Next Steps
We will evaluate the permit application, including the draft HCP and comments we receive, to determine whether it meets the requirements of section 10(a)(1)(B) of the Act. We will also evaluate whether issuance of the ITP would comply with section 7 of the Act by conducting an intra-Service consultation pursuant to section 7(a)(2).

Public Review
We request comments from the public regarding our preliminary determination that the applicant’s proposal will have a minor or negligible effect on the Morro shoulderband snail and that the HCP qualifies for processing as low effect. We will evaluate comments received and make a final determination regarding whether the application meets the requirements of section 10(a)(1)(B) of the Act. We will incorporate the results of our intra-Service consultation, in combination with the above findings, in our final analysis to determine whether to issue the ITP. If all of our requirements are met, we will issue the ITP to the applicant. Permit issuance would not occur less than 30 days after publication of a notice in the Federal Register.
