Abstract: The information collected for the National Survey of Fishing, Hunting, and Wildlife-Associated Recreation (FHWAR) assists the Fish and Wildlife Service in administering the Wildlife and Sport Fish Restoration grant programs. The 2016 FHWAR will provide up-to-date information on the uses and demands for wildlife-related recreation resources, trends in uses of those resources, and a basis for developing and evaluating programs and projects to meet existing and future needs.

We conduct the information in conjunction with carrying out our responsibilities under the Federal Aid in Sport Fish Restoration Act (16 U.S.C. 777–777m), commonly referred to as the Dingell-Johnson Act, and the Federal Aid in Wildlife Restoration Act (16 U.S.C. 669–669l), commonly referred to as the Pittman-Robertson Act. Under these acts, as amended, we provide approximately $1 billion in grants annually to States for projects that support sport fish and wildlife management and restoration, including:  
• Improvement of fish and wildlife habitats,  
• Fishing and boating access,  
• Fish stocking, and  
• Hunting and fishing opportunities.  
We also provide grants for aquatic education and hunter education, maintenance of completed projects, and research into problems affecting fish and wildlife resources. These projects help to ensure that the American people have adequate opportunities for fish and wildlife recreation.
