TDHE indicating it of HUD’s decision to terminate, reduce, or limit the availability of the grant. If the tribe/TDHE disagrees with HUD’s determination, it may appeal that decision in writing to HUD within 30 days of receipt of HUD’s written notice. In such appeal, the tribe/TDHE must demonstrate to HUD’s satisfaction good cause to maintain its grant under this program, including and, as applicable, demonstrate how it will cure its noncompliance or improve its poor performance, within a time period deemed acceptable by HUD. In situations where HUD determines a tribe/TDHE is not carrying out activities due to a lack of Homeless Native veterans, the tribe/TDHE must demonstrate to HUD’s satisfaction the level of Homeless Native veteran housing need corresponds to the assistance to house Homeless Native veterans, and current levels of Homeless Native veterans. The tribe/TDHE must demonstrate to HUD’s satisfaction the level of Homeless Native veteran funding, and the limited amount of available funds under this program. HUD has determined that allowing the submission of paper applications will be less burdensome, and will allow HUD to make awards in a timelier manner. Electronic applications may still be submitted to the inbox described in this Notice.

VII. Environmental Impact

A Finding of No Significant Impact with respect to the environment has been made in accordance with HUD regulations at 24 CFR part 50, which implement section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)). The Finding of No Significant Impact is available for public inspection during regular business hours in the Regulations Division, Office of General Counsel, Department of Housing and Urban Development, 451 7th Street SW., Room 10276, Washington, DC 20410–0500. Due to security measures at the HUD Headquarters building, please schedule an appointment to review the Finding by calling the Regulations Division at (202) 402–3055 (this is not a toll-free number). Individuals with speech or hearing impairments may access this number via TTY by calling the Federal Relay Service at (800) 877–8339.

Lourdes Castro Ramirez,
Principal Deputy Assistant Secretary for Public and Indian Housing.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Draft Habitat Conservation Plan and Draft Environmental Assessment;
Kaufman Properties, Thurston County, Washington

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have received an application from Kaufman Real Estate LLC, Kaufman Holdings Inc., and Liberty Leasing & Construction, Inc. (applicants), for an incidental take permit (ITP) pursuant to the Endangered Species Act of 1973, as amended (ESA). The applicants request a 20-year ITP that would authorize “take” of five listed species incidental to otherwise lawful land development and habitat conservation activities on parcels they own in Thurston County, Washington. The application includes a draft habitat conservation plan (HCP), which describes the actions the applicants will take to minimize and mitigate the impacts of the take on covered species. The Service also announces the availability of a draft environmental assessment (EA) addressing the draft HCP and proposed permit. We invite comments from all interested parties regarding the permit application, including the draft HCP and EA.

DATES: To ensure consideration, please submit written comments by November 20, 2015.

ADDRESSES: You may view or download copies of the draft HCP and draft EA and obtain additional information on the Internet at http://www.fws.gov/wafwov/. To request further information or submit written comments, please use one of the following methods, and note that your information request or comments are in reference to the “Kaufman HCP/EA”:

• In-Person Drop-off, Viewing, or Pickup: Call 360–753–5823 to make an appointment (necessary for viewing or

SUPPLEMENTARY INFORMATION: We have received an application from Kaufman Real Estate LLC, Kaufman Holdings Inc., and Liberty Leasing & Construction, Inc. (applicants), for an incidental take permit (ITP) pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (ESA). The applicants request a 20-year ITP that would authorize “take” of the endangered Taylor’s checkerspot butterfly (Euphydryas editha taylori), threatened streaked horned lark (Eremophila alpestris strigata), and two threatened subspecies of the Mazama pocket gopher—Olympia pocket gopher (Thomomys mazama pugetensis) and Yelm pocket gopher (T. m. yelmensis)—incidental to otherwise lawful land development and habitat conservation activities on parcels they own in Thurston County, Washington. The application includes a draft habitat conservation plan (HCP), which describes the actions the applicants will take to minimize and mitigate the impacts of the take on covered species. The Service also announces the availability of a draft environmental assessment (EA) addressing the draft HCP and proposed permit. We invite comments from all interested parties regarding the permit application, including the draft HCP and EA.

Background

Section 9 of the ESA prohibits “take” of fish and wildlife species listed as endangered or threatened. Under the ESA, the term “take” means to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct (16 U.S.C. 1532(19)). The term “harm,” as defined in our regulations, includes significant habitat modification or degradation that results in death or injury to listed species by significantly impairing essential behavioral patterns, including breeding, feeding, or sheltering (50 CFR 17.3). The term “harass” is defined in our regulations as intentional or negligent actions that create the likelihood of injury to listed species to such an extent as to significantly disrupt normal behavioral patterns, which include, but are not limited to, breeding, feeding, or sheltering (50 CFR 17.3).

Section 10(a)(1)(B) of the Act contains provisions that authorize the Service to issue ITPs to non-Federal entities for the take of endangered and threatened species caused by otherwise lawful activities, provided the following criteria are met: (1) The taking will be incidental; (2) the applicant will, to the maximum extent practicable, minimize and mitigate the impact of such taking; (3) the applicant will ensure that adequate funding for the plan will be provided; (4) The taking will not appreciably reduce the likelihood of the survival and recovery of the species in the wild; and (5) the applicant will carry out any other measures that the Service may require as being necessary or appropriate for the purposes of the plan. Regulations governing permits for endangered and threatened species are found in 50 CFR 17.22 and 17.32, respectively.

Proposed Action

The Service proposes to issue the requested 20-year ITP based on the applicants’ commitment to implement the draft HCP, if permit issuance criteria are met. Covered activities include construction, land development, and conservation of the covered species. The area covered under the draft HCP consists of 13 project development sites totaling 204 acres, and 2 conservation sites totaling 87 acres. Take of the covered species would occur primarily on the already fragmented project development sites and be mitigated for by managing larger blocks of habitat for the covered species on the conservation sites. An endowment will be funded by the applicants to manage the conservation sites for 100 years.

National Environmental Policy Act Compliance

The proposed issuance of an ITP is a Federal action that triggers the need for compliance with the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 et seq.; NEPA). Pursuant to NEPA, we have prepared a draft EA to analyze the environmental impacts of three alternatives related to the issuance of the requested ITP and implementation of the conservation program under the proposed HCP.

The three alternatives analyzed in the EA are a no-action alternative, the proposed action, and an individual permit alternative. Under the no-action alternative, take of listed species would be avoided by limiting construction and development on the project development sites to areas where impacts to listed species could be avoided. Because no impacts to listed species are expected under this alternative, no HCP would be needed and no ITP would be issued. The proposed action alternative is the implementation of the proposed HCP and issuance of the requested 20-year ITP as described above under Proposed Action. The individual permits alternative would be issuance of incidental take permits for each of the 13 project development sites as they are developed rather than combining them under one ITP as proposed.

Public Comments

You may submit your comments and materials by one of the methods listed in the ADDRESSES section. We specifically request information, views, and opinions from interested parties regarding our proposed Federal action, including adequacy of the draft HCP pursuant to the requirements for permits at 50 CFR parts 13 and 17, and the adequacy of the draft EA pursuant to the requirements of NEPA.

Public Availability of Comments

All comments and materials we receive become part of the public record associated with this action. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comments, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so. Comments and materials we receive, as well as supporting documentation we use in preparing the EA, will be available for public inspection by appointment, during normal business hours, at our Washington Fish and Wildlife Office (see ADDRESSES).

Next Steps

After completion of the EA, we will determine whether the proposed action warrants a finding of no significant impact or whether an environmental impact statement should be prepared. We will evaluate the permit application, associated documents, and any comments we receive, to determine whether the permit application meets the requirements of section 10(a)(1)(B) of the ESA. We will also evaluate whether issuance of the requested 10(a)(1)(B) permit would comply with section 7 of the ESA by conducting an intra-Service section 7 consultation.
on the Service’s proposed ITP action. The final NEPA and permit determinations will not be completed until after the end of the 30-day comment period and will fully consider all comments received during the comment period. If we determine that all requirements are met, we will issue an ITP under section 10(a)(1)(B) of the ESA to the applicants for the take of covered species, incidental to otherwise lawful covered activities.

Authority
We provide this notice in accordance with the requirements of section 10 of the ESA (16 U.S.C. 1531 et seq.) and NEPA (42 U.S.C. 4231 et seq.) and their implementing regulations (50 CFR 17.22 et seq.) with the requirements of section 10 of the ESA to the applicants for the take of an ITP under section 10(a)(1)(B) of the ESA. If all requirements are met, we will issue the final NEPA and permit determining that the proposed ITP is a lawful covered activity.

SUMMARY: In accordance with the Federal Land Policy and Management Act and the Federal Advisory Committee Act of 1972, the U.S. Department of the Interior, Bureau of Land Management (BLM) Southwest Resource Advisory Council (RAC) Oil and Gas Sub-Group is scheduled to meet as indicated below.

DATES: The Southwest RAC Oil and Gas Sub-Group meeting will be held on November 19, 2015, in Dolores, Colorado.

DEPARTMENT OF THE INTERIOR
Bureau of Land Management
[LLCS0000 L13100000.EI0000 16X]
Notice of Public Meetings, Southwest Colorado Resource Advisory Council Oil and Gas Sub-Group
AGENCY: Bureau of Land Management, Interior.
ACTION: Notice of public meeting.

The Southwest RAC Oil and Gas Sub-Group meeting will be held on November 19 at the Dolores Public Lands Office, 29211 Highway 184, Dolores, CO 81323. The meeting will begin at 10 a.m. and adjourn at approximately 12 p.m. A public comment period regarding matters on the agenda will be held at 11 a.m.

FOR FURTHER INFORMATION CONTACT:
Barbara Sharrow, BLM Colorado Southwest District Acting District Manager, 970–240–5300; or Shannon Borders, Public Affairs Specialist, 970–240–5300; 2505 S. Townsend Ave., Montrose, CO 81401. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 to contact the above individual during normal business hours. The FIRS is available 24 hours a day, seven days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The Southwest RAC Oil and Gas Sub-Group identifies key priorities for the Southwest RAC to recommend to the Secretary of the Interior through the BLM. At this meeting, the sub-group will discuss the BLM’s proposed Master Leasing Plan in western La Plata and eastern Montezuma counties. This meeting is open to the public. The public may present written comments to the sub-group. The meeting will also have time, as identified above, allocated for hearing public comments. Depending on the number of people wishing to comment and time available, the time for individual oral comments may be limited.

Ruth Welch, BLM Colorado State Director.

DEPARTMENT OF THE INTERIOR
National Park Service
[NPS–NERO–FIIS–19137]; [PPMPSPD1Z.YM0000]
Notice of Designation of Potential Wilderness as Wilderness, Fire Island National Seashore
AGENCY: National Park Service, Interior.
ACTION: Notice of designation.

SUMMARY: The Otis Pike Fire Island High Dunes Wilderness Act, Public Law 96–585, December 23, 1980, designated approximately 1,360 acres as wilderness in the Fire Island National Seashore. Due to existing boardwalks and a pit toilet, this Act also designated approximately 18 acres of potential wilderness within Fire Island National Seashore that could be re-designated as wilderness upon elimination of these non-conforming uses. The National Park Service (NPS) described the wilderness and potential wilderness areas on maps entitled “Wilderness Plan—Fire Island National Seashore,” dated December 1983. In November 1983, the NPS adopted the “Wilderness Management Plan, Fire Island National Seashore” which also contained the legal description of the wilderness boundaries and a map showing the wilderness and the potential wilderness areas. On October 12, 1999, 17 acres of potential wilderness were re-designated as wilderness (see Federal Register Vol. 64, No. 196).

On October 29, 2012, Hurricane Sandy moved through Fire Island National Seashore, destroying the boardwalk nature trail west of the Wilderness Visitor Center, the boardwalk dune crossing, and pit toilet at Old Inlet. The footprint of the two boardwalks and pit toilet is infrastructure that existed within the boundaries of the remaining one acre (more or less) of potential wilderness, entirely in Federal ownership. Upon destruction, the non-conforming uses of this potential wilderness addition were eliminated. Section (C) of the Otis Pike Fire Island High Dunes Wilderness Act authorized the Secretary of the Interior to designate administratively as wilderness any lands previously designated as potential wilderness upon publication in the Federal Register of a notice that all uses therein that are inconsistent with the Wilderness Act of 1964 (Pub. L. 88–577) have ceased. Accordingly, this notice hereby converts the one acre of potential wilderness in the Otis Pike Fire Island High Dune Wilderness, within Fire Island National Seashore, to designated wilderness. The one acre (more or less) shall be added to the 1,379 acres of designated wilderness within the Otis Pike Fire Island High Dune Wilderness, and managed in accordance with the Wilderness Act of 1964.

The maps and legal description are on file at the headquarters of the Fire Island National Seashore, 120 Laurel Street, Patchogue, NY 11772, and at the Office of the Director, 1849 C Street NW., Washington, DC 20240.

Dated: September 15, 2015.

Jonathan B. Jarvis,
Director, National Park Service.
