Cache River

National Wildlife Refuge

Public Use Regulations 2025-2026

General Introduction

Cache River National Wildlife Refuge, established in 1986, is one of 571 national wildlife refuges administered by the U.S. Fish and Wildlife Service. The primary objective of the Refuge is to provide habitat for migratory waterfowl and protect the remaining tracts of bottomland hardwoods in the Cache River Basin. The refuge is comprised of numerous tracts of land along the Cache and White Rivers and Bayou DeView in the Arkansas counties of Jackson, Woodruff, Prairie, and Monroe.

Hunting, fishing, wildlife observation and photography, environmental education, and interpretation are priority public uses of the National Wildlife Refuge System. These wildlife-dependent uses are carefully managed on Cache River National Wildlife Refuge to ensure they are compatible with refuge purposes and provide safe, high-quality, low-impact, recreational opportunities.

Users of the refuge must obey all signs pertaining to visitation, access, and public use regulations. All public uses, including hunting and fishing, must be conducted in accordance with state and federal regulations as supplemented by the following special refuge regulations.

Vehicle and Boat Use

Cache River National Wildlife Refuge is in the acquisition phase and the attached map shows the current ownership at the time of printing this brochure. Isolated land tracts that have been purchased are scattered throughout the acquisition zone and have been posted with refuge boundary signs or marked with yellow boundary paint. **NOTE:** Access to many of these refuge lands is currently through private lands and all refuge visitors must obtain permission from adjacent landowners prior to crossing private land to reach refuge lands.

The refuge is closed to ALL other entry and public use Nov. 8-16 during the Quota Gun Deer Hunt. Only Quota Gun Deer Hunt permit holders are allowed to enter or use the Refuge during this hunt and only for the purpose of deer hunting and incidental take of beaver, muskrat, nutria, coyote, striped skunk, fox, bobcat, river otter, mink, and feral hogs. Exception: If a Flood Prone Region is closed to deer hunting due to flooding during the refuge's Quota Gun Deer Hunt, then the refuge, in that Flood Prone Region only, will be open to other public entry and use.

Waterfowl sanctuaries, indicated on the refuge map, are closed to ALL public entry and use, including hunting and fishing, from Nov. 15 through Feb. 28 annually.

Roads may be closed at any time road conditions or other administrative needs warrant. A locked gate or other barrier, road closed sign, or no vehicle sign means the road is closed to ALL vehicle travel, including bicycles and ebikes, but not to foot travel unless signed otherwise.

All conventional vehicles must stay on maintained roads or established parking areas and meet all applicable federal and state requirements regulating the use of a licensed motor vehicle. Vehicles equipped with oversize tractor lug type tires are prohibited. Motor vehicle (including ATV/UTVs, ebikes, etc.) speed limit is 25 mph unless otherwise posted.
