SUPPLEMENTARY INFORMATION:

Public Comments

We will accept written comments and information during the reopened comment period and public hearings on our proposed listing and designation of critical habitat for the *Eriogonum codium* (Umtanum desert buckwheat) and *Physaria douglassii* subsp. *tuplashensis* (White Bluffs bladderpod) that was published in the Federal Register on May 15, 2012 (77 FR 28704).

We will consider all information and recommendations from all interested parties.

As to the proposed listing determination, we are particularly interested in comments concerning:

(1) Biological, commercial trade, or other relevant data concerning any threats to (or lack thereof) to these species and regulations that may be addressing those threats.

(2) Additional information concerning the historical and current status, range, distribution, and population size of these species, including the locations of any additional populations.

(3) Any information on the biological or ecological requirements of the species, and ongoing conservation measures for the species and their habitats.

(4) Current or planned activities in the areas occupied by these species and possible impacts of these activities on these species.

As to the proposed critical habitat determination, we are particularly interested in comments concerning:

(5) The reasons why we should or should not designate habitat as “critical habitat” under section 4 of the Act, including whether there are threats to the species from human activity, the degree of which can be expected to increase due to the designation, and whether that increase in threat outweighs the benefit of designation such that the designation of critical habitat is not prudent.

(6) Specific information on:

(a) The amount and distribution of the species’ habitat;

(b) What areas occupied by the species at the time of listing that contain features essential for the conservation of the species we should include in the designation and why;

(c) Special management considerations or protection that may be needed in critical habitat areas we are proposing, including managing for the potential effects of climate change; and

(d) What areas not occupied at the time of listing are essential to the conservation of the species and why.

(7) Land use designations and current or planned activities in the subject areas and their possible impacts on proposed critical habitat.

(8) Any foreseeable economic, national security, or other relevant impacts that may result from designating any area that may be included in the final designation. We are particularly interested in any impacts on small entities and the benefits of including or excluding areas from the proposed designation that are subject to these impacts.

(9) Whether our approach to designating critical habitat could be improved or modified in any way to provide for greater public participation and understanding, or to assist us in accommodating public concerns and comments.

If you submitted comments or information on the proposed rule (77 FR 28704) during the initial comment period from May 15, 2012, to July 16,
On May 23, 2013, we published a notice reopening the comment period on our May 15, 2012, proposed listing and designation of critical habitat (78 FR 30839) and published a document to delay the effective date of the April 23, 2013 final rules for an additional 6 months—until November 22, 2013 (May 23, 2013; 78 FR 30772). We delayed the effective date of the final rules and reopened the comment period on the proposed rules to allow us time to follow proper procedure in accordance with 16 U.S.C. 1533(b)(5). If, after review of any comments received during this reopened comment period, we determine that we should revise the final rules, we will announce this decision and our course of action in a document published in the Federal Register.

Authority
The authority for this action is the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.).

Dated: June 20, 2013.

Principal Deputy Assistant Secretary for Fish and Wildlife and Parks.

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the reopening of the public comment period on the September 5, 2012, proposed designation of critical habitat for Arctostaphylos franciscana (Franciscan manzanita) under the Endangered Species Act of 1973, as amended (Act). We also announce the availability of the draft economic analysis (DEA) for the proposed critical habitat designation and an amended required determinations section of the proposal. In addition, this document, we have corrected the acreage calculations for our September 5, 2012, proposal due to a mapping error. We are reopening the comment period on the September 5, 2012, proposed rule for an additional 30 days to allow all interested parties an opportunity to comment simultaneously on that proposed critical habitat, the revisions to proposed critical habitat described in this document, the associated DEA, and the amended required determinations section. Comments previously submitted need not be resubmitted and will be fully considered in preparation of the final rule.

DATES: The comment period for the proposed rule published September 5, 2012 (77 FR 54517), is reopened. We will consider comments received or postmarked on or before July 29, 2013.
