consider any redline/strikeout comparison documents submitted by commenters, as it is far too inefficient for the Department to consolidate and consider redline/strikeout versions of each of the documents from numerous interested parties, based on HUD’s past experience in seeking public comments on this information collection. HUD will only consider proposed changes to the documents listed under Section A that are submitted in narrative and/or bulleted form, accompanied by a detailed explanation and rationale for each requested change. However, commenters may include in their detailed explanation and rationale the relevant excerpt(s) from the document(s) with redlines/strikeouts.

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for public comments.

SUMMARY: Under the Endangered Species Act, as amended (16 U.S.C. 1531 et seq.; ESA), we, the U.S. Fish and Wildlife Service, invite the public to comment on federally listed American burying beetle incidental take permit applications. The take would be incidental to the applicants’ activities associated with oil and gas well field and pipeline infrastructure (gathering, transmission, and distribution), including geophysical exploration (seismic) and construction, maintenance, operation, repair, decommissioning, and reclamation.
