SUPPLEMENTARY INFORMATION:

I. Abstract

The Endangered Species Act (ESA) (16 U.S.C. 1531 et seq.) makes it unlawful to import or export fish, wildlife, or plants without obtaining prior permission as deemed necessary for enforcing the ESA or upholding the Convention on International Trade in Endangered Species (CITES) (see 16 U.S.C. 1538(e)). This information collection includes the following permit/license application forms:

(1) FWS Form 3–200–2 (Designated Port Exception Permit). Under 50 CFR 14.11, it is unlawful to import or export wildlife or wildlife products at ports other than those designated in 50 CFR 14.12 unless you qualify for an exception. These exceptions allow qualified individuals, businesses, or scientific organizations to import or export wildlife or wildlife products at a nondesignated port:

(a) When the wildlife or wildlife products will be used as scientific specimens.

(b) To minimize deterioration or loss.

(c) To relieve economic hardship.

To request an import or export of wildlife or wildlife products at nondesignated ports, applicants must complete FWS Form 3–200–2. Designated port exception permits are valid for 2 years. We may require a permittee to file a report on activities conducted under authority of the permit.

(2) FWS Form 3–200–3 (Import/Export License). It is unlawful to import or export wildlife or wildlife products for commercial purposes without first obtaining an import/export license (50 CFR 14.91). Applicants must complete FWS Form 3–200–3 to request this license. We use the information that we collect on the application as an enforcement tool and management aid to: (a) Monitor the international wildlife market and (b) detect trends and changes in the commercial trade of wildlife and wildlife products. Import/export licenses are valid for 1 year. We may require a licensee to file a report on activities conducted under authority of the import/export license.

Permittees and licensees must maintain records that accurately describe each importation or exportation of wildlife or wildlife products made under the license, and any additional sale or transfer of the wildlife or wildlife products. In addition, licensees must make these records and the corresponding inventory of wildlife or wildlife products available for our inspection at reasonable times, subject to applicable limitations of law. We believe the burden associated with these recordkeeping requirements is minimal because the records already exist. Importers and exporters must complete FWS Form 3–177 (Declaration for Importation or Exportation of Fish or Wildlife) for all imports or exports of wildlife or wildlife products. This form provides an accurate description of the imports and exports. OMB has approved
the information collection for FWS Form 3–177 and assigned OMB Control Number 1018–0012. Normal business practices should produce records (e.g., invoices or bills of sale) needed to document additional sales or transfers of the wildlife or wildlife products.

SUPPLEMENTARY INFORMATION:

I. Abstract

We use the information that we collect on permit applications to determine the eligibility of applicants for permits requested in accordance with various Federal wildlife conservation laws, including:

- Endangered Species Act (16 U.S.C. 1531 et seq.).
- Lacey Act (16 U.S.C. 3371 et seq.).

Service regulations implementing these statutes and treaties are in chapter I, subchapter B of title 50 of the Code of Federal Regulations (CFR). These regulations stipulate general and specific requirements that when met allow us to issue permits to authorize activities that are otherwise prohibited. This IC includes the following permit application forms and the reporting requirements for each permit:

- FWS Form 3–200–56 (Incidental Take Permits Associated with a Habitat and Interstate Commerce).
- FWS Form 3–200–55 (Permits for Scientific Purposes, Enhancement of Propagation or Survival (i.e., Recovery) and Interstate Commerce).
- FWS Form 3–200–56 (Incidental Take Permits Associated with a Habitat Conservation Plan).
