review and clearance in accordance with the Paperwork Reduction Act of 1995. DHS previously published this information collection request (ICR) in the Federal Register on Wednesday, August 28, 2019 for a 60-day public comment period. Two (2) comments were received by DHS. The purpose of this notice is to allow additional 30-days for public comments.

DATES: Comments are encouraged and will be accepted until January 22, 2020. This process is conducted in accordance with 5 CFR 1320.10.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to OMB Desk Officer, Department of Homeland Security and sent via electronic mail to dhsdeskofficer@omb.eop.gov.

The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

SUPPLEMENTARY INFORMATION: Security vulnerabilities, defined in section 102(17) of the Cybersecurity Information Sharing Act of 2015, are any attribute of hardware, software, process, or procedure that could enable or facilitate the defeat of a security control. Security vulnerability mitigation is a process starting with discovery of the vulnerability leading to applying some solution to resolve the vulnerability. There is constantly a search for security vulnerabilities within information systems, from individuals or nation states wishing to bypass security controls to gain invaluable information, to researchers seeking knowledge in the field of cyber security. Bypassing such security controls in the DHS information systems can cause catastrophic damage including but not limited to loss in Personally Identifiable Information (PII), sensitive information gathering, and data manipulation.

Pursuant to section 101 of the Strengthening and Enhancing Cyber-capabilities by Utilizing Risk Exposure Technology Act commonly known as the SECURE Technologies Act individuals, organizations, and companies will be able to submit discovered security vulnerabilities on the Department of Homeland Security (DHS) Information Systems. This collection would be used by these individuals, organizations, and companies who choose to submit a discovered vulnerability in the information system of the DHS. The form will include the following essential information:

- Vulnerable host(s)
- Necessary information for reproducing the security vulnerability
- Remediation or suggestions for remediation of the vulnerability
- Potential impact on host, if not remediated

This form will allow the DHS to do two things (1) allow the individuals, organizations, and companies who discover vulnerabilities in the information systems of DHS to report their findings to the DHS, (2) give the DHS first insight into newly discovered vulnerabilities, as well as zero-day vulnerabilities in order to mitigate the security issues prior to malicious actors acting on the vulnerability for malicious intent. The form will benefit researchers as it will provide a safe and lawful way for them to practice and discover new skills while discovering the vulnerabilities. Meanwhile, it will provide the same benefit to the DHS, in addition to enhanced information system security following the vulnerability mitigation.

Respondents will be able to fill the form out online at https://www.dhs.gov and submit it thereafter. Links to the form will also be available at any of the DHS components websites (https://www.tsa.gov/, https://www.ice.gov/, etc.)

The collection of this information regarding to discovered security vulnerabilities by individuals, organizations, and companies is needed to fulfill the congressional mandate in Section 101 of the SECURE Technologies Act regarding a Vulnerability Disclosure Policy. In addition, without the ability to collect information on newly discovered security vulnerabilities in DHS information systems, the DHS will rely solely on the internal security personnel and or discovery through post occurrence of such a breach on security controls.

The is new collection.

Analysis
OMB Number: 1601—New.
Frequency: On Occasion.
AFFECTED PUBLIC: Private Sector.
Number of Respondents: 3000.
Estimated Time Per Respondent: 3 Hours.
Total Burden Hours: 9000.
Melissa Bruce,
Executive Director, Business Management Office.

BILLING CODE 9112-fl-P

DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service

Proposed Upper Santa Ana River Habitat Conservation Plan and Draft Environmental Impact Statement; San Bernardino County, CA; Correction

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; correction.

SUMMARY: The U.S. Fish and Wildlife Service published a document in the December 9, 2019, Federal Register that announced the availability of a proposed habitat conservation plan (HCP) and a draft environmental impact statement for public comment. The subject heading of the document incorrectly referred to the “Upper Santa Ana River Habitat Conservation Plan” instead of the “Upper Santa Ana River Wash Habitat Conservation Plan,” which is the correct name of the HCP.

FOR FURTHER INFORMATION CONTACT: Karin Cleary-Rose, 760–322–2070.

SUPPLEMENTARY INFORMATION:
Correction

In notice document 2019–26478, appearing at 84 FR 67292 in the issue of Monday, December 9, 2019, make the following correction: On page 67292, the subject heading should read “Proposed Upper Santa Ana River Wash Habitat Conservation Plan and Draft
Environmental Impact Statement; San Bernardino County, CA”.

Sara Prigan,
Federal Register Liaison.

ADDRESSES:

SUMMARY:

ACTION:

AGENCY:

Foreign Endangered Species; Marine Mammals; Receipt of Permit Applications

ACTION: Notice of receipt of permit applications; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), invite the public to comment on applications to conduct certain activities with foreign species that are listed as endangered under the Endangered Species Act (ESA) and foreign or native species for which the Service has jurisdiction under the Marine Mammal Protection Act (MMPA). With some exceptions, the ESA and MMPA prohibit activities with listed species unless Federal authorization is issued that allows such activities. The ESA and MMPA also require that we invite public comment before issuing permits for any activity otherwise prohibited by the ESA or MMPA with respect to any endangered species or marine mammals.

DATES: We must receive comments by January 22, 2020.

Submitting Comments: When submitting comments, please specify the name of the applicant and the permit number at the beginning of your comment. You may submit comments by one of the following methods:

For more information, see Public Comment Procedures under SUPPLEMENTARY INFORMATION.

FOR FURTHER INFORMATION CONTACT: Brenda Tapia, by phone at 703–358–2104, via email at DMAFR@fws.gov, or via the Federal Relay Service at 800–877–8339.

SUPPLEMENTARY INFORMATION:

I. Public Comment Procedures

A. How do I comment on submitted applications?

We invite the public and local, State, Tribal, and Federal agencies to comment on these applications. Before issuing any of the requested permits, we will take into consideration any information that we receive during the public comment period.

You may submit your comments and materials by one of the methods in ADDRESSES. We will not consider comments sent by email or fax, or to an address not in ADDRESSES. We will not consider or include in our administrative record comments we receive after the close of the comment period (see DATES).

When submitting comments, please specify the name of the applicant and the permit number at the beginning of your comment. Provide sufficient information to allow us to authenticate any scientific or commercial data you include. The comments and recommendations that will be most useful and likely to influence agency decisions are: (1) Those supported by quantitative information or studies; and (2) those that include citations to, and analyses of, the applicable laws and regulations.

B. May I review comments submitted by others?

You may view and comment on others’ public comments at http://www.regulations.gov, unless our allowing so would violate the Privacy Act (5 U.S.C. 552a) or Freedom of Information Act (5 U.S.C. 552).

C. Who will see my comments?

If you submit a comment at http://www.regulations.gov, your entire comment, including any personal identifying information, will be posted on the website. If you submit a hardcopy comment that includes personal identifying information, such as your address, phone number, or email address, you may request at the top of your document that we withhold this information from public review. However, we cannot guarantee that we will be able to do so. Moreover, all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety.

II. Background

To help us carry out our conservation responsibilities for affected species, and in consideration of section 10(c) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 et seq.), and section 104(c) of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 et seq.), we invite public comments on permit applications before final action is taken. With some exceptions, the ESA and MMPA prohibit certain activities with listed species unless Federal authorization is issued that allows such activities. Permits issued under section 10(a)(1)(A) of the ESA allow otherwise prohibited activities for scientific purposes or to enhance the propagation or survival of the affected species. Service regulations regarding prohibited activities with endangered species, captive-bred wildlife (CBW) registrations, and permits for any activity otherwise prohibited by the ESA with respect to any endangered species are available in title 50 of the Code of Federal Regulations in part 17. Service regulations regarding permits for any activity otherwise prohibited by the MMPA with respect to any marine mammals are available in title 50 of the Code of Federal Regulations in part 18. Concurrent with publishing this notice in the Federal Register, we are forwarding copies of the marine mammal applications to the Marine Mammal Commission and the Committee of Scientific Advisors for their review.

III. Permit Applications

We invite comments on the following applications.

A. Endangered Species

Applicant: Purdue University Fort Wayne, Fort Wayne, IN; Permit No. 57460D

The applicant requests authorization for a permit to import samples of wild green sea turtle (Chelonia mydas), loggerhead sea turtle (Caretta caretta), and Hawksbill sea turtle (Eretmochelys imbricata) for the purpose of scientific research. This notification is for a single import.

Applicant: The San Diego Zoo, San Diego, CA; Permit No. 49913D

The applicant requests authorization for a permit to export two male babirusa (Babyrous celebensis) to Tierpark...
