U.S. Virgin Islands
The Service’s review found 13 of the 37 CBRS units in the U.S. Virgin Islands have changed due to natural forces.

VI–01: RUST UP TWIST UNIT. Portions of the landward boundary of the unit have been modified to reflect natural changes that have occurred in the configuration of the shoreline along Magens Bay. The eastern lateral boundary has been extended offshore to clarify the extent of the unit.

VI–02: SALT RIVER BAY UNIT. Portions of the landward boundary of the unit have been modified to reflect natural changes that have occurred in the configuration of the marsh interface.

VI–03: ALTONA LAGOON UNIT. Portions of the landward boundary of the unit have been modified to reflect natural changes that have occurred in the wetland/fastland interface.

VI–06: ROBIN BAY UNIT. A portion of the landward boundary of the unit has been modified to account for natural changes that have occurred in the configuration of the shoreline along an unnamed salt pond.

VI–09: Krause Lagoon Unit. A portion of the landward boundary of the unit has been modified to reflect natural changes that have occurred in the configuration of the shoreline along Krause Lagoon Channel.

VI–10: Long Point Unit. A portion of the landward boundary of the unit has been modified to account for shoreline erosion along Long Point Bay.

VI–11: Westend Saltpond Unit. A portion of the northeastern boundary of the unit has been modified to account for shoreline erosion along Westend Saltpond.

VI–11P: Westend Saltpond Unit. Offshore boundaries have been added at the western end of the unit to clarify the extent of the unit. The eastern lateral boundary has been extended offshore to clarify the extent of the unit. No modifications were made to the boundaries of this unit as a result of changes due to natural forces.

VI–12P: Cinnamon Bay Unit. A portion of the landward boundary of the unit has been modified to account for shoreline erosion along Cinnamon Bay.

VI–13P: MaHo Bay Unit. A portion of the landward boundary of the unit has been modified to reflect natural changes that have occurred in the configuration of the wetland/fastland interface.

VI–15P: Leinster Bay Unit. Portions of the landward boundary of the unit have been modified to account for shoreline erosion along Leinster Bay and natural changes that have occurred in the wetland/fastland interface.

VI–19P: Ram Head Unit. Lateral offshore boundaries have been added to the eastern and western ends of the unit to clarify the extent of the unit. No modifications were made to the boundaries of this unit as a result of changes due to natural forces.

VI–27: Limestone Bay Unit. Portions of the landward boundary of the unit were modified to reflect natural changes that have occurred in the configuration of the marsh adjacent to Limestone Bay.

VI–29: Magens Bay Unit. Portions of the landward boundary of the unit have been modified to account for natural changes that have occurred in the configuration of the shoreline along Magens Bay.

VI–32: Vessup Bay Unit. An offshore boundary has been added to the unit in Vessup Bay to clarify the extent of the unit. No modifications were made to the boundaries of this unit as a result of changes due to natural forces.

VI–34: Jersey Bay Unit. Portions of the landward boundary of the unit have been modified to reflect natural changes that have occurred in the configuration of the shoreline and wetland/fastland interface. The eastern lateral boundary has been extended offshore to clarify the extent of the unit.

Availability of Final Maps and Related Information
The final revised maps dated November 15, 2016, and digital boundary data can be accessed and downloaded from the Service’s Web site at http://www.fws.gov/ecological-services/habitat-conservation/Coastal.html. The digital boundary data are available for reference purposes only. The digital boundaries are best viewed using the base imagery to which the boundaries were drawn; this information is printed in the title block of the maps. The Service is not responsible for any misuse or misinterpretation of the digital boundary data.

Interested parties may also contact the Service individual identified in FOR FURTHER INFORMATION CONTACT to make arrangements to view the final maps at the Service’s Headquarters office. Interested parties who are unable to access the maps via the Service’s Web site or at the Service’s Headquarters office may contact the Service individual identified in FOR FURTHER INFORMATION CONTACT, and reasonable accommodations will be made to ensure the individual’s ability to view the maps.

Gina Shultz, Acting Assistant Director for Ecological Services.

DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service

Endangered Species Recovery Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications; request for comment.

SUMMARY: We, the U.S. Fish and Wildlife Service, invite the public to comment on the following applications for a permit to conduct activities intended to enhance the survival of endangered species. With some exceptions, the Endangered Species Act of 1973, as amended (Act), prohibits certain activities that may impact endangered and threatened species unless a Federal permit allows such activity. The Act also requires that we invite public comment before issuing these permits.

DATES: To ensure consideration, please send your written comments by January 13, 2017.

ADDRESSES: Documents and other information submitted with the applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents to the following office within 30 days of the date of publication of this notice. You may use one of the following methods to request hard copies or a CD–ROM of the documents. Please specify the permit you are interested in by number (e.g., Permit No. TE–XXXXXX).

• Email: permitsR6ES@fws.gov. Please refer to the respective permit number (e.g., Permit No. TE–XXXXXX) in the subject line of the message.

• U.S. Mail: Ecological Services, U.S. Fish and Wildlife Service, P.O. Box 25486–DFC, Denver, CO 80225.

• In-Person Drop-off, Viewing, or Pickup: Call (719) 628–2670 to make an appointment during regular business hours at 134 Union Blvd., Suite 645, Lakewood, CO 80228.

FOR FURTHER INFORMATION CONTACT:
Kathy Konishi, Recovery Permits Coordinator, Ecological Services, (719) 628–2670 (phone); permitsR6ES@fws.gov (email).

SUPPLEMENTARY INFORMATION:

Background
The Act (16 U.S.C. 1531 et seq.) prohibits certain activities with endangered and threatened species unless authorized by a Federal permit. The Act and our implementing regulations in part 17 of title 50 of the Code of Federal Regulations (CFR) provide for the issuance of such permits and require that we invite public comment before issuing permits for activities involving endangered species.

A permit granted by us under section 10(a)(1)(A) of the Act authorizes the permittee to conduct activities with U.S.
endangered or threatened species for scientific purposes, enhancement of propagation or survival, or interstate commerce (the latter only in the event that it facilitates scientific purposes or enhancement of propagation or survival). Our regulations implementing section 10(a)(1)(A) for these permits are found at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

Applications Available for Review and Comment

We invite local, State, Tribal, and Federal agencies and the public to comment on the following applications. Please refer to the permit number for the application when submitting comments.

Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act (5 U.S.C. 552a) and Freedom of Information Act (5 U.S.C. 552).

Permit Application Number TE09897C
Applicant: Fort Belknap Fish and Wildlife Department, Harlem, MT
The applicant requests an extension of their permit to continue acquiring and raising gila golden sunfish (Ptychocheilus lucius) in Montana for the purpose of enhancing the species’ survival.

Permit Application Number TE04585C
Applicant: John W. Mumma Native Aquatic Species Restoration Facility, Alamosa, CO
The applicant requests an amendment to their current permit to conduct presence/absence surveys for black-footed ferrets (Mustela nigripes) in Wyoming for the purpose of enhancing the species’ survival.

Permit Application Number TE047290
Applicant: Colorado Parks and Wildlife
John W. Mumma Native Aquatic Species Restoration Facility, Alamosa, CO
The applicant requests the renewal of their permit for research, propagation, transport, and release of bonytail chub (Gila elegans), Colorado pikeminnow (Ptychocheilus lucius), humpback chub (Gila cypha), and razorback sucker (Xyrauchen texanus) into the wild for the purpose of enhancing the species’ survival.

Public Availability of Comments

All comments and materials we receive in response to these requests will be available for public inspection, by appointment, during normal business hours at the address listed above in ADDRESSES.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority
We provide this notice under section 10 of the Act (16 U.S.C. 1531 et seq.).

Michael G. Thabault,
Assistant Regional Director, Mountain-Prairie Region.
