DEPARTMENT OF HOMELAND SECURITY
U.S. Immigration and Customs Enforcement

Agency Information Collection Activities: Extension, Without
Changes, of an Existing Information Collection; Comment Request; OMB
Control No. 1653–0043

AGENCY: U.S. Immigration and Customs Enforcement, Department of Homeland
Security.

ACTION: 60-Day notice of information collection for review; Forms No. 10–
002; Electronic Funds Transfer Waiver Request; OMB Control No. 1653–0043.

The Department of Homeland Security, U.S. Immigration and Customs
Enforcement (USICE) is submitting the following information collection request
for review and clearance in accordance with the Paperwork Reduction Act of
1995. The information collection is published in the Federal Register to
obtain comments from the public and affected agencies. Comments are
encouraged and will be accepted for sixty days until May 23, 2017.

Written comments and suggestions regarding items contained in this notice
and especially with regard to the estimated public burden and associated
response time should be directed to the Department of Homeland Security
(DHS), PRA Clearance Officer, U.S. Immigration and Customs Enforcement,
801 I Street NW., Mailstop 5800, Washington, DC 20536–5800.

Written comments and suggestions from the public and affected agencies
concerning the proposed collection of information should address one or more
of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for
the proper performance of the functions of the agency, including whether the
information will have practical utility;

(2) Evaluate the accuracy of the agencies estimate of the burden of the
proposed collection of information, including the validity of the
methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be
collected; and

(4) Minimize the burden of the collection of information on those who are
responding, including through the use of appropriate automated,
electronic, mechanical, or other technological collection techniques or
other forms of information technology, e.g., permitting electronic submission of
responses.

Overview of This Information Collection

(1) Type of Information Collection: Extension, without changes, of a
currently approved information collection.

(2) Title of the Form/Collection: Electronic Funds Transfer Waiver Request.

(3) Agency form number, if any, and the applicable component of the
Department of Homeland Security sponsoring the collection: ICE Form 10–
002; U.S. Immigration and Customs Enforcement.

(4) Affected public who will be asked or required to respond, as well as a
brief abstract: Primary: State, Local, or Tribal
Government. Section 404(b) of the
Immigration and Nationality Act (8 U.S.C. 1101 note) provides for the
reimbursement to States and localities for assistance provided in meeting an
immigration emergency. This collection of information allows for State or local
governments to request reimbursement.

(5) An estimate of the total number of respondents and the amount of time
estimated for an average respondent to respond: 650 responses at 30 minutes
(.50 hours) per response.

(6) An estimate of the total public burden (in hours) associated with the
collection: 350 annual burden hours.

Scott Elmore,
PRA Clearance Officer, Office of the Chief
Information Officer, U.S. Immigration and
Customs Enforcement, Department of
Homeland Security.

DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service

Habitat Conservation Plan for Pacific
Gas and Electric Company’s San
Francisco Bay Area Operations and
Maintenance

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; receipt of
permit application, draft environmental
assessment, draft habitat conservation
plan, request for comment; withdrawal
of notice to prepare an environmental
impact statement.

SUMMARY: This notice advises the public
that we, the U.S. Fish and Wildlife
Service, have prepared a draft
environmental assessment under the
National Environmental Policy Act of
1967, as amended, and its implementing
regulations. This notice also announces
the receipt of an application for an
incidental take permit under the
Endangered Species Act of 1973, as
amended, and receipt of a draft habitat
conservation plan. Also, we announce
that we are withdrawing a prior notice
to prepare an environmental impact
statement.

DATES: Submitting Comments: To ensure
consideration, written comments must
be received by April 24, 2017.

ADDRESSES: Submitting Comments:
Please address written comments to
Mike Thomas, Chief, Conservation
Planning Division, or Eric Tattersall,
Assistant Field Supervisor, by mail/
hand-delivery at U.S. Fish and Wildlife
Service, Sacramento Fish and Wildlife
Office, 2800 Cottage Way, W–2605,
Sacramento, California 95825; or by
facsimile to (916) 414–6713. You may
telephone (916) 414–6600 to make an
appointment during regular business
hours to drop off comments at the
Sacramento Fish and Wildlife Office.

Reviewing Documents: You may
obtain electronic copies of the draft
habitat conservation plan and draft EA
by downloading them from the
Sacramento Fish and Wildlife Office
Web site at http://www.fws.gov/
sacramento, or by contacting any of the
individuals in FOR FURTHER INFORMATION
CONTACT. Copies of these documents are
also available for public inspection,
by appointment, during regular business
hours at the Sacramento Fish and
Wildlife Office (see ADDRESSES).

FOR FURTHER INFORMATION CONTACT: Josh
Emery, San Joaquin Valley Division;
Mike Thomas, Chief, Conservation
Planning Division; or Eric Tattersall,
Assistant Field Supervisor, at the
Sacramento Fish and Wildlife Office
(see ADDRESSES) or at (916) 414–6600
(telephone). If you use a
telecommunications device for the deaf,
please call the Federal Relay Service at
(800) 877–8339.

SUPPLEMENTARY INFORMATION: This
notice advises the public that we, the
U.S. Fish and Wildlife Service (Service),
have prepared a draft environmental
assessment (draft EA) under the
National Environmental Policy Act of
1967, as amended (42 U.S.C. 4321 et
take permits to non-Federal entities for the take of endangered and threatened species, provided the following criteria are met:

1. The taking will be incidental;
2. The applicants will, to the maximum extent practicable, minimize and mitigate the impact of such taking;
3. The applicants will develop a proposed HCP and ensure that adequate funding for the HCP will be provided;
4. The taking will not appreciably reduce the likelihood of the survival and recovery of the species in the wild;
5. The applicants will carry out any other measures that the Service may require as being necessary or appropriate for the purposes of the HCP.

Proposed Action

The Service would issue an ITP to PG&E for a period of 30 years for certain covered activities (described below) in the 9 counties surrounding the San Francisco Bay. Annual species effects as a result of PG&E’s activities are estimated to be approximately 60 acres of permanent habitat loss and 326 acres of temporary habitat disturbance. PG&E has requested a ITP for 32 species (Covered Species), 19 animals and 13 plants, all of which are currently listed as threatened or endangered under the Act.

Plan Area

The geographic scope of the Draft Plan includes Marin, Sonoma, Napa, Solano, Contra Costa, Alameda, Santa Clara, San Mateo, and San Francisco Counties; collectively, this area is known as the study area in the Draft Plan and Draft EA. Within the study area, the Plan Area consists of PG&E’s gas and electric transmission and distribution facilities, rights-of-way, buffer lands, areas owned by PG&E and/or subject to PG&E easements, access routes, and those areas acquired as mitigation to offset the impacts resulting from covered activities. The total plan area is approximately 402,440 acres; of this total acreage, 128,735 acres (32 percent) are in natural land-cover types, 246,777 acres (61 percent) are in urban land-cover types, and 26,928 acres (7 percent) are in agricultural land-cover types.

Covered Activities

The proposed section 10 ITP may allow take of covered wildlife species resulting from covered activities in the proposed HCP plan area. PG&E is requesting incidental take authorization for covered species and to be affected by activities identified in the Draft Plan. The Draft Plan covers all PG&E O&M, minor new construction, and pipeline safety enhancement program activities related to PG&E’s natural gas and electric transmission and distribution systems that may result in take of covered species and that are located in the plan area. O&M activities occur throughout PG&E’s existing network of facilities and would occur at or near the existing facilities. Minor new construction activities include installing new or replacement structures to upgrade facilities or to extend service to new customers. Minor new construction, when in natural vegetation or agricultural land-cover types that contain suitable habitat for covered species, is limited to approximately 2 miles or fewer of new electric or gas line extensions from an existing line, a total of 1 acre or less of new gas pressure limiting stations within the study area, and 0.5 acre or less for each electric substation expansion. End-to-end extensions exceeding approximately 2 miles would not be covered under the Draft Plan. Multiple 2-mile extensions in different areas would be covered, but each would be treated as a separate activity. The size of a minor new construction project would be estimated as the total footprint, expressed in acres. Additionally, PG&E’s community pipeline safety initiative involves upgrading key existing gas transmission pipelines located in heavily populated and other critical areas. Covered activities include inspection, field testing, and potentially replacing many pipeline segments to ensure reliable and safe delivery of gas to customers. Pipeline replacements are estimated to average between 4 miles and 8 miles and are primarily in urban areas, although there would also be replacement activities in areas of natural vegetation.

Covered Species

Covered species are those species addressed in the Draft HCP for which conservation actions will be implemented and for which PG&E is seeking an ITP for a period of 30 years. Proposed covered species include those listed as threatened or endangered under the Act.

The following federally listed threatened and endangered wildlife species are proposed to be covered by the Draft HCP: The endangered California freshwater shrimp (Syncarid pacifica), endangered conservancy fairy shrimp (Branchinecta conservatio), endangered longhorn fairy shrimp (Branchinecta longipertusa), threatened vernal pool fairy shrimp (Branchinecta lynchi), endangered vernal pool tadpole shrimp (Lepidurus packardi), threatened...
delta green ground beetle (Elaphrus viridis), threatened Bay checkerspot butterfly (Euphydryas editha bayensis), endangered callippe silverspot butterfly (Speyeria callippe callippe), endangered Lange’s metalmark butterfly (Apodemia mormo langei), endangered Mission blue butterfly (Plebejus icarioides missionensis), endangered San Bruno elfin butterfly (Incisalia mossii bayensis), threatened California tiger salamander (Central Distinct Population Segment (DPS)) (Ambystoma californiense), endangered California tiger Salamander (Sonoma County DPS) (Ambystoma californiense), threatened California red-legged frog (Rana draytonii), threatened Alameda whipsnake (Masticophis lateralis euryxanthus), endangered San Francisco garter snake (Thamnophis sirtalis tetraatena), endangered Ridgway’s rail (Rallus obsoletus), endangered salt marsh harvest mouse (Reithrodontomys raviventris), and endangered San Joaquin kit fox (Vulpes macrotis mutica).

Take of federally listed plant species is not prohibited on non-Federal land under the Act, and cannot be authorized under a section 10 permit. However, PG&E proposes to include federally listed plant species in recognition of the conservation benefits provided for them under the Draft Plan. For the purposes of the Draft Plan, federally listed plant species are further included to meet regulatory obligations under section 7 of the Act. All species included on the ITP would receive assurances under Service’s “No Surprises” regulations found in 50 CFR 17.22(b)(5) and 17.32(b)(5). The following federally listed plant species are included in the Draft Plan in recognition of the conservation benefits provided for them and the assurances PG&E would receive if they are included on permit: Threatened pallid manzanita (Arctostaphylos pallida), endangered Sonoma sunshine (Blechnopteris bakeri), endangered coyote ceanothus (Ceanothus ferriseae), endangered fountain thistle (Cirsium fontinale), endangered Santa Clara Valley dudleya (Dudleya abramsii setchellii), endangered Contra Costa wallflower (Erysimum capitatum angustatum), threatened Marin dwarf flax (Hesperolinon congestum), endangered Burke’s goldfields (Lasthenia burkei), endangered Contra Costa goldfields (Lasthenia conjugens), endangered Sebastopol meadowfoam (Limnanthes vinculantes), endangered Antioch Dunes evening primrose (Oenothera deltoides howellii), endangered white-rayed pentachaeta (Pentachaeta bellidiflora), and endangered Metcalf Canyon jewelweed (Streptanthus glandulosus albidos).

National Environmental Policy Act Compliance

The Draft EA was prepared to analyze the impacts of issuing an ITP based on the Draft Plan and to inform the public of the proposed action, alternatives, and associated impacts and disclose any irreversible commitments of resources. The proposed ITP issuance triggers the need for compliance with NEPA. The proposed action presented in the Draft EA is compared to the no-action alternative. The no-action alternative represents estimated future conditions to which the proposed action’s estimated future conditions can be compared.

Based on the expected scope of the HCP in 2006, the Service published a Notice of Intent (NOI) to prepare a joint environmental impact statement/environmental impact report (EIS/EIR) in the Federal Register on November 7, 2006 (71 FR 65123). The NOI announced a 30-day public scoping period during which the public was invited to provide written comments and attend three public scoping meetings, which were held on January 14, 2006, in Petaluma, California, and January 15, 2006, in Santa Clara and Walnut Creek, California. However, since 2006, the overall scope of the Draft HCP has been reduced from that expected at the time the Service published the NOI. The Service did not directly receive any public comments. However, two State agencies, the California Department of Transportation and the Delta Protection Commission, indirectly submitted comment letters, one to the California Department of Fish and Wildlife and one to the State Clearinghouse. No significant issues were identified during the 30-day public scoping period. Also, upon review, it appears that there are no potential significant impacts to the human environment. As a result, the Service withdraws its intent to prepare a joint EIS/EIR and is now providing notice of the availability of a Draft EA, which evaluates the impacts of the Proposed Action described above (issuance of the permit and implementation of the Draft Plan), as well as the No-Action Alternative described below.

No-Action Alternative

Under the No-Action Alternative, the Service would not issue an ITP to PG&E, and the Draft Plan would not be implemented. Under this alternative, individual PG&E projects and activities that may adversely affect federally listed animal species would require consultation with the Service pursuant to section 7 or section 10 of the Act on a case-by-case basis. Under the No Action Alternative, there would be no comprehensive means to coordinate and standardize mitigation requirements of the Act within the Plan Area; this is anticipated to result in a more costly, less equitable, less efficient project review process that would provide fewer conservation benefits. Conservation planning and implementation would not happen at a regional scale and would be unlikely to result in a large interconnected system of conservation lands, but would instead likely result in a relatively small and isolated conservation lands spread out over the entire study area.

Public Comments

We request data, comments, new information, or suggestions from the public, other concerned governmental agencies, the scientific community, Tribes, industry, or any other interested party on this notice, the Draft EA, and Draft Plan. We particularly seek comments on the following:

1. Biological information concerning the species;
2. Relevant data concerning the species;
3. Additional information concerning the range, distribution, population size, and population trends of the species;
4. Current or planned activities in the subject area and their possible impacts on the species;
5. The presence of archeological sites, buildings and structures, historic events, sacred and traditional areas, and other historic preservation concerns, which are required to be considered in project planning by the National Historic Preservation Act; and
6. Identification of any other environmental issues that should be considered with regard to the proposed development and permit action.

You may submit your comments and materials by one of the methods listed in the ADDRESSES section. Comments and materials we receive will be available for public inspection by appointment, during normal business hours (Monday through Friday, 8 a.m. to 4:30 p.m.) at the Service’s Sacramento address (see ADDRESSES).

Public Availability of Comments

Before including your address, phone number, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—might be made
publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

**Next Steps**

Issuance of an incidental take permit is a Federal proposed action subject to compliance with NEPA. We will evaluate the application, associated documents, and any public comments we receive to determine whether the application meets the requirements of NEPA regulations and section 10(a) of the Act. If we determine that those requirements are met, we will issue a permit to the applicant for the incidental take of the Covered Species. We will make our final permit decision no sooner than 30 days after the public comment period closes.

**Authority**

We publish this notice under the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321–4347 et seq.; NEPA), and its implementing regulations in the Code of Federal Regulations (CFR) at 40 CFR 1500–1508, as well as in compliance with section 10(c) of the Endangered Species Act (16 U.S.C. 1531–1544 et seq.; Act).

Alexandra Pitts,
Deputy Regional Director, U.S. Fish and Wildlife Service, Pacific Southwest Region, Sacramento, California.

**DEPARTMENT OF THE INTERIOR**

**Bureau of Land Management**

[17X LLIDBD00100 LF1000000.HT0000 LX5VHD0000.4500104754]

**Notice of Public Meeting; Boise District Resource Advisory Council**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice.

**SUMMARY:** In accordance with the Federal Land Policy and Management Act (FLPMA), the Federal Advisory Committee Act of 1972 (FACA), the U.S. Department of the Interior, Bureau of Land Management’s (BLM) Boise District Resource Advisory Council (RAC) will meet as indicated below.

**DATES:** The Boise District RAC meeting will be held on April 5, 2017, at the BLM Boise District Office. The meeting will begin at 9:00 a.m. and end no later than 4:00 p.m. (times are Mountain Time).

**ADDRESSES:** BLM Boise District Office, 3948 Development Avenue, Boise, Idaho 83705.

**FOR FURTHER INFORMATION CONTACT:** Michael Williamson, by telephone at 208–384–3393; or by email at mwwilliamson@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may contact Mr. Williamson by calling the Federal Relay Service (FRS) at 800–877–8339. The FRS is available 24 hours a day, seven days a week, to leave a message or question with Mr. Williamson. You will receive a reply during normal business hours.

**SUPPLEMENTARY INFORMATION:** The 15-member RAC advises the Secretary of the Interior, through the BLM, on a variety of planning and management issues associated with public land management in Idaho. During the April 5, 2017, meeting, the Boise District RAC will receive updates on the Wild Horse and Burro program; travel management planning; fire program; Soda Fire rehabilitation; the Four Rivers Field Office Resource Management Plan; and other field office updates. Additional topics may be added and will be included in local media announcements, and the final agenda RAC meetings are open to the public. The public may present written comments to the RAC at the address provided above. Each RAC meeting will have time allocated for oral comments. Depending on the number of persons wishing to comment and time available, the time for individual oral comments may be limited. Individuals who plan to attend and need special assistance, such as sign language interpretation, tour transportation or other reasonable accommodations, should contact the BLM as provided above (see FOR FURTHER INFORMATION CONTACT).

Before including your address, phone number, email address, or other personal identifying information in your comments, please note that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

**Authority:** 43 CFR 1784.4–1.

Aimee Betts,
Associate District Manager.

**Notice of Public Meeting; Southeast Oregon Resource Advisory Council**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice.

**SUMMARY:** In accordance with the Federal Land Policy and Management Act and the Federal Advisory Committee Act of 1972, the U.S. Department of the Interior, Bureau of Land Management’s (BLM), Southeast Oregon Resource Advisory Council (RAC) will meet as indicated below.

**DATES:** The Southeast Oregon RAC meeting will be held on Monday, April 10, 2017, and Tuesday, April 11, 2017 in Ontario, OR. The meeting on April 10, 2017, will consist of a field trip to view the Soda Fire burn area beginning at 8 a.m. and ending at 4:30 p.m. The April 11, 2017 meeting will begin at 8 a.m. and end at 12 p.m. (times are Mountain Time).

**ADDRESSES:** The meeting will be held at the Clarion Inn, 1249 Tapadera Ave, Oregon 97914. The telephone conference line number for the April 11, 2017, meeting is 1–866–524–6456, Participant Code: 608605.

**FOR FURTHER INFORMATION CONTACT:** Larisa Bogardus, Public Affairs Officer, by mail at BLM Lakeview District Office, 1301 S G Street, Lakeview, Oregon 97630; by telephone at (541) 947–6237; or be email at ibogardus@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1 (800) 877–8339 to contact the above individual during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

**SUPPLEMENTARY INFORMATION:** The Southeast Oregon RAC consists of 15 members appointed by the Secretary of the Interior. Their diverse perspectives are represented in commodity, conservation, and general interests. They provide advice to BLM and U.S. Forest Service resource managers regarding management plans and proposed resource actions on public land in southeast Oregon. This meeting is open to the public in its entirety. The agenda will be released online at https://www.blm.gov/site-page/get-involved-resource-advisory-council-
