DEPARTMENT OF THE INTERIOR
Ocean Energy Safety Advisory Committee

AGENCY: Bureau of Safety and Environmental Enforcement (BSEE), Interior.

SUMMARY: Following consultation with the General Services Administration, notice is hereby given that the Secretary of the Interior is renewing the Ocean Energy Safety Advisory Committee.

CONTESTING RECORDS PROCEDURES:

The procedures for contesting the contents of records and appealing initial denials appear in 24 CFR part 16— Implementation of the Privacy Act of 1974. Individuals seeking information, assistance, or inquiry about the existence of records should contact the Departmental Privacy Act Officer, Department of Housing and Urban Development, 451 Seventh Street SW., Room 2256, Washington, DC 20410. Written requests must include the full name, current address, and telephone number of the individual making the request, as well as proof of identity, including a description of the requester’s relationship to the information in question.

RECORD SOURCE CATEGORIES:

Basic participant information was initially transmitted electronically to the ETO system through an upload from the HUD Disaster Information System in November 2008. Housing rental assistance information about program participants was uploaded to ETO on a weekly basis from November 2008 until September 2011.

Applications Available for Review and Comment

We invite local, State, and Federal agencies, and the public to comment on the following applications. Please refer to the appropriate permit number (e.g., Permit No. TE–123456) for the application when submitting comments. Documents and other information the applicant has submitted with this application is available for review, subject to the requirements of the Privacy Act (5 U.S.C. 552a) and Freedom of Information Act (5 U.S.C. 552).

Permit Application Number: TE–94926A

Applicant: Glenn Dunmire, Dunmire Consulting, Cohone, Colorado.

The applicant requests a new permit to take (harass by survey) Mexican spotted owl (Strix occidentalis lucida) and Southwestern willow flycatcher (Empidonax trailli extimus) in conjunction with surveys and population monitoring activities in Utah for the purpose of enhancing the species’ survival.

National Environmental Policy Act (NEPA)

In compliance with NEPA (42 U.S.C. 4321 et seq.), we have made an initial determination that the proposed activities in these permits are categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement (516 DM 6 Appendix 1, 1.4C(1)).

Public Availability of Comments

All comments and materials we receive in response to this request will be available for public inspection, by appointment, during normal business hours at the address listed in the ADDRESSES section of this notice.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publically available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority

We provide this notice under section 10 of the Act (16 U.S.C. 1531 et seq.)

Mike Thabault,
Assistant Regional Director, Mountain-Prairie Region.

Endangered and Threatened Wildlife and Plants; 5-Year Status Reviews of Ocelot and Mexican Spotted Owl in the Southwest Region

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of initiation of reviews; request for information.

SUMMARY: We, the U.S. Fish and Wildlife Service, are initiating 5-year status reviews under the Endangered Species Act of 1973, as amended (Act), of the endangered ocelot (Leopardus [=Felis] pardalis) and the threatened Mexican spotted owl (Strix occidentalis lucida). A 5-year review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any such information that has become available since our original listing of these two species.

DATES: To ensure consideration, we are requesting submission of new information no later than April 8, 2013. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: For how to submit information, see Request for Information and “How Do I Ask Questions or Provide Information?” in the SUPPLEMENTARY INFORMATION section.

FOR FURTHER INFORMATION CONTACT: For information on a particular species, contact the appropriate person or office listed in the table in the SUPPLEMENTARY INFORMATION section.

SUPPLEMENTARY INFORMATION:

Why do we conduct a 5-year review?

Under the Act (16 U.S.C. 1531 et seq.), we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in the Code of Federal Regulations (CFR) at 50 CFR 17.11 (for animals) and 17.12 (for plants). Section 4(c)(2)(A) of the Act requires us to review each listed species’ status at least once every 5 years. Our regulations at 50 CFR 424.21 require that we publish a notice in the Federal Register announcing those species under active review. For additional information about 5-year reviews, refer to our factsheet at http://www.fws.gov/endangered/what-we-do/recovery-overview.html.

What information do we consider in our review?

A 5-year review considers all new information available at the time of the review. In conducting these reviews, we consider the best scientific and commercial data that have become available since the listing determination or most recent status review, such as:

(A) Species biology, including but not limited to population trends, distribution, abundance, demographics, and genetics;

(B) Habitat conditions, including but not limited to amount, distribution, and suitability;

(C) Conservation measures that have been implemented that benefit the species;

(D) Threat status and trends in relation to the five listing factors (as defined in section 4(a)(1) of the Act); and

(E) Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Any new information will be considered during the 5-year review and will also be useful in evaluating the ongoing recovery programs for the species.

Which species are under review?

This notice announces our active review of the species listed in the table below.
