SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we continue the CCP process for Neal Smith National Wildlife Refuge, which we began by publishing a notice of intent in the Federal Register [73 FR 76677] on December 17, 2008. For more about the initial process and the history of this refuge, see that notice. We released the draft CCP and EA to the public, announcing and requesting comments in a notice of availability (77 FR 50155) on August 20, 2012. The 30-day comment period ended on September 19, 2012. A summary of public comments and the agency responses is included in the final CCP.

Background

The National Wildlife Refuge System Administration Act of 1966, as amended by the National Wildlife Refuge System Improvement Act of 1997 (16 U.S.C. 668dd–668ee) (Administration Act), requires us to develop a CCP for each national wildlife refuge. The purpose in developing a CCP is to provide refuge managers with a 15-year strategy for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System (NWRS), consistent with sound principles of fish and wildlife management, conservation, legal mandates, and Service policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years in accordance with the Administration Act.

Each unit of the NWRS was established for specific purposes. We use these purposes as the foundation for developing and prioritizing the management goals and objectives for each refuge within the NWRS mission, and to determine how the public can use each refuge. The planning process is a way for us and the public to evaluate management goals and objectives that will ensure the best possible approach to wildlife, plant, and habitat conservation, while providing for wildlife-dependent recreation opportunities that are compatible with each refuge’s establishing purposes and the mission of the NWRS.

Additional Information

The final CCP may be found at http://www.fws.gov/midwest/planning/nealsmith/index.html. The final CCP includes detailed information about the planning process, refuge, issues, and management alternative selected. The Web site also includes an EA and FONSI, prepared in accordance with the National Environmental Policy Act (NEPA) (43 U.S.C. 4321 et seq.). The EA/FONSI includes discussion of four alternative refuge management options. The Service’s selected alternative is reflected in the final CCP.

For more about the initial process and the history of these refuges, see that notice. We released the draft CCP and EA to the public, announcing and requesting comments in a notice of availability (77 FR 50155) on August 20, 2012. The 30-day comment period ended on September 19, 2012. A summary of public comments and the agency responses is included in the final CCP.
