AD, if those actions were performed before the effective date of this AD, using Bombardier Service Bulletin 601R–57–048, Revision B, dated August 24, 2012.

(4) This paragraph provides credit for actions required by paragraph (m)(1) of this AD, if those actions were performed before the effective date of this AD, using Part C of the Accomplishment Instructions of Bombardier Service Bulletin 601R–57–046, Revision B, dated August 24, 2012.

(5) This paragraph provides credit for actions required by paragraph (m)(2) of this AD, if those actions were performed before the effective date of this AD, using Part C of the Accomplishment Instructions of Bombardier Service Bulletin 601R–57–048, Revision B, dated August 24, 2012.

(o) Repairs and Alternative Actions or Intervals

(1) If any damage is found during an inspection required by the AWLs identified in figure 1 to paragraphs (l) and (o) of this AD, repair before further flight using a method approved by the Manager, New York ACO Branch, FAA; or Transport Canada Civil Aviation (TCCA); or Bombardier, Inc.’s TCCA Design Approval Organization (DAO). If approved by the DAO, the approval must include the DAO-authorized signature. The approved repair instructions must specifically refer to this AD or Canadian AD CF–2017–27, dated August 2, 2017.

(2) Repairs approved by Bombardier, Inc., that deviate from the AWLs identified in figure 1 to paragraphs (l) and (o) of this AD are acceptable methods of compliance if approved by the Manager, New York ACO Branch, FAA; or TCCA; or Bombardier, Inc.’s TCCA DAO. If approved by the DAO, the approval must include the DAO-authorized signature. The approved repair instructions must specifically refer to this AD or Canadian AD CF–2017–27, dated August 2, 2017.

(3) For repairs approved before the effective date of this AD that affect the AWLs identified in figure 1 to paragraphs (l) and (o) of this AD and the approved repair instructions do not specifically refer to Canadian AD CF–2017–27, dated August 2, 2017: Within 6 months of the effective date of this AD, contact the Manager, New York ACO Branch, FAA; or TCCA; or Bombardier, Inc.’s TCCA DAO Inc., for new or revised limitations or inspection requirements on the repair area and comply with the revised limitations or inspections requirements. The new or revised limitations or inspection requirements must specifically refer to this AD or Canadian AD CF–2017–27, dated August 2, 2017.

(4) Canadian AMOC No. AARDG–2018/A21, dated May 1, 2018, which was approved before the effective date of this AD by TCCA, is an acceptable method of compliance to the corresponding requirements of this AD.

(p) Other FAA AD Provisions

(1) Alternative Methods of Compliance (AMOCs): The Manager, New York ACO Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the manager of the certification office, send it to ATTN: Program Manager, Continuing Operational Safety, FAA, New York ACO Branch, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; telephone 516–228–7329; fax 516–794–5531. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office.

(2) Contacting the Manufacturer: For any requirement in this AD to obtain corrective actions from a manufacturer, the action must be accomplished using a method approved by the Manager, New York ACO Branch, FAA; or TCCA; or Bombardier, Inc.’s TCCA DAO. If approved by the DAO, the approval must include the DAO-authorized signature. The approved corrective action instructions must specifically refer to this AD or Canadian AD CF–2017–27, dated August 2, 2017.

(q) Related Information

(2) For more information about this AD, contact Aziz Ahmed, Aerospace Engineer, Airframe and Mechanical Systems Section, FAA, New York ACO Branch, 1600 Stewart Avenue, Suite 410, Westbury, NY 11590; telephone 516–228–7329; fax 516–794–5531.

(3) For service information identified in this AD, contact Bombardier, Inc., 400 Côte-Vertu Road West, Dorval, Québec H4S 1Y9, Canada; Widebody Customer Response Center North America toll-free telephone 1–866–536–1247 or direct-dial telephone 1–514–855–7401; email ac.yul@aeoro.bombardier.com; internet http://www.bombardier.com. You may view this service information at the FAA, Transport Standards Branch, 2200 South 216th St., Des Moines, WA. For information on the availability of this material at the FAA, call 206–231–3195.

Issued in Des Moines, Washington, on September 11, 2018.

Michael Kaszyczyk,
Acting Director, System Oversight Division, Aircraft Certification Service.

RIN 1018–BB99

Subsistence Management Regulations for Public Lands in Alaska—Cook Inlet Area Regulations

AGENCY: Forest Service, Agriculture; Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: This proposed rule would revise the regulations for seasons, harvest limits, and methods and means for the subsistence taking of fish in the Cook Inlet Area of Alaska. This action would also reorganize specific regulations addressing the Kenai River, which would provide clarity for the public, and allow the Federal Subsistence Board to correct regulatory conflicts that have arisen based on recent rulemaking.

DATES:

Public meetings: The Southcentral Federal Subsistence Regional Advisory Council will hold a public meeting October 29–30, 2018, to receive comments, make proposals to change this proposed rule, and make recommendations to the Federal Subsistence Board. The Board will discuss and evaluate proposed regulatory changes during a public meeting in January 2019. See SUPPLEMENTARY INFORMATION for specific information on the public meetings.

Public comments: Comments and proposals to change this proposed rule must be received or postmarked by October 31, 2018.

ADDRESSES:

Public meetings: The Federal Subsistence Board and the Southcentral Federal Subsistence Regional Advisory Council will hold public meetings at various locations in Alaska. See SUPPLEMENTARY INFORMATION for specific information on the dates and locations of the public meetings.

Public comments: You may submit comments by one of the following methods:

• Electronically: Go to the Federal eRulemaking Portal: http://

Issued in Des Moines, Washington, on October 31, 2018.
www.regulations.gov and search for FWS–R7–SM–2018–0003, which is the docket number for this rulemaking.

- **By hard copy:** U.S. mail or hand-delivery to: USFWS, Office of Subsistence Management, 1011 East Tudor Road, MS 121, Attn: Theo Matuskowitz, Anchorage, AK 99503–6199, or hand delivery to the Designated Federal Official attending the Southcentral Federal Subsistence Regional Advisory Council public meeting. See [SUPPLEMENTARY INFORMATION](#) for additional information on locations of the public meetings.

We will post all comments on [http://www.regulations.gov](http://www.regulations.gov). This generally means that we will post any personal information you provide us (see the Public Review Process section below for more information).

FOR FURTHER INFORMATION CONTACT:
Chair, Federal Subsistence Board, c/o U.S. Fish and Wildlife Service, Attention: Thomas C.J. Doolittle, Office of Subsistence Management; (907) 786–3888 or subsistence@fws.gov. For questions specific to National Forest System lands, contact Thomas Whitford, Regional Subsistence Program Leader, USDA, Forest Service, Alaska Region; (907) 743–9461 or twitford@fs.fed.us.

SUPPLEMENTARY INFORMATION:

Background

Under Title VIII of the Alaska National Interest Lands Conservation Act (ANILCA) (116 U.S.C. 3111–3126), the Secretary of the Interior and the Secretary of Agriculture (hereafter referred to as “the Secretaries”) jointly implement the Federal Subsistence Management Program (hereafter referred to as “the Program”). The Program provides a preference for take of fish and wildlife resources for subsistence uses on Federal public lands and waters in Alaska. Only Alaska residents of areas identified as rural are eligible to participate in the Program. The Secretaries published temporary regulations to carry out the Program in the Federal Register on June 29, 1990 (55 FR 27114), and final regulations on May 29, 1992 (57 FR 22940). Program officials have subsequently amended these regulations a number of times.

Because the Program is a joint effort between the Departments of the Interior and Agriculture, these regulations are located in two titles of the Code of Federal Regulations (CFR): The Agriculture regulations are at title 36, “Parks, Forests, and Public Property,” and the Interior regulations are at title 50, “Wildlife and Fisheries,” at 36 CFR 242.1–28 and 50 CFR 100.1–28, respectively. Consequently, to indicate that identical changes are proposed for regulations in both titles 36 and 50, in this document we will present references to specific sections of the CFR as shown in the following example: § 100.27.

The Program regulations contain subparts as follows: Subpart A, General Provisions; Subpart B, Program Structure; Subpart C, Board Determinations; and Subpart D, Subsistence Taking of Fish and Wildlife. Consistent with subpart B of these regulations, the Secretaries established a Federal Subsistence Board to administer the Program. The Board comprises:

- A Chair appointed by the Secretary of the Interior with concurrence of the Secretary of Agriculture;
- The Alaska Regional Director, U.S. Fish and Wildlife Service;
- The Alaska Regional Director, National Park Service;
- The Alaska State Director, Bureau of Land Management;
- The Alaska Regional Director, Bureau of Indian Affairs;
- The Alaska Regional Forester, USDA Forest Service; and
- Two public members appointed by the Secretary of the Interior with concurrence of the Secretary of Agriculture.

Through the Board, these agencies and public members participate in the development of regulations for subparts C and D. Subpart C sets forth important Board determinations regarding program eligibility, i.e., which areas of Alaska are considered rural and which species are harvested in those areas as part of a “customary and traditional use” for subsistence purposes. Subpart D sets forth specific harvest seasons and limits.

In administering the Program, the Secretaries divided Alaska into 10 subsistence resource regions, each of which is represented by a Regional Advisory Council. The Regional Advisory Councils provide a forum for rural residents with personal knowledge of local conditions and resource requirements to have a meaningful role in the subsistence management of fish and wildlife on Federal public lands in Alaska. The Regional Advisory Council members represent varied geographical, cultural, and user interests within each region.

Public Review Process—Comments, Proposals, and Public Meetings

The Southcentral Federal Subsistence Regional Advisory Council will have a substantial role in reviewing this proposed rule and making recommendations for the final rule. The Federal Subsistence Board, through the Southcentral Federal Subsistence Regional Advisory Council, will hold a public meeting on this proposed rule in Cordova, AK, beginning October 29, 2018.

The location and date may change based on weather or local circumstances. The amount of work on the Southcentral Regional Advisory Council’s agenda will determine the length of the meeting.

The Board will discuss and evaluate proposed changes to this proposed rule during a public meeting to be held in Anchorage, AK, in January 2019. The Federal Subsistence Regional Advisory Council Chairs, or their designated representatives, will present their respective Councils’ recommendations at the Board meeting. Additional oral testimony may be provided on this proposed rule to the Board at that time.

At that public meeting, the Board will deliberate and take final action on this proposed rule. Specific information about the meeting location may be obtained closer to the meeting dates from the contacts listed in [FOR FURTHER INFORMATION CONTACT](#).

You may submit written comments and materials concerning this proposed rule by one of the methods listed in [ADDRESSES](#). If you submit a comment via [http://www.regulations.gov](http://www.regulations.gov), your entire comment, including any personal identifying information, will be posted on the website. If you submit a hardcopy comment that includes personal identifying information, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so. We will post all hardcopy comments on [http://www.regulations.gov](http://www.regulations.gov).

Comments and materials we receive, as well as supporting documentation we used in preparing this proposed rule, will be available for public inspection on [http://www.regulations.gov](http://www.regulations.gov) at Docket No. FWS–R7–SM–2018–0003, or by appointment, between 8 a.m. and 3 p.m., Monday through Friday, except Federal holidays, at: USFWS, Office of Subsistence Management, 1011 East Tudor Road, Anchorage, AK 99503.

Reasonable Accommodations

The Federal Subsistence Board is committed to providing access to these meetings for all participants. Please direct all requests for sign language interpreting services, closed captioning, or other accommodation needs to Caron McKee, 907–786–3880, subsistence@fws.gov, or 800–877–8339 (TTY), seven business days prior to the meeting you would like to attend.
Tribal Consultation and Comment

As expressed in Executive Order 13175, “Consultation and Coordination with Indian Tribal Governments,” the Federal officials that have been delegated authority by the Secretaries are committed to honoring the unique government-to-government political relationship that exists between the Federal Government and Federally Recognized Indian Tribes (Tribes) as listed in 82 FR 4915 (January 17, 2017). Consultation with Alaska Native corporations is based on Public Law 108–199, div. H, Sec. 161, Jan. 23, 2004, 118 Stat. 452, as amended by Public Law 108–447, div. H, title V, Sec. 518, Dec. 8, 2004, 118 Stat. 3267, which provides that: “The Director of the Office of Management and Budget and all Federal agencies shall hereafter consult with Alaska Native corporations on the same basis as Indian tribes under Executive Order No. 13175.”

ANILCA does not provide specific rights to Tribes for the subsistence taking of wildlife, fish, and shellfish. However, because tribal members are affected by subsistence fishing, hunting, and trapping regulations, the Secretaries, through the Board, will provide Federally recognized Tribes and Alaska Native corporations an opportunity to consult on this proposed rule.

The Board will engage in outreach efforts for this proposed rule, including a notification letter, to ensure that Tribes and Alaska Native corporations are advised of the mechanisms by which they can participate. The Board will provide a variety of opportunities for consultation: Commenting on proposed changes to the existing rule; engaging in dialogue at the Regional Advisory Council meeting; engaging in dialogue at the Board meeting; and providing input in person, by mail, email, or phone at any time during the rulemaking process. The Board will commit to efficiently and adequately providing an opportunity to Tribes and Alaska Native corporations for consultation in regard to subsistence rulemaking.

The Board will consider Tribes’ and Alaska Native corporations’ information, input, and recommendations, and address their concerns as much as practicable.

Developing the Cook Inlet Area Proposed Regulations

In titles 36 and 50 of the CFR, the subsides C and D regulations are subject to periodic review and revision. The Board currently completes the process of revising subsistence take of fish and shellfish regulations in odd-numbered years and wildlife regulations in even-numbered years; public proposal and review processes take place during the preceding year. The Board also addresses customary and traditional use determinations during the applicable cycle, and nonrural determinations during the fish and shellfish cycle.

The current Cook Inlet Area subsistence regulations were revised on May 18, 2015 (80 FR 28187). Two of the revisions addressed community gillnets on the Kasilof and Kenai rivers. While the intent of providing additional opportunities for subsistence users was met, details concerning the harvest limits were difficult and confusing to the public since they overlapped with other active subsistence fisheries on these rivers. In addition, the new regulations were in conflict with existing regulations dealing with early- and late-run Chinook salmon, and various size limits for rainbow trout and Dolly Varden.

The Board directed program and field staff to develop recommendations to alleviate these concerns from the Council and members of the public. While some of the size limits are needed as management tools in certain fisheries, the limits are not required in other fisheries. Issues with early and late runs of Chinook salmon will require new regulations addressing early-run fish.

In the interim, the Board addressed these concerns through the special action process as defined in §17.19 of these regulations.

This proposed rule reflects the combined efforts of program and field staff, staff from other agencies participating in the Federal program, and members of the public and tribal entities affected by these regulations.

Compliance With Statutory and Regulatory Authorities

National Environmental Policy Act

A Draft Environmental Impact Statement that described four alternatives for developing a Federal Subsistence Management Program was distributed for public comment on October 7, 1991. The Final Environmental Impact Statement (FEIS) was published on February 28, 1992. The Record of Decision (ROD) on Subsistence Management for Federal Public Lands in Alaska was signed April 6, 1992. The selected alternative in the FEIS (Alternative IV) defined the administrative framework of an annual regulatory cycle for subsistence regulations.

A 1997 environmental assessment dealt with the expansion of Federal jurisdiction over fisheries and is available at the office listed under FOR FURTHER INFORMATION CONTACT. The Secretary of the Interior, with concurrence of the Secretary of Agriculture, determined that expansion of Federal jurisdiction does not constitute a major Federal action significantly affecting the human environment and, therefore, signed a Finding of No Significant Impact.

Section 810 of ANILCA

An ANILCA section 810 analysis was completed as part of the FEIS process on the Federal Subsistence Management Program. The intent of all Federal subsistence regulations is to accord subsistence uses of fish and wildlife on public lands a priority over the taking of fish and wildlife on such lands for other purposes, unless restriction is necessary to conserve healthy fish and wildlife populations. The final section 810 analysis determination appeared in the April 6, 1992, ROD and concluded that the Federal Subsistence Management Program, under Alternative IV with an annual process for setting subsistence regulations, may have some local impacts on subsistence uses, but will not likely restrict subsistence uses significantly.

During the subsequent environmental assessment process for extending fisheries jurisdiction, an evaluation of the effects of the subsistence program regulations was conducted in accordance with section 810. That evaluation also supported the Secretaries’ determination that the regulations will not reach the “may significantly restrict” threshold that would require notice and hearings under ANILCA section 810(a).

Paperwork Reduction Act (PRA)

This proposed rule does not contain any new collections of information that require Office of Management and Budget (OMB) approval. OMB has reviewed and approved the collections of information associated with the subsistence regulations at 36 CFR part 242 and 50 CFR part 100, and assigned OMB Control Number 1018–0075, which expires June 30, 2019. An agency may not conduct or sponsor and you are not required to respond to a collection of information unless it displays a currently valid OMB control number.

Regulatory Planning and Review (Executive Order 12866)

Executive Order 12866 provides that the Office of Information and Regulatory Affairs (OIRA) in the Office of Management and Budget will review all
significant rules. OIRA has determined that this proposed rule is not significant.

Executive Order 13563 reaffirms the principles of E.O. 12866 while calling for improvements in the nation’s regulatory system to promote predictability, to reduce uncertainty, and to use the best, most innovative, and least burdensome tools for achieving regulatory ends. The executive order directs agencies to consider regulatory approaches that reduce burdens and maintain flexibility and freedom of choice for the public where these approaches are relevant, feasible, and consistent with regulatory objectives. E.O. 13563 emphasizes further that regulations must be based on the best available science and that the rulemaking process must allow for public participation and an open exchange of ideas. We have developed this proposed rule in a manner consistent with these requirements. Regulatory Flexibility Act

The Regulatory Flexibility Act of 1980 (5 U.S.C. 601 et seq.) requires preparation of flexibility analyses for rules that will have a significant effect on a substantial number of small entities, which include small businesses, organizations, or governmental jurisdictions. In general, the resources to be harvested under this proposed rule are already being harvested and consumed by the local harvester and do not result in an additional dollar benefit to the economy. However, we estimate that two million pounds of meat are harvested by subsistence users annually and, if given an estimated dollar value of $3.00 per pound, this amount would equate to about $6 million in food value statewide. Based upon the amounts and values cited above, the Departments certify that this rulemaking will not have a significant economic effect on a substantial number of small entities within the meaning of the Regulatory Flexibility Act.

Small Business Regulatory Enforcement Fairness Act

Under the Small Business Regulatory Enforcement Fairness Act (5 U.S.C. 801 et seq.), this proposed rule is not a major rule. It will not have an effect on the economy of $100 million or more, will not cause a major increase in costs or prices for consumers, and will not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

Executive Order 12630

Title VIII of ANILCA requires the Secretaries to administer a subsistence priority on public lands. The scope of this program is limited by definition to certain public lands. Likewise, these proposed regulations have no potential takings of private property implications as defined by Executive Order 12630.

Unfunded Mandates Reform Act

The Secretaries have determined and certify pursuant to the Unfunded Mandates Reform Act, 2 U.S.C. 1502 et seq., that this rulemaking will not impose a cost of $100 million or more in any given year on local or State governments or private entities. The implementation of this rule is by Federal agencies and there is no cost imposed on any State or local entities or tribal governments.

Executive Order 12988

The Secretaries have determined that these regulations meet the applicable standards provided in sections 3(a) and 3(b)(2) of Executive Order 12988, regarding civil justice reform.

Executive Order 13132

In accordance with Executive Order 13132, the proposed rule does not have sufficient Federalism implications to warrant the preparation of a Federalism Assessment. Title VIII of ANILCA precludes the State from exercising subsistence management authority over fish and wildlife resources on Federal lands unless it meets certain requirements.

Executive Order 13175

Title VIII of ANILCA does not provide specific rights to tribes for the subsistence taking of wildlife, fish, and shellfish. However, the Secretaries, through the Board, will provide Federally recognized Tribes and Alaska Native corporations an opportunity to consult on this proposed rule, as discussed above under Tribal Consultation and Comment.

Executive Order 13211

This Executive Order requires agencies to prepare Statements of Energy Effects when undertaking certain actions. However, this proposed rule is not a significant regulatory action under E.O. 13211, affecting energy supply, distribution, or use, and no Statement of Energy Effects is required.

Drafting Information

Theo Matuskowitz drafted this proposed rule under the guidance of Thomas C.J. Doolittle of the Office of Subsistence Management, Alaska Regional Office, U.S. Fish and Wildlife Service, Anchorage, Alaska. Additional assistance was provided by:

- Daniel Sharp, Alaska State Office, Bureau of Land Management;
- Clarence Summers, Alaska Regional Office, National Park Service;
- Dr. Glenn Chen, Alaska Regional Office, Bureau of Indian Affairs;
- Carol Damberg, Alaska Regional Office, U.S. Fish and Wildlife Service; and

List of Subjects

36 CFR Part 242

Administrative practice and procedure, Alaska, Fish, National forests, Public lands, Reporting and recordkeeping requirements, Wildlife.

50 CFR Part 100

Administrative practice and procedure, Alaska, Fish, National forests, Public lands, Reporting and recordkeeping requirements, Wildlife.

Proposed Regulation Promulgation

For the reasons set out in the preamble, the Federal Subsistence Board proposes to amend 36 CFR part 242 and 50 CFR part 100 as set forth below.

PART SUBSISTENCE MANAGEMENT REGULATIONS FOR PUBLIC LANDS IN ALASKA

§ 2. Amend 36 CFR part 242 and 50 CFR part 100 to read as follows:

§ 27 Subsistence taking of fish.

(a) * * *

(10) Cook Inlet Area. The Cook Inlet Area includes all waters of Alaska enclosed by a line extending east from Cape Douglas (58°51.10’ N Lat.) and a line extending south from Cape Fairfield (48°50.25’ W Long.).

(i) General area regulations.

(A) Unless restricted by regulations in this section, or unless restricted under the terms of a subsistence fishing permit, you may take fish at any time in the Cook Inlet Area.

(B) If you take rainbow or steelhead trout incidentally in subsistence net
fisheries, you may retain them for subsistence purposes, unless otherwise prohibited or provided for in this section. With jigging gear through the ice or rod-and-reel gear in open waters, there is an annual limit of two rainbow or steelhead trout 20 inches or longer, taken from Kenai Peninsula fresh waters.

(C) Under the authority of a Federal subsistence fishing permit, you may take only salmon, trout, Dolly Varden, and other char.

(D) All fish taken under the authority of a Federal subsistence fishing permit must be marked and recorded prior to leaving the fishing site.

1. The fishing site includes the particular Federal public waters and/or adjacent shoreline from which the fish were harvested.
2. Marking means removing the dorsal fin.
3. You may not take grayling or burbot for subsistence purposes.
4. You may take smelt with dip nets in fresh water only from April 1 through June 15. There are no harvest or possession limits for smelt.
5. You may take whitefish in the Tyone River drainage using gillnets.

(1) Harvest limits may not be accumulated.
(2) Each household may harvest its annual salmon limits in one or more days.
(3) All salmon harvested as part of a household annual limit must be reported to the Federal in-season manager within 72 hours of leaving the fishing site.

For Ninilchik residents, the household annual limits for Chinook salmon in the Kasilof River and for late-run Chinook salmon in the Kenai River are combined.

(ii) Seasons, harvest limits, and methods and means for Kasilof fisheries. Household annual limits for salmon in Kasilof River fisheries are as follows:

<table>
<thead>
<tr>
<th>Species</th>
<th>Number of fish allowed for each permit holder</th>
<th>Additional fish allowed for each household member</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sockeye</td>
<td>25</td>
<td>5</td>
</tr>
<tr>
<td>Chinook</td>
<td>10</td>
<td>2</td>
</tr>
<tr>
<td>Coho</td>
<td>10</td>
<td>2</td>
</tr>
<tr>
<td>Pink</td>
<td>10</td>
<td>2</td>
</tr>
</tbody>
</table>

(A) **Kasilof dip net or rod and reel; salmon.**
(1) Residents of Ninilchik may take sockeye, Chinook, coho, and pink salmon through a dip net or rod and reel fishery on the upper mainstem of the Kasilof River from a Federal regulatory marker on the river below the outlet of Tustumena Lake downstream to a marker on the river approximately 2.8 miles below the Tustumena Lake boat ramp.

(2) Residents using rod-and-reel gear may fish with up to two baited single or treble hooks.

(3) Harvest seasons are as follows:

<table>
<thead>
<tr>
<th>Species</th>
<th>Season</th>
<th>Harvest limits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sockeye salmon</td>
<td>June 16–August 15</td>
<td></td>
</tr>
<tr>
<td>Chinook salmon</td>
<td>June 16–August 15</td>
<td></td>
</tr>
<tr>
<td>Coho salmon</td>
<td>June 16–October 31</td>
<td></td>
</tr>
<tr>
<td>Pink salmon</td>
<td>June 16–October 31</td>
<td></td>
</tr>
<tr>
<td>Rainbow and steelhead trout</td>
<td>April 1–August 15</td>
<td>The Federal in-season manager will close the take of rainbow and steelhead trout after 200 have been harvested.</td>
</tr>
</tbody>
</table>

(B) **Kasilof fish wheel; salmon.**
(1) Residents of Ninilchik may harvest sockeye, Chinook, coho, and pink salmon through a fish wheel fishery in the Federal public waters of the upper mainstem of the Kasilof River.

(2) Residents of Ninilchik may retain other species incidentally caught in the Kasilof River fish wheel except for rainbow or steelhead trout, which must be released and returned unharmed to the water.

(3) Only one fish wheel may be operated on the Kasilof River. The fish wheel must: Have a live box, be monitored when fishing, stopped from fishing when it is not being monitored or used, and be installed and
operated in compliance with any regulations and restrictions for its use within the Kenai National Wildlife Refuge.

(4) One registration permit will be available and will be awarded by the Federal in-season fishery manager, in consultation with the Kenai National Wildlife Refuge manager, based on the merits of the operational plan. The registration permit will be issued to an organization that, as the fish wheel owner, will be responsible for its construction, installation, operation, use, and removal in consultation with the Federal fishery manager. The owner may not rent or lease the fish wheel for personal gain. As part of the permit, the organization must:

(i) Prior to the season: Provide a written operational plan to the Federal fishery manager including a description of how fishing time and fish will be offered and distributed among households and residents of Ninilchik.

(ii) During the season: Mark the fish wheel with a wood, metal, or plastic plate that is at least 12 inches high by 12 inches wide, permanently affixed, and plainly visible and that contains the following information in letters and numerals at least 1 inch high: Registration permit number; organization’s name and address; and primary contact person name and telephone number.

(iii) After the season: Provide written documentation of required evaluation information to the Federal fishery manager including, but not limited to, persons or households operating the gear, hours of operation, and number of each species caught and retained or released.

(5) People operating the fish wheel must:

(i) Have in possession a valid Federal subsistence fishing permit and remain onsite to monitor the fish wheel and remove all fish at least every hour.

(ii) In addition, any person operating the fish wheel who is not the owner must attach to the fish wheel an additional wood, metal, or plastic plate that is at least 12 inches high by 12 inches wide, is plainly visible, and contains the person’s fishing permit number, name, and address in letters and numerals at least 1 inch high.

(6) The organization owning the fish wheel may operate the fish wheel for subsistence purposes on behalf of residents of Ninilchik by requesting a subsistence fishing permit that:

(i) Identifies a person who will be responsible for operating the fish wheel; and

(ii) Includes provisions for recording daily catches, the household to whom the catch was given, and other information determined to be necessary for effective resource management by the Federal fishery manager.

(7) Fishing is allowed from June 16 through October 31 on the Kasilof River unless closed or otherwise restricted by Federal special action.

(C) Kasilof experimental gillnet:

(1) Residents of Ninilchik may harvest sockeye, Chinkoo, coho, and pink salmon through an experimental community gillnet fishery in the Federal public waters of the upper mainstem of the Kasilof River from a Federal regulatory marker on the river below the outlet of Tustumena Lake downstream to the Tustumena Lake boat launch June 16 through August 15.

(2) The experimental community gillnet fishery will expire July 13, 2020.

(3) Only one community gillnet may be operated on the Kasilof River. The gillnet may not be over 10 fathoms in length and may not obstruct more than half of the river width with stationary fishing gear. In addition, subsistence stationary gillnet gear may not be set within 200 feet of other subsistence stationary gear.

(4) One registration permit will be available and will be awarded by the Federal in-season fishery manager, in consultation with the Kenai National Wildlife Refuge manager, based on the merits of the operational plan. The registration permit will be issued only to an organization that, as the community gillnet owner, will be responsible for its use in consultation with the Federal fishery manager. As part of the permit, the organization must:

(i) Prior to the season: Provide a written operational plan to the Federal fishery manager including a description of fishing method, mesh size requirements, fishing time and location, and how fish will be offered and distributed among households and residents of Ninilchik.

(ii) After the season: Provide written documentation of required evaluation information to the Federal fishery manager including, but not limited to, persons or households operating the gear, hours of operation, and number of each species caught and retained or released.

(5) The experimental community gillnet is subject to compliance with applicable Kenai National Wildlife Refuge regulations and restrictions. It is the obligation of the gillnet owner to be familiar with such regulations and restrictions.

(6) The organization owning the gillnet may operate the net for subsistence purposes on behalf of residents of Ninilchik by requesting a subsistence fishing permit that identifies a person who will be responsible for fishing the gillnet and includes provisions for recording daily catches, the household to whom the catch was given, and other information determined to be necessary for effective resource management by the Federal fishery manager.

(7) Residents of Ninilchik may retain other species incidentally caught in the Kasilof River experimental community gillnet fishery. The gillnet fishery will be closed when the retention of rainbow or steelhead trout has been restricted under Federal subsistence regulations.

(D) Tustumena Lake rod and reel; salmon.

(1) In addition to the dip net and rod and reel fishery on the upper mainstem of the Kasilof River described under paragraph (e)(10)(ii)(B) of this section, residents of Ninilchik may also take coho and pink salmon through a rod and reel fishery in Tustumena Lake. Fishing is allowed with up to two baited single or treble hooks.

(2) Seasons, areas, harvest and possession limits, and methods and means for take are the same as for the taking of these species under Alaska sport fishing regulations (5 AAC 56), except for the following harvest and possession limits:

<table>
<thead>
<tr>
<th>Species</th>
<th>Size</th>
<th>Limits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Coho salmon</td>
<td>16 inches and longer</td>
<td>4 per day and 4 in possession.</td>
</tr>
<tr>
<td>Pink salmon</td>
<td>16 inches and longer</td>
<td>6 per day and 6 in possession.</td>
</tr>
</tbody>
</table>

(E) Kasilof drainage rod and reel; resident species. Resident fish species including lake trout, rainbow or steelhead trout, and Dolly Varden or Arctic char may be harvested by rod and reel in Federally managed waters of the Kasilof River drainage the entire year as follows:
(F) **Tustumena Lake under ice fishery; resident species.**

(1) You may fish in Tustumena Lake with a gillnet under the ice, or with jigging gear used through the ice. The gillnet may not be longer than 10 fathoms.

(2) Harvest limits are as follows:

<table>
<thead>
<tr>
<th>Methods</th>
<th>Limits</th>
<th>Additional provisions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Jigging gear through the ice</td>
<td>Household annual limit of 30 fish in any combination of lake trout, rainbow trout, and Dolly Varden or Arctic char.</td>
<td>Household limits are included in the overall total annual harvest quota.</td>
</tr>
<tr>
<td>Gillnet under the ice</td>
<td>Total annual harvest quota of 200 lake trout, 200 rainbow trout, and 500 Dolly Varden or Arctic char.</td>
<td>The Federal in-season manager will issue a closure for this fishery once any of these quotas has been met.</td>
</tr>
</tbody>
</table>

(3) You may harvest fish under the ice only in Tustumena Lake. Gillnets are not allowed within a ¼-mile radius of the mouth of any tributary to Tustumena Lake, or the outlet of Tustumena Lake.

(4) A permit is required. The permit will be issued by the Federal in-season manager or designated representative and will be valid for the winter season unless the season is closed by special action.

(5) Incidentally caught fish may be retained and must be recorded on the permit before transporting fish from the fishing site.

(6) Failure to return the completed harvest permit by May 31 may result in issuance of a violation notice and/or denial of a future subsistence permit.

(iii) **Seasons, harvest limits, and methods and means for Kenai fisheries.** Household annual limits for salmon in Kenai River fisheries are as follows:

<table>
<thead>
<tr>
<th>Species</th>
<th>Number of fish allowed for each permit holder</th>
<th>Additional fish allowed for each household member</th>
<th>Additional provisions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sockeye salmon</td>
<td>25</td>
<td>5</td>
<td>Chum salmon that are retained are to be included within the annual limit for sockeye salmon. For the Kenai River community gillnet fishery described under paragraph (e)(10)(iii)(B) of this section.</td>
</tr>
<tr>
<td>Chinook salmon—Early-run (July 1 through July 15)</td>
<td>2</td>
<td>1</td>
<td></td>
</tr>
<tr>
<td>Chinook salmon—Late-run (July 16 through August 31)</td>
<td>10</td>
<td>2</td>
<td></td>
</tr>
<tr>
<td>Coho salmon</td>
<td>20</td>
<td>5</td>
<td></td>
</tr>
<tr>
<td>Pink salmon</td>
<td>15</td>
<td>5</td>
<td></td>
</tr>
</tbody>
</table>

(A) **Kenai dip net or rod and reel; salmon.**

(1) You may take only sockeye salmon through a dip net or rod and reel fishery at one specified site on the Russian River.

(ii) At the Kenai River Moose Range Meadows site, dip netting is allowed only from a boat from a Federal regulatory marker on the Kenai River at about river mile 29 downstream approximately 2.5 miles to another marker on the Kenai River at about river mile 26.5. Residents using rod and reel gear at this fishery site may fish from boats or from shore with up to two baited single or treble hooks June 15 through August 31.

(iii) At the Kenai river mile 48 site, dip netting is allowed while either standing in the river or from a boat, from Federal regulatory markers on both sides of the Kenai River at about river mile 48 (approximately 2 miles below
the outlet of Skilak Lake) downstream approximately 2.5 miles to a marker on the Kenai River at about river mile 45.5.

Resident using rod and reel gear at this fishery site may fish from boats or from shore with up to two baited single or treble hooks June 15 through August 31.  

<table>
<thead>
<tr>
<th>Species</th>
<th>Season</th>
<th>Location</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sockeye salmon</td>
<td>June 15–August 15</td>
<td>All three sites.</td>
</tr>
<tr>
<td>Late-run Chinook salmon</td>
<td>July 16–September 30</td>
<td>Kenai River sites only.</td>
</tr>
<tr>
<td>Pink salmon</td>
<td>July 16–September 30</td>
<td>Kenai River sites only.</td>
</tr>
<tr>
<td>Coho salmon</td>
<td>July 16–September 30</td>
<td>Kenai River sites only.</td>
</tr>
</tbody>
</table>

(B) Kenai gillnet; salmon.  
(1) Residents of Ninilchik may harvest sockeye, Chinook, coho, and pink salmon in the Moose Range Meadows area of the Federal public waters of the Kenai River with a single gillnet to be managed and operated by the Ninilchik Traditional Council.  
(2) Fishing will be allowed July 1 through August 15 and September 10–30 on the Kenai River unless closed or otherwise restricted by Federal special action. The following conditions apply to harvest in the Kenai community gillnet fishery:  
   (i) Salmon taken in this fishery will be included as household annual limits of participating households.  
   (ii) Additional harvest restrictions for this fishery are as follows:

<table>
<thead>
<tr>
<th>Species</th>
<th>Period</th>
<th>Harvest</th>
<th>Limits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Early-run Chinook salmon less than 46 inches in length or greater than 55 inches in length.</td>
<td>July 1–15</td>
<td>Fish may be retained if the most current preseason forecast from the State of Alaska Department of Fish and Game projects the in-river run to be within or above the optimal escapement goal range for early-run Chinook salmon; otherwise, live fish must be released.</td>
<td>Fishery will close until July 16 once 50 early-run Chinook salmon have been retained or released.</td>
</tr>
<tr>
<td>Late-run Chinook salmon</td>
<td>July 16–August 15</td>
<td></td>
<td>Fishery will close prior to August 15 if 200 late-run Chinook salmon have been retained or released prior to that date. Fishery will reopen September 10–30 for species available at that time.</td>
</tr>
<tr>
<td>Pink salmon</td>
<td>July 16–August 15 and September 10–30.</td>
<td>All live fish must be released. Fish that die in net may be retained.</td>
<td>Fishery will close for the season once 100 rainbow trout or 150 Dolly Varden have been released or retained.</td>
</tr>
<tr>
<td>Coho salmon</td>
<td>July 16–August 15 and September 10–30.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

(iii) Chinook salmon less than 20 inches in length may be retained and do not count towards retained or released totals.  
(iv) Other incidentally caught species may be retained; however, all incidental fish mortalities, except for Chinook salmon less than 20 inches in length, count towards released or retained totals specified in this section.  
(3) Only one community gillnet may be operated on the Kenai River.

   (i) The gillnet may not: Be over 10 fathoms in length to take salmon; be larger than 5.25-inch mesh; and obstruct more than half of the river width with stationary fishing gear.  
   (ii) Subsistence stationary gillnet gear may not be set within 200 feet of other subsistence stationary gear.  
   (iii) One registration permit will be available and will be issued by the Federal in-season manager, in consultation with the Kenai National Wildlife Refuge manager, to the Ninilchik Traditional Council. As the community gillnet owner, the Ninilchik Traditional Council will be responsible for its use and removal in consultation with the Federal in-season manager. As part of the permit, the Ninilchik Traditional Council must provide post-season written documentation of required evaluation information to the Federal in-season manager including, but not limited to:  
   (iv) Identifies a person who will be responsible for fishing the gillnet; and  
   (v) Includes provisions for recording daily catches, the household to whom the catch was given, and other information determined to be necessary for effective resource management by the Federal in-season manager.  
(C) Kenai rod and reel only; salmon.  
(1) For Federally managed waters of the Kenai River and its tributaries, you may take sockeye, Chinook, coho, pink, and chum salmon through a separate rod and reel fishery in the Kenai River drainage.  
(2) Seasons, areas, harvest and possession limits, and methods and means for take are the same as for the taking of these salmon species under State of Alaska fishing regulations (5 AAC 56, 5 AAC 57 and 5 AAC 77.540), except for the following harvest and possession limits:
<table>
<thead>
<tr>
<th>Species</th>
<th>Size</th>
<th>Limits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Early-run Chinook salmon</td>
<td>Less than 46 inches or 55 inches and longer.</td>
<td>2 per day and 2 in possession.</td>
</tr>
<tr>
<td>Late-run Chinook salmon</td>
<td>20 inches and longer</td>
<td>2 per day and 2 in possession.</td>
</tr>
<tr>
<td>All other salmon</td>
<td>16 inches and longer</td>
<td>6 per day and 6 in possession, of which no more than 4 per day and 4 in possession may be Coho salmon, except for the Sanctuary Area and Russian River where no more than 2 per day and 2 in possession may be Coho salmon.</td>
</tr>
</tbody>
</table>

(i) In the Kenai River below Skilak Lake, fishing is allowed with up to two baited single or treble hooks June 15 through August 31.

(ii) Annual harvest limits for any combination of early- and late-run Chinook salmon are four for each permit holder.

(iii) Incidentally caught fish, other than salmon, are subject to regulations found in paragraph (e)(10)(iii)(D) of this section.

(D) Kenai River and tributaries under ice jigging and rod and reel; resident species.

(1) For Federally managed waters of the Kenai River and its tributaries below Skilak Lake outlet at river mile 50, you may take resident fish species including lake trout, rainbow trout, and Dolly Varden or Arctic char with jigging gear through the ice or rod and reel gear in open waters. Seasons, areas, harvest and possession limits, and methods and means for take are the same as for the taking of these resident species under State of Alaska fishing regulations (5 AAC 56, 5 AAC 57, and 5 AAC 77.540), except for the following harvest and possession limits:

<table>
<thead>
<tr>
<th>Species</th>
<th>Specifications</th>
<th>Limits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lake trout</td>
<td>20 inches or longer</td>
<td>4 per day and 4 in possession.</td>
</tr>
<tr>
<td>Dolly Varden or Arctic char</td>
<td>Less than 20 inches</td>
<td>15 per day and 15 in possession.</td>
</tr>
<tr>
<td>Rainbow or steelhead trout</td>
<td>In flowing waters</td>
<td>2 per day and 2 in possession.</td>
</tr>
<tr>
<td>Rainbow or steelhead trout</td>
<td>In lakes and ponds</td>
<td>For fish less than 18 inches in length, 1 per day and 1 in possession.</td>
</tr>
</tbody>
</table>

(2) For Federally managed waters of the upper Kenai River and its tributaries above Skilak Lake outlet at river mile 50, you may take resident fish species including lake trout, rainbow trout, and Dolly Varden or Arctic char with jigging gear through the ice or rod and reel gear in open waters. Seasons, areas, harvest and possession limits, and methods and means for take are the same as for the taking of these resident species under Alaska fishing regulations (5 AAC 56, 5 AAC 57, 5 AAC 77.540), except for the following harvest and possession limits:

<table>
<thead>
<tr>
<th>Species</th>
<th>Specifications</th>
<th>Limits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lake trout</td>
<td>20 inches or longer</td>
<td>4 per day and 4 in possession.</td>
</tr>
<tr>
<td>Dolly Varden or Arctic char</td>
<td>Less than 20 inches</td>
<td>15 per day and 15 in possession.</td>
</tr>
<tr>
<td>Rainbow or steelhead trout</td>
<td>From Hidden Lake</td>
<td>2 per day and 2 in possession.</td>
</tr>
<tr>
<td>Rainbow or steelhead trout</td>
<td>In flowing waters</td>
<td>For fish less than 16 inches in length, 1 per day and 1 in possession.</td>
</tr>
<tr>
<td>Rainbow or steelhead trout</td>
<td>In lakes and ponds</td>
<td>For fish less than 16 inches in length, 1 per day and 1 in possession.</td>
</tr>

BILLING CODE 4333–15–P; 3411–15–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[40 CFR 83–Region 4]

Air Plan Approval; North Carolina; Ozone NAAQS Update

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve a State Implementation Plan (SIP) revision submitted by the State of North Carolina through the North Carolina Division of Air Quality (NCDAQ) with a letter dated March 21, 2018. The SIP submittal includes changes to the State’s air quality rules for ozone to be consistent with the National Ambient Air Quality Standards (NAAQS). EPA is proposing to approve these provisions of the SIP revision because the State has demonstrated that these changes are consistent with the Clean Air Act (CAA or Act) and federal regulations.

DATES: Comments must be received on or before October 31, 2018.
