between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this rule has implications for federalism or Indian tribes, please contact the person listed in the FOR FURTHER INFORMATION CONTACT section.

RIN 1018–BA31

Effectuating Congressional Nullification of the Non-Subsistence Take of Wildlife, and Public Participation and Closure Procedures, on National Wildlife Refuges in Alaska Under the Congressional Review Act

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule; CRA revocation.

SUMMARY: By operation of the Congressional Review Act (CRA), the “Non-subistence Take of Wildlife, and Public Participation and Closure Procedures, on National Wildlife Refuges in Alaska” (non-subsistence take of wildlife rule) shall be treated as if it had never taken effect. The U.S. Fish and Wildlife Service issues this document to effect the removal of any amendments, deletions, or other modifications made by the nullified rule and the reversion to the text of the regulations in effect immediately prior to the effective date of the non-subsistence take of wildlife rule.

DATES: This rule is effective November 9, 2017.

FOR FURTHER INFORMATION CONTACT:
Stephanie Brady, Chief of Conservation Planning and Policy, National Wildlife Refuge System, Alaska Regional Office, 1011 E. Tudor Rd., Mail Stop 211,
Anchorage, AK 99503; telephone (907) 306–7448. If you use a telecommunications device for the deaf (TDD), call the Federal Relay Service at 800–877–8339.

Supplementary Information:

Background

However, because the CRA does not include direction regarding the removal, by the Office of the Federal Register or otherwise, of the voided language from the Code of Federal Regulations (CFR), the U.S. Fish and Wildlife Service must publish this document to effect the removal of the voided text. This document will enable the Office of the Federal Register to effectuate congressional intent to remove the voided text of the non-subsistence take of wildlife rule as if it had never taken effect, and restore the previous language and prior state of the CFR.

This action is not an exercise of the Department’s rulemaking authority under the Administrative Procedure Act, because the Department is not “formulating, amending, or repealing a rule” under 5 U.S.C. 551(5). Rather, the Department is effectuating changes to the CFR to reflect what congressional action has already accomplished—namely, the nullification of any changes purported to have been made to the CFR by the non-subsistence take of wildlife rule and the reversion to the regulatory text in effect immediately prior to September 6, 2016, the effective date of the non-subsistence take of wildlife rule. Accordingly, the Department is not soliciting comments on this action. Moreover, this action is not a final agency action subject to judicial review.

Executive Order 13771

This final rule is considered an E.O. 13771 deregulatory action. We estimate the cost savings of this rule to be negligible. The average trip-related expenditures for big game hunting ($139 per day) yields approximately $5.9 million annually in big game hunting-related expenditures on national wildlife refuges (NWRs) in Alaska. Since only a small fraction of big game hunters would likely have chosen to not hunt on NWRs because of the original rule, the impact is minimal. The effect to the local communities is far less than $5.9 million annually because few hunters use the prohibited methods and those hunters that do would have likely chosen a substitute site.

Subpart D—Other Refuge Uses

§ 36.32 Taking of fish and wildlife.

(a) The taking of fish and wildlife for sport hunting, trapping, and sport fishing is authorized in accordance with applicable State and Federal law and such laws are hereby adopted and made a part of these regulations; Provided...
however. That the Refuge Manager, pursuant to § 36.42, may designate areas where, and establish periods when, no taking of a particular population of fish or wildlife shall be permitted.

(b) The exercise of valid commercial fishing rights or privileges obtained pursuant to existing law, including any use of refuge areas for campsites, cabins, motorized vehicles, and aircraft landing directly incident to the exercise of such rights or privileges, is authorized; Provided, however, That the Refuge Manager may restrict or prohibit the exercise of these rights or privileges or uses of federally owned lands directly incident to such exercise if he determines, after conducting a public hearing in the affected locality, that they are inconsistent with the purposes of the refuge and that they constitute a significant expansion of commercial fishing activities within such refuge beyond the level of such activities in 1979.

(c) The following provisions shall apply to any person while engaged in the taking of fish and wildlife within an Alaska National Wildlife Refuge:

(1) Trapping and sport hunting. (i) Each person shall secure and possess all required State licenses and shall comply with the applicable provisions of State law unless further restricted by Federal law;

(ii) Each person shall comply with the applicable provisions of Federal law; and

(iii) In addition to the requirements of paragraphs (a) and (b) of this section, each person shall continue to secure a trapping permit from the appropriate Refuge Manager prior to trapping on the Kenai, Izembek and Kodiak Refuges and the Aleutian Islands Unit of the Alaska Maritime Refuge.

(iv) It shall be unlawful for a person having been airborne to use a firearm or any other weapon to take or assist in taking a wolf or wolverine until after 3:00 a.m. on the day following the day in which the flying occurred, except that a trapper may use a firearm or any other weapon to dispatch a legally caught wolf or wolverine in a trap or snare on the same day in which the flying occurred. This prohibition does not apply to flights on regularly scheduled commercial airlines between regularly maintained public airports.

(2) Sport and commercial fishing. (i) Each person shall secure and possess all required State licenses and shall comply with the applicable provisions of State law unless further restricted by Federal law; and

(ii) Each person shall comply with the applicable provisions of Federal law.

(d) Nothing in this section shall apply to the taking of fish and wildlife for subsistence uses.

(e) Nothing in these rules shall be interpreted as waiving the requirements of other fish and wildlife conservation statutes such as the Airborne Hunting Act or those provisions of subchapter C of title 50 CFR regarding the taking of depredating wildlife. Animal control programs shall only be conducted in accordance with a special use permit issued by the Refuge Manager.

11. Amend § 36.42 by revising paragraphs (a), (c), (d), (e), (f), (g), and (h) to read as follows:

§ 36.42 Public participation and closure procedures.

(a) Authority. The Refuge Manager may close an area or restrict an activity on an emergency, temporary, or permanent basis.

(b) Prohibitions. Except as otherwise specifically permitted under the provisions of this part, entry into closed areas or failure to abide by restrictions established under this section is prohibited.
