

Technical

1. Access to program participants data and ADAMS screens is restricted to those individuals with a need-to-know and a valid business justification.

2. ADAMS access requires two levels of logins to access the system. The first login uses HUD Siteminder system to verify that the user has active HUD authorization. The second login uses ADAMS internal security system to set permissions for data access and system functionality.

3. Data exchanges are done via secure file transfer protocol (SFTP); and the servers and mainframes used employ Federal Information Processing Standards (FIPS) 199 moderate security categorization controls. OSFAM personnel work closely with system security administrators, network and project security personnel to ensure the integrity of data exchanges.

Physical

1. Access to data centers are controlled using an electromagnetic badge and/or biometric access system which maintains information such as employee names, ID numbers, access badge numbers, issue date of the access badge, as well as what areas the employee is authorized to access.

2. Each system logs the date, time, and location of each entry into the data center. Physical access is further restricted only to authorized personnel and other approved individuals according to their job functions. The systems are used to generate access badges used at each data center entrance where a badge reader is installed. Each badge reader stores an access list in memory. If a connection between a badge reader and the master server supporting the card key system is severed, the badge readers will still limit access using the access list stored in memory.

3. A Facilities Manager performs a monthly review of entry logs at each data center to ensure access is appropriate. Any unusual activities are investigated and resolved.

**Endangered and Threatened Species;
Receipt of Recovery Permit
Applications**

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, have received applications for permits to conduct activities intended to enhance the propagation or survival of endangered or threatened species under the Endangered Species Act. We invite the public and local, State, Tribal, and Federal agencies to comment on these applications. Before issuing any of the requested permits, we will take into consideration any information that we receive during the public comment period.

DATES: We must receive your written comments on or before August 5, 2019.

ADDRESSES: *Document availability and comment submission:* Submit requests for copies of the applications and related documents and submit any comments by one of the following methods. All requests and comments should specify the applicant name(s) and application number(s) (*e.g.*, TEXXXXXX).

- *Email:* permitsr8es@fws.gov.
- *U.S. Mail:* Daniel Marquez,

Endangered Species Program Manager, U.S. Fish and Wildlife Service, Region 8, 2800 Cottage Way, Room W-2606, Sacramento, CA 95825.

FOR FURTHER INFORMATION CONTACT: Daniel Marquez, via phone at 760-431-9440, via email at permitsr8es@fws.gov, or via the Federal Relay Service at 1-800-877-8339 for TTY assistance.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, invite the public to comment on applications for permits under section 10(a)(1)(A) of the Endangered Species Act, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The requested permits would allow the

applicants to conduct activities intended to promote recovery of species that are listed as endangered or threatened under the ESA.

Background

With some exceptions, the ESA prohibits activities that constitute take of listed species unless a Federal permit is issued that allows such activity. The ESA’s definition of “take” includes such activities as pursuing, harassing, trapping, capturing, or collecting in addition to hunting, shooting, harming, wounding, or killing.

A recovery permit issued by us under section 10(a)(1)(A) of the ESA

authorizes the permittee to conduct activities with endangered or threatened species for scientific purposes that promote recovery or for enhancement of propagation or survival of the species. These activities often include such prohibited actions as capture and collection. Our regulations implementing section 10(a)(1)(A) for these permits are found in the Code of Federal Regulations at 50 CFR 17.22 for endangered wildlife species, 50 CFR 17.32 for threatened wildlife species, 50 CFR 17.62 for endangered plant species, and 50 CFR 17.72 for threatened plant species.

Permit Applications Available for Review and Comment

Proposed activities in the following permit requests are for the recovery and enhancement of propagation or survival of the species in the wild. The ESA requires that we invite public comment before issuing these permits. Accordingly, we invite local, State, Tribal, and Federal agencies and the public to submit written data, views, or arguments with respect to these applications. The comments and recommendations that will be most useful and likely to influence agency decisions are those supported by quantitative information or studies.

SUPPLEMENTARY INFORMATION: On October 12, 2007, New Elk Coal submitted an application to lease 1,279 acres of Federal coal resources located in Las Animas County, Colorado. The company put the lease application on hold for several years and is now interested in proceeding with the lease application. The application is for the Blue and Maxwell coal seams, which would be mined by underground methods. The EA analyzes and discloses the potential direct, indirect and cumulative impacts of leasing of the proposed 1,279 acres of the Blue and Maxwell seams. The LBA is located at the New Elk Coal Mine and contains approximately 8 million tons of recoverable Federal coal resources. The LBA underlies private surface owned by 12 individuals and is described as follows:

Sixth Principal Meridian, Colorado

- T. 33 S., R. 67 W.,
sec. 6, lots 2 thru 7, and E $\frac{1}{2}$ SW $\frac{1}{4}$;
sec. 7, lot 2;
sec. 17, E $\frac{1}{2}$ NE $\frac{1}{4}$, and NE $\frac{1}{4}$ SE $\frac{1}{4}$;
sec. 18, lots 2 thru 4, and E $\frac{1}{2}$ SW $\frac{1}{4}$;
sec. 19, lot 1, NW $\frac{1}{4}$ NE $\frac{1}{4}$, and NE $\frac{1}{4}$ NW $\frac{1}{4}$.
T. 33 S., R. 68 W.,
sec. 1, lots 1 and 2, S $\frac{1}{2}$ NE $\frac{1}{4}$, and E $\frac{1}{2}$ SE $\frac{1}{4}$;
sec. 12, E $\frac{1}{2}$ NE $\frac{1}{4}$;
sec. 13, S $\frac{1}{2}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, and SE $\frac{1}{4}$ SE $\frac{1}{4}$.

The areas described contain 1,279.63 acres of Federal coal resources.

The EA addresses natural resource, cultural, socioeconomic, environmental, and cumulative impacts that would result from leasing these lands. Two alternatives are addressed in the EA:

Alternative 1 (Proposed Action): The BLM would lease the tract as requested in the LBA; and

Alternative 2 (No Action): The BLM would reject or deny the application, and the subsurface Federal coal reserves would be bypassed.

Through this Notice, the BLM is inviting the public to provide comments regarding the potential environmental impacts related to the proposed action and to submit comments on the EA, FMV and the MER for the proposed LBA tract. All public comments will receive consideration prior to the BLM's decision regarding the leasing of the Federal coal contained in the tract.

Proprietary information or data marked as confidential may be

submitted to the BLM in response to this solicitation of comments. Information and data marked confidential will be treated in accordance with the applicable laws and regulations governing the confidentiality of such information or data. A copy of the comments submitted by the public on the EA, FMV, and MER for the tract, except those portions identified as proprietary and that meet one of the exemptions in the Freedom of Information Act, will be available for public inspection at the BLM RGFO at the address listed earlier during regular business hours (8 a.m. to 4:30 p.m. M.D.T.), Monday through Friday.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made public at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
