Applicant’s Proposed Project

We received an application from the applicant for an incidental take permit, along with a proposed habitat conservation plan. The applicant requests an ITP under section 10(a)(1)(B) of the Act (16 U.S.C. 1531 et seq.). If we approve the application, the applicant anticipates taking a total of approximately 4 acres of skink breeding, feeding, and sheltering habitat, incidental to land preparation and construction in Section 25, Township 25 South, Range 26 East, Polk County, Florida. The applicant currently has neither a time-frame for development, nor a specific site plan; however, development of this parcel would likely include construction of one or more structures, a parking area, and installation of associated utilities.

The applicant proposes to minimize impacts to skinks by preserving a total of 8 acres of skink-occupied habitat off site. The Service listed the skinks as threatened in 1987 (November 6, 1987; 52 FR 20715), effective December 7, 1987.
