Agency Information Collection Activities; National Survey of Fishing, Hunting, and Wildlife-Associated Recreation (FHWAR)

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice of information collection;
request for comment.

SUMMARY: In accordance with the
Paperwork Reduction Act of 1995, we,
the U.S. Fish and Wildlife Service
(Service), are proposing to reinstate a
previously approved information
collection with revisions.

DATES: Interested persons are invited to
submit comments on or before July 13,
2020.

ADDRESSES: Send your comments on the
information collection request by mail
to the Service Information Collection
Clearance Officer, U.S. Fish and
Wildlife Service, MS: PRB (JAO/3W),
5275 Leesburg Pike, Falls Church, VA
22041-3803; or by email to *Info_Coll@fws.gov*.
Please reference OMB Control
Number 1018-0088 in the subject line of
your comments.

impaired may call the Federal Relay
Service at 1-800-877-8339 for TTY
assistance.

SUPPLEMENTARY INFORMATION: In
accordance with the PRA and its
implementing regulations at 5 CFR
1320.8(d)(1), all information collections
require approval under the PRA. We
may not conduct or sponsor and you are
not required to respond to a collection
of information unless it displays a
currently valid OMB control number.

As part of our continuing effort to
reduce paperwork and respondent

burdens, we invite the public and other
Federal agencies to comment on new,
proposed, revised, and continuing
collections of information. This helps us
assess the impact of our information
collection requirements and minimize
the public's reporting burden. It also
helps the public understand our
information collection requirements and
provide the requested data in the
desired format.

We are especially interested in public
comment addressing the following:

(1) Whether or not the collection of
information is necessary for the proper
performance of the functions of the
agency, including whether or not the
information will have practical utility;

(2) The accuracy of our estimate of the
burden for this collection of
information, including the validity of
the methodology and assumptions used;

(3) Ways to enhance the quality,
utility, and clarity of the information to
be collected; and
(4) How might the agency minimize
the burden of the collection of
information on those who are to
respond, including through the use of
appropriate automated, electronic,
mechanical, or other technological
collection techniques or other forms of
information technology, e.g., permitting
electronic submission of response.

Comments that you submit in
response to this notice are a matter of
public record. We will include or
summarize each comment in our request
to OMB to approve this ICR. Before
including your address, phone number,
email address, or other personal
identifying information in your
comment, you should be aware that
your entire comment—including your
personal identifying information—may
be made publicly available at any time.
While you can ask us in your comment
to withhold your personal identifying
information from public review, we
cannot guarantee that we will be able to
do so.

Abstract: The information collected
for the National Survey of Fishing,
Hunting, and Wildlife-Associated
Recreation (FHWAR) assists the Fish
and Wildlife Service in administering
the Wildlife and Sport Fish Restoration
grant programs. The 2022 FHWAR
survey will provide up-to-date
information on the uses and demands
for wildlife-related recreation resources
and a basis for developing and
evaluating programs and projects to
meet existing and future needs.

We collect the information in
conjunction with carrying out our
responsibilities under the Dingell-
Johnson Sport Fish Restoration Act (16
U.S.C. 777-777m) and the Pittman-

Robertson Wildlife Restoration Act (16
U.S.C. 669-669i). Under these acts, as
amended, we provide approximately \$1
billion in grants annually to States for
projects that support sport fish and
wildlife management and restoration,
including:

- Improvement of fish and wildlife
habitats,
- Fishing and boating access,
- Fish stocking, and
- Hunting and fishing opportunities.

We also provide grants for aquatic
education and hunter education,
maintenance of completed projects, and
research into problems affecting fish
and wildlife resources. These projects
help to ensure that the American people
have adequate opportunities for fish and
wildlife recreation. We conduct the
survey about every 5 years. The 2022
FHWAR survey will be the 14th
conducted since 1955. We sponsor the
survey at the States' request, which is
made through the Association of Fish
and Wildlife Agencies. We contract with
the National Opinion Research Center
(NORC) at the University of Chicago,
which collects the information using
internet, telephone, or mail-in
interviews. Respondents are invited to
take the survey with a mailed letter.
NORC will select a sample of
sportspersons and wildlife watchers
from a household screen and conduct
three detailed interviews during the
survey year. The survey collects
information on the number of days of
participation, species of animals sought,
and expenditures for trips and
equipment. Information on the
characteristics of participants includes
age, income, sex, education, race, and
State of residence.

Federal and State agencies use
information from the survey to make
policy decisions related to fish and
wildlife restoration and management.
Participation patterns and trend
information help identify present and
future needs and demands. Land
management agencies use the data on
expenditures and participation to assess
the value of wildlife-related recreational
uses of natural resources. Wildlife-
related recreation expenditure
information is used to estimate the
impact on the economy and to support
the dedication of tax revenues for fish
and wildlife restoration programs.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[201A2100DD/AAK001030/AOA501010.999900]

Suspension of Preparation of Environmental Impact Statement for the Proposed Redding Rancheria Fee-to-Trust and Casino Project, Shasta County, California

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: This notice announces that the Bureau of Indian Affairs (BIA) is suspending preparation of an environmental impact statement (EIS) for the Redding Rancheria's (Tribe's) application requesting that the United States acquire land in trust in Shasta

County, California, for the construction and operation of a casino resort.

FOR FURTHER INFORMATION CONTACT: Mr. Chad Broussard, Environmental Protection Specialist, Bureau of Indian Affairs, Pacific Regional Office, 2800 Cottage Way, Room W-2820, Sacramento, California 95825; telephone: (916) 978-6165; email: chad.broussard@bia.gov. Information is also available online at www.reddingeis.com.

SUPPLEMENTARY INFORMATION: On November 29, 2016, the BIA published a Notice of Intent to Prepare an EIS in connection with the Tribe's application requesting that the United States acquire approximately 232 acres of land in trust in Shasta County, California, for the construction and operation of a casino resort. The proposed fee-to-trust property is located in an unincorporated part of Shasta County, California, approximately 1.6 miles northeast of the existing Redding Rancheria, and approximately two miles southeast from the downtown of the City of Redding. The proposed trust property includes seven parcels, bound by Bechelli Lane on the north, private properties to the south, the Sacramento River on the west, and Interstate 5 on the east. The Tribe is proposing to construct a casino resort that includes a casino, hotel, event/convention center, outdoor amphitheater, retail center, and associated parking/infrastructure. The new facility would replace the Tribe's

existing casino, and the Tribe would convert the existing casino buildings to a different Tribal use.

On April 10, 2019, the BIA published a Notice of Availability in the **Federal Register** (84 FR 14391) for the Draft EIS for the Proposed Redding Rancheria Fee-to-Trust and Casino Project, Shasta County, California. On June 6, 2019, the BIA published a notice in the **Federal Register** (84 FR 26440) to extend the comment period for the Draft EIS to June 17, 2019.

By letter dated February 21, 2020, the Tribe notified the Department of the Interior (Department) that it would await a decision from the California Supreme Court in a case arising under State law and involving the Indian Gaming Regulatory Act, 25 U.S.C. 2719 *et seq.*, before the Tribe decided how to proceed on its application. Therefore, the Department is suspending its review of the Tribe's application and preparation of the EIS. Since the Tribe's request involves action by the California Supreme Court, the Department does not have a definite time frame for how long the suspension will last; however, the Department will provide notice when it resumes the environmental review process.

Tara Sweeney,

Assistant Secretary—Indian Affairs.
