

DHS automated systems security and access policies. DHS/USSS has imposed strict controls to minimize the risk of compromising the information that is being stored. Access to the computer system containing the records in this system is limited to those individuals who have a need to know the information for the performance of their official duties and who have appropriate clearances or permissions.

RECORD ACCESS PROCEDURES:

The Secretary of Homeland Security has exempted this system from the notification, access, and amendment procedures of the Privacy Act, and the Judicial Redress Act if applicable, because it is a law enforcement system. However, DHS/USSS will consider individual requests to determine whether or not information may be released. Thus, individuals seeking access to and notification of any record contained in this system of records, or seeking to contest its content, may submit a request in writing to the Chief Privacy Officer and Chief Freedom of Information Act (FOIA) Officer, whose contact information can be found at <http://www.dhs.gov/foia> under "Contact Information." If an individual believes more than one component maintains Privacy Act records concerning him or her, the individual may submit the request to the Chief Privacy Officer and Chief FOIA Officer, Department of Homeland Security, Washington, DC 20528-0655. Even if neither the Privacy Act nor the Judicial Redress Act provide a right of access, certain records about you may be available under the Freedom of Information Act.

When an individual is seeking records about himself or herself from this system of records or any other Departmental system of records, the individual's request must conform with the Privacy Act regulations set forth in 6 CFR part 5. The individual must first verify his/her identity, meaning that the individual must provide his/her full name, current address, and date and place of birth. The individual must sign the request, and the individual's signature must either be notarized or submitted under 28 U.S.C. 1746, a law that permits statements to be made under penalty of perjury as a substitute for notarization. While no specific form is required, an individual may obtain forms for this purpose from the Chief Privacy Officer and Chief FOIA Officer, <http://www.dhs.gov/foia> or 1-866-431-0486. In addition, the individual should:

- Explain why he or she believes the Department would have information being requested;

- Identify which component(s) of the Department he or she believes may have the information;

- Specify when the individual believes the records would have been created; and

- Provide any other information that will help the FOIA staff determine which DHS component agency may have responsive records;

If the request is seeking records pertaining to another living individual, the request must include an authorization from the individual whose record is being requested, authorizing the release to the requester.

Without the above information, the component(s) may not be able to conduct an effective search, and the individual's request may be denied due to lack of specificity or lack of compliance with applicable regulations.

CONTESTING RECORD PROCEDURES:

This system of records is exempt from the Privacy Act's access and amendment provisions and those of the Judicial Redress Act; therefore, record access and amendment may not be available. In such cases, certain records about an individual may be available under FOIA, and the correspondence from those seeking a record amendment may be placed in the respective case file. For records covered by the Privacy Act or covered JRA records, individuals may make a request for amendment or correction of a record of the Department about the individual by writing directly to the Department component that maintains the record, unless the record is not subject to amendment or correction. The request should identify each particular record in question, state the amendment or correction desired, and state why the individual believes that the record is not accurate, relevant, timely, or complete. The individual may submit any documentation that would be helpful. If the individual believes that the same record is in more than one system of records, the request should state that and be addressed to each component that maintains a system of records containing the record.

NOTIFICATION PROCEDURES:

See "Record Access Procedures" above.

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

The Secretary of Homeland Security, pursuant to 5 U.S.C. 552a(j)(2), has exempted this system from the following provisions of the Privacy Act: 5 U.S.C. 552a(c)(3) and (4); (d); (e)(1), (e)(2), (e)(3), (e)(4)(G), (e)(4)(H), (e)(4)(I), (e)(5), and (e)(8); (f); and (g). Additionally, the Secretary of Homeland

Security, pursuant to 5 U.S.C. 552a(k)(1), (k)(2), and (k)(3) has exempted this system from the following provisions of the Privacy Act: 5 U.S.C. 552a(c)(3); (d); (e)(1), (e)(4)(G), (e)(4)(H), and (e)(4)(I); and (f).

HISTORY:

76 FR 49497 (August 10, 2011); 74 FR 45087 (Final Rule) (August 31, 2009).

Chief Privacy Officer, Department of Homeland Security.

Endangered and Threatened Wildlife and Plants; Initiation of 5-Year Reviews of 10 Northeastern Species

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of initiation of reviews; request for information.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), are initiating 5-year reviews under the Endangered Species Act, as amended, for 10 northeastern species. A 5-year review is based on the best scientific and commercial data available at the time of the review. We are requesting submission of any such information that has become available since the previous 5-year review for each species.

DATES: To ensure consideration, please submit your written information by November 12, 2020. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: For instructions on how and where to submit information, see Request for New Information and Table 2—Contacts under **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT:

General Information: Martin Miller, via email at martin_miller@fws.gov, and via U.S. mail at U.S. Fish and Wildlife Service, 300 Westgate Center Drive, Hadley, MA 01035.

Species-Specific Information and Submission of Comments: Contact the appropriate person or office listed in Table 2—Contacts in **SUPPLEMENTARY INFORMATION**.

Individuals who are deaf or hard of hearing may call the Federal Relay Service at 1-800-877-8339 for TTY assistance.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, are initiating 5-year reviews under the ESA (16 U.S.C. 1531 *et seq.*) for 10 northeastern species: The endangered Virginia fringed mountain snail, Plymouth red-bellied cooter, Jesup’s milk-vetch, shale barren rock-cress, Maryland darter, Lee County cave isopod, James spiny mussel, and Guyandotte River crayfish, and the threatened red knot and Big Sandy crayfish.

A 5-year review is based on the best scientific and commercial data available at the time of the review. We are

requesting submission of any such information that has become available since the most recent status review for each species.

Why do we conduct 5-year reviews and species status assessments?

Under the ESA, we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in title 50 of the Code of Federal Regulations at 50 CFR 17.11(h) (for wildlife) and 50 CFR 17.12(h) (for plants). Listed wildlife and plants can also be found at [http://ecos.fws.gov/tess_public/pub/](http://ecos.fws.gov/tess_public/pub/listedAnimals.jsp) and [\[listedPlants.jsp\]\(#\), respectively. Section 4\(c\)\(2\)\(A\) of the ESA requires us to review each listed species’ status at least once every 5 years. Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing species under active review. For additional information about 5-year reviews, refer to our fact sheet at <http://www.fws.gov/endangered/what-we-do/recovery-overview.html>.](http://ecos.fws.gov/tess_public/pub/</p>

Guyandotte River crayfish	<i>Cambarus veteranus</i>	Endangered	Wherever found	81 FR 20450; 04/07/2016.

What information do we consider in our 5-year reviews and species status assessments?

A 5-year review considers all new information available at the time of the review. In conducting the review, we consider the best scientific and commercial data that have become available since the most recent status review. We are seeking new information specifically regarding:

- (1) Species biology, including but not limited to life history and habitat requirements and impact tolerance thresholds;
- (2) Historical and current population conditions, including but not limited to population abundance, trends, distribution, demographics, and genetics;
- (3) Historical and current habitat conditions, including but not limited to amount, distribution, and suitability;
- (4) Historical and current threats, threat trends, and threat projections in relation to the five listing factors (as defined in section 4(a)(1) of the ESA);

(5) Conservation measures for the species that have been implemented or are planned; and

(6) Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Any new information received will be considered during the 5-year review and will also be useful in evaluating ongoing recovery programs for the species.

Request for New Information

To ensure that 5-year reviews are based on the best available scientific and commercial information, we request new information from all sources. If you submit information, please support it with documentation such as maps, bibliographic references, methods used to gather and analyze the data, and/or copies of any pertinent publications, reports, or letters by knowledgeable sources.

How do I ask questions or provide information?

Please submit your questions, comments, and materials to the appropriate contact in table 2. Individuals who are hearing impaired or speech impaired may call the Federal Relay Service at 800–877–8339 for TTY assistance.

Public Availability of Comments

Before including your address, phone number, electronic mail address, or other personal identifying information in your submission, you should be aware that your entire submission—including your personal identifying information—may be made publicly available at any time. Although you can request that personal information be withheld from public review, we cannot guarantee that we will be able to do so.

Contacts

New information on the species covered in this notice should be submitted by mail or electronic mail to the appropriate contact shown in table 2, by the deadline provided in **DATES**.

DEPARTMENT OF THE INTERIOR**Bureau of Land Management**

[LLC0910000-20X-L13100000.PP0000]

Notice of Administrative Boundary Change for Bureau of Land Management Districts in Colorado

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of district boundary changes.

SUMMARY: The administrative boundaries of the Northwest Colorado District Office, Rocky Mountain District, and Southwest Colorado District are being changed, and the Upper Colorado River District is being created.

DATES: The boundary change takes effect on October 1, 2020.

FOR FURTHER INFORMATION CONTACT: Suzanne Copping, Rocky Mountain District Associate District Manager, telephone: 719-269-8724, email: scopping@blm.gov or Jayson Barangan, BLM Colorado Acting Communications Director, telephone: 303-239-3681, email: jbaranga@blm.gov. Persons who use a use a telecommunications device

for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339 to contact Ms. Copping during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or questions. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The administrative boundary change will realign the Gunnison Field Office under the Southwest District; move the Grand Junction Field Office from the Southwest District to the newly created Upper Colorado River District; and move the Colorado River Valley Field Office from the Northwest District to the Upper Colorado River District. Field Office and Fire Unit boundaries will remain the same. This change in administrative boundaries will align district boundaries with BLM Colorado's fire units. All land managed by the Bureau of Land Management in Colorado fall within the Department of the Interior's Upper Colorado Basin—Region 7. This realignment of administrative boundaries does not conflict with the Department's reorganization into 12 unified Interior regions and is fully consistent with the goals of the Department's efforts for efficient government and enhanced coordination.

In 2016, BLM Colorado redrew its district boundaries, establishing the Rocky Mountain District, Northwest Colorado, and Southwest Colorado Districts. The established boundaries from this effort resulted in districts not aligning with the fire units. After implementation, the State Director made a commitment to evaluate the

realignment and determine if adjustments would be necessary. To honor the commitment, BLM Colorado sought input in Fall 2019 from its employees, local communities and local government officials, and Tribes, as well as Colorado's congressional delegation on how the 2016 alignment is working. As a result of the evaluation, BLM Colorado is establishing a fourth district—the Upper Colorado River District—and realigning existing districts to match the existing four fire units and better complement the missions of the field offices throughout the state.

The primary purpose of the administrative boundary change is to align BLM Colorado fire units with district boundaries and simplify reporting and oversight structures to enhance wildfire response and wildland firefighter safety. Secondly, aligning district boundaries with more practical geographic features and geopolitical areas will enhance service to the public, as well as coordination with local, county and state agencies and elected officials.

Authority: BLM Manual 1203 Delegation of Authority Sec. 1202 and Sec. 1201 relates to functions of BLM. The delegation manual shows the various delegations of functions to BLM officials, et al., which includes "Approve changes in District and Field Office boundaries." (See the table of delegations in the manual, specifically subject code 1202.) This authority is retained by the Director, with concurrence by the "Office of the Assistant Secretary" (see footnote 3 in
