is a renewal of an existing project, and implementation of the project would result in minor or negligible effects on other environmental values or resources; and (3) Impacts of the project, considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not result, over time, in cumulative effects to environmental values or resources that would be considered significant. This preliminary determination may be revised based on our review of public comments that we receive in response to this notice.

Next Steps

We will evaluate the HCP and comments we receive to determine whether the ITP application meets the requirements of section 10(a) of the Act (16 U.S.C. 1531 et seq.). If we determine that the application meets these requirements, we will issue ITP # TE54555B–O. We will also evaluate whether issuance of the section 10(a)(1)(B) ITP complies with section 7 of the Act by conducting an intra-Service section 7 consultation. We will use the results of this consultation, in combination with the above findings, in our final analysis to determine whether or not to issue the ITP. If the requirements are met, we will issue the permit to the applicant.

Public Comments

If you wish to comment on the permit application, HCP, and associated documents, you may submit comments by any one of the methods in ADDRESSES.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comments, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority

We provide this notice under Section 10 of the Act and NEPA regulations (40 CFR 1506.6).

Edwin E. Muñiz,
Field Supervisor, Caribbean Ecological Services Field Office, Southeast Region.

BILLING CODE 4333–15–P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

ENDANGERED AND THREATENED WILDLIFE AND PLANTS; RECOVERY PERMIT APPLICATIONS

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, invite the public to comment on the following applications to conduct activities intended to enhance the survival of endangered or threatened species.

DATES: To ensure consideration, please send your written comments by April 25, 2016.

ADDRESSES: You may submit comments or requests for copies or more information by any of the following methods. Alternatively, you may use one of the following methods to request hard copies or a CD-ROM of the documents. Please specify the permit you are interested in by number (e.g., Permit No. TE–XXXXXX).

• Email: permitsR6ES@fws.gov. Please refer to the respective permit number (e.g., Permit No. TE–XXXXXX) in the subject line of the message.

• U.S. Mail: Ecological Services, U.S. Fish and Wildlife Service, P.O. Box 25486–DFC, Denver, CO 80225.

• In-Person Drop-Off, Viewing, or Pickup: Call (719) 628–2670 to make an appointment during regular business hours at 134 Union Blvd., Suite 645, Lakewood, CO 80228.

FOR FURTHER INFORMATION CONTACT: Kathy Konishi, Recovery Permits Coordinator, Ecological Services, (719) 628–2670 (phone); permitsR6ES@fws.gov (email).

SUPPLEMENTARY INFORMATION:

Background

The Act (16 U.S.C. 1531 et seq.) prohibits certain activities with endangered and threatened species unless authorized by a Federal permit. Along with our implementing regulations at 50 CFR 17, the Act provides for permits and requires that we invite public comment before issuing these permits for endangered species.

A permit granted by us under section 10(a)(1)(A) of the Act authorizes the permittees to conduct activities with U.S. endangered or threatened species for scientific purposes, enhancement of propagation or survival, or interstate commerce (the latter only in the event that it facilitates scientific purposes or enhancement of propagation or survival). Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

Applications Available for Review and Comment

We invite local, State, and Federal agencies and the public to comment on the following applications. Documents and other information the applicants have submitted with their applications are available for review, subject to the requirements of the Privacy Act (5 U.S.C. 552a) and Freedom of Information Act (5 U.S.C. 552).

Permit Application Number TE047381

Applicant: Bureau of Indian Affairs, Southern Ute, Ignacio, CO.

The applicant requests a permit to conduct presence/absence surveys for southwestern willow flycatcher (Empidonax traillii extimus) in Colorado for the purpose of enhancing the species’ survival.

Permit Application Number TE13024B

Applicant: Bureau of Land Management, Lakewood, CO.

The applicant requests an amendment to an existing permit to conduct presence/absence surveys for southwestern willow flycatcher (Empidonax traillii extimus) in Colorado for the purpose of enhancing the species’ survival.

National Environmental Policy Act

In compliance with the National Environmental Policy Act (42 U.S.C. 4321 et seq.), we have made an initial determination that the proposed activities in these permits are categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement (516 DM 6 Appendix 1, 1.4C(1)).
Public Availability of Comments

All comments and materials we receive in response to these requests will be available for public inspection, by appointment, during normal business hours at the address listed in the ADDRESSES section of this notice. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority

We provide this notice under section 10 of the Act (16 U.S.C. 1531 et seq.).

Michael G. Thabault,
Assistant Regional Director, Mountain-Prairie Region.

DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service

Proposed Template Candidate Conservation Agreement With Assurances for the Fisher in Oregon and a Draft Environmental Action Statement

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: The U.S. Fish and Wildlife Service (Service) has developed a proposed template Candidate Conservation Agreement with Assurances (CCAA) for the West Coast Distinct Population Segment (DPS) of the fisher in Oregon, and proposes to issue enhancement of survival (EOS) permits under the CCAA, pursuant to the Endangered Species Act of 1973, as amended (ESA). The permits would authorize incidental take with assurances to eligible landowners who are willing to enroll in the template CCAA and carry out conservation measures that would benefit the West Coast DPS of the fisher. We request comments from the public on the proposed template CCAA, the issuance of EOS permits, and on the Service’s draft Environmental Action Statement (EAS) for our preliminary determination that the CCAA and issuance of EOS permits qualify for categorical exclusion under the National Environmental Policy Act of 1969 (NEPA).

DATES: To ensure consideration, written comments must be received from interested parties no later than April 25, 2016.

ADDRESSES: To request further information or submit written comments, please use one of the following methods, and note that your information request or comments are in reference to the “Template Fisher CCAA.”

• Internet: Documents may be viewed on the Internet at http://www.fws.gov/or/oregonfws/.
• Email: ORfisherCCAAcomments@fws.gov. Include “Template Fisher CCAA” in the subject line of the message or comments.
• U.S. Mail: State Supervisor, Oregon Fish and Wildlife Office, U.S. Fish and Wildlife Service; 2600 SE, 98th Avenue, Suite 100; Portland, OR 97266.
• Fax: 503–231–6195, Attn: Template Fisher CCAA.
• In-Person Drop-off, Viewing or Pickup: Comments and materials received will be available for public inspection, by appointment (necessary for viewing or picking up documents only), during normal business hours at the Oregon Fish and Wildlife Office, U.S. Fish and Wildlife Service; 2600 SE, 98th Avenue, Suite 100; Portland, OR 97266; telephone 503–231–6179. Written comments can be dropped off during regular business hours at the above address on or before the closing date of the public comment period (see DATES).

SUPPLEMENTARY INFORMATION:

Background

A CCAA is a voluntary agreement whereby landowners agree to manage their lands to remove or reduce threats to species that may become listed under the ESA (64 FR 32726; June 17, 1999). CCAs are intended to facilitate the conservation of proposed and candidate species, and species likely to become candidates in the near future by giving non-Federal property owners incentives to implement conservation measures for declining species by providing certainty with regard to land, water, or resource use restrictions that might be imposed.

should the species later become listed as threatened or endangered under the ESA. In return for managing their lands to the benefit of the covered species, enrolled landowners receive assurances that additional regulatory requirements pertaining to the covered species will not be required if the covered species becomes listed as threatened or endangered under the ESA as long as the CCAA remains in place and is being fully implemented.

A CCAA serves as the basis for the Service to issue EOS permits to non-Federal participants pursuant section 10(a)(1)(A) of the ESA. EOS permits are issued to applicants in association with an approved CCAA to authorize incidental take of the covered species from covered activities, should the species become listed. Through a CCAA and its associated EOS permit, the Service provides assurances to property owners that they will not be subjected to increased land use restrictions if the covered species becomes listed under the ESA in the future, provided certain conditions are met. Because enrollment in a CCAA is voluntary, participating landowners may subsequently choose to discontinue their participation and their ESA section 10(a)(1)(A) permit coverage would then lapse.

Application requirements and issuance criteria for EOS permits for CCAs are found in the Code of Regulations (CFR) at 50 CFR 17.22(d) and 17.32(d), respectively. See also our joint policy on CCAs that was published in the Federal Register by the Service and the Department of Commerce’s National Oceanic and Atmospheric Administration, National Marine Fisheries Service (64 FR 32726; June 17, 1999). Each prospective CCAA participant will need to complete and submit to the Service an ESA section 10(a)(1)(A) EOS permit application form.

On April 8, 2004, the Service published a 12-month status review (69 FR 18769) finding that listing the West Coast Distinct Population Segment (DPS) of the fisher (Pekania pennanti) as threatened or endangered under the ESA (16 U.S.C. 1538) was warranted, but precluded by higher priority actions. On October 7, 2014, the Service published a proposed rule (79 FR 60419) to list the West Coast DPS of the fisher as threatened under the ESA. In that proposed rule, the Service identified habitat loss from wildfire and vegetation management, toxicants (rodenticides), and the cumulative impact of these and other stressors in small populations as threats to the continued existence of the West Coast DPS of the fisher. On April 14, 2015, the Service issued a 6-month extension to
