(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) Type of Information Collection: Revision of a Currently Approved Collection.

(2) Title of the Form/Collection: Application for Replacement/Initial Document.

(3) Agency form number, if any, and the applicable component of the DHS sponsoring the collection: I–102; USCIS.

(4) Affected public who will be asked or required to respond, as well as a brief abstract: Primary: Nonimmigrants temporarily residing in the United States can use this form to request a replacement of a lost, stolen, or mutilated arrival-departure record, or to request a new arrival-departure record, if one was not issued when the nonimmigrant was last admitted but is now in need of such a record. U.S. Citizenship and Immigration Services (USCIS) uses the information provided by the requester to verify eligibility, as well as his or her status, process the request, and issue a new or replacement arrival-departure record.

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: The estimated total number of respondents for the information collection 1–102 is 4,100 and the estimated hour burden per response is 0.75 hours.

(6) An estimate of the total public burden (in hours) associated with the collection: The total estimated annual burden associated with this collection is 3,075 hours.

(7) An estimate of the total public burden (in cost) associated with the collection: The estimated total annual cost burden associated with this collection of information is $1,182,440.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Final Environmental Impact Statement and Final Habitat Conservation Plan for the Skookumchuck Wind Energy Project, Lewis and Thurston Counties, Washington; Correction

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; correction.

SUMMARY: On May 31, 2019, we, the U.S. Fish and Wildlife Service, announced via a Federal Register notice the availability of a final environmental impact statement (EIS) and a final habitat conservation plan addressing the Skookumchuck Wind Energy Project (project) in Lewis and Thurston Counties, Washington (84 FR 25299). The Skookumchuck Wind Energy Project LLC is requesting an incidental take permit covering the take of the marbled murrelet (Brachyramphus marmoratus), bald eagle (Haliaeetus leucocephalus), and golden eagle (Aquila chrysaetos) likely to be caused by the operation of the project over a 30-year period.

Corrections

In our May 31, 2019, notice (84 FR 25299), we did not provide the correct docket number in https://www.regulations.gov/ for the public to use to access the documents announced by that notice. The correct docket number is Docket No. FWS–R1–ES–2018–0095. Our ADDRESSES section above has been corrected accordingly. We regret any inconvenience caused by this error.

Authority

We provide this notice in accordance with the requirements of section 10(c) of the ESA and its implementing regulations (50 CFR 17.22 and 17.32) and NEPA and its implementing regulations (40 CFR 1506.6).

Sara Prigan,
Federal Register Liaison, U.S. Fish and Wildlife Service.
