POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

DHS/CBP retrieves records by an individual’s name.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

In accordance with General Records Schedule (GRS) 6.5, Item 20, and GRS 5.2, Item 20, DHS/CBP will delete records when superseded, obsolete, or when an individual submits a request to the agency to remove the records. In general and unless it receives a request for removal, CBP will maintain these records for 5 years, after which point they will be considered obsolete and no longer necessary for CBP operations.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

DHS/CBP safeguards records in this system according to applicable rules and policies, including all applicable DHS automated systems security and access policies. RECORD ACCESS PROCEDURES:

Individuals seeking access to and notification of any record contained in this system of records, or seeking to contest its content, may submit a request in writing to the Chief Privacy Officer and DHS/CBP’s FOIA Officer, whose contact information can be found at http://www.dhs.gov/foia under “Contacts Information.” If an individual believes more than one component maintains Privacy Act records concerning him or her, the individual may submit the request to the Chief Privacy Officer and Chief Freedom of Information Act Officer, Department of Homeland Security, Washington, DC 20528–0655. Even if neither the Privacy Act nor the Judicial Redress Act provide a right of access, certain records about the individual may be available under the Freedom of Information Act.

When an individual is seeking records about himself or herself or from this system of records or any other Departmental system of records, the individual’s request must conform with the Privacy Act regulations set forth in 6 CFR part 5. The individual must first verify his/her identity, meaning that the individual must provide his/her full name, current address, and date and place of birth. The individual must sign the request, and the individual’s signature must either be notarized or submitted under 28 U.S.C. 1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. While no specific form is required, an individual may obtain forms for this purpose from the Chief Privacy Officer and Chief Freedom of Information Act Officer, http://www.dhs.gov/foia or 1–866–431–0486. In addition, the individual should:

- Explain why he/she believe the Department would have information on him/her;
- Identify which component(s) of the Department the individual believes may have the information about him/her;
- Specify when the individual believes the records would have been created; and
- Provide any other information that will help the FOIA staff determine which DHS component agency may have responsive records;

If an individual’s request is seeking records pertaining to another living individual, the first individual must include a statement from the second individual certifying his/her agreement for the first individual to access his/her records.

Without the above information, the component(s) may not be able to conduct an effective search, and the individual’s request may be denied due to lack of specificity or lack of compliance with applicable regulations.

Abstract: The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd–668ee), as amended by the National Wildlife Refuge System Improvement Act of 1997, and the Refuge Recreation Act of 1962 (16 U.S.C. 460k–460k–4) govern the administration and uses of national wildlife refuges and wetland management districts. The Administration Act authorizes us to permit public uses, including hunting and fishing, on lands of the Refuge System when we find that the activity is compatible and appropriate with the purpose for which the refuge was established. The Recreation Act allows the use of refuges for public recreation when the use is not inconsistent or does not interfere with the primary purpose(s) of the refuge. We use FWS Form 3–2405 (Self-Clearing Check-In Permit) to collect user information on hunting and fishing on refuges. This form offers a self-check-in feature not found on other similar forms, reducing the number of staffed check-in stations. We found this method increases game harvest reporting and provides better estimates of total numbers of game harvested. This form also requests users to report other species observed, data then used by refuge staff and state agencies for managing wildlife populations. Not all refuges will use this form and some refuges may collect the identical information in a nonform format (meaning there is no designated form associated with the collection of information). The currently approved form is available online at: https://www.fws.gov/forms/3-2405.pdf. We collect:

- Information on the visitor (name, address, and contact information). We use this information to identify the visitor or driver/passengers of a vehicle while on the refuge. Having this information readily available is critical in a search and rescue situation. We do not maintain or record this information.
  - Information on whether or not hunters/anglers were successful (number and type of harvest/caught).
  - Purpose of visit (hunting, fishing, wildlife observation, wildlife photography, auto touring, birding, hiking, boating/canoeing, visitor center, special event, environmental education class, volunteering, other recreation).
  - Species observed.
  - Date of visit.

The above information is a vital tool in meeting refuge objectives and maintaining quality visitor experiences. It helps us:

- Administer and monitor the quality of visitor programs and facilities on refuges.
- Minimize resource disturbance, manage healthy game populations, and ensure the protection of fish and wildlife species through the check-in/out process.
- Assist in Statewide wildlife management and enforcement and develop reliable estimates of the number of key game fish and wildlife, like the Louisiana black bear (a recently delisted species).
- Determine facility and program needs and budgets based on user demand for resources.

OMB Control Number: 1018–0153.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Individuals who visit national wildlife refuges.

Total Estimated Number of Annual Respondents: 650,000.

Total Estimated Number of Annual Responses: 650,000.

Estimated Completion Time per Response: 5 minutes.

Total Estimated Number of Annual Burden Hours: 54,167.

Respondent’s Obligation: Required to Obtain or Retain a Benefit.

Frequency of Collection: On occasion.

Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct or sponsor a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.).

Dated: June 6, 2018.

Madonna Baucum,

Information Collection Clearance Officer, U.S. Fish and Wildlife Service.
