The applicant requests a permit renewal, with amendment to take (capture and release, handle, trap, and tag) Indiana bat (Myotis sodalis), gray bat (Myotis grisescens), and northern long-eared bat (Myotis septentrionalis) for presence/absence surveys, studies to document habitat use, and population monitoring in the States of Illinois, Indiana, Missouri, and Ohio. Proposed activities are for the recovery and enhancement of survival of the species in the wild.

**National Environmental Policy Act**

The proposed activities in the requested permits qualify as categorical exclusions under the National Environmental Policy Act, as provided by Department of the Interior implementing regulations in part 46 of title 43 of the CFR (43 CFR 46.205, 46.210, and 46.215).

**Public Availability of Comments**

We seek public review and comments on these permit applications. Please refer to the permit number when you submit comments. Comments and materials we receive in response to this notice are available for public inspection, by appointment, during normal business hours at the address listed above in ADDRESSES.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

**Authority**

We provide this notice under section 10 of the ESA (16 U.S.C. 1531 et seq.).

Dated: June 15, 2016.

Jack Dingledine,
Acting Assistant Regional Director, Ecological Services, Midwest Region.

BILLING CODE 4333–15–P
Background

On December 12, 2013, Enbridge Pipelines (Lakehead) L.L.C. (Enbridge) received an ITP for take of the Hine’s Emerald Dragonfly (Somatochlora hineana) that may occur during inspection and repair of three sections of Enbridge’s Line 5 (30-inch diameter) pipeline in Garfield Township, Mackinac County. The permit was amended on January 25, 2015, to include a fourth section of pipeline within the original HCP boundaries (2.64 acres). The project is located approximately 1 mile east of the City of Engadine, Michigan, along the Enbridge right-of-way (ROW).

Applicant’s Proposed Action

Enbridge has completed the pipeline inspection and maintenance and all required mitigation measures, per the HCP. Enbridge has also conducted annual monitoring and submitted annual reports. The monitoring indicates that the performance and success criteria for restoration of the site have been only partially met. Enbridge requests renewal of the ITP to continue implementing any remedial measures, if necessary, until December 31, 2017.

Reviewing Documents and Submitting Comments

Please refer to permit number TE03689B–1 when submitting comments. The permit application and supporting documents may be obtained on the Internet at http://www.fws.gov/midwest/endangered/permits/hcp/r3hcps.html. Persons without access to the Internet may obtain copies of the permit application by contacting the U.S. Fish and Wildlife Service (ADDRESSES). The permit application and supporting documents will also be available for public inspection, by appointment, during normal business hours (8 a.m. to 4 p.m.) at the USFWS Lansing office (see ADDRESSES). Written comments will be accepted as described under ADDRESSES.

Public Availability of Comments

Written comments we receive become part of the public record associated with this action. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that the entire comment, including your personal identifying information, may be made available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Next Steps

We will evaluate the permit application, including comments we receive, to determine whether the application meets the requirements of section 10(a)(1)(B) of the Act. We will also evaluate whether renewal of the ITP would comply with section 7(a)(2) of the Act by conducting an intra-Service Section 7 consultation. We will use the results of our internal Service consultation, in combination with the above findings, in our final analysis to determine whether to renew the permit. If the requirements are met, we will renew the ITP. We will make the final permit decision no sooner than 30 days after the date of this notice.

Authority

We provide this notice under section 10 of the ESA (16 U.S.C. 1531 et seq.), section 668a of the Eagle Act (16 U.S.C. 668a–668d), NEPA (42 U.S.C. 4321 et seq.), and NEPA regulations (40 CFR 1501.7, 1506.5, 1506.6 and 1508.22).

Dated: June 15, 2016.

Sean Marsan,
Acting Assistant Regional Director, Ecological Services, Midwest Region.
