or baiting to pursue any species of waterfowl is prohibited.

(5) Steel or bismuth shot only for waterfowl is allowed; the use of lead shot is prohibited.

(6) The use of dogs is permitted to hunt waterfowl.

(7) Shooting hours for all species of waterfowl are one-half hour before sunrise to one-half hour after sunset.

(8) Open hunting areas are: GMUs 601 (Hoko), a portion of the 602 (Dickey) encompassing the north area of a line between Norwegian Memorial and east to Highway 101, and 603 (Pysh). (o) Navajo Nation, Navajo Indian Reservation, Window Rock, Arizona (Tribal Members and Nontribal Hunters).

Band-Tailed Pigeons

Season Dates: Open September 1 through 30, 2012.

Daily Bag and Possession Limits: 6 and 10 pigeons, respectively.

Mourning Doves

Daily Bag and Possession Limits: 5 and 10 doves, respectively.

Geese

Season Dates: Open September 15, 2012, through November 6, 2012; and open November 26 through December 4, 2012.

Daily Bag and Possession Limits: Six, including no more than six mallards (three hen mallards), six wood ducks, one redhead, two pintail, and one hooded merganser. The possession limit is twice the daily bag limit.

Coots

Daily Bag and Possession Limits: 50 and 100 coots, respectively.

Mourning Doves

Daily Bag and Possession Limits: 25 and 50 coots, respectively.

General

All other Federal regulations contained in 50 CFR part 20 apply. The following restrictions also apply:
Daily Bag and Possession Limits: Seven ducks, including no more than two hen mallards, one pintail, one canvasback, four scoters, and two redheads. Possession limit is twice the daily bag limit. Bag and possession limits for harlequin ducks is one per season.

Geese

Daily Bag and Possession Limits: Four geese, and may include no more than three light geese. The season on Aleutian and cackling Canada geese are closed. Possession limit is twice the daily bag limit.

Brant
Daily Bag and Possession Limits: 10 and 20 doves, respectively.

Woodcock
Season Dates: Open September 2 through December 1, 2012.
Daily Bag Limits: 10.

Common Snipe
Season Dates: Open September 15 through December 31, 2012.
Daily Bag Limits: 20 in the aggregate.

Geese

Daily Bag and Possession Limits: Two and four, respectively.

Coots
Season Dates: Open September 15, 2012, through February 1, 2013.
Daily Bag and Possession Limits: 25 and 50 coots, respectively.

Mourning Doves
Daily Bag and Possession Limits: 10 and 20 doves, respectively.

Snipe
Daily Bag and Possession Limits: Two and four, respectively.

Band-Tailed Pigeon
Daily Bag and Possession Limits: 10 and 20 doves, respectively.

Ducks

Daily Bag and Possession Limits: Seven ducks, including no more than two hen mallards, one pintail, one canvasback, one harlequin per season, and two redheads. Possession limit is twice the daily bag limit (except for harlequin).

Geese

Daily Bag and Possession Limits: Four geese, and may include no more than three light geese. The season on Aleutian Canada geese is closed. Possession limit is twice the daily bag limit.

Brant
Daily Bag and Possession Limits: 10 and 20 doves, respectively.

Mourning Doves
Daily Bag and Possession Limits: 2 and 4 pigeons, respectively.

Common Snipe
Season Dates: Open September 15 through December 31, 2012.
Daily Bag Limits: 20 in the aggregate.

Geese

Daily Bag and Possession Limits: Two and four, respectively.

Coots and Gallinule
Season Dates: Open September 15 through December 31, 2012.
Daily Bag Limit: 20 in the aggregate.

Woodcock
Season Dates: Open September 2 through December 1, 2012.
Daily Bag Limits: 10.

Common Snipe
Season Dates: Open September 15 through December 31, 2012.
Daily Bag Limits: 20 in the aggregate.
Snipe
Daily Bag and Possession Limits: 8 and 16 snipe, respectively.

Band-Tailed Pigeon
Daily Bag and Possession Limits: 2 and 4 pigeons, respectively.

General Conditions: All hunters authorized to hunt migratory birds on the reservation must obtain a tribal hunting permit from the respective Tribe. Hunters are also required to adhere to a number of special regulations available at the tribal office. Hunters must observe all other basic Federal migratory bird hunting regulations in 50 CFR part 20.

(v) Spokane Tribe of Indians, Spokane Indian Reservation and Ceded Lands, Wellpinit, Washington (Tribal Members Only).

Ducks
Daily Bag and Possession Limits: Seven ducks, including no more than two hen mallards, two pintail, one canvasback, three scaup, and two redheads. Possession limit is twice the daily bag limit.

General Conditions: All tribal hunters must have a valid Tribal ID card on his or her person while hunting. Shooting hours are one-half hour before sunrise to sunset, and steel shot is required for all migratory bird hunting. Hunters must observe all other basic Federal migratory bird hunting regulations in 50 CFR part 20.

[Reserved.]
(y) The Tulalip Tribes of Washington, Tulalip Indian Reservation, Marysville, Washington (Tribal Members and Nontribal Hunters).

Tribal Members Only
Ducks
Daily Bag and Possession Limits: Seven ducks, including no more than two hen mallards, two pintail, one canvasback, three scaup, and two redheads. Possession limit is twice the daily bag limit.

Geese
Daily Bag and Possession Limits: Seven geese. Possession limit is twice the daily bag limit.

Brant
Daily Bag and Possession Limits: Two and four brant, respectively.

Coots
Daily Bag and Possession Limits: 25 and 25 coots, respectively.

Nontribal Hunters
Snipe
Daily Bag and Possession Limits: 8 and 16 snipe, respectively.

General Conditions: All tribal hunters must have a valid Tribal ID card on his or her person while hunting. All nontribal hunters must obtain and possess while hunting a valid Tulalip Tribe hunting permit and be accompanied by a Tulalip Tribal member. Shooting hours are one-half hour before sunrise to sunset, and steel shot is required for all migratory bird hunting. Hunters must observe all other basic Federal migratory bird hunting regulations in 50 CFR part 20.

(aa) Wampanoag Tribe of Gay Head, Aquinnah, Massachusetts (Tribal Members Only).

Canada Geese
Daily Bag Limits: Eight Canada geese during the first period and eight during the second.

Snow Geese
Season Dates: Open September 1 through November 10, 2012.
Daily Bag Limits: 5 sora and 10 Virginia Rails.

Snipe
Season Dates: Open September 1 through December 16, 2012.
Daily Bag Limit for Ducks: Eight snipe.

General Conditions: Shooting hours are one-half hour before sunrise to sunset. Nontoxic shot is required. All other basic Federal migratory bird hunting regulations contained in 50 CFR part 20 will be observed.

(bb) White Earth Band of Ojibwe, White Earth, Minnesota (Tribal Members Only).

Ducks
Season Dates: Open September 15 through December 16, 2012.
Daily Bag Limit for Ducks: 10 ducks, including no more than 2 female mallards, 1 pintail, and 1 canvasback.

Mergansers
Season Dates: Open September 15 through December 16, 2012.
Daily Bag Limit for Mergansers: Five mergansers, including no more than two hooded mergansers.

Geese
Season Dates: Open September 1 through December 16, 2012.
Daily Bag Limit: Eight geese through September 21 and five thereafter.

Coots
Season Dates: Open September 1 through November 30, 2012.
Daily Bag Limit: 20 coots.

Sora and Virginia Rails
Season Dates: Open September 1 through November 30, 2012.
Daily Bag Limit: 25 sora and Virginia rails, singly or in the aggregate.

Coots
Season Dates: Open September 1 through November 30, 2012.
Daily Bag Limit: 20 coots.

Sora and Virginia Rails
Season Dates: Open September 1 through November 30, 2012.
Daily Bag Limit: 25 sora and Virginia rails, singly or in the aggregate.

Common Snipe and Woodcock
Season Dates: Open September 1 through November 30, 2012.
Daily Bag Limit: 10 snipe and 10 woodcock.

Mourning Dove
Season Dates: Open September 1 through November 30, 2012.
Daily Bag Limit: 25 doves.
General Conditions: Shooting hours are one-half hour before sunrise to one-half hour after sunset. Nontoxic shot is required. All other basic Federal migratory bird hunting regulations contained in 50 CFR part 20 will be observed.

(cc) White Mountain Apache Tribe, Fort Apache Indian Reservation, Whiteriver, Arizona (Tribal Members and Nontribal Hunters).

Band-Tailed Pigeons (Wildlife Management Unit 10 and Areas South of Y–70 and Y–10 in Wildlife Management Unit 7, Only)

Band-Tailed Pigeons (Wildlife Management Unit 10 and Areas South of Y–70 and Y–10 in Wildlife Management Unit 7, Only)
Season Dates: Open September 1 through 15, 2012.
Daily Bag and Possession Limits: Three and six pigeons, respectively.
Mourning Doves (Wildlife Management Unit 10 and Areas South of Y–70 and Y–10 in Wildlife Management Unit 7, Only)
Season Dates: Open September 1 through 15, 2012.
Daily Bag and Possession Limits: 10 and 20 doves, respectively.

General Conditions: All nontribal hunters hunting band-tailed pigeons and mourning doves on Reservation lands shall have in their possession a valid White Mountain Apache Daily or Yearly Small Game Permit. In addition to a small game permit, all nontribal hunters hunting band-tailed pigeons must have in their possession a White Mountain Special Band-tailed Pigeon Permit. Other special regulations established by the White Mountain Apache Tribe apply on the reservation. Tribal and nontribal hunters will comply with all basic Federal migratory bird hunting regulations in 50 CFR Part 20 regarding shooting hours and manner of taking.

(dd) [Reserved.]

Dated: August 30, 2012.

Rachel Jacobson,
Principal Assistant Deputy Secretary for Fish and Wildlife and Parks.

BILLING CODE 4310–55–P
