No petition seeking such review may be filed more than 60 days after issuance of the order by the head of the agency or designee. Review shall conform to chapter 7 of title 5, United States Code. Filing such an appeal shall not act to stay the enforcement of the order by the head of an agency, unless a stay is specifically entered by the court.

DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service

50 CFR Parts 2, 10, 13, 14, 15, 16, 17, 18, 20, 21, 22, 23, 36, 80, 86, 91, and 100

RIN 1018–BA52

Addresses of Headquarters Offices

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), are updating the addresses of our headquarters offices in our regulations. The Service will relocate its headquarters offices on July 28, 2014. We are taking this action to ensure regulated entities and the general public have accurate contact information for the Service’s offices.

DATES: This rule is effective on July 29, 2014.

FOR FURTHER INFORMATION CONTACT: Andrew Brown, 703–358–2179.

SUPPLEMENTARY INFORMATION: The Service will relocate its headquarters offices to Falls Church, VA, on July 28, 2014. The address of several headquarters offices are referenced throughout numerous sections of the regulations in title 50 of the Code of Federal Regulations (CFR). This final rule updates the addresses of the Service’s headquarters offices in the regulations. See the Regulation Promulgation section of this rule for the specific revisions we are making to the regulations.

These actions are administrative in nature. We are providing regulated entities and the general public with accurate contact information for the Service’s offices. Under 5 U.S.C. 553(d), rules of agency organization, procedure, or practice may be made final without previous notice to the public. This is a final rule. In addition, under 5 U.S.C. 553(d), we may make this rule effective in less than 30 days if we have “good cause” to do so. The rule provides accurate contact information for our offices, and this action will benefit regulated entities and the general public. Therefore, we find that we have “good cause” to make this rule effective on July 29, 2014.
Required Determinations

Executive Order 12866 provides that the Office of Information and Regulatory Affairs (OIRA) will review all significant rules. The OIRA has determined that this rule is not significant.

Executive Order (E.O.) 13563 reaffirms the principles of E.O. 12866 while calling for improvements in the nation's regulatory system to promote predictability, to reduce uncertainty, and to use the best, most innovative, and least burdensome tools for achieving regulatory ends. The executive order directs agencies to consider regulatory approaches that reduce burdens and maintain flexibility and freedom of choice for the public where these approaches are relevant, feasible, and consistent with regulatory objectives. E.O. 13563 emphasizes further that regulations must be based on the best available science and that the rulemaking process must allow for public participation and an open exchange of ideas. We have developed this rule in a manner consistent with these requirements.

Regulatory Flexibility Act (5 U.S.C. 601 et seq.)

Under the Regulatory Flexibility Act (5 U.S.C. 601 et seq., as amended by the Small Business Regulatory Enforcement Fairness Act (SBREFA) of 1996 (Pub. L. 104–121)), whenever an agency is required to publish a notice of rulemaking for any proposed or final rule, it must prepare and make available for public comment a regulatory flexibility analysis that describes the effect of the rule on small entities (that is, small businesses, small organizations, and small government jurisdictions). However, no regulatory flexibility analysis is required if the head of an agency certifies the rule will not have a significant economic impact on a substantial number of small entities.

SBREFA amended the Regulatory Flexibility Act to require Federal agencies to provide the statement of the factual basis for certifying that a rule will not have a significant economic impact on a substantial number of small entities. We have examined this rule's potential effects on small entities as required by the Regulatory Flexibility Act, and have determined that this action will not have a significant economic impact on a substantial number of small entities. This rule updates the contact information for the Service's headquarters offices in our regulations in title 50 of the Code of Federal Regulations. We are taking this action to ensure that regulated entities and the general public have accurate contact information for the Service's offices. This rule will not result in any costs or benefits to any entities, large or small.

Therefore, we certify that, because this rule will not have a significant economic effect on a substantial number of small entities, a regulatory flexibility analysis is not required.

This rule is not a major rule under the SBREFA (5 U.S.C. 804(2)). It will not have a significant economic impact on a substantial number of small entities.

a. This rule does not have an annual effect on the economy of $100 million or more. There are no costs to any entities resulting from these revisions to the regulations.

b. This rule will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions. The updating of the Service's contact information does not affect costs or prices in any sector of the economy.

c. This rule will not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

Unfunded Mandates Reform Act

In accordance with the Unfunded Mandates Reform Act (2 U.S.C. 1501 et seq.), we have determined the following:

a. This rule will not "significantly or uniquely" affect small governments in a negative way. A small government agency plan is not required.

b. This rule will not produce a Federal mandate of $100 million or greater in any year. It is not a "significant regulatory action" under the Unfunded Mandates Reform Act.

Takings

Under the criteria outlined in E.O. 12630, this final rule does not have significant takings implications. This rule is an administrative action to update Service addresses; it does not contain a provision for taking of private property. A takings implication assessment is not required.

Federalism

This rule does not have sufficient Federalism effects to warrant preparation of a federalism summary impact statement under E.O. 13132.

Civil Justice Reform

In accordance with E.O. 12988, the Office of the Solicitor has determined that the rule does not unduly burden the judicial system and meets the requirements of sections 3(a) and 3(b)(2) of the Order.

Paperwork Reduction Act

This rule does not contain any information collection that would require approval under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). A Federal agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

National Environmental Policy Act

We evaluated the environmental impacts of the changes to the regulations, and determined that this rule does not have any environmental impacts.

Government-to-Government Relationship With Tribes

In accordance with the President's memorandum of April 29, 1994, "Government-to-Government Relations With Native American Tribal Governments" (59 FR 22951), Executive Order 13175, and 512 DM 2, we have evaluated potential effects on Federally recognized Indian Tribes and have determined that this rule will not interfere with Tribes' ability to manage themselves or their funds. This rule offers Tribes and the general public accurate contact information for our offices.

Energy Supply, Distribution, or Use

E.O. 13211 requires agencies to prepare Statements of Energy Effects when undertaking certain actions. Because this rule is administrative, it is not a significant regulatory action under E.O. 12866, and it will not significantly affect energy supplies, distribution, or use. Therefore, this action is not a significant energy action and no Statement of Energy Effects is required.
