Migratory Bird Hunting; Proposed Migratory Bird Hunting Regulations on Certain Federal Indian Reservations and Ceded Lands for the 2014–15 Season; Proposed Rule
Migratory Bird Hunting; Proposed Migratory Bird Hunting Regulations on Certain Federal Indian Reservations and Ceded Lands for the 2014–15 Season

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: The U.S. Fish and Wildlife Service (hereinafter, Service or we) proposes special migratory bird hunting regulations for certain Tribes on Federal Indian reservations, off-reservation trust lands, and ceded lands for the 2014–15 migratory bird hunting season.

DATES: You must submit comments on the proposed regulations by August 21, 2014.

ADDRESSES: You may submit comments on the proposals by one of the following methods:

We will post all comments on http://www.regulations.gov. This generally means that we will post any personal information you provide us (see the Public Comments section below for more information).

SUPPLEMENTARY INFORMATION: In the April 30, 2014, Federal Register (79 FR 24512), we requested proposals from Indian Tribes wishing to establish special migratory bird hunting regulations for the 2014–15 hunting season, under the guidelines described in the June 4, 1985, Federal Register (50 FR 23467). In this supplemental proposed rule, we propose special migratory bird hunting regulations for 31 Indian Tribes, based on the input we received in response to the April 30, 2014, proposed rule, and our previous rules. As described in that proposed rule, the promulgation of annual migratory bird hunting regulations involves a series of rulemaking actions each year. This proposed rule is part of that series.

We developed the guidelines for establishing special migratory bird hunting regulations for Indian Tribes in response to tribal requests for recognition of their reserved hunting rights and, for some Tribes, recognition of their authority to regulate hunting by both tribal and nontribal hunters on their reservations. The guidelines include possibilities for:

1. On-reservation hunting by both tribal and nontribal hunters, with hunting by nontribal hunters on some reservations to take place within Federal frameworks but on dates different from those selected by the surrounding States(s);
2. On-reservation hunting by tribal members only, outside of the usual Federal frameworks for season dates and length, and for daily bag and possession limits; and
3. Off-reservation hunting by tribal members on ceded lands, outside of usual framework dates and season length, with some added flexibility in daily bag and possession limits.

In all cases, the regulations established under the guidelines must be consistent with the March 10 to September 1 closed season mandated by the 1916 Convention between the United States and Great Britain (for Canada) for the Protection of Migratory Birds (Treaty). The guidelines apply to those Tribes having recognized reserved hunting rights on Federal Indian reservations (including off-reservation trust lands) and on ceded lands. They also apply to establishing migratory bird hunting regulations for nontribal hunters on all lands within the exterior boundaries of reservations where Tribes have full wildlife management authority over such hunting or where the Tribes and affected States otherwise have reached agreement over hunting by nontribal hunters on lands owned by non-Indians within the reservation.

Tribes usually have the authority to regulate migratory bird hunting by nonmembers on Indian-owned reservation lands, subject to Service approval. The question of jurisdiction is more complex on reservations that include lands owned by non-Indians, especially when the surrounding States have established or intend to establish regulations governing hunting by non-tribal hunters. In such cases, we encourage the Tribes and States to reach agreement on regulations that would apply throughout the reservations. When appropriate, we will consult with a Tribe and State with the aim of facilitating an accord. We also will consult jointly with tribal and State officials in the affected States where Tribes wish to establish special hunting regulations for tribal members on ceded lands. Because of past questions regarding interpretation of what events trigger the consultation process, as well as who initiates it, we provide the following clarification.

We routinely provide copies of Federal Register publications pertaining to migratory bird management to all State Directors, Tribes, and other interested parties. It is the responsibility of the States, Tribes, and others to notify us of any concern regarding any feature(s) of any regulations. When we receive such notification, we will initiate consultation.

Our guidelines provide for the continued harvest of waterfowl and other migratory game birds by tribal members on reservations where such harvest has been a customary practice. We do not oppose this harvest, provided it does not take place during the closed season defined by the Treaty, and does not adversely affect the status of the migratory bird resource. Before developing the guidelines, we reviewed available information on the current status of migratory bird populations, reviewed the current status of migratory bird hunting on Federal Indian reservations, and evaluated the potential impact of such guidelines on migratory birds. We concluded that the impact of migratory bird harvest by tribal members hunting on their reservations is minimal.

One area of interest in Indian migratory bird hunting regulations relates to hunting seasons for nontribal hunters on dates that are within Federal frameworks, but which are different from those established by the State(s) where the reservation is located. A large influx of nontribal hunters onto a reservation at a time when the season is closed in the surrounding State(s) could result in adverse population impacts on one or more migratory bird species. The guidelines make this unlikely, and we may modify regulations or establish experimental special hunts, after evaluation of information obtained by the Tribes.

We believe the guidelines provide appropriate opportunity to accommodate the reserved hunting rights and management authority of Indian Tribes while ensuring that the migratory bird resource receives the necessary protection. The conservation of this important international resource
is paramount. Further, the guidelines should not be viewed as inflexible. In this regard, we note that they have been employed successfully since 1985. We believe they have been tested adequately and, therefore, we made them final beginning with the 1988–89 hunting season (53 FR 31612, August 18, 1988). We should stress here, however, that use of the guidelines is not mandatory and no action is required if a Tribe wishes to observe the hunting regulations established by the State(s) in which the reservation is located.

Service Migratory Bird Regulations Committee Meetings

Participants at the June 25–26, 2014, meetings reviewed information on the current status of migratory shore and upland game birds and developed 2014–15 migratory game bird regulations recommendations for these species plus regulations for migratory game birds in Alaska, Puerto Rico, and the U.S. Virgin Islands; special September waterfowl seasons in designated States; special sea duck seasons in the Atlantic Flyway; and extended falconry seasons. In addition, we reviewed and discussed preliminary information on the status of waterfowl.

Participants at the previously announced July 30–31, 2014, meetings will review information on the current status of waterfowl and develop recommendations for the 2014–15 regulations pertaining to regular waterfowl seasons and other species and seasons not previously discussed at the early-season meetings. In accordance with Department of the Interior policy, these meetings are open to public observation and you may submit comments on the matters discussed.

Population Status and Harvest

Preliminary information on the status of waterfowl and information on the status and harvest of migratory shore and upland game birds was excerpted from various reports and provided in the July 31, 2014, Federal Register (79 FR 44580). For more detailed information, methodologies and results, you may obtain complete copies of the various reports at the address indicated under FOR FURTHER INFORMATION CONTACT or from our Web site at http://www.fws.gov/migratorybirds/NewsPublicationsReports.html.

Hunting Season Proposals From Indian Tribes and Organizations

For the 2014–15 hunting season, we received requests from 25 Tribes and Indian organizations. In this proposed rule, we respond to these requests and also evaluate anticipated requests for six Tribes from whom we usually hear but from whom we have not yet received proposals. We actively solicit regulatory proposals from other tribal groups that are interested in working cooperatively for the benefit of waterfowl and other migratory game birds. We encourage Tribes to work with us to develop agreements for management of migratory bird resources on tribal lands.

It should be noted that this proposed rule includes generalized regulations for both early- and late-season hunting. A final rule will be published in a late-August 2014 Federal Register that will include tribal regulations for the early-hunting season. Early seasons generally begin around September 1 each year, and most commonly include such species as American woodcock, sandhill cranes, mourning doves, and white-winged doves. Late seasons generally begin on or around September 24, and most commonly include waterfowl species.

In this current rulemaking, because of the compressed timeframe for establishing regulations for Indian Tribes and because final frameworks dates and other specific information are not available, the regulations for many tribal hunting seasons are described in relation to the season dates, season length, and limits that will be permitted when final Federal frameworks are announced for early- and late-season regulations. For example, daily bag and possession limits for ducks on some areas are shown as the same as permitted in Pacific Flyway States under final Federal frameworks, and limits for geese will be shown as the same permitted by the State(s) in which the tribal hunting area is located.

The proposed frameworks for early-season regulations were published in the Federal Register on July 31, 2014 (79 FR 44580); early-season final frameworks will be published in late August. Proposed late-season frameworks for waterfowl and coots will be published in mid-August, and the final frameworks for the late seasons will be published in mid-September. We will notify affected Tribes of season dates, bag limits, etc., as soon as final frameworks are established. As previously discussed, no action is required by Tribes wishing to observe migratory bird hunting regulations established by the State(s) where they are located. The proposed regulations for the 31 Tribes that meet the established criteria are shown below.

(a) Colorado River Indian Tribes, Colorado River Indian Reservation, Parker, Arizona (Tribal Members and Nontribal Hunters)

The Colorado River Indian Reservation is located in Arizona and California. The Tribes own almost all lands on the reservation, and have full wildlife management authority.

In their 2014–15 proposal, the Colorado River Indian Tribes request split dove seasons. They propose that their early season begin September 1 and end September 15, 2014. Daily bag limits would be 10 mourning or white-winged doves in the aggregate. The late season for doves is proposed to open November 8, 2014, and close December 22, 2014. The daily bag limit would be 10 mourning doves. The possession limit would be twice the daily bag limit after the first day of the season. Shooting hours would be from one-half hour before sunrise to noon in the early season and until sunset in the late season. Other special tribally set regulations would apply.

The Tribes also propose duck hunting seasons. The season would open October 17, 2014, and close January 26, 2015. The Tribes propose the same season dates for mergansers, coots, and common moorhens. The daily bag limit for ducks, including mergansers, would be seven, except that the daily bag limits could contain no more than two hen mallards, two redheads, two Mexican ducks, two goldeneye, three scaup, one pintail, two cinnamon teal, and one canvasback. The possession limit would be twice the daily bag limit after the first day of the season. The daily bag and possession limit for coots and common moorhens would be 25, singly or in the aggregate. Shooting hours would be from one-half hour before sunrise to sunset.

For geese, the Colorado River Indian Tribes propose a season of October 19, 2014, through January 20, 2015. The daily bag limit for geese would be three light geese and three dark geese. The possession limit would be six light geese and six dark geese after opening day. Shooting hours would be from one-half hour before sunrise to sunset.

In 1996, the Tribes conducted a detailed assessment of dove hunting. Results showed approximately 16,100 mourning doves and 13,600 white-winged doves were harvested by approximately 2,660 hunters who averaged 1.45 hunter-days. Field observations and permit sales indicate that fewer than 200 hunters participate in waterfowl seasons. Under the proposed regulations described here and
based upon past seasons, we and the Tribes estimate harvest will be similar. Hunters must have a valid Colorado River Indian Reservation hunting permit and a Federal Migratory Bird Stamp in their possession while hunting. Other special tribal set regulations would apply. As in the past, the regulations would apply both to tribal and nontribal hunters, and nontoxic shot is required for waterfowl hunting.

We propose to approve the Colorado River Indian Tribes regulations for the 2014–15 hunting season, given the seasons’ dates fall within final flyway frameworks (applies to nontribal hunters only).

(b) Confederated Salish and Kootenai Tribes, Flathead Indian Reservation, Pablo, Montana (Tribal and Nontribal Hunters)

For the past several years, the Confederated Salish and Kootenai Tribes and the State of Montana have entered into cooperative agreements for the regulation of hunting on the Flathead Indian Reservation. The State and the Tribes are currently operating under a cooperative agreement signed in 1990, which addresses fishing and hunting management and regulation issues of mutual concern. This agreement enables all hunters to utilize waterfowl hunting opportunities on the reservation.

As in the past, tribal regulations for nontribal hunters would be at least as restrictive as those established for the Pacific Flyway portion of Montana. Goose, duck, and coot season dates would also be at least as restrictive as those established for the Pacific Flyway portion of Montana. Hunting hours for waterfowl hunting on the Flathead Reservation are sunrise to sunset. Steel shot or other federally approved nontoxic shots are the only legal shotgun loads on the reservation for waterfowl or other game birds.

For tribal members, the Tribe proposes outside frameworks for ducks and goose of September 1, 2014, through March 9, 2015. Daily bag and possession limits were not proposed for tribal members.

The requested season dates and bag limits are similar to past regulations. Harvest levels are not expected to change significantly. Standardized check station data from the 1993–94 and 1994–95 hunting seasons indicated no significant changes in harvest levels and that the large majority of the harvest is by nontribal hunters.

We propose to approve the Tribes’ request for special migratory bird regulations for the 2014–15 hunting season.

(c) Fond du Lac Band of Lake Superior Chippewa Indians, Cloquet, Minnesota (Tribal Members Only)

Since 1996, the Service and the Fond du Lac Band of Lake Superior Chippewa Indians have cooperated to establish special migratory bird hunting regulations for tribal members. The Fond du Lac’s May 26, 2014, proposal covers land set apart for the band under the Treaties of 1837 and 1854 in northeastern and east-central Minnesota and the Band’s Reservation near Duluth. The band’s proposal for 2014–15 is essentially the same as that approved last year except for an expansion of the sandhill crane season to include both the 1854 and 1837 ceded territories only and not reservation lands. The proposed 2014–15 waterfowl hunting season regulations for Fond du Lac are as follows:

Ducks
A. 1854 and 1837 Ceded Territories: Season Dates: Begin September 13 and end November 30, 2014.

Daily Bag Limit: 18 ducks, including no more than 12 mallards (only 3 of which may be hens), 9 black ducks, 9 scaup, 9 wood ducks, 9 redheads, 9 pintails, and 9 canvasbacks.

B. Reservation:

Season Dates: Begin September 1 and end November 24, 2014.

Daily Bag Limit: 12 ducks, including no more than 8 mallards (only 2 of which may be hens), 6 black ducks, 6 scaup, 6 redheads, 6 pintails, 6 wood ducks, and 6 canvasbacks.

Mergansers
A. 1854 and 1837 Ceded Territories: Season Dates: Begin September 13 and end November 30, 2014.

Daily Bag Limit: 15 mergansers, including no more than 6 hooded mergansers.

B. Reservation:

Season Dates: Begin September 1 and end November 24, 2014.

Daily Bag Limit: 10 mergansers, including no more than 4 hooded mergansers.

Canada Geese
A. 1854 and 1837 Ceded Territories: Season Dates: Begin September 13 and end November 30, 2014.

Daily Bag Limit: 20 goose.

B. Reservation:

Season Dates: Begin September 1 and end November 24, 2014.

Daily Bag Limit: 20 goose.

Sandhill Cranes: 1854 and 1837 Ceded Territories Only
Season Dates: Begin September 1 and end November 30, 2014.

Daily Bag Limit: One sandhill crane. A crane carcass tag is required prior to hunting.

Coots and Common Moorhens (Common Gallinules)
A. 1854 and 1837 Ceded Territories: Season Dates: Begin September 13 and end November 30, 2014.

Daily Bag Limit: 20 coots and common moorhens, singly or in the aggregate.

B. Reservation:

Season Dates: Begin September 1 and end November 24, 2014.

Daily Bag Limit: 20 coots and common moorhens, singly or in the aggregate.

Sora and Virginia Rails: All Areas
A. 1854 and 1837 Ceded Territories: Season Dates: Begin September 1 and end November 30, 2014.

Daily Bag Limit: 25 sora and Virginia rails, singly or in the aggregate.

B. Reservation:

Season Dates: Begin September 1 and end November 24, 2014.

Daily Bag Limit: Eight common snipe.

Woodcock
A. 1854 and 1837 Ceded Territories: Season Dates: Begin September 1 and end November 30, 2014.

Daily Bag Limit: Three woodcock.

B. Reservation:

Season Dates: Begin September 1 and end November 25, 2014.

Daily Bag Limit: Three woodcock.

Mourning Dove
A. 1854 and 1837 Ceded Territories: Season Dates: Begin September 1 and end November 30, 2014.

Daily Bag Limit: 30 mourning doves.

B. Reservation:

Season Dates: Begin September 1 and end October 30, 2014.

Daily Bag Limit: 30 mourning doves.

The following general conditions apply:
1. While hunting waterfowl, a tribal member must carry on his/her person a valid Ceded Territory License.
2. Shooting hours for migratory birds are one-half hour before sunrise to one-half hour after sunset.
3. Except as otherwise noted, tribal members will be required to comply
with tribal codes that will be no less restrictive than the provisions of Chapter 10 of the Model Off-Reservation Code. Except as modified by the Service rules adopted in response to this proposal, these amended regulations parallel Federal requirements in 50 CFR part 20 as to hunting methods, transportation, sale, exportation, and other conditions generally applicable to migratory bird hunting.

4. Band members in each zone will comply with State regulations providing for closed and restricted waterfowl hunting areas.

5. There are no possession limits for migratory birds. For purposes of enforcing bag limits, all migratory birds in the possession or custody of band members on ceded lands will be considered to have been taken on those lands unless tagged by a tribal or State conservation warden as having been taken on-reservation. All migratory birds that fall on reservation lands will not count as part of any off-reservation bag or possession limit.

The band anticipates harvest will be fewer than 500 ducks and geese, and fewer than 10 sandhill cranes.

We propose to approve the request for special migratory bird hunting regulations for the Fond du Lac Band of Lake Superior Chippewa Indians.

(d) Grand Traverse Band of Ottawa and Chippewa Indians, Suttons Bay, Michigan (Tribal Members Only)

In the 1995–96 migratory bird seasons, the Grand Traverse Band of Ottawa and Chippewa Indians and the Service first cooperated to establish special regulations for waterfowl. The Grand Traverse Band is a self-governing, federally recognized Tribe located on the west arm of Grand Traverse Bay in Leelanau County, Michigan. The Grand Traverse Band is a signatory Tribe of the Treaty of 1836. We have approved special regulations for tribal members of the 1836 treaty’s signatory Tribes on ceded lands in Michigan since the 1986–87 hunting season.

For the 2014–15 season, the Tribe requests that the tribal member duck season run from September 15, 2014, through January 15, 2015. A daily bag limit of 20 would include no more than 5 pintail, 5 canvasback, 1 hooded merganser, 5 black ducks, 5 wood ducks, 3 redheads, and 9 mallards (only 4 of which may be hens).

For Canada and snow geese, the Tribe proposes a September 1 through November 30, 2014, and a January 1 through February 8, 2015, season. For white-fronted geese and brant, the Tribe proposes a September 20 through November 30, 2014, season. The daily bag limit for Canada and snow goose would be 10, and the daily bag limit for white-fronted geese and including brant would be 5 birds. We further note that, based on available data (of major goose migration routes), it is unlikely that any Canada geese from the Southern James Bay Population will be harvested by the Tribe.

For woodcock, the Tribe proposes a September 1 through November 14, 2014, season. The daily bag limit will not exceed five birds. For mourning doves, snipe, and rails, the Tribe proposes a September 1 through November 14, 2014, season. The daily bag limit would be 10 per species.

All other Federal regulations contained in 50 CFR part 20 would apply. The Tribe proposes to monitor harvest closely through game bag checks, patrols, and mail surveys. Harvest surveys from the 2013–14 hunting season indicated that approximately 30 tribal hunters harvested an estimated 100 ducks and 45 Canada geese.

We propose to approve the Grand Traverse Band of Ottawa and Chippewa Indians 2014–15 special migratory bird hunting proposal.

(e) Great Lakes Indian Fish and Wildlife Commission, Odanah, Wisconsin (Tribe Members Only)

Since 1985, various bands of the Lake Superior Tribe of Chippewa Indians have exercised judicially recognized, off-reservation hunting rights for migratory birds in Wisconsin. The specific regulations were established by the Service in consultation with the Wisconsin Department of Natural Resources and the Great Lakes Indian Fish and Wildlife Commission (GLIFWC) (GLIFWC is an intertribal agency exercising delegated natural resource management and regulatory authority from its member Tribes in portions of Wisconsin, Michigan, and Minnesota). Beginning in 1986, a Tribal season on ceded lands in the western portion of the Michigan Upper Peninsula was developed in coordination with the Michigan Department of Natural Resources. We have approved regulations for Tribal members in both Michigan and Wisconsin since the 1986–87 hunting season. In 1987, GLIFWC requested, and we approved, regulations to permit Tribal members to hunt on ceded lands in Minnesota, as well as in Michigan and Wisconsin. The States of Michigan and Wisconsin originally concurred with the regulations, although both Wisconsin and Michigan have raised various concerns over the years. Minnesota did not concur with the original regulations, stressing that the State would not recognize Chippewa Indian hunting rights in Minnesota’s treaty area until a court with jurisdiction over the State acknowledges and defines the extent of these rights. In 1999, the U.S. Supreme Court upheld the existence of the tribes’ treaty reserved rights in Minnesota v. Mille Lacs Band, 199 S.Ct. 1187 (1999).

We acknowledge all of the States’ concerns, but point out that the U.S. Government has recognized the Indian treaty reserved rights and that acceptable hunting regulations have been successfully implemented in Minnesota, Michigan, and Wisconsin. Consequently, in view of the above, we have approved regulations since the 1987–88 hunting season on ceded lands in all three States. In fact, this recognition of the principle of treaty reserved rights for band members to hunt and fish was pivotal in our decision to approve a 1991–92 season for the 1836 ceded area in Michigan.

Since then, in the 2007 Consent Decree for the 1836 Treaty Tribes’ and Michigan Department of Natural Resources and Environment established court-approved regulations pertaining to off-reservation hunting rights for migratory birds.

For 2014, the GLIFWC proposes off-reservation special migratory bird hunting regulations on behalf of the member Tribes of the Voigt Intertribal Task Force of the GLIFWC (for the 1837 and 1842 Treaty areas in Wisconsin and Michigan), the Mille Lacs Band of Ojibwe and the six Wisconsin Bands (for the 1837 Treaty area in Minnesota), and the Bay Mills Indian Community (for the 1836 Treaty area in Michigan). Member Tribes of the Task Force are: the Bad River Band of the Lake Superior Tribe of Chippewa Indians, the Lac Courte Oreilles Band of Lake Superior Chippewa Indians, the Lac du Flambeau Band of Lake Superior Chippewa Indians, the Red Cliff Band of Lake Superior Chippewa Indians, the St. Croix Chippewa Indians of Wisconsin, and the Sokaogon Chippewa Community (Mole Lake Band), all in Wisconsin; the Mille Lacs Band of Chippewa Indians and the Fond du Lac Band of Lake Superior Chippewa Indians in Minnesota; and the Lac Vieux Desert Band of Chippewa Indians and the Keweenaw Bay Indian Community in Michigan.

The GLIFWC 2014 proposal has several significant changes from regulations approved last season. In the 1837 and 1842 Treaty Areas, the GLIFWC proposal would allow the use of electronic calls; would extend shooting hours to 40 minutes before
sunrise and after sunset in the 1837 and 1842 ceded territories; would allow the first hunting season of swans; and would remove restrictions on the use and placement of (non-living) decoys in Wisconsin.

GLIFWC states that the proposed regulatory changes are intended to provide tribal members a harvest opportunity within the scope of rights reserved in their various treaties and increase tribal subsistence harvest opportunities, while protecting migratory bird populations. Under the GLIFWC’s proposed regulations, GLIFWC expects total ceded territory harvest to be approximately 1,650 ducks, 375 geese, 20 sandhill cranes, and 20 swans, which is roughly similar to anticipated levels in previous years for those species for which seasons were established. GLIFWC further anticipates that tribal harvest will remain low given the small number of tribal hunters and the limited opportunity to harvest more than a small number of birds on most hunting trips.

Recent GLIFWC harvest surveys (1996–98, 2001, 2004, and 2007–08, 2011, and 2012) indicate that tribal off-reservation waterfowl harvest has averaged fewer than 1,100 ducks and 250 geese annually. In the latest survey year for which we have specific results (2012), an estimated 86 hunters took an estimated 1,090 trips and harvested 1,799 ducks (1.7 ducks per trip) and 822 geese. Analysis of hunter survey data over 1996–2012 indicates a general downward trend in both harvest and hunter participation. While we acknowledge that tribal harvest and participation has declined in recent years, we do not believe that some of the GLIFWC’s proposal for tribal waterfowl seasons on ceded lands in Wisconsin, Michigan, and Minnesota for the 2014–15 season is in the best interest of the conservation of migratory birds. More specific discussion follows below.

Allowing Electronic Calls

As we have stated the last three years (76 FR 54676, September 1, 2011; 77 FR 54451, September 5, 2012; 78 FR 53218, August 28, 2013), the issue of allowing electronic calls and other electronic devices for migratory game bird hunting has been highly debated and highly controversial over the last 40 years, similar to other prohibited hunting methods such as baiting. Electronic calls, i.e., the use or aid of recorded or electronic amplified bird calls or sounds, or recorded or electrically amplified imitations of bird calls or sounds to corral or attract migratory game birds to hunters, was Federally prohibited in 1957, because of their effectiveness in attracting and aiding the harvest of ducks and geese and are generally not considered a legitimate component of hunting. In 1999, after much debate, the migratory bird regulations were revised to allow the use of electronic calls for the take of light geese (lesser snow geese and Ross geese) during a light-goose-only season when all other waterfowl and crane hunting seasons, excluding falconry, were closed (64 FR 7507, February 16, 1999; 64 FR 71236, December 20, 1999; 73 FR 65926, November 5, 2008). The regulations were also changed in 2006, to allow the use of electronic calls for the take of resident Canada goose during Canada-goose-only September seasons when all other waterfowl and crane seasons, excluding falconry, were closed (71 FR 45964, August 10, 2006). In both instances, these changes were made in order to significantly increase the harvest of these species due to either serious population overabundance, depredation issues, or public health and safety issues, or a combination of these. Available information from the use of additional hunting methods, such as electronic calls, during the special light-goose seasons indicate that total harvest increased approximately 50 to 69 percent. On specific days when light-goose special regulations were in effect, the mean light goose harvest increased 244 percent. One research study found that lesser snow goose flocks were 5.0 times more likely to fly within gun range (550 meters) in response to electronic calls than to traditional calls, and the mean number of snow geese killed per hour per hunter averaged 9.1 times greater for electronic calls than for traditional calls. While these results are only directly applicable to light geese, we believe these results are applicable to most waterfowl species, and indicative of some likely adverse harvest impacts on other geese and ducks.

Removal of the electronic call prohibition would be inconsistent with our long-standing conservation concerns. Given the available evidence on the effectiveness of electronic calls, and the large biological uncertainty surrounding any widespread use of electronic calls, we believe the potential for overharvest could contribute to long-term population declines. Further, migratory patterns could be affected, and it is possible that hunter participation could increase beyond GLIFWC’s estimates (50 percent) and could result in additional conservation impacts, particularly on locally breeding populations. Thus, we continue to not support allowing the use of electronic calls in the 1837 and 1842 Treaty Areas.

Additionally, given the fact that tribal waterfowl hunting covered by this proposal would occur on ceded lands that are not in the ownership of the Tribes, we believe the use of electronic calls to take waterfowl would lead to confusion on the part of the public, wildlife-management agencies, and law enforcement officials in implementing the requirements of 50 CFR part 20. Further, similar to the impacts of baiting, uncertainties concerning the zone of influence attributed to the use of electronic calls could potentially increase harvest from nontribal hunters operating within areas electronic calls are being used during the dates of the general hunt, thereby posing risks to the migratory patterns and distribution of migratory waterfowl.

Lastly, we remind GLIFWC that electronic calls generally are permitted for the take of resident Canada goose during Canada-goose-only September seasons when all other waterfowl and crane seasons are closed (generally September 1–15 in the areas in question). However, in the case of GLIFWC’s proposed seasons, electronic calls could be not used since GLIFWC has elected a September 1 duck season opener. This specific regulatory change was implemented in 2006, in order to significantly control resident Canada goose due to widespread population overabundance, depredation issues, and public health and safety issues.

Expanded Shooting Hours

Normally, shooting hours for migratory game birds are one-half hour before sunrise to sunset. A number of reasons and concerns have been cited for extending shooting hours past sunset. Potential impacts to some locally breeding populations (e.g., wood ducks), hunter safety, difficulty of identifying birds, retrieval of downed birds, and impacts on law enforcement are some of the normal concerns raised when discussing potential expansions of shooting hours. However, despite these concerns, in 2007, we supported the expansion of shooting hours by 15 minutes after sunset in the 1837, 1842, and 1836 Treaty Areas (72 FR 58452, October 15, 2007). We had previously supported this expansion in other tribal areas and have not been made aware of any wide-scale problems. Further, at that time, we believed that the continuation of a specific species restriction within the daily bag limit for mallards, and the implementation of a species restriction within the daily bag limit for wood ducks, would allow potential conservation concerns for these species. We supported the increase with the understanding that the
Tribal hunting on federal lands is an area of high trumpeter swan use due to the large numbers of trumpeter swans that use the Great Lakes. These swans migrate into and through the Great Lakes region, and the current federal swan regulations provide a harvest only when necessary to maintain the species at an abundance compatible with the existing population in the Great Lakes. These regulations are currently applicable to the Wisconsin Ceded Territory (WCT), which includes the 1837 Treaty Area, the 1842 Treaty Area, and the 1836 Treaty Area.

We believe that the use of unattended decoys to attract waterfowl can be detrimental to the species, particularly on public lands. GLIFWC proposes allowing unattended decoys on tribal lands, which we believe could lead to confusion and frustration on the part of the public, hunters, and law enforcement officials due to the inherent difficulties of different sets of hunting regulations for different areas and groups of hunters. We have included GLIFWC’s proposed language regarding the restriction in their General Conditions portion of their proposed regulations as a courtesy, we view this issue as a Tribal–State issue, and the Service takes no position on it in this proposed rule.

The proposed 2014–15 waterfowl hunting season regulations apply to all treaty areas (except where noted) for GLIFWC as follows:

**Ducks**
- **Season Dates:** Begin September 1 and end December 31, 2014.
- **Daily Bag Limit:** 50 ducks in the 1837 and 1842 Treaty Area; 30 ducks in the 1836 Treaty Area.

**Mergansers**
- **Season Dates:** Begin September 1 and end December 31, 2014.
- **Daily Bag Limit:** 10 mergansers.

**Geese**
- **Season Dates:** Begin September 1 and end December 31, 2014. In addition, any portion of the ceded territory that is open to State-licensed hunters for goose hunting outside of these dates will also be open concurrently for tribal members.
- **Daily Bag Limit:** 20 geese in aggregate.

**Other Migratory Birds**
- **A. Coots and Common Moorhens (Common Gallinules):**
  - **Season Dates:** Begin September 1 and end December 31, 2014.
  - **Daily Bag Limit:** 20 coots and common Moorhens (common gallinules), singly or in the aggregate.
- **B. Sora and Virginia Rails:**
  - **Season Dates:** Begin September 1 and end December 31, 2014.
  - **Daily Bag and Possession Limits:** 20, singly, or in the aggregate, 25.
- **C. Common Snipe:**
  - **Season Dates:** Begin September 1 and end December 31, 2014.
  - **Daily Bag Limit:** 16 common snipe.
- **D. Woodcock:**
  - **Season Dates:** Begin September 2 and end December 31, 2014.
  - **Daily Bag Limit:** 10 woodcock.
- **E. Mourning Dove:**
  - **Season Dates:** Begin September 1 and end November 9, 2014.
Daily Bag Limit: 15 mourning doves.
F. Sandhill Cranes: 1837 and 1842
Ceded Territories only.
Season Dates: Begin September 1 and end December 31, 2014.
Daily Bag Limit: 2 cranes.
G. Swans: 1837 and 1842 Ceded Territories only.
Season Dates: Begin November 1 and end December 31, 2014.
Daily Bag Limit: 2 swans. All harvested swans must be registered by
presenting the fully-feathered carcass to a tribal registration station or GLIFWC
warden. If the total number of trumpeter
swans harvested reaches 10, the swan
season will be closed by emergency
tribal rule.

General Conditions
A. All tribal members will be required
to obtain a valid tribal waterfowl
hunting permit.
B. Except as otherwise noted, tribal
members will be required to comply
with tribal codes that will be no less
restrictive than the model ceded
territory conservation codes approved
by Federal courts in the Lac Courte
Oreilles v. State of Wisconsin (Voigt)
and Mille Lacs Band v. State of
Minnesota cases. Chapter 10 in each of
these model codes regulates ceded
territory migratory bird hunting. Both
versions of Chapter 10 parallel Federal
requirements as to hunting methods,
transportation, sale, exportation, and
other conditions generally applicable to
migratory bird hunting. They also
automatically incorporate by reference
the Federal migratory bird regulations
adopted in response to this proposal.
C. Particular regulations of note
include:
1. Nontoxic shot will be required for
all waterfowl hunting by tribal
members.
2. Tribal members in each zone will
comply with tribal regulations
providing for closed and restricted
waterfowl hunting areas. These
regulations generally incorporate the
same restrictions contained in parallel
State regulations.
3. There are no possession limits,
with the exception of 2 swans (in the
aggregate) and 25 rails (in the aggregate).
For purposes of enforcing bag limits, all
migratory birds in the possession and
custody of tribal members on ceded
lands will be considered to have been
taken on those lands unless tagged by a
tribal or State conservation warden as
taken on reservation lands. All
migratory birds that fall on reservation
lands will not count as part of any off-
reservation bag or possession limit.
4. The baiting restrictions included in the
respective section 10.05(2)(h) of the
model ceded territory conservation
codes will be amended to include
language which parallels that in place
for nontribal members as published at
64 FR 29799, June 3, 1999.
5. The shell limit restrictions
included in the respective section
10.05(2)(h) of the model ceded territory
conservation codes will be removed.
6. Hunting hours shall be from a half
hour before sunrise to 30 minutes after
sunset.

Waterfowl Seasons:
A. Michigan: Tribal members hunting
in Michigan will comply with duck
blind and decoy regulations contained in
the tribal conservation codes listed
above under item 4, except that
unattended decoys can be kept out
overnight in the Michigan portion of the
1842 ceded territory.
B. Wisconsin: Tribal members hunting
in Wisconsin will comply with duck
blind and decoy regulations contained in
the tribal conservation codes listed
above under item 4, but there shall be no
restrictions on decoy use except for the
prohibition on using live decoys.
We propose to approve the above
GLIFWC regulations for the 2014–15
hunting season.

(f) Jicarilla Apache Tribe, Jicarilla
Indian Reservation, Dulce, New Mexico
(Tribal Members and Nontribal Hunters)
The Jicarilla Apache Tribe has had
special migratory bird hunting
regulations for tribal members and
nonmembers since the 1986–87 hunting
season. The Tribe owns all lands on the
reservation and has recognized full
wildlife management authority. In
general, the proposed seasons would be
more conservative than allowed by the
Federal frameworks of last season and
by States in the Pacific Flyway.
The Tribe proposes a 2014–15
waterfowl and Canada goose season
beginning October 11, 2014, and a
closing date of November 30, 2014.
Daily bag and possession limits for
waterfowl would be the same as Pacific
Flyway States. The Tribe proposes a
daily bag limit of two Canada geese.
Other regulations specific to the Pacific
Flyway guidelines for New Mexico
would be in effect.
During the Jicarilla Game and Fish
Department’s 2012–13 season, estimated
duck harvest was 132, which is within
the historical harvest range. The species
composition included mainly mallards,
northern shoveler, gadwall, American
wigeon, and teal. The estimated harvest
of geese was 9 birds.
The proposed regulations are
essentially the same as were established
last year. The Tribe anticipates the
maximum 2014–15 waterfowl harvest
would be around 300 ducks and 30
goose.
We propose to approve the Tribe’s
requested 2014–15 hunting seasons.
(g) Kalispel Tribe, Kalispel Reservation,
Usk, Washington (Tribal Members and
Nontribal Hunters) The Kalispel Reservation
was established by Executive Order in 1914,
and currently comprises approximately
4,600 acres. The Tribe owns all
Reservation land and has been granted
management authority. The Kalispel
Tribe has a fully developed wildlife
management program with hunting and fishing
codes. The Tribe enjoys excellent
wildlife management relations with the
State. The Tribe and the State have an
operational memorandum of
understanding with emphasis on
fisheries but also for wildlife.
For the 2014–15 migratory bird
hunting seasons, the Kalispel Tribe
proposes tribal and nontribal member
waterfowl seasons. The Tribe requests
that both duck and goose seasons open
at the earliest possible date and close on
the latest date under Federal
frameworks.
For nontribal hunters on reservation,
the Tribe requests the seasons open at
the earliest possible date and remain
open, for the maximum amount of open
days. Specifically, the Tribe requests
that the season for ducks begin
September 20, 2014, and end September
22, 2014, open again beginning
September 27, and end September 29,
2014, and then begin October 1, 2014,
and end January 20, 2015. In that
period, nontribal hunters would be
allowed to hunt approximately 103
days. Hunters should obtain further
information on specific hunt days from
the Kalispel Tribe.
For nontribal hunters on reservation,
the Tribe also requests the season for
goose run from September 6 to
September 14, 2014, and from October
1, 2014, to January 20, 2015. Total
number of days should not exceed 107.
Nontribal hunters should obtain further
information on specific hunt days from
the Tribe. Daily bag and possession limits would be the same as those for the State of Washington.

The Tribe reports past nontribal harvest of 1.5 ducks per day. Under the proposal, the Tribe expects harvest to be similar to last year, that is, fewer than 100 geese and 200 ducks.

All other State and Federal regulations contained in 50 CFR part 20, such as use of nontoxic shot and possession of a signed migratory bird hunting stamp, would be required. For tribal members on Kalispel-ceded lands, the Kalispel Tribe proposes season dates for ducks of September 20, 2014, through January 20, 2015, and for geese of September 6, 2014, through January 20, 2015. Daily bag and possession limits would parallel those in the Federal regulations contained in 50 CFR part 20.

The Tribe reports that there was no tribal harvest. Under the proposal, the Tribe expects harvest to be fewer than 200 birds for the season with fewer than 100 geese members would be required to possess a signed Federal migratory bird stamp and a tribal ceded lands permit.

We propose to approve the regulations requested by the Kalispel Tribe, provided that the nontribal seasons conform to Treaty limitations and final Federal frameworks for the Pacific Flyway.

(h) Klamath Tribe, Chiloquin, Oregon (Tribal Members Only)

The Klamath Tribe currently has no reservation, per se. However, the Klamath Tribe has reserved hunting, fishing, and gathering rights within its former reservation boundary. This area of former reservation, granted to the Klamaths by the Treaty of 1864, is over 1 million acres. Tribal natural resource management authority is derived from the Treaty of 1864, and carried out cooperatively under the judicially enforced Consent Decree of 1981. The parties to this Consent Decree are the Federal Government, the State of Oregon, and the Klamath Tribe. The Klamath Indian Game Commission sets the seasons. The tribal biological staff and tribal regulatory enforcement officers monitor tribal harvest by frequent bag checks and hunter interviews.

For the 2014–15 season, we have not yet heard from the Tribe; however, the Tribe usually requests proposed season dates of October 1, 2014, through January 31, 2015. Daily bag limits would be 9 for ducks, 9 for geese, and 9 for most species. Possession limits would be twice the daily bag limit. Shooting hours would be one-half hour before sunrise to one-half hour after sunset. Steel shot is required.

Based on the number of birds produced in the Klamath Basin, this year’s harvest would be similar to last year’s. Information on tribal harvest suggests that more than 70 percent of the annual goose harvest is local birds produced in the Klamath Basin.

If we receive a proposal that matches the Tribe’s usual request, we propose to approve those 2014–15 special migratory bird hunting regulations.

(i) Leech Lake Band of Ojibwe, Cass Lake, Minnesota (Tribal Members Only)

The Leech Lake Band of Ojibwe is a federally recognized Tribe located in Cass Lake, Minnesota. The reservation employs conservation officers to enforce conservation regulations. The Service and the Tribe have cooperatively established migratory bird hunting regulations since 2000.

For the 2014–15 season, the Tribe requests a duck season starting on September 13 and ending December 31, 2014, and a goose season to run from September 1 through December 31, 2014. Daily bag limits for ducks would be 10, including no more than 5 pintail, 5 canvasback, and 5 black ducks. Daily bag limits for geese would be 10.

Possession limits would be twice the daily bag limit. Shooting hours are one-half hour before sunrise to one-half hour after sunset.

The annual harvest by tribal members on the Leech Lake Reservation is estimated at 250 to 500 birds.

We propose to approve the Leech Lake Band of Ojibwe’s requested 2014–15 special migratory bird hunting season.

(j) Little River Band of Ottawa Indians, Manistee, Michigan (Tribal Members Only)

The Little River Band of Ottawa Indians is a self-governing, federally recognized Tribe located in Manistee, Michigan, and a signatory Tribe of the Treaty of 1836. We have approved special regulations for tribal members of the 1836 treaty’s signatory Tribes on ceded lands.

For snipe, woodcock, rails, and mourning doves, the Tribe proposes a September 1 to November 14, 2014, season. Daily bag limits would be 10 common snipe, 5 woodcock, 10 rails, and 10 mourning doves. Possession limits for all species would be twice the daily bag limit.

The Tribe monitors harvest through mail surveys. General conditions are as follows:

A. All tribal members will be required to obtain a valid tribal resource card and 2014–15 hunting license.

B. Except as modified by the Service rules adopted in response to this proposal, these amended regulations parallel all Federal regulations contained in 50 CFR part 20.

C. Particular regulations of note include:

(1) Nontoxic shot will be required for all waterfowl hunting by tribal members.

(2) Tribal members in each zone will comply with tribal regulations providing for closed and restricted waterfowl hunting areas. These regulations generally incorporate the same restrictions contained in parallel State regulations.

D. Tribal members hunting in Michigan will comply with tribal codes that contain provisions parallel to Michigan law regarding duck blinds and decoys.

We plan to approve Little River Band of Ottawa Indians’ requested 2014–15 special migratory bird hunting seasons.

(k) The Little Traverse Bay Bands of Odawa Indians, Petoskey, Michigan (Tribal Members Only)

The Little Traverse Bay Bands of Odawa Indians (LTBB) is a self-governing, federally recognized Tribe located in Petoskey, Michigan, and a signatory Tribe of the Treaty of 1836.

We have approved special regulations for tribal members of the 1836 treaty’s signatory Tribes on ceded lands in Michigan since the 1986–87 hunting season.
For the 2014–15 season, the Little Traverse Bay Bands of Odawa Indians propose regulations similar to those of other Tribes in the 1836 treaty area. LTBB proposes the regulations to govern the hunting of migratory birds by tribal members on the LTBB reservation and within the 1836 Treaty Ceded Territory. The tribal member duck and merganser season would run from September 15, 2014, through January 31, 2015. A daily bag limit of 20 ducks and 10 mergancers would include no more than 5 hen mallards, 5 pintail, 5 canvasback, 5 scaup, 5 hooded merganser, 5 black ducks, 5 wood ducks, and 5 redheads.

For Canada geese, the LTBB proposes a September 1, 2014, through February 8, 2015, season. The daily bag limit for Canada geese would be 20 birds. We further note that, based on available data (of major goose migration routes), it is unlikely that any Canada geese from the Southern James Bay Population would be harvested by the LTBB. Possession limits are twice the daily bag limit.

For woodcock, the LTBB proposes a September 1 to December 1, 2014, season. The daily bag limit will not exceed 10 birds. For snipe, the LTBB proposes a September 1 to December 31, 2014, season. The daily bag limit will not exceed 16 birds. For mourning doves, the LTBB proposes a September 1 to November 14, 2014, season. The daily bag limit will not exceed 15 birds. For Virginia and sora rails, the LTBB proposes a September 1 to December 31, 2014, season. The daily bag limit will not exceed 20 birds per species. For coots and gallinules, the LTBB proposes a September 15 to December 31, 2014, season. The daily bag limit will not exceed 20 birds per species. The possession limit will not exceed 2 days’ bag limit for all birds.

The LTBB also proposes a sandhill crane season to begin September 1 and end December 1, 2014. The daily bag limit will not exceed one bird. The possession limit will not exceed two times the bag limit.

All other Federal regulations contained in 50 CFR part 20 would apply.

Harvest surveys from 2013–14 hunting season indicated that approximately 13 hunters harvested 7 different waterfowl species. The LTBB proposes to monitor harvest closely through game bag checks, patrols, and mail surveys. In particular, the LTBB proposes monitoring the harvest of Southern James Bay Canada geese and sandhill cranes to assess any impacts of tribal hunting on the population.

We propose to approve the Little Traverse Bay Bands of Odawa Indians’ requested 2014–15 special migratory bird hunting regulations.

(l) Lower Brule Sioux Tribe, Lower Brule Reservation, Lower Brule, South Dakota (Tribal Members and Nontribal Hunters)

The Lower Brule Sioux Tribe first established tribal migratory bird hunting regulations for the Lower Brule Reservation in 1994. The Lower Brule Reservation is about 214,000 acres in size and is located on and adjacent to the Missouri of Pierre. Land ownership on the reservation is mixed, and until recently, the Lower Brule Tribe had full management authority over fish and wildlife via a memorandum of agreement (MOA) with the State of South Dakota. The MOA provided the Tribe jurisdiction over fish and wildlife on reservation lands, including deeded and U.S. Army Corps of Engineers-taken lands. For the 2014–15 season, the two parties have come to an agreement that provides the public a clear understanding of the Lower Brule Sioux Wildlife Department license requirements and hunting season regulations. The Lower Brule Reservation waterfowl season is open to tribal and nontribal hunters.

For the 2014–15 migratory bird hunting season, the Lower Brule Sioux Tribe proposes a nontribal member duck, merganser, and coot season length of 107 days, or the maximum number of days allowed by Federal frameworks in the High Plains Management Unit for this season. The Tribe proposes a duck season from October 11, 2014, through January 15, 2015. The daily bag limit would be six birds or maximum amount federal regulations allow, including no more than two hen mallard and five mallards total, two pintail, two redhead, two canvasback, three wood duck, three scaup, and one mottled duck. The daily bag limit for mergansers would be five, only two of which could be a hooded merganser. The daily bag limit for coots would be 15. Possession limits would be three times the daily bag limit.

The Tribe’s proposed light goose tribal season would run from September 1, 2014, through March 10, 2015, and March 11, 2015 through May 3, 2015. The light goose daily bag limit would be 20 or the maximum that Federal regulations allow, with no possession limits.

In the 2012–13 season, non-tribal members harvested 414 geese and 658 ducks. In the 2012–13 season, duck harvest species composition was primarily mallard (69 percent), gadwall, and green-winged teal (10 percent each).

The Tribe anticipates a duck harvest similar to those of the previous 3 years and a goose harvest below the target harvest level of 3,000 to 4,000 geese. All basic Federal regulations contained in 50 CFR part 20, including the use of nontoxic shot, Migratory Waterfowl Hunting and Conservation Stamps, etc., would be observed by the Tribe’s proposed regulations. In addition, the Lower Brule Sioux Tribe has an official Conservation Code that was established by Tribal Council Resolution in June 1982 and updated in 1996.

We plan to approve the Tribe’s requested regulations for the Lower Brule Reservation given that the seasons’ dates fall within final Federal flyway frameworks (applies to nontribal hunters only).

(m) Lower Elwha Klallam Tribe, Port Angeles, Washington (Tribal Members Only)

Since 1996, the Service and the Point No Point Treaty Tribes, of which Lower Elwha was one, have cooperated to
establish special regulations for migratory bird hunting. The Tribes are now acting independently, and the Lower Elwha Klallam Tribe would like to establish migratory bird hunting regulations for tribal members for the 2014–15 season. The Tribe has a reservation on the Olympic Peninsula in Washington State and is a successor to the signatories of the Treaty of Point No Point of 1855.

For the 2014–15 season, the Lower Elwha Klallam Tribe requests special migratory bird hunting regulations for ducks (including mergansers), geese, coots, band-tailed pigeons, snipe, and mourning doves. The Lower Elwha Klallam Tribe requests a duck and coot season from September 13, 2014, to January 4, 2015. The daily bag limit will be seven ducks, including no more than two hen mallards, one pintail, one canvasback, and two redheads. The daily bag and possession limit on harlequin duck will be one per season. The coot daily bag limit will be 25. The possession limit will be twice the daily bag limit, except as noted above.

For geese, the Tribe requests a season from September 13, 2014, to January 4, 2015. The daily bag limit will be four, including no more than three light geese. The season on Aleutian Canada geese will be closed.

For brant, the Tribe proposes to close the season.

For mourning doves, band-tailed pigeon, and snipe, the Tribe requests a season from September 1, 2014, to January 11, 2015, with a daily bag limit of 10, 2, and 8, respectively. The possession limit will be twice the daily bag limit.

All Tribal hunters authorized to hunt migratory birds are required to obtain a tribal hunting permit from the Lower Elwha Klallam Tribe pursuant to tribal law. Hunting hours would be from one-half hour before sunrise to sunset. Only steel, tungsten-iron, tungsten-polymer, tungsten-matrix, and tin shot are allowed for hunting waterfowl. It is unlawful to use or possess lead shot while hunting waterfowl.

The Tribe typically anticipates harvest to be fewer than 10 birds. Tribal reservation police and Tribal fisheries enforcement officers have the authority to enforce these migratory bird hunting regulations.

The Service proposes to approve the request for special migratory bird hunting regulations for the Lower Elwha Klallam Tribe.

(n) Makah Indian Tribe, Neah Bay, Washington (Tribal Members Only)

The Makah Indian Tribe and the Service have been cooperating to establish special regulations for migratory game birds on the Makah Reservation and traditional hunting land off the Makah Reservation since the 2001–02 hunting season. Lands off the Makah Reservation are those contained within the boundaries of the State of Washington Game Management Units 601–603.

The Makah Indian Tribe proposes a duck and coot hunting season from September 27, 2014, to January 25, 2015. The daily bag limit is seven ducks, including no more than five mallards (only two hen mallard), one canvasback, one pintail, three scap, and one redhead. The daily bag limit for coots is 25. The Tribe has a year-round closure on wood ducks and harlequin ducks. Shooting hours for all species of waterfowl are one-half hour before sunrise to sunset.

For geese, the Tribe proposes that the season open on September 27, 2014, and close January 25, 2015. The daily bag limit for geese is four and one brant. The Tribe notes that there is a year-round closure on Aleutian and dusky Canada geese.

For band-tailed pigeons, the Tribe proposes that the season open September 13, 2014, and close October 26, 2014. The daily bag limit for band-tailed pigeons is two.

The Tribe anticipates that harvest under this regulation will be relatively low since there are no known dedicated waterfowl hunters and any harvest of waterfowl or band-tailed pigeons is usually incidental to hunting for other species, such as deer, elk, and bear. The Tribe expects fewer than 50 ducks and 10 geese to be harvested during the 2014–15 migratory bird hunting season. All other Federal regulations contained in 50 CFR part 20 would apply. The following restrictions are also usually proposed by the Tribe:

1. As per Makah Ordinance 44, only shotguns may be used to hunt any species of waterfowl. Additionally, shotguns must not be discharged within 0.25 miles of an occupied area.
2. Hunters must be eligible, enrolled Makah tribal members and must carry their Indian Treaty Fishing and Hunting Identification Card while hunting. No tags or permits are required to hunt waterfowl.
3. The Cape Flattery area is open to waterfowl hunting, except in designated wilderness areas, or within 1 mile of Cape Flattery Trail, or in any area that is closed to hunting by another ordinance or regulation.
4. The use of live decoys and/or baiting to pursue any species of waterfowl is prohibited.
5. Steel or bismuth shot only for waterfowl is allowed; the use of lead shot is prohibited.
6. The use of dogs is permitted to hunt waterfowl.

The Service proposes to approve the Makah Indian Tribe’s requested 2014–15 special migratory bird hunting regulations.

(o) Navajo Nation, Navajo Indian Reservation, Window Rock, Arizona (Tribal Members and Nontribal Hunters)

Since 1985, we have established uniform migratory bird hunting regulations for tribal members and nonmembers on the Navajo Indian Reservation (in parts of Arizona, New Mexico, and Utah). The Navajo Nation owns almost all lands on the reservation and has full wildlife management authority.

For the 2014–15 season, the Tribe requests the earliest opening dates and longest duck, mergansers, Canada geese and coots seasons, and the same daily bag and possession limits allowed to Pacific Flyway States under final Federal frameworks for tribal and non-tribal members.

For both mourning dove and band-tailed pigeons, the Navajo Nation proposes seasons of September 1 through September 30, 2014, with daily bag limits of 10 and 5, respectively. Possession limits would be twice the daily bag limits.

The Nation requires tribal members and nonmembers to comply with all basic Federal migratory bird hunting regulations in 50 CFR part 20 pertaining to shooting hours and manner of taking. In addition, each waterfowl hunter 16 years of age or over must carry on his/her person a valid Migratory Bird Hunting and Conservation Stamp (Duck Stamp), which must be signed in ink across the face. Special regulations established by the Navajo Nation also apply on the reservation.

The Tribe anticipates a total harvest of fewer than 500 mourning doves; fewer than 10 band-tailed pigeons; fewer than 1,000 ducks, coots, and mergansers; and fewer than 1,000 Canada geese for the 2014–15 season. The Tribe measures harvest by mail survey forms. Through the established Navajo Nation Code, titles 17 and 18, and 23 U.S.C. 1165, the Tribe will take action to close the season, reduce bag limits, or take other appropriate actions if the harvest is detrimental to the migratory bird resource.

We propose to approve those the Navajo Nation’s 2014–15 special migratory bird hunting regulations.
(p) Oneida Tribe of Indians of Wisconsin, Oneida, Wisconsin (Tribal Members Only)

Since 1991–92, the Oneida Tribe of Indians of Wisconsin and the Service have cooperated to establish uniform regulations for migratory bird hunting by tribal and nontribal hunters within the original Oneida Reservation boundaries. Since 1985, the Oneida Tribe’s Conservation Department has enforced the Tribe’s hunting regulations within those original reservation limits. The Oneida Tribe also has a good working relationship with the State of Wisconsin and the majority of the seasons and limits are the same for the Tribe and Wisconsin.

In a May 30, 2014, letter, the Tribe proposes special migratory bird hunting regulations. For ducks, the Tribe describes the general outside dates as being September 20 through December 7, 2014, with a closed segment of November 22 to 30, 2014. The Tribe proposes a daily bag limit of six birds, which could include no more than six mallards (three hen mallards), six wood duck, one redhead, two pintail, and one hooded merganser.

For geese, the Tribe requests a season between September 1 and December 31, 2014, with a daily bag limit of five Canada geese. The Tribe will close the season November 22 to 30, 2014. If a quota of 500 geese is attained before the season concludes, the Tribe will recommend closing the season early.

For woodcock, the Tribe proposes a season between September 6 and November 2, 2014, with a daily bag and possession limit of two and four, respectively.

For mourning dove, the Tribe proposes a season between September 6 and November 2, 2014, with a daily bag and possession limit of 10 and 20, respectively.

The Tribe proposes shooting hours be one-half hour before sunrise to one-half hour after sunset. Nontribal hunters hunting on the Reservation or on lands under the jurisdiction of the Tribe must comply with all State of Wisconsin regulations, including shooting hours of one-half hour before sunrise to sunset, season dates, and daily bag limits.

Tribal members and nontribal hunters hunting on the Reservation or on lands under the jurisdiction of the Tribe must observe all basic Federal migratory bird hunting regulations found in 50 CFR part 20, with the following exceptions: Oneida members would be exempt from the purchase of the Migratory Waterfowl Hunting and Conservation Stamp (Duck Stamp); and shotgun capacity is not limited to three shells.

The Service proposes to approve the request for 2014–15 special migratory bird hunting regulations for the Oneida Tribe of Indians of Wisconsin.

(q) Point No Point Treaty Council Tribes, Kingston, Washington (Tribal Members Only)

We are establishing uniform migratory bird hunting regulations for tribal members on behalf of the Point No Point Treaty Council Tribes, consisting of the Port Gamble S’Klallam and Jamestown S’Klallam Tribes. The two tribes have reservations and ceded areas in northwestern Washington State and are the successors to the signatories of the Treaty of Point No Point of 1855. These proposed regulations will apply to tribal members both on and off reservations within the Point No Point Treaty Areas; however, the Port Gamble S’Klallam and Jamestown S’Klallam Tribal season dates differ only where indicated below.

For the 2014–15 season, the Point No Point Treaty Council requests special migratory bird hunting regulations for the 2014–15 hunting season for both the Jamestown S’Klallam and Port Gamble S’Klallam Tribes. For ducks and coots hunting season, the Jamestown S’Klallam Tribe season would open September 13, 2014, and close February 1, 2015. The Port Gamble S’Klallam Tribes season would open from September 2, 2014, to January 31, 2015. The daily bag limit would be seven ducks, including no more than two hen mallards, one canvasback, one pintail, two redheads, and four scoters. The daily bag limit for coots would be 25. The daily bag limit and possession limit on harlequin ducks would be one per season. The daily possession limits are double the daily bag limits except where noted.

For geese, the Point No Point Treaty Council proposes the season open on September 9, 2014, and close March 10, 2015, for the Jamestown S’Klallam Tribe, and open on September 14, 2014, and close March 9, 2015, for the Port Gamble S’Klallam Tribe.

The daily bag limit for geese would be four, not to include more than three light geese. The Council notes that there is a year-round closure on dusky Canada geese. For brant, the Council proposes the season open on November 9, 2014, and close January 31, 2015, for the Port Gamble S’Klallam Tribe, and open on January 10 and close January 25, 2015, for the Jamestown S’Klallam Tribe. The daily bag limit for brant would be two.

The Tribe anticipates a total harvest of fewer than 200 birds for the 2014–15 season. The tribal fish and wildlife enforcement officers have the authority to enforce these tribal regulations.

We propose to approve the Point No Point Treaty Council Tribe’s requested 2014–15 special migratory bird seasons.

(r) Saginaw Tribe of Chippewa Indians, Mt. Pleasant, Michigan (Tribal Members Only)

The Saginaw Tribe of Chippewa Indians is a federally recognized, self-governing Indian Tribe, located on the Isabella Reservation lands bound by Saginaw Bay in Isabella and Arenac Counties, Michigan.

In a May 15, 2014, letter, the Tribe proposes special migratory bird hunting regulations. For ducks, mergansers, and common snipe, the Tribe proposes outside dates as September 1, 2014, through January 31, 2015. The Tribe proposes a daily bag limit of 20 ducks, which could include no more than five each of the following: hen mallards; wood duck; black duck; pintail; red head; scaup; and canvasback. The merganser daily bag limit is 10 with no more than 5 hooded mergansers and 16 for common snipe.

For geese, coot, gallinule, sora, and Virginia rail, the Tribe requests a season from September 1, 2014, to January 31, 2015. The daily bag limit for geese is 20, in the aggregate. The daily bag limit for coot, gallinule, sora, and Virginia rail is 20 in the aggregate.

For woodcock and mourning dove, the Tribe proposes a season between September 1, 2014, and January 31, 2015, with daily bag limits of 10 and 25, respectively.

For sandhill crane, the Tribe proposes a season between September 1, 2014, and January 31, 2015, with a daily bag limit of one.

All Saginaw Tribe members exercising hunting treaty rights are required to comply with Tribal Ordinance 11. Hunting hours would be
from one-half hour before sunrise to one-half hour after sunset. All other regulations in 50 CFR part 20 apply including the use of only nontoxic shot for hunting waterfowl.

The Service proposes to approve the request for 2014–15 special migratory bird hunting regulations for the Saginaw Tribe of Chippewa Indians.

(s) Sault Ste. Marie Tribe of Chippewa Indians, Sault Ste. Marie, Michigan (Tribal Members Only)

The Sault Ste. Marie Tribe of Chippewa Indians is a federally recognized, self-governing Indian Tribe, distributed throughout the eastern Upper Peninsula and northern Lower Peninsula of Michigan. The Tribe has retained the right to hunt, fish, trap, and gather on the lands ceded in the Treaty of Washington (1836).

In a May 27, 2014, letter, the Tribe proposes special migratory bird hunting regulations. For ducks, mergansers, and common snipe, the Tribe proposes outside dates as September 15 through December 31, 2014. The Tribe proposes a daily bag limit of 20 ducks, which could include no more than 10 mallards (5 hen mallards), 5 wood duck, 5 black duck, and 5 canvasback. The merganser daily bag limit is 10 in the aggregate and 16 for common snipe.

For geese, coot, gallinule, sora, and Virginia rail, the Tribe requests a season from September 1 to December 31, 2014. The daily bag limit for geese is 20, in the aggregate. The daily bag limit for coot, gallinule, sora, and Virginia rail is 20 in the aggregate.

For woodcock, the Tribe proposes a season between September 2 and December 1, 2014, with a daily bag and possession limit of 10 and 20, respectively.

For mourning dove, the Tribe proposes a season between September 1 and November 14, 2014, with a daily bag and possession limit of 10 and 20, respectively.

In 2013, the total estimated waterfowl hunters was 261. All Sault Ste. Marie Tribe members exercising hunting treaty rights within the 1836 Ceded Territory are required to submit annual harvest reports including date of harvest, number and species harvested, and location of harvest. Hunting hours would be from one-half hour before sunrise to one-half hour after sunset. All other regulations in 50 CFR part 20 apply including the use of only nontoxic shot for hunting waterfowl.

(t) Shoshone-Bannock Tribes, Fort Hall Indian Reservation, Fort Hall, Idaho (Nontribal Hunters)

Almost all of the Fort Hall Indian Reservation is tribally owned. The Tribes claim full wildlife management authority throughout the reservation, but the Idaho Fish and Game Department has disputed tribal jurisdiction, especially for hunting by nontribal members on reservation lands owned by non-Indians. As a compromise, since 1985, we have established the same waterfowl hunting regulations on the reservation and in a surrounding off-reservation State zone. The regulations were requested by the Tribes and provided for different season dates than in the remainder of the State. We agreed to the season dates because they would provide additional protection to mallards and pintails. The State of Idaho concurred with the Tribe’s request because the season dates fall within the final Federal flyway frameworks (applies to nontribal hunters only).

(u) Skokomish Tribe, Shelton, Washington (Tribal Members Only)

Since 1996, the Service and the Point No Point Treaty Tribes, of which the Skokomish Tribe was one, have cooperated to establish special regulations for migratory bird hunting. The Tribes have been acting independently since 2005, and the Skokomish Tribe would like to establish migratory bird hunting regulations for tribal members for the 2014–15 season.

The Tribe has a reservation on the Olympic Peninsula in Washington State and is a successor to the signatories of the Treaty of Point No Point of 1855.

We have not yet received a proposal from the Skokomish Tribe at this time. The Skokomish Tribe usually requests a duck and coot season from September 16, 2014, to February 28, 2015. The daily bag limit is seven ducks, including no more than two hen mallards, one pintail, one canvasback, and two redheads. The daily bag and possession limit on harlequin duck is one per season. The daily bag and possession limit on Pacific black Brant is two per season. The daily bag and possession limit on harlequin duck is one per season. The daily bag and possession limit on Pacific black Brant is two per season. The daily bag and possession limit on harlequin duck is one per season.

For goose, the Tribe usually requests a season from September 16, 2014, to February 28, 2015. The daily bag limit is four, including no more than three light geese. The season on Aleutian Canada geese is usually closed. For brandt, the Tribe usually proposes a season from November 1, 2014, to February 15, 2015, with a daily bag limit of two. The possession limit is twice the daily bag limit, except as noted above.

For geese, the Tribe usually requests a season from September 16, 2014, to February 28, 2015. The daily bag limit is four, including no more than three light geese. The season on Aleutian Canada geese is usually closed. For brandt, the Tribe usually proposes a season from November 1, 2014, to February 15, 2015, with a daily bag limit of two. The possession limit is twice the daily bag limit. For mourning doves, band-tailed pigeon, and snipe, the Tribe usually requests a season from September 16, 2014, to February 28, 2015, with a daily bag limit of 10, 2, and 8, respectively. The possession limit is twice the daily bag limit.

All Tribal hunters authorized to hunt migratory birds are required to obtain a tribal hunting permit from the Skokomish Tribe pursuant to tribal law. Hunting hours would be from one-half hour before sunrise to sunset. Only steel, tungsten-iron, tungsten-polymer, tungsten-matrix, and tin shot are allowed for hunting waterfowl. It is
lawful to use or possess lead shot while hunting waterfowl.

The Tribe anticipates harvest to be fewer than 150 birds. The Skokomish Public Safety Office enforcement officers have the authority to enforce these migratory bird hunting regulations.

If we receive a proposal that matches the Tribe’s usual request, we propose to approve the Skokomish Tribe’s 2014–15 migratory bird hunting season.

(v) Spokane Tribe of Indians, Spokane Indian Reservation, Wellpinit, Washington (Tribal Members Only)

The Spokane Tribe of Indians wishes to establish waterfowl seasons on their reservation for its membership to access as an additional resource. An established waterfowl season on the reservation will allow access to a resource for members to continue practicing a subsistence lifestyle.

The Spokane Indian Reservation is located in northeastern Washington State. The reservation comprises approximately 157,000 acres. The boundaries of the Reservation are the Columbia River to the west, the Spokane River to the south (now Lake Roosevelt), Tshimikn Creek to the east, and the 48th Parallel as the north boundary. Tribal membership comprises approximately 2,300 enrolled Spokane Tribal Members.

These proposed regulations would allow Tribal Members, spouses of Spokane Tribal Members, and first-generation descendants of a Spokane Tribal Member with a tribal permit and Federal Waterfowl stamp an opportunity to utilize the reservation and ceded lands for waterfowl hunting. These regulations would also benefit tribal membership through access to this resource throughout Spokane Tribal ceded lands in eastern Washington. By Spokane Tribal Referendum, spouses of Spokane Tribal Members and children of Spokane Tribal Members not enrolled are allowed to harvest game animals within the Spokane Indian Reservation with the issuance of hunting permits.

For the 2014–15 season, the Tribe requests to establish duck seasons that would run from September 2, 2014, through January 31, 2015. The tribe is requesting the daily bag limit for ducks to be consistent with final Federal frameworks. The possession limit is twice the daily bag limit.

The Tribe proposes a season on geese starting September 2, 2014, and ending on January 31, 2015. The tribe is requesting the daily bag limit for geese to be consistent with final Federal frameworks. The possession limit is twice the daily bag limit.

Based on the quantity of requests the Spokane Tribe of Indians has received, the tribe anticipates harvest levels for the 2014–15 season for both ducks and geese to be fewer than 100 total birds with goose harvest at fewer than 50. Hunter success will be monitored through mandatory harvest reports returned within 30 days of the season closure.

We propose to approve the Spokane Tribe’s requested 2014–15 special migratory bird hunting regulations.

(w) Squaxin Island Tribe, Squaxin Island Reservation, Shelton, Washington (Tribal Members Only)

The Squaxin Island Tribe of Washington and the Service have cooperated since 1995, to establish special tribal migratory bird hunting regulations. These special regulations apply to tribal members on the Squaxin Island Reservation, located in western Washington near Olympia, and all lands within the traditional hunting grounds of the Squaxin Island Tribe.

For the 2014–15 season, the Tribe requests to establish duck and coot seasons that would run from September 1, 2014, through January 15, 2015. The daily bag limit for ducks would be five per day and could include only one canvasback. The season on harlequin ducks is closed. For coots, the daily bag limit is 25.

For the 2014–15 season, the Tribe proposes that the season start on September 15, 2014, and end on January 15, 2015. The daily bag limit for geese would be eight. For band-tailed pigeon, the Tribe requests the season start on September 1, 2014, and end on December 31, 2014. The daily bag limit would be five. The possession limit would be twice the daily bag limit.

The Tribe proposes a season on geese starting September 15, 2014, and ending on January 15, 2015. The daily bag limit for geese would be four, including no more than two snow geese. The season on Aleutian and cackling Canada geese would be closed. For brant, the Tribe proposes that the season start on September 1, 2014, and end on December 31, 2014. The daily bag limit for brant would be two. The possession limit would be twice the daily bag limit. We propose to approve the Tribe’s 2014–15 special migratory bird hunting regulations.

(x) Stillaguamish Tribe of Indians, Arlington, Washington (Tribal Members Only)

The Stillaguamish Tribe of Indians and the Service have cooperated to establish special regulations for migratory game birds since 2001. For the 2014–15 season, the Tribe requests regulations to hunt all open and unclaimed lands under the Treaty of Point Elliott of January 22, 1855, including their main hunting grounds around Camano Island, Skagit Flats, and Port Susan to the border of the Tulalip Tribes Reservation. Ceded lands are located in Whatcom, Skagit, Snohomish, and Kings Counties, and a portion of Pierce County, Washington. The Stillaguamish Tribe of Indians is a federally recognized Tribe and reserves the Treaty Right to hunt (U.S. v. Washington).

We have yet to hear from the Stillaguamish Tribe of Indians; however the Tribe usually proposes their duck (including mergansers) and goose seasons run from October 1, 2014, to February 15, 2015. The daily bag limit on ducks (including sea ducks and mergansers) is 10. For geese, the daily bag limit is six. Possession limits are totals of these two daily bag limits.

The Tribe usually proposes that coot, brant, and snipe seasons run from October 1, 2014, to January 31, 2015. The daily bag limit for coot is 25. The daily bag limit on brant is three. The daily bag limit for snipe is 10. Possession limits are twice the daily bag limit.

The Tribe usually proposes that band-tailed pigeon and dove seasons run from September 1, 2014, to October 31, 2014. The daily bag limit for band-tailed pigeon is four. The daily bag limit on dove is 10. Possession limits are twice the daily bag limit.

Harvest is regulated by a punch card system. Tribal members hunting on lands under this proposal will observe all basic Federal migratory bird hunting regulations found in 50 CFR part 21, which will be enforced by the Stillaguamish Tribal law enforcement. Tribal members are required to use steel shot or a nontoxic shot as required by Federal regulations.

The Tribe usually anticipates a total harvest of 200 ducks, 100 geese, 50 mergansers, 100 coots, and 100 snipe. Anticipated harvest needs include subsistence and ceremonial needs. Certain species may be hunted for conservation purposes, and consideration for the needs of certain species will be addressed.

The Service proposes to approve the Stillaguamish Tribe’s request for 2014–15 special migratory bird hunting regulations upon receipt of the proposal.

(y) Swinomish Indian Tribal Community, LaConner, Washington (Tribal Members Only)

In 1996, the Service and the Swinomish Indian Tribal Community began cooperating to establish special
regulations for migratory bird hunting. The Swinomish Indian Tribal Community is a federally recognized Indian Tribe consisting of the Swinomish, Lower Skagit, Samish, and Kikialous. The Swinomish Reservation was established by the Treaty of Point Elliott of January 22, 1855, and lies in the Puget Sound area north of Seattle, Washington.

We have not yet heard from the Swinomish Indian Tribal Community. For the 2014–15 season, the Tribal Community usually requests to establish a migratory bird hunting season on all areas that are open and unclaimed and consistent with the meaning of the treaty. The Tribal Community usually requests to establish duck, merganser, Canada goose, brant, and coot seasons opening on the earliest possible date allowed by the final Federal frameworks for the Pacific Flyway and closing 30 days after the State of Washington closes its season. On reservation, the Tribal Community usually requests to establish duck, merganser, Canada goose, brant, and coot seasons opening on the earliest possible date allowed by the final Federal frameworks for the Pacific Flyway and closing March 9, 2015. The Swinomish Indian Tribal Community usually requests an additional three birds of each species over the numbers allowed by the State for daily bag and possession limits.

The Community usually anticipates that the regulations will result in the harvest of approximately 600 ducks and 200 geese. The Swinomish utilize a report card and permit system to monitor harvest and will implement steps to limit harvest where conservation is needed. All tribal regulations will be enforced by tribal fish and game officers.

If we receive a proposal that matches the Tribe’s usual request, we propose to approve those 2014–15 special migratory bird hunting regulations.

(z) The Tulalip Tribes of Washington, Tulalip Indian Reservation, Marysville, Washington (Tribal Members Only)

The Tulalip Tribes are the successors in interest to the Tribes and bands signatory to the Treaty of Point Elliott of January 22, 1855. The Tulalip Tribes’ government is located on the Tulalip Indian Reservation just north of the City of Everett in Snohomish County, Washington. The Tribes or individual tribal members own all of the land on the reservation, and they have full wildlife management authority. All lands within the boundaries of the Tulalip Tribes’ reservation are closed to nonmember hunting unless opened by Tulalip Tribal regulations.

The Tribe proposes tribal hunting regulations for the 2014–15 season. Migratory waterfowl hunting by Tulalip Tribal members is authorized by Tulalip Tribal Ordinance No. 67. For ducks, mergansers, coot, and snipe, the proposed season for tribal members is from September 3, 2014, through February 28, 2015. Daily bag and possession limits would be 7 and 14 ducks, respectively, except that for blue-winged teal, canvasback, harlequin, pintail, and wood duck, the bag and possession limits would be the same as those established in accordance with final Federal frameworks. For coot, daily bag and possession limits are 25 and 50, respectively, and for snipe 8 and 16, respectively. Ceremonial hunting may be authorized by the Department of Natural Resources at any time upon application of a qualified tribal member. Such a hunt must have a bag limit designed to limit harvest only to those birds necessary to provide for the ceremony.

For general tribal members a season from September 3, 2014, through February 28, 2015, the goose daily bag and possession limits would be 7 and 14, respectively, except that the bag limits for brant, cackling Canada goose, and dusky Canada goose would be those established in accordance with final Federal frameworks.

All hunters on Tulalip Tribal lands are required to adhere to shooting hour regulations set at one-half hour before sunrise to sunset, special tribal permit requirements, and a number of other tribal regulations enforced by the Tribe. Each nontribal hunter 16 years of age and older hunting pursuant to Tulalip Tribes’ Ordinance No. 67 must possess a valid Federal Migratory Bird Hunting and Conservation Stamp and a valid State of Washington Migratory Waterfowl Stamp. Each hunter must validate stamps by signing across the face.

Although the season length requested by the Tulalip Tribes appears to be quite liberal, harvest information indicates a total take by tribal and nontribal hunters of fewer than 1,000 ducks and 500 geese annually.

We propose to approve the Tulalip Tribe’s request for 2014–15 special migratory bird hunting regulations.

(aa) Upper Skagit Indian Tribe, Sedro Woolley, Washington (Tribal Members Only)

The Upper Skagit Indian Tribe and the Service have cooperated to establish special regulations for migratory game birds since 2001. The Tribe has jurisdiction over lands within Skagit, Island, and Whatcom Counties, Washington. The Tribe issues tribal hunters a harvest report card that will be shared with the State of Washington.

The Tribe proposes a goose season from October 1, 2014, to February 28, 2015, with a daily bag limit of 7 geese and a possession limit of 10. For brant, the Tribe proposes a season from November 1 to November 10, 2014, with a daily bag and possession limit of 2.

The Tribe proposes a mourning dove season between September 1 and December 31, 2014, with a daily bag limit of 12 and possession limit of 15.

The anticipated migratory bird harvest under this proposal would be 100 ducks, 5 geese, 2 brant, and 10 coots. Tribal members must have the tribal identification and tribal harvest report card on their person to hunt. Tribal members hunting on the Reservation will observe all basic Federal migratory bird hunting regulations found in 50 CFR part 20, except shooting hours would be 15 minutes before official sunrise to 15 minutes after official sunset.

We propose to approve the Tribe’s 2014–15 special migratory bird hunting regulations.

(bb) Wampanoag Tribe of Gay Head, Aquinnah, Massachusetts (Tribal Members Only)

The Wampanoag Tribe of Gay Head is a federally recognized Tribe located on the island of Martha’s Vineyard in Massachusetts. The Tribe has approximately 560 acres of land, which it manages for wildlife through its natural resources department. The Tribe also enforces its own wildlife laws and regulations through the natural resources department.

For the 2014–15 season, we have not yet heard from the Tribe. The Tribe usually proposes a duck season of October 14, 2014, through February 22, 2015. The Tribe usually proposes a daily bag limit of eight birds, which could include no more than four hen mallards, four mottled ducks, one fulvous whistling duck, four mergansers, three scaup, two hooded mergansers, three wood ducks, one canvasback, two redheads, two pintail, and four of all other species not listed.

The season for harlequin ducks is usually closed. The Tribe usually proposes a teal (green-winged and blue)
season of October 10, 2014, through
February 22, 2015. A daily bag limit of
six teal would be in addition to the
daily bag limit for ducks.

For sea ducks, the Tribe usually
proposes a season between October 7,
2014, and February 22, 2015, with a
daily bag limit of seven, which could
include no more than one hen eider and
four of any one species unless otherwise
noted above.

For Canada geese, the Tribe usually
requests a season between September 4
and September 21, 2014, and October
28, 2014, and February 22, 2015, with
a daily bag limit of 8 Canada geese. For
snow geese, the tribe requests a season
between September 4 to September 21,
2014, and November 25, 2014, to
February 22, 2015, with a daily bag limit
of 15 snow geese.

For woodcock, the Tribe usually
proposes a season between October 10
and November 23, 2014, with a daily
bag limit of three. For sora and Virginia
rails, the Tribe usually requests a season
of September 2, 2014, through
November 10, 2014, with a daily bag
limit of 5 sora and 10 Virginia rails. For
snipe, the Tribe usually requests a
season of September 2, 2014, through
December 16, 2014, with a daily bag
limit of 8.

Prior to 2012, the Tribe had 22
registered tribal hunters and estimates
harvest to be no more than 15 geese, 25
mallards, 25 teal, 50 black ducks, and 50
of all other species combined. Tribal
members hunting on the Reservation
will observe all basic Federal migratory
bird hunting regulations found in 50
CFR part 20. The Tribe requires hunters
to register with the Harvest Information
Program. If we receive a proposal that matches
the Tribe’s usual request, we propose to approve those 2014-15 special
migratory bird hunting regulations.

(cc) White Earth Band of Ojibwe, White Earth, Minnesota (Tribal Members Only)

The White Earth Band of Ojibwe is a
federally recognized tribe located in
northwest Minnesota and encompasses
all of Mahnomen County and parts of
Becker and Clearwater Counties. The
reservation employs conservation
officers to enforce migratory bird
regulations. The Tribe and the Service
first cooperated to establish special
tribal regulations in 1999.

For the 2014–15 migratory bird
hunting season, the White Earth Band
of Ojibwe requests a duck season to start
September 13 and end December 14, 2014. The merganser daily
bag limit would be five with no more
than two hooded mergansers. For geese,
the Tribe proposes an early season from September 1 through September 21,
2014, and a late season from September
The early season daily bag limit is eight
geese, and the late season daily bag limit
is five geese.

For coots, the Tribe proposes a
September 13 through December 14,
2014, season with daily bag limits of 20
coots. Shooting hours are one-half hour
before sunrise to one-half hour after
sunset. Nontoxic shot is required.

Based on past harvest surveys, the
Tribe anticipates harvest of 1,000 to
2,000 Canada geese and 1,000 to 1,500
ducks. The White Earth Reservation
Tribal Council employs four full-time
conservation officers to enforce
migratory bird regulations.

We propose to approve the Tribe’s
2014–15 special migratory bird hunting
regulations.

(dd) White Mountain Apache Tribe, Fort Apache Indian Reservation, Whiteriver, Arizona (Tribal Members and Nontribal Hunters)

The White Mountain Apache Tribe
owns all reservation lands, and the
Tribe has recognized full wildlife
management authority. As in past years,
the White Mountain Apache Tribe has
requested regulations that are
essentially unchanged from those agreed
to since the 1997–98 hunting year.

The hunting zone for waterfowl is
restricted and is described as: The
length of the Black River west of the
Bonito Creek and Black River
confluence and the entire length of the
Salt River forming the southern
boundary of the reservation; the White
River, extending from the Canyon Day
Stockman Station to the Salt River; and
all stock ponds located within Wildlife
Management Units 4, 5, 6, and 7. Tanks
located below the Mogollon Rim, within
Wildlife Management Units 2 and 3,
will be open to waterfowl hunting
during the 2014–15 season. The length
of the Black River east of the Black
River/Bonito Creek confluence is closed
to waterfowl hunting. All other waters
of the reservation would be closed to
waterfowl hunting for the 2014–15
season.

For nontribal and tribal hunters, the
Tribe proposes a continuous duck, coot,
merganser, gallinule, and moorhen
hunting season, with an opening date of
October 18, 2014, and a closing date of
January 25, 2015. The Tribe proposes a
separate pintail and canvasback season,
with an opening date of October 18,
2014, and a closing date of November
30, 2014. The season on scaup is closed.
The Tribe proposes a daily duck
(including mergansers) bag limit of
seven, which may include no more than
two redheads, two pintail, seven
mallards (including no more than two
hen mallards), and one canvasback. The
daily bag limit for coots, gallinules, and
moorhens would be 25, singly or in the
aggregate.

For geese, the Tribe proposes a season
from October 18, 2014, through January
25, 2015. Hunting would be limited to
Canada geese, and the daily bag limit
would be three.

Season dates for band-tailed pigeons
and mourning doves would run from
September 1, and end September 15,
2014, in Wildlife Management Unit 10
and all areas south of Y–70 and Y–10 in
Wildlife Management Unit 7, only.
Proposed daily bag limits for band-
tailed pigeons and mourning doves
would be 3 and 10, respectively.

Possession limits for the above
species are twice the daily bag limits.
Shooting hours would be from one-half
hour before sunrise to sunset. There
would be no open season for sandhill
crapes, rails, and snipe on the White
Mountain Apache lands under this
proposal.

A number of special regulations apply
to tribal and nontribal hunters, which
may be obtained from the White
Mountain Apache Tribe Game and Fish
Department.

We plan to approve the White
Mountain Apache Tribe’s requested
2014–15 special migratory bird hunting
regulations.

(ee) Yankton Sioux Tribe, Marty, South Dakota (Tribal Members and Nontribal Hunters)

The Yankton Sioux Tribe has yet to
submit a waterfowl hunting proposal for the 2014–15 season. The Yankton Sioux
tribal waterfowl hunting season usually
would be open to both tribal members
and nontribal hunters. The waterfowl
hunting regulations would apply to
tribal and trust lands within the external
boundaries of the reservation.

For ducks (including mergansers) and
coots, we expect the Yankton Sioux
Tribe to, as usual, propose a season
starting October 9, 2014, and running
for the maximum amount of days
allowed under the final Federal
frameworks. Daily bag and possession
limits would be six ducks, which may
include no more than five mallards (no
more than two hens), one canvasback
(when the season is open), two redheads, three scaup, one pintail, or
two wood ducks. The bag limit for
mergansers would be five, which would
include no more than one hooded merganser. The coot daily bag limit would be 15.

For geese, the Tribe will likely request a dark goose (Canada geese, brant, white-fronted goose) season starting October 29, 2014, and closing January 31, 2015. The daily bag limit would be three geese (including no more than one white-fronted goose or brant). Possession limits would be twice the daily bag limit.

For white geese, the proposed hunting season would start October 29, 2014, and run for the maximum amount of days allowed under the final Federal frameworks for the State of South Dakota. Daily bag and possession limits would equal the maximum allowed under Federal frameworks.

All hunters would have to be in possession of a valid tribal license while hunting on Yankton Sioux trust lands. Tribal and nontribal hunters must comply with all basic Federal migratory bird hunting regulations in 50 CFR part 20 pertaining to shooting hours and the manner of taking. Special regulations established by the Yankton Sioux Tribe also apply on the reservation.

During the 2005–06 hunting season, the Tribe reported that 90 nontribal hunters took 400 Canada geese, 75 light geese, and 90 ducks. Forty-five tribal members harvested fewer than 50 geese and 50 ducks.

If we receive a proposal that matches the Tribe’s usual request, we propose to approve those 2014–15 special migratory bird hunting regulations.

Public Comments

The Department of the Interior’s policy is, whenever possible, to afford the public an opportunity to participate in the rulemaking process. Accordingly, we invite interested persons to submit written comments, suggestions, or recommendations regarding the proposed regulations. Before promulgating final migratory game bird hunting regulations, we will consider all comments we receive. These comments, and any additional information we receive, may lead to final regulations that differ from these proposals.

You may submit your comments and materials concerning this proposed rule by one of the methods listed in the ADDRESSES section. We will not accept comments sent by email or fax. We will not consider hand-delivered comments that we do not receive, or mailed comments that are not postmarked, by the date specified in the DATES section.

We will post all comments in their entirety—including your personal identifying information—on http://www.regulations.gov. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Comments and materials we receive, as well as supporting documentation we used in preparing this proposed rule, will be available for public inspection on http://www.regulations.gov, or by appointment, during normal business hours, at the U.S. Fish and Wildlife Service, Division of Migratory Bird Management, 5275 Leesburg Pike, Falls Church, VA 22041–3803.

For each series of proposed rulemakings, we will establish specific comment periods. We will consider, but possibly may not respond in detail to, each comment. As in the past, we will summarize all comments we receive during the comment period and respond to them after the closing date in the preambles of any final rules.

Required Determinations

Based on our most current data, we are affirming our required determinations made in the proposed rule; for descriptions of our actions to ensure compliance with the following statutes and Executive Orders, see our April 30, 2014, proposed rule (79 FR 24512):

• National Environmental Policy Act;
• Endangered Species Act;
• Regulatory Planning and Review;
• Regulatory Flexibility Act;
• Small Business Regulatory Enforcement Fairness Act;
• Paperwork Reduction Act;
• Unfunded Mandates Reform Act;
• Executive Orders 12630, 12988, 13175, 13132, and 13211.

List of Subjects in 50 CFR Part 20

Exports, Hunting, Imports, Reporting and recordkeeping requirements, Transportation, Wildlife.

Dated: July 29, 2014.

Rachel Jacobson,
Principal Deputy Assistant Secretary for Fish and Wildlife and Parks.
