

Red Wolf (*Canis rufus*) Current and Proposed NC Non-essential Experimental Population

Legend

-  * **CURRENT:** USFWS Non-essential Experimental Population (NEP) Area
-  ** **PROPOSED:** USFWS North Carolina Non-essential Experimental Population **Management Area**

USFWS Ecological Services - Atlanta, GA. July 5, 2018.

Basemap: Esri World Ocean Base

* **NEP Area** : The current NEP area (yellow shaded counties) is comprised of **Tyrrell, Hyde, Washington, Dare** and **Beaufort** counties in North Carolina (**County Boundaries** ).

** **NC NEP Management Area**: The proposed NC NEP Management Area is comprised of **Alligator River NWR**  and **Dare County Bombing Range** . Red wolves outside of the NC NEP Management Area would still be considered part of the NC Non-essential Experimental Population, but would have no take prohibitions.

Coordinate System: NAD 1983 - Albers Equal Area
