

# Statistical Data Tables for Lands Under Control of the Fish & Wildlife Service (as of 9/30/2014)

## Category Definitions

The following report definitions do not necessarily reflect the definitions found in 50 CFR 25.12.

**National Wildlife Refuges** (NWRs) include the Refuge System lands, waters, and interests administered by the Service as wildlife refuges, wildlife ranges, wildlife management areas, game preserves, and conservation areas.

**Waterfowl Production Areas** (WPAs) are Refuge System lands comprised of small natural wetlands and grasslands that provide breeding, resting, and nesting habitat for millions of waterfowl, shorebirds, grassland birds, and other wildlife. Approximately 95 percent of WPA lands are located within the Prairie Pothole Region states of Iowa, Minnesota, Montana, North Dakota, and South Dakota. WPA lands are grouped by county and administered by one of the Service's 38 wetland management districts.

**Coordination Areas** are Refuge System lands managed by states under cooperative agreements between the Service and state fish and wildlife agencies.

**Administrative Sites** are Service-owned maintenance facilities, offices, and off-site visitor centers that are not located on Refuge System lands.

**National Fish Hatcheries** are facilities where fish are raised. Hatchery objectives are to replenish depleted stocks, to mitigate federal water projects, to assist with the management of fishery resources on federal and Indian lands, and to enhance recreational activities.

**National Monuments**, which include marine national monuments, are areas designated by Presidential Proclamation and established under the authority of the Antiquities Act of 1906. This includes the submerged lands and waters designated by Presidential Proclamations 8031, 8112, 8335, 8336, 8337, or 9173, and the lands designated by Presidential Proclamation 7319. For the purposes of this report, this category includes only the Service-managed monument areas that are located outside national wildlife refuge boundaries. National monument areas located within refuge boundaries are counted in the "National Wildlife Refuges" category total. Table 10 provides a full breakdown of monument acreage.

## Column Definitions

**Reserved from Public Domain** refers to public lands the United States obtained title to through treaty, purchase, or annexation that have never left federal ownership. These lands are considered "reserved" when they have been designated for a specific purpose by an Executive Order, Act of Congress, or Public Land Order. *Primary Jurisdiction* refers to lands reserved from the public domain for the Service, typically for wildlife conservation purposes. *Secondary Jurisdiction* refers to lands reserved from the public domain for another agency, for which the Service has some management responsibility.

**Designated as Marine National Monuments** refers to the portion of the submerged lands and waters designated for protection by Presidential Proclamation that were not managed by the Service prior to monument establishment. Pursuant to Secretary's Orders 3212, 3224, and 3284, the Service is the designated manager for the Marianas Trench, Pacific Remote Islands, and Wake Atoll Marine National Monuments, and shares management responsibility for the Papahānaumokuākea Marine National Monument. These Secretary's Orders established the Mariana Trench, Mariana Arc of Fire, and Wake Atoll NWRs, and expanded the Baker Island, Howland Island, Jarvis Island, and Johnston Atoll NWRs. The remaining portions of the marine national monuments are located outside refuge boundaries, yet are still managed by Refuge System personnel.

**Acquired by Other Federal Agencies** refers to lands and interests in land acquired by other federal agencies (e.g., lands purchased from private landowners by the U.S. military), for which the Service has some management responsibility. *Primary Jurisdiction* refers to lands that were acquired by other federal agencies and transferred to the Service, typically to manage as wildlife habitat. *Secondary Jurisdiction* refers to lands acquired by other federal agencies, for which the Service has some management responsibility through an interagency agreement.

**Purchased by FWS** refers to lands and interests in land purchased by the Service.

**Donated** refers to lands and interests in land donated to the Service.

**Agreement or Lease** refers to agreements and leases the Service has entered into with other parties (e.g., landowners, states) to manage their land, or an interest in land, typically for a finite period.

**Table Footnotes**

\* Not counted as a National Fish Hatchery

- (1) Located on the Upper Mississippi River National Wildlife and Fish Refuge
- (2) Located on the National Elk Refuge
- (3) Located on the Ouray National Wildlife Refuge
- (4) Located on Ash Meadows National Wildlife Refuge
- (5) Lands in process of being transferred to the State of North Carolina pursuant to P.L. 112-237 (126 Stat. 1628).

- (A) Hatchery managed/operated by state
- (B) Hatchery managed/operated by tribe
- (C) Fish Technology Center
- (D) Other non-national fish hatchery or fisheries facility
- (E) Historic National Fish Hatchery
- (F) Fish Health Center
- (G) Aquatic Resources Center
- (H) National Fish Hatchery, Fish Technology Center, and Fish Health Center
- (I) Fish Health Lab managed/operated by state
- (N) National Fish Hatchery
- (O) Aquatic Resources and Recovery Center

**Table Abbreviations**

- E Corps of Engineers, Department of the Army
- F Forest Service, Department of Agriculture
- LM Bureau of Land Management, Department of the Interior
- R Bureau of Reclamation, Department of the Interior

## Table 10. National Monuments and Associated National Wildlife Refuges

### Table Footnotes

\* The *Designated as Marine National Monuments* column reflects only the emergent and submerged lands and waters the Service received management responsibility for through Secretary's Orders 3224 and 3284, or other interagency agreements. Other columns identify the lands and waters, located within monument boundaries, that the Service acquired prior to monument establishment.

\*\* The Service has management responsibility for these marine national monument areas, but they are not currently included in the NWRS. In the absence of a separate appropriation for marine national monument management, these areas are managed by NWRS personnel in consultation with the Department of Commerce and/or the State of Hawai'i (see Table Notes).

\*\*\* Includes privately owned and other federally owned non-refuge lands.

### Table Abbreviations

(AK)	Alaska
(AS)	American Samoa
(CA)	California
(HI)	Hawaii
(UM)	U.S. Minor Outlying Islands
(WA)	Washington

### Table Notes

The Fish and Wildlife Service manages lands and waters within six national monuments, including four marine national monuments. The Service manages monument lands and waters within the boundaries of 15 national wildlife refuges (54,938,276 acres). The Service also manages or co-manages monument lands and waters outside the boundaries of national wildlife refuges (418,361,231 acres). Table 10 summarizes all monument lands and waters managed or co-managed by the Service.

The **Hanford Reach National Monument** in Washington includes the 161,486-acre Saddle Mountain National Wildlife Refuge and an additional 32,965 acres outside the Refuge boundary. The Service manages the Monument under existing agreements with the Department of Energy, which retains authority over certain Monument lands not covered by those management agreements.

The **Marianas Trench Marine National Monument** consists entirely of submerged features in and adjacent to the Commonwealth of the Northern Mariana Islands. The Monument includes three units: the Islands Unit, the Volcanic Unit, and the Trench Unit. The Islands Unit encompasses 10,491,334 acres and is not part of a national wildlife refuge. The Trench Unit and Volcanic Unit form the boundaries of the 50,532,102-acre Mariana Trench NWR and 46,779.50-acre Mariana Arc of Fire NWR. The Service is the designated manager for all three Monument Units, in consultation with NOAA, but NOAA has primary management responsibility for fisheries activities.

The **Papahānaumokuākea Marine National Monument** encompasses more than 89,470,187 acres. Of that, 835,158 acres are within the Midway Atoll National Wildlife Refuge and Hawaiian Islands National Wildlife Refuge. Three trustees—the Department of the Interior (through the Service), the Department of Commerce, and the State of Hawai'i—jointly administer the Monument through the Monument Management Board.

The **Pacific Remote Islands Marine National Monument** is composed of approximately 314 million acres of U.S. insular possessions in the Pacific Ocean. Of that, approximately 3.3 million acres are within the 12 nautical mile area and encompass the following refuges: Baker Island NWR, Howland Island NWR, Jarvis Island NWR, Johnston Atoll NWR, Kingman Reef NWR, Palmyra Atoll NWR, and Wake Atoll NWR. The remaining 310.6 million acres are outside refuge boundaries. The Service is the designated manager, in consultation with NOAA, but NOAA has primary management responsibility for fisheries activities outside the 0-12 nautical mile area.

The **Rose Atoll Marine National Monument** consists of the emergent and submerged lands and waters of and around Rose Atoll in American Samoa. Of the 8,607,432 acres in the Monument, 1,613 acres is within the mean low water line at the exterior perimeter of the reef; this acreage forms Rose Atoll National Wildlife Refuge. The remaining acreage extends from the exterior of the reef out to 50 nautical miles. The Service manages the lands and waters within the perimeter of the reef in consultation with NOAA, but NOAA has primary management responsibility for fisheries activities seaward from the exterior of the reef to 50 nautical miles.

The **World War II Valor in the Pacific National Monument** includes 4,950 acres within the Alaska Maritime National Wildlife Refuge and 1,354 acres within the Tule Lake National Wildlife Refuge. The National Park Service generally administers the monument, except that the Service administers the portions of the Monument within refuge boundaries. Table 3 accounts for all acreage within Alaska Maritime NWR and Tule Lake NWR, including the Monument acreage.

## Report Notes

Figures in our tables may show some changes from previous annual reports. For example, decreases in acreage figures may reflect expired leases, real property disposals made in land exchanges, or property transfers. An increase or decrease may be noted after new property surveys are completed or when additional information is entered into the database after the data has been transmitted from the Regions for publication. Other changes result from corrections to previously entered data or data omissions.

The landscape tables in this report break out the dollars and acres for easement acquisitions. Prior to FY 2011, reports combined the acres for the Service's easements, agreements, and leases into a single column, and they did not identify the acres or dollars associated with easement acquisitions. The tables were revised to better recognize the role of easement acquisition in the Service's conservation efforts. The vast majority of the Service's easements are perpetual conservation easements that permanently protect wildlife habitat by limiting the type and amount of development that may take place on a property in the future. In contrast, most of the Service's leases and agreements expire after a number of years, and generally do not provide permanent habitat protection; hence the need to report them separately. Inclusion of the additional easement information necessitated the switch from portrait to landscape format.

If you have questions about the information in the tables, please contact Ken Fowler, Division of Realty, at [ken\\_fowler@fws.gov](mailto:ken_fowler@fws.gov) or 703/358-1876.

**Table 1:** Table 1 summarizes all lands and waters owned or managed by the Service as of 9/30/2014.

**Table 1A:** Previously known as Table 2, Table 1A summarizes all lands and waters owned or managed by the Service, by state or territory.

**Table 2:** Previously known as Table 2A, Table 2 summarizes all Service acquisitions and disposals between 10/01/2013 and 9/30/2014. Negative acreage will appear in Table 2 when we dispose of more acres than we acquire during the fiscal year.

**Tables 3-10:** Whereas Table 2 summarizes FY 2014 acquisitions and disposals, Tables 3 through 10 identify all acres managed by the Service.

**Table 3:** The Designated as Marine National Monuments column reflects only the emergent and submerged lands and waters added to national wildlife refuges through monument establishment. This column does not include the acres acquired for refuges prior to monument establishment; acres acquired by the Service prior to monument establishment are reported in other columns, even when those acres are located within marine national monument boundaries.

**Table 4:** Waterfowl Production Areas (WPAs) are units of the Refuge System established under the authority of the Migratory Bird Hunting and Conservation Stamp Act. The Service Director and states must approve each county for WPA acquisition, and this report summarizes WPA acreage by county. The total number of WPA units reflects the total number of approved counties with WPA acres.

**Tables 3 and 4:** These tables include acreage transferred from the Department of Agriculture's Farm Service Agency to the Service. When these transferred acres are within the approved acquisition boundary of a Refuge System unit (e.g., a refuge), we count those acres as part of the Refuge System unit. However, when these transferred acres are located outside the approved acquisition boundaries of all Refuge System units, we summarize the acres under FSA entries, identified as "FSA Interest {State}" in Table 3 and "{County} FSA" in Table 4. We include the acreage associated with these FSA entries in state and county acreage totals, but we do not count these FSA entries as units.

**Table 7:** The Ouray hatchery in Utah is counted as a National Fish Hatchery (NFH), but it is located within Ouray NWR, and the acreage is included in Table 3 rather than Table 7.

The Hagerman NFH in Idaho is managed by the Service, but the remainder of the land is managed by the state and appears in Table 5 as the Hagerman Coordination Area.

**Table 8:** Table 8 identifies the Congressionally designated wilderness areas within national wildlife refuges.

**Table 10:** Table 10 summarizes Service-managed acreage within six national monuments, including four marine national monuments.
