regarding the SRP process can be found online at http://floodsrp.org/pdfs/srp_fact_sheet.pdf.

The communities affected are listed in the table below. The Preliminary FIRM and where applicable, Preliminary FIS report for each community are available for inspection at both the online location and the respective Community Map Repository address listed in the tables. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at www.msc.fema.gov for comparison.

**Correction**

In the proposed flood hazard determination notice published at 77 FR 67016, the table contained inaccurate information as to the location of the Community Map Repository Address for the following communities: the Cities of Brandon and Florence and the Township of Puckett. In this notice, FEMA is publishing a table containing the accurate information, to address these prior errors. The information provided below should be used in lieu of that previously published.

Niobrara Confluence and Ponca Bluffs Conservation Areas, NE and SD; Draft Environmental Impact Statement and Land Protection Plan; Request for Public Comments

**AGENCY:** Fish and Wildlife Service, National Park Service, Interior.

**ACTION:** Notice of availability.

**SUMMARY:** We, U.S. Fish and Wildlife Service (FWS) and the National Park Service (NPS), as lead agencies, announce the availability of a draft environmental impact statement (DEIS) and land protection plan (LPP) for the proposed Niobrara Confluence Conservation Area and Ponca Bluffs Conservation Area in Nebraska and South Dakota for public review and comment. In these documents, we describe alternatives, including our proposed action, for implementing conservation actions along the Missouri River and its tributaries. We are furnishing this notice in compliance with the National Wildlife Refuge System Administration Act of 1966, as amended, the National Park Service Organic Act of 1916, as amended, and the National Environmental Policy Act to advise other agencies, Tribal governments, and the public of our intentions to provide the opportunity for public review and comment on the DEIS and LPP.

**DATES:** To ensure consideration, please send your written comments by June 14th, 2013. We will announce upcoming public meetings in local news media, on our Web site, and by mail.

**ADDRESSES:** You may submit your comments or a request for copies (hard copies or a CD-ROM) or more information by any of the following methods:

Email: niobrara_ponco@fws.gov.

In-Person Viewing or Pickup: Call (605) 665–0209 to make an appointment during regular business hours at Missouri River National Recreational River Headquarters, 508 East 2nd Street, Yankton, SD 57078.

**Mail:** Nick Kaczor, USFWS, Division of Refuge Planning, P.O. Box 25486, DFC, Denver, CO 80225.

FOR FURTHER INFORMATION CONTACT: Nick Kaczor, Planning Team Leader, at (303) 236–4387, or by mail at Division of Refuge Planning, USFWS, P.O. Box 25486, DFC, Denver, CO 80225.

**SUPPLEMENTARY INFORMATION:**

**Introduction**

With this notice, we continue the LPP process for the proposed Niobrara Confluence and Ponca Bluffs Conservation Areas. We started this process through a notice in the Federal Register (77 FR 8892, February 15, 2012).

The proposed Niobrara Confluence and Ponca Bluffs Conservation Areas are partnership-based projects being taken on by the U.S. Fish and Wildlife Service and National Park Service, to build upon existing conservation efforts along the Missouri River in northeast Nebraska and southeast South Dakota. This proposal aims to work with willing private landowners, local communities, and other conservation entities to conserve important wildlife habitats, increase quality recreational opportunities, preserve sensitive historical sites, and maintain sustainable ranching operations.

**The Missouri River**

The Missouri River is the artery to America’s heartland, coursing its way...
northernmost McCone County, Montana. It is
shaped by the surrounding beauty of
the Missouri Breaks National Monument.

The Missouri Breaks National Monument
is a beautiful place. It is a place of
natural splendor, where one can
experience the grandeur of the
landscape and the richness of the
wildlife and plant life. It is a place
where one can learn about the
history of the area and the cultures
that have lived here. It is a place
where one can reconnect with
nature and find peace and
serenity.

We propose to establish a conservation
framework in this area to protect and
conserve the natural resources and
ecosystems. This framework will
be based on the overall ecological
function of the Missouri Breaks
National Monument. The framework
will focus on the conservation of
key ecosystems, such as wetlands,
riparian areas, and upland forests.

The framework will also focus on
the conservation of key species,
such as bald eagles, peregrine falcons,
and elk. We will work with landowners
in the area to establish conservation
easements and to purchase
conservation easements. We will also
work with the public to raise
awareness about the importance of
conserving these resources.

We encourage you to provide your
comments on this proposed action.
Your comments will help us
understand the priorities of the
public and will help us develop
a conservation framework that
best meets the needs of the
diverse communities in the
area. Your comments will be
considered as we develop the
framework and as we
implement it.
