Lymphatics in Health and Disease in the Digestive System, Kidney and Urinary.

Date: June 2, 2017.
Time: 2:00 p.m. to 3:30 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, 6701 Rockledge Drive, Bethesda, MD 20892 (Telephone Conference Call).

Contact Person: Jianxin Hu, Ph.D., Scientific Review Officer, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 2156, Bethesda, MD 20892, 301–827–4417, jianxinh@csr.nih.gov.

Natasha M. Copeland,
Program Analyst, Office of Federal Advisory Committee Policy.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276–1243. Proposed Project: SAMHSA Checklist for SF–5161 (OMB No. 0930–0367)—REVISION

The Substance Abuse and Mental Health Services Administration (SAMHSA) is requesting a revision from the Office of Management and Budget (OMB) for the SF–5161—Checklist. SAMHSA is requesting approval to only collect information on the Checklist and not the Narrative. The Checklist assists applicants and recipients to ensure that they have included all required information necessary to process new and continuation applications as well as the name, title, and phone number of the current business official and project director responsible for carrying out the project. Checklist information concerning the type of application is also needed since new, competing continuation; noncompeting continuation and supplemental applications are separated and reviewed differently. The checklist data helps to reduce the time required to process and review grant applications, expediting the issuance of grant awards as well as ensure collection of essential recipient contact information that is not collected elsewhere.

This data collection has been transferred from HHS to SAMHSA.

The checklist is part of the standard application (SF–5161) for State and local governments and for private non-profit and for-profit organizations when applying for health services projects.

Below is the annualized burden table:

<table>

<td>801</td>
</tr>
</tbody>
</table>

Written comments and recommendations concerning the proposed information collection should be sent by June 7, 2017 to the SAMHSA Desk Officer at the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). To ensure timely receipt of comments, and to avoid potential delays in OMB’s receipt and processing of mail sent through the U.S. Postal Service, commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@omb.eop.gov.

Although commenters are encouraged to send their comments via email, commenters may also fax their comments to: 202–395–7285. Commenters may also mail them to: Office of Management and Budget, Office of Information and Regulatory Affairs, New Executive Office Building, Room 10102, Washington, DC 20503.

Summer King,
Statistician.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Low-Effect Habitat Conservation Plan for the Mount Hermon June Beetle at the Scotts Valley Middle School, Santa Cruz County, California

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment.

SUMMARY: We, the U.S. Fish and Wildlife Service, have received an application from the Scotts Valley Middle School for a 10-year incidental take permit under the Endangered Species Act of 1973, as amended (Act). The application addresses the potential for “take” of the federally endangered Mount Hermon June beetle likely to occur, incidental to the construction and renovation of buildings and infrastructure at the existing Scotts Valley Middle School in Scotts Valley, Santa Cruz County, California. We invite comments from the public on the application package, which includes a low-effect habitat conservation plan for the Mount Hermon June Beetle.

DATES: To ensure consideration, please send your written comments by June 7, 2017.

ADDRESSES: You may download a copy of the habitat conservation plan, draft environmental action statement and low-effect screening form, and related documents at http://www.fws.gov/ventura/, or you may request copies of the documents by U.S. mail to our Ventura office or by phone (see FOR FURTHER INFORMATION CONTACT).

FOR FURTHER INFORMATION CONTACT: Please address written comments to Stephen P. Henry, Field Supervisor, Ventura Fish and Wildlife Office, U.S. Fish and Wildlife Service, 2493 Portola Road, Suite B, Ventura, CA 93003. You may also alternately send comments by facsimile to (805) 644–3958.

SUPPLEMENTARY INFORMATION: We have received an application from the Scotts Valley Middle School for a 10-year...
incidental take permit under the Act (16 U.S.C. 1531 et seq.). The application addresses the potential for “take” of the federally endangered Mount Hermon June beetle (*Polyphylla barbata*) likely to occur incidental to the construction and renovation of buildings and infrastructure at the existing middle school, at 8 Bean Creek Road (APN: 022–561–03), Scotts Valley, Santa Cruz County, California. We invite comments from the public on the application package, which includes the low-effect habitat conservation plan for the Mount Hermon June Beetle. This proposed action has been determined to be eligible for a categorical exclusion under the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 et seq.).

**Applicant’s Proposal**

The Scotts Valley Middle School (hereafter, the applicant) has submitted a low-effect HCP in support of their application for an incidental take permit (ITP) to address take of the Mount Hermon June beetle that is likely to occur as the result of direct impacts on up to 1.479 acres (ac) (64,456 square feet (sf)) of degraded sandhills habitat occupied by the species. Take would be associated with the construction and renovation of buildings and infrastructure on an existing parcel legally described as Assessor Parcel Number 022–561–03. The current site address is 8 Bean Creek Road in Scotts Valley, Santa Cruz County, California.

The applicant is requesting a permit for take of Mount Hermon June beetle that would result from “covered activities” that are related to the construction and renovation of buildings and infrastructure at the existing middle school.

The applicant proposes to avoid, minimize, and mitigate take of Mount Hermon June beetle associated with the covered activities by fully implementing the HCP. The following measures will be implemented: (1) Temporary fencing and signs will be installed to clearly delineate the boundaries of the project; (2) if construction occurs during the flight season (considered to be between May and August, annually), exposed soils will be covered with erosion control fabric or other impervious materials to prevent any dispersing Mount Hermon June beetles from burrowing into exposed soil at the construction site; (3) employment of a Service-approved entomologist to capture and relocate into suitable habitat and out of harm’s way any Mount Hermon June beetle unearthed or observed during construction activities; (4) implementation of dust control measures, such as periodically wetting down work areas, will be used as necessary during construction and excavation to reduce impacts to the Mount Hermon June beetle; and (5) secure off-site mitigation at a ratio of 1:1 to mitigate for habitat impacts through the acquisition of 1.479 ac (64,456 sf) of conservation credits at the Zayante Sandhills Conservation Bank. The applicant will fund up to $1,012,085 to ensure implementation of all minimization measures, monitoring, and reporting requirements identified in the HCP.

In the proposed HCP, the applicant considers two alternatives to the proposed action: “No Action” and “Original Project.” Under the “No Action” alternative, an ITP for the modernization project would not be issued. Proposed improvements to the middle school campus would not be conducted, and the purchase of conservation credits would not be provided to effect recovery actions for Mount Hermon June beetle. The “No Action” alternative would not result in necessary improvements to the middle school campus and would not result in a net benefit for the covered species; therefore, the “No Action” alternative has been rejected. Under the “Original Project” alternative, the project included additional improvements to the athletic field, significantly increasing impacts to existing suitable habitat for the species. Under this alternative approximately 3.973 acres of degraded habitat for the species would be impacted; thus, 3.973 acres of conservation credits would be required for purchase. Scotts Valley Middle School concluded that expending funds associated with mitigating impacts were impractical; therefore, the “Original Project” alternative has also been rejected.

**Our Preliminary Determination**

We are requesting comments on our preliminary determination that the applicant’s proposal will have a minor or negligible effect on the Mount Hermon June beetle and that the plan qualifies as a low-effect HCP as defined by our Habitat Conservation Planning Handbook. We base our determinations on three criteria: (1) Implementation of the proposed project as described in the HCP would result in minor or negligible effects on federally listed, proposed, and/or candidate species and their habitats; (2) implementation of the HCP would result in minor or negligible effects on other environmental values or resources; and (3) HCP impacts, considered together with those of other past, present, and reasonably foreseeable future projects, would not result in cumulatively significant effects. In our analysis of these criteria, we have made a preliminary determination that the approval of the HCP and issuance of an ITP qualify for categorical exclusion under the National Environmental Policy Act (NEPA) (42 U.S.C. 4321 et seq.), as provided by the Department of the Interior implementing regulations in part 46 of title 43 of the Code of Federal Regulations (43 CFR 46.205, 46.210, and 46.215). However, based upon our review of public comments that we receive in response to this notice, this preliminary determination may be revised.
Next Steps

We will evaluate the permit application, including the plan and comments we receive, to determine whether the application meets the requirements of section 10(a)(1)(B) of the Act. We will also evaluate whether issuance of the ITP would comply with section 7(a)(2) of the Act by conducting an intra-Service Section 7 consultation.

Public Review

We provide this notice under section 10(c) of the Act and the National Environmental Policy Act of 1969, as amended (NEPA), NEPA’s public involvement regulations (40 CFR 1500.1(b), 1500.2(d), and 1506.6). We are requesting comments on our determination that the applicants’ proposal will have a minor or negligible effect on the Mount Hermon June beetle and that the plan qualifies as a low-effect HCP as defined by our 1996 Habitat Conservation Planning Handbook. We will evaluate the permit application, including the plan and comments we receive, to determine whether the application meets the requirements of section 10(a)(1)(B) of the Act. We will use the results of our internal Service consultation, in combination with the above findings, in our final analysis to determine whether to issue the permits. If the requirements are met, we will issue an ITP to the applicant for the incidental take of Mount Hermon June beetle. We will make the final permit decision no sooner than 30 days after the date of this notice.

Public Comments

If you wish to comment on the permit application, plans, and associated documents, you may submit comments by any one of the methods in ADDRESSES.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public view, we cannot guarantee that we will be able to do so.

Authority

We provide this notice under section 10 of the Act (16 U.S.C. 1531 et seq.) and NEPA regulations (40 CFR 1506.6).
