SUPPLEMENTARY INFORMATION:
quickly after FY 2015 appropriations will enable HUD to make awards for FY2014, utilizing FY 2015 funds, subject to the availability of appropriations and any other authority that may govern the award of FY 2015 funds. Grantees that receive FY 2014 housing counseling training funding will be contacted by HUD to determine their interest in FY 2015 funding. HUD would then rerun the FY 2014 funding formula, utilizing FY 2014 application data/scores, should FY 2015 funding becomes available, for those FY 2014 grantees that express interest and remain eligible. Doing this will enable HUD to make awards quickly after FY 2015 appropriations become available, and significantly reduce the application burden for counseling agencies. The General Section for FY 2014 will govern both the FY 2014 and FY 2015 comprehensive housing counseling grant funds.

SUPPLEMENTARY INFORMATION:
Today’s Federal Register notice announces that HUD has posted its FY 2014 Housing Counseling Training Grant Program NOFA on http://www.Grants.gov and http://portal.hud.gov/hudportal/HUD?src=/program_offices/administration/grants/fundsavail. Approximately $2 million is expected to be available for eligible applicants under this NOFA for FY 2014 through the Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2014. Alternatively, HUD reserves the right to issue a supplemental or independent NOFA in FY 2015, perhaps limited to new Applicants, or for a specific housing counseling training related activity, for example to support HUD’s efforts to embed housing counseling in FHA programs. The application deadline date is May 5, 2014. Applications must be received by Grants.gov no later than 11:59:59 p.m. Eastern Time on the application deadline date. See Section IV of the General Section, regarding application procedures, timely filing requirements, and grace period policy. HUD may issue a technical correction to this NOFA if necessary. Any such technical correction will provide detailed instructions for Applicants regarding the resubmission of applications to address the revised NOFA requirements.

Abstract: The Migratory Bird Treaty Act (16 U.S.C. 703–711) and the Fish and Wildlife Act of 1956 (16 U.S.C. 742d) designate the Department of the Interior as the key agency responsible for (1) the wise management of migratory bird populations frequenting the United States, and (2) setting hunting regulations that allow appropriate harvests that are within the guidelines that will allow for those populations' well-being. These responsibilities dictate that we gather accurate data on various characteristics of migratory bird harvest. Based on information from harvest surveys, we can adjust hunting regulations as needed to optimize harvests at levels that provide a maximum of hunting recreation while keeping populations at desired levels.

Under 50 CFR 20.20, migratory bird hunters must register for the Migratory Bird Harvest Information Program (HBIP) in each State in which they hunt each year. State natural resources agencies must send names and addresses of all migratory bird hunters to us annually. The Migratory Bird Hunter Survey is based on the Migratory Bird Harvest Information Program. We randomly select migratory bird hunters and ask them to report their harvest. The resulting estimates of harvest per hunter are combined with the complete list of migratory bird hunters to provide estimates of the total harvest for the species surveyed.

The Parts Collection Survey estimates the species, sex, and age composition of the harvest, and the geographic and temporal distribution of the harvest. Randomly selected successful hunters who responded to the Migratory Bird Hunter Survey the previous year are asked to complete and return a form if they are willing to participate in the Parts Collection Survey. We provide postage-paid envelopes to respondents before the hunting season and ask them to send in a wing or the tail feathers from each duck or goose that they harvest, or a wing from each mourning dove, woodcock, band-tailed pigeon, snipe, rail, or gallinule that they harvest.

We use the wings and tail feathers to identify the species, sex, and age of the harvested sample. We also ask respondents to report on the envelope the date and location of harvest for each bird. We combine the results of this survey with the harvest estimates obtained from the Migratory Bird Hunter Survey to provide species-specific national harvest estimates.

The combined results of these surveys enable us to evaluate the effects of season length, season dates, and bag limits on the harvest of each species, and thus help us determine appropriate hunting regulations.

The Sandhill Crane Harvest Survey is an annual questionnaire survey of people who obtained a sandhill crane hunting permit. At the end of the hunting season, we randomly select a sample of permit holders and ask them to report the date, location, and number of birds harvested for each of their sandhill crane hunts. Their responses provide estimates of the temporal and geographic distribution of the harvest as well as the average harvest per hunter, which, combined with the total number of permits issued, enables us to estimate the total harvest of sandhill cranes. Based on information from this survey, we adjust hunting regulations as needed.

Comment Received and Our Response

Comments: On November 8, 2013, we published in the Federal Register (78 FR 67183) a notice of our intent to request that OMB renew approval for this information collection. In that notice, we solicited comments for 60 days, ending on January 7, 2014. We received one comment. The commenter objected to the surveys, but did not address the information collection requirements. We did not make any changes to our requirements.

Request for Public Comments

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.

Dated: April 18, 2014.

Tina A. Campbell,
Chief, Division of Policy and Directives Management, U.S. Fish and Wildlife Service.
