

U.S. Fish and Wildlife Service Coastal Program

The Coastal Program

works with communities to voluntarily protect and restore coastal areas that benefit fish, wildlife, and people.

We provide federal funding and expertise to landowners and communities for projects that increase natural disaster protection and outdoor recreation, including hunting and fishing, and support fish and wildlife as well as local businesses and jobs.

The Coastal Program is authorized by the Coastal Habitat Conservation Act (Pub. L. 118-138).

Our Mission

to achieve voluntary habitat conservation by providing technical and financial assistance, in collaboration with partners, for the benefit of federal trust species.

Since 1985, we have worked with landowners and communities to:

PROTECT
2,500,000+
acres of habitat

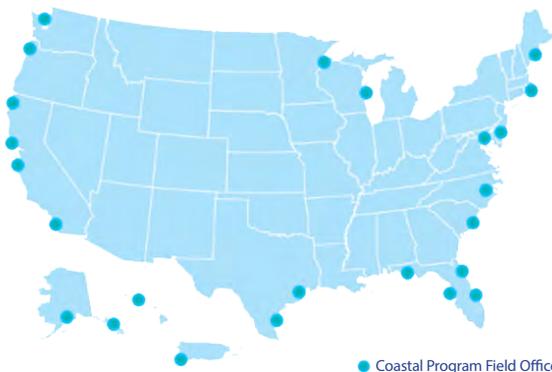

RESTORE
660,000+
acres of habitat

CONSERVE
3,000+
miles of stream

DELIST/DOWNLIST
17
federally-protected species

● Coastal Program Field Offices

SERVING
8,600+
partners and communities

SUPPORTING
2,700 BUSINESSES
& 4,100 JOBS annually

The Coastal Program works with communities around the nation to implement projects private and public lands that deliver tangible benefits for Administration and local priorities.

GENERATING
\$6 FOR EACH \$1
of federal dollars invested
in the Coastal Program

Coastal Conservation Key to a Thriving Economy and Healthy Communities

America's coastal areas are critically important to our Nation's economy, agriculture and energy security, and public safety.
