Under Proposal One, the Postal Service seeks to enhance the data and estimates of the SIRVO. Id. at 2. The current SIRVO estimator of revenue and pieces is a probability-based statistical expansion estimator, which uses sample data. Id. at 3. The proposed SIRVO estimator would be a model-based regression estimator, based on census data, Id. at 5. This proposed estimator would also include census data from additional sources at a more granular level, Id. at 7.

The Postal Service asserts that adoption of this proposal will significantly reduce the margins of error for product revenues and volumes. Id. at 10. These improvements will primarily affect estimates for Priority Mail International, First-Class Mail International, and First-Class Package International Service. Id.

The Postal Service further asserts that “approximately 50 percent of the revenue . . . of the proposed SIRVO’s product estimates for FY2015 are based upon census data sources.” Id. at 8. Proposal One would not affect the amount of total FY 2015 revenue, but total competitive revenue would increase, with a corresponding decrease in market dominant revenue. Id. at 8–9. Total FY 2015 volume would increase, with competitive volumes increasing and market dominant volumes decreasing. Id.

SUPPLEMENTARY INFORMATION:

Background

On September 15, 2015, we published in the Federal Register a proposed rule to list Platanthera integrilabia (white fringeless orchid) as a threatened species under the Endangered Species Act (80 FR 55304). However, we have since determined that we did not completely satisfy the notice requirements of 16 U.S.C. 1533(b)(5) at the time of publication. Therefore, in order to ensure that we follow the proper procedures for notification in accordance with 16 U.S.C. 1533(b)(5), so that there is adequate opportunity to review and comment on the proposed rule, we are reopening the comment period for an additional 60 days.

Information Requested

We intend that any final action resulting from this proposed rule will be based on the best scientific and commercial data available and be as accurate and as effective as possible. Therefore, we request comments or information from other concerned governmental agencies, Native American tribes, the scientific community, industry, or any other interested parties concerning this proposed rule. Please see the Information Requested section of the September 15, 2015, proposed listing rule (80 FR 55304) for a list of the topics on which we particularly seek comment.

For more background on our proposed rule, see the September 15, 2015, Federal Register (80 FR 55304), which is available at the Federal eRulemaking Portal at http://www.regulations.gov (see ADDRESSES).

If you previously submitted comments or information on the proposed rule, please do not resubmit them. We have incorporated them into the public record, and we will fully consider them in our final rulemaking. Our final determination concerning this proposed rulemaking will take into consideration all written comments and any additional information we receive.

Please note that submissions merely stating support for or opposition to the action under consideration without providing supporting information, although noted, will not be considered in making a determination, as section 4(b)(1)(A) of the Act directs that determinations as to whether any species is an endangered or threatened species must be made "solely on the basis of the best scientific and commercial data available."

You may submit your comments and materials concerning the proposed rule by one of the methods listed in ADDRESSES. We request that you send comments only by the methods described in ADDRESSES.

If you submit information via http://www.regulations.gov, your entire submission—including any personal identifying information—will be posted on the Web site. If your submission is made via a hardcopy that includes personal identifying information, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so. We will post all hardcopy submissions on http://www.regulations.gov. Please include sufficient information with your comments to allow us to verify any scientific or commercial information you include.

Comments and materials we receive, as well as supporting documentation we used in preparing the proposed rule, will be available for public inspection on http://www.regulations.gov, or by appointment, during normal business hours, at the U.S. Fish and Wildlife Service, Tennessee Ecological Services Field Office (see FOR FURTHER INFORMATION CONTACT).

Because we will consider all comments and information received during the public comment periods, our final determinations may differ from the proposal.

Public Hearing

Section 4(b)(5) of the Act provides for one or more public hearings on this proposal, if requested. Requests must be received by the date specified above in DATES. Such requests must be sent to the address shown in FOR FURTHER INFORMATION CONTACT. We will schedule public hearings on this proposed rule, if any are requested, and announce the dates, times, and places of those hearings, as well as how to obtain reasonable accommodations, in the Federal Register and local newspapers at least 15 days before the hearing.

Authority: The authority for this action is the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.).

Dated: April 5, 2016.
