**Estimated Annual Nonhour Burden Cost:** None.

**Abstract:** This information collection is associated with regulations implementing the Migratory Bird Treaty Act (MBTA) (16 U.S.C. 703 et seq.). Under the MBTA, it is unlawful to take, possess, import, export, transport, sell, purchase, barter, or offer for sale, purchase, or barter, migratory birds or their parts, nests, or eggs, except as authorized by regulations implementing the MBTA.

The regulations in the Code of Federal Regulations (CFR) at 50 CFR 21.47 (Aquaculture Depredation Order) authorize landowners, operators, and tenants (or their employees or agents) actually engaged in the commercial, Federal, or State production of freshwater aquaculture stocks and the U.S. Department of Agriculture (APHIS–Wildlife Services) in 13 States to take double-crested cormorants when the birds are found committing or about to commit depredations on commercial freshwater aquaculture stocks. The regulations at 50 CFR 21.48 (Public Resource Depredation Order) authorize State fish and wildlife agencies, APHIS–Wildlife Services, and federally recognized tribes in 24 States to take double-crested cormorants to prevent depredations on the public resources of fish, wildlife, plants, and their habitats.

Both 50 CFR 21.47 and 21.48 impose reporting and recordkeeping requirements on those operating under the depredation orders. We use the information collected to:

- Help assess the impact of the depredation orders on double-crested cormorant populations.
- Protect nontarget migratory birds or other species.
- Ensure that agencies and individuals are operating in accordance with the terms, conditions, and purpose of the orders.
- Help gauge the effectiveness of the orders at mitigating cormorant-related damages.

Comments Received and Our Responses

On September 30, 2015, we published in the Federal Register (80 FR 58770) a notice of our intent to request that OMB renew approval for this information collection. In that notice, we solicited comments for 60 days, ending on November 30, 2015. We received one comment from an individual. Although much of what was submitted did not relate to the information collection directly, the commenter made two main points:

- The Service does not have a mechanism in place to evaluate the validity of the data submitted. Instead, the Service relies on the integrity of others to submit reliable data.
- There is no systematic evaluation of control programs and the system continues to proceed based on faith that what is being done is accomplishing some kind of benefit.

We appreciate these comments because they recognize the importance of collecting sufficient information to allow the Service to do its important job.
of protecting our public trust resources for the benefit of all. The information collected serves as a tool for enforcement of the depredation orders and contributes to our knowledge of the impacts of the depredation orders on double-crested cormorants. Because of the risk of enforcement, we believe those operating under these orders have reason to collect and report reliable data. We agree that the control program would benefit from a systematic evaluation. This evaluation will be conducted as resources allow. We did not make any changes to our requirements at this time.

Request for Public Comments

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB and us in your comment to withhold your personal identifying information from public record, we cannot guarantee that it will be done.

Tina A. Campbell, Chief, Division of Policy, Performance, and Management Programs, U.S. Fish and Wildlife Service.
