DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Receipt of Incidental Take Permit Application and Proposed Habitat Conservation Plan for the Sand Skink, Lake County, FL; Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment and information.

SUMMARY: We, the Fish and Wildlife Service (Service), announce receipt of an application from VK Avalon Groves LLC (applicant) for an incidental take permit (ITP) under the Endangered Species Act. The applicant requests the ITP to take the federally listed sand skink incidental to construction in Lake County, Florida. We request public comment on the application, which includes the applicant’s proposed habitat conservation plan (HCP), and the Service’s preliminary determination that this HCP qualifies as “low-effect,” categorically excluded, under the National Environmental Policy Act. To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

DATES: We must receive your written comments on or before April 29, 2021.

ADDRESSES:

Submitting Comments: If you wish to submit comments on any of the documents, you may do so in writing by any of the following methods:

FOR FURTHER INFORMATION CONTACT: Erin M. Gawera, by telephone at (904) 731–3121 or via email at erin_gawera@fws.gov. Individuals who are hearing or speech impaired may call the Federal Relay Service at 1–800–877–8339 for TTY assistance.

SUPPLEMENTARY INFORMATION: We, the Fish and Wildlife Service (Service), announce receipt of an application from VK Avalon Groves LLC for an incidental take permit (ITP) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 et seq.). The applicant
requests the ITP to take the federally listed sand skink (Neoseps reynoldsi) incidentally to the construction of a multi-family housing development (Serenoa Village 4) (project) in Lake County, Florida. We request public comment on the application, which includes the applicant’s proposed habitat conservation plan (HCP), and on the Service’s preliminary determination that this HCP qualifies as “low-effect,” categorically excluded, under the National Environmental Policy Act (NEPA; 42 U.S.C. 4231 et seq.). To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

Project
The applicant requests a 5-year ITP to take sand skinks through the conversion of approximately 1 acre (ac) of occupied sand skink foraging and sheltering habitat incidental to the construction of a multi-family housing development located on a 20-ac parcel in Section 24, Township 24 South, Range 26 East, Lake County, Florida, identified by Parcel ID number 24–24–26–0001–000–01800. The applicant proposes to mitigate for take of the sand skinks by the purchase of 2 credits from Lake Wales Ridge Conservation Bank or another Service-approved Conservation Bank. The Service would require the applicant to purchase the credits prior to engaging in activities associated with the project on the parcel.

Public Availability of Comments
Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment, including your personal identifying information, may be made available to the public. While you may request that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

Our Preliminary Determination
The Service has made a preliminary determination that the applicant’s project, including land clearing, infrastructure building, landscaping, and the proposed mitigation measures, would individually and cumulatively have a minor or negligible effect on sand skinks and the environment. Therefore, we have preliminarily concluded that the ITP for this project would qualify for categorical exclusion and that the HCP is low effect under our NEPA regulations at 43 CFR 46.205 and 46.210. A low-effect HCP is one that would result in (1) minor or negligible effects on federally listed, proposed, and candidate species and their habitats; (2) minor or negligible effects on other environmental values or resources; and (3) impacts that, when considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not over time result in significant cumulative effects to environmental values or resources.

Next Steps
The Service will evaluate the application and the comments received to determine whether to issue the requested permit. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the above findings, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue ITP number PER0002632 to VK Avalon Groves LLC.

Authority
The Service provides this notice under section 10(c) of the ESA (16 U.S.C. 1531 et seq.) and its implementing regulations (50 CFR 17.32) and NEPA (42 U.S.C. 4321 et seq.) and its implementing regulations (40 CFR 1506.6 and 43 CFR 46.305).

Jay Herrington,
Field Supervisor, Jacksonville Field Office.

DEPARTMENT OF THE INTERIOR
Bureau of Ocean Energy Management
[Docket No. BOEM–2021–0024]

Notice of Intent To Prepare an Environmental Impact Statement for Ocean Wind, LLC’s Proposed Wind Energy Facility Offshore New Jersey

ACTION: Notice of intent to prepare an Environmental Impact Statement.

SUMMARY: Consistent with the regulations implementing the National Environmental Policy Act (NEPA), the Bureau of Ocean Energy Management (BOEM) announces its intent to prepare an Environmental Impact Statement (EIS) for the review of a construction and operations plan (COP) submitted by Ocean Wind, LLC, (Ocean Wind). The COP proposes the construction and operation of a wind energy facility offshore New Jersey with export cables connecting to the onshore electric grid in Ocean and Cape May Counties, New Jersey. This notice of intent (NOI) announces the EIS scoping process for the Ocean Wind COP. Additionally, this NOI seeks public comment and input under section 106 of the National Historic Preservation Act (NHPA) (16 U.S.C. 470f) and its implementing regulations (36 CFR part 800). Detailed information about the proposed wind energy facility, including the COP, can be found on BOEM’s website at: https://www.boem.gov/Ocean-Wind/.

DATES: Comments should be submitted no later than April 29, 2021.

BOEM will hold virtual public scoping meetings for the Ocean Wind EIS at the following dates and times (Eastern):
- Tuesday, April 13, 2021; 1:00 p.m.;
- Thursday, April 15, 2021; 5:30 p.m.; and
- Tuesday, April 20, 2021; 5:30 p.m.

ADDRESSES: Comments can be submitted in any of the following ways:
- In written form, delivered by hand or by mail, enclosed in an envelope labeled, “Ocean Wind COP EIS” and addressed to Program Manager, Office of Renewable Energy, Bureau of Ocean Energy Management, 45600 Woodland Road, Sterling, Virginia 20166; or
- Through the regulations.gov web portal: Navigate to http://www.regulations.gov and search for Docket No. BOEM–2021–0024. Click on the “Comment Now!” button to the right of the document link. Enter your information and comment, then click “Submit.”

FOR FURTHER INFORMATION CONTACT:
Michelle Morin, BOEM Office of Renewable Energy Programs, 45600 Woodland Road, Sterling, Virginia 20166, (703) 787–1340 or michelle.morin@boem.gov.

SUPPLEMENTARY INFORMATION:
Purpose and Need for the Proposed Action
In Executive Order 14008 President Biden stated that it is the policy of the United States “to organize and deploy the full capacity of its agencies to combat the climate crisis to implement a Government-wide approach that reduces climate pollution in every sector of the economy; increases resilience to the impacts of climate change; protects public health; conserves our lands, waters, and biodiversity; delivers environmental justice; and spurs well-paying union jobs and economic growth, especially through innovation, commercialization, and deployment of clean energy technologies and infrastructure.” Through a competitive leasing process under 30 CFR 585.211, Ocean Wind was
