

Statistical Data Tables for Fish & Wildlife Service Lands (as of 9/30/2016)

Category Definitions

National Wildlife Refuges (NWRs) include the Refuge System lands, waters, and interests therein administered by the Service as wildlife refuges, wildlife ranges, wildlife management areas, game preserves, and conservation areas. The 146.3 million acres includes more than 54 million acres of submerged lands and waters in refuges within marine national monuments (see Table 3A).

National Monument Areas outside National Wildlife Refuge Boundaries are Refuge System lands and submerged lands and waters within portions of four marine national monuments that are outside refuge boundaries. Pursuant to Presidential Proclamations 8031, 8112, 8335, 8336, 9173, 9478, and 9496, and Secretary's Order 3284, the Service manages or co-manages these areas as part of the Refuge System.

Waterfowl Production Areas (WPAs) are Refuge System lands comprised of small natural wetlands and grasslands that provide breeding, resting, and nesting habitat for millions of waterfowl, shorebirds, grassland birds, and other wildlife. Approximately 95 percent of WPA lands are located within the Prairie Pothole Region states of Iowa, Minnesota, Montana, North Dakota, and South Dakota. WPA lands are grouped by county and administered by one of the Service's 38 wetland management districts.

Coordination Areas are Refuge System lands managed by states under cooperative agreements between the Service and state fish and wildlife agencies.

Administrative Sites are Service-managed maintenance facilities, offices, and off-site visitor centers that are not located on Refuge System lands.

National Fish Hatcheries are National Fish Hatchery System lands and waters where fish are raised.

National Monument Areas Administered Under Other Authority are lands, emergent lands, and submerged lands and waters in national monuments that the Service manages or co-manages pursuant to a Presidential Proclamation or a Secretary's Order, which the Proclamation, Order, or an associated agreement with another federal agency excludes from the Refuge System (see Table 10).

Column Definitions

Reserved from Public Domain refers to public lands the United States obtained title to through treaty, purchase, or annexation that have never left federal ownership. These lands are considered "reserved" when they have been designated for a specific purpose by an Executive Order, Act of Congress, or Public Land Order. *Primary Jurisdiction* refers to lands reserved from the public domain for the Service, typically for wildlife conservation purposes. *Secondary Jurisdiction* refers to lands reserved from the public domain for another federal agency, for which the Service has some management responsibility (often called an "overlay") through an interagency agreement.

Co-managed Monument Areas refers to the portions of the Hanford Reach National Monument and the Papahānaumokuākea and Rose Atoll Marine National Monuments for which the Service shares management responsibility with the Department of Energy, Department of Defense, or National Oceanic and Atmospheric Administration (NOAA), and state or territorial partners (see Table 10).

Acquired by Other Federal Agencies refers to lands and interests in land acquired by other federal agencies (e.g., lands purchased from private landowners by the U.S. military), for which the Service has some management responsibility. *Primary Jurisdiction* refers to lands that were acquired by other federal agencies and transferred to the Service, typically to manage as wildlife habitat. *Secondary Jurisdiction* refers to lands acquired by other federal agencies, for which the Service has some management responsibility (often called an "overlay") through an interagency agreement.

Purchased by FWS refers to lands and interests in land purchased by the Service.

Donated refers to lands and interests in land donated to the Service.

Agreement or Lease refers to agreements and leases the Service has entered into with other parties (e.g., landowners, states) to manage their land, or an interest in land, typically for a finite period.

Notes

In addition to adding over 116,000 acres to national wildlife refuges, waterfowl production areas, and coordination areas during FY 2016, the Service also added 286,522,730 acres of submerged lands and waters in marine national monuments.

On August 25, 2016, President Obama signed Presidential Proclamation 9478, which increased the size of the Papahānaumokuākea Marine National Monument in the Pacific Ocean from approximately 89,470,187 acres (105,564 square nautical miles) to approximately 372,848,597 acres (439,916 square nautical miles) of submerged lands and waters. The Proclamation incorporated the monument expansion into the Refuge System, expanding it by 283,378,410 acres.

On September 15, 2016, President Obama signed Presidential Proclamation 9496 designating the Northeast Canyons and Seamounts Marine National Monument in the Atlantic Ocean and incorporating it into the Refuge System. This added 3,144,320 acres (3,709 square nautical miles or 4,913 square miles) of submerged lands and waters to the Refuge System.

Footnotes

** Already counted in Table 3 - National Wildlife Refuges.

(A) The **World War II Valor in the Pacific National Monument** includes 4,950 acres within the Alaska Maritime NWR and 1,354 acres within the Tule Lake NWR. Pursuant to Presidential Proclamation 8327, the National Park Service generally manages the monument, except that the Service manages the 4,950 acres of the monument within national wildlife refuge boundaries. The remainder of the monument is managed by the National Park Service and thus not shown in this table.

(B) The **Hanford Reach National Monument** in Washington includes the 161,486-acre Saddle Mountain NWR and an additional 32,965 acres outside the Refuge boundary. The Service manages the monument under the authority of Presidential Proclamation 7319, and through agreement with the Department of Energy, which retains authority over certain monument lands not covered by those management agreements. Only the portion of the monument within the Refuge System (Saddle Mountain NWR) is shown in this table.

(C) The **Rose Atoll Marine National Monument** consists of the emergent lands and submerged lands and waters of Rose Atoll in American Samoa which the Service manages in consultation with NOAA and the American Samoa government. Pursuant to Presidential Proclamation 8337 and Secretary's Order 3284, the Service manages 1,613 acres of the monument as the Rose Atoll NWR. The Secretary's Order excludes from the Refuge System the remaining monument area which NOAA manages as a National Marine Sanctuary (not shown in this table, see Table 10).

(D) The **Northeast Canyons and Seamounts Marine National Monument** includes two distinct areas of submerged lands and waters in the Atlantic Ocean, one with three underwater canyons and one with four underwater mountains known as "seamounts." These areas are located about 130 miles east-southeast of Cape Cod, and include approximately 3,144,320 acres. Pursuant to Presidential Proclamation 9496, the Service manages the monument as part of the Refuge System in consultation with NOAA.

(E) The **Marianas Trench Marine National Monument** consists entirely of submerged lands and waters off-shore and adjacent to the Commonwealth of the Northern Mariana Islands and Guam which the Service manages in consultation with NOAA and the Commonwealth of the Northern Mariana Islands. Established by Presidential Proclamation 8335, the monument includes three units: the Islands Unit, the Volcanic Unit, and the Trench Unit. Pursuant to Secretary's Order 3284, the Trench Unit and Volcanic Unit form the boundaries of the 50,532,102-acre Mariana Trench NWR and 46,779.50-acre Mariana Arc of Fire NWR, and include only the submerged lands and resources within these boundaries. Pursuant to the Secretary's Order, the Islands Unit, which includes the waters and submerged lands of the three northernmost Mariana Islands and encompasses 10,498,787 acres, is not a part of the Refuge System and thus not shown in this table (see Table 10).

(F) The **Pacific Remote Islands Marine National Monument** is composed of approximately 313,941,852 acres of U.S. insular possessions in the Pacific Ocean. Pursuant to Presidential Proclamations 8336 and 9173, and Secretary's Order 3284, the Service manages all of the monument as part of the Refuge System in consultation with NOAA. About 1.25 million acres predate establishment of the monument including portions of: Baker Island NWR, Howland Island NWR, Jarvis Island NWR, Johnston Atoll NWR, Kingman Reef NWR, and Palmyra Atoll NWR.

(G) The **Papahānaumokuākea Marine National Monument** encompasses 372,848,597 acres that the Service co-manages with NOAA, the State of Hawai'i, and the Office of Hawaiian Affairs. The Service manages 284,213,568 acres of marine, submerged, and emergent features as part of the Refuge System including the monument expansion, Midway Atoll NWR, and Hawaiian Islands NWR. NOAA has primary management responsibility of the marine areas for the remaining 88,635,029 acres, and the Service manages the submerged lands as part of the Refuge System.

Table Footnotes

* County where WPA program currently exists and new FSA interests are acquired.

*** Summary by county of all acres acquired from the FSA that are not within an approved WPA county.
FSA county summaries are included in the acreage totals but are not counted as separate units.

Table Abbreviations

WMD Wetlands Management District

FSA Farm Service Agency (formerly Farmers Home Administration)

Table Footnotes

* Not counted as a National Fish Hatchery

- (1) Located on the Upper Mississippi River National Wildlife and Fish Refuge
- (2) Located on the National Elk Refuge
- (3) Located on the Ouray National Wildlife Refuge
- (4) Located on Ash Meadows National Wildlife Refuge
- (5) Lands in process of being transferred to the State of North Carolina pursuant to P.L. 112-237 (126 Stat. 1628).

- (A) Hatchery managed/operated by state
- (B) Hatchery managed/operated by tribe
- (C) Fish Technology Center
- (D) Other non-national fish hatchery or fisheries facility
- (E) Historic National Fish Hatchery
- (F) Fish Health Center
- (G) Aquatic Resources Center
- (H) National Fish Hatchery, Fish Technology Center, and Fish Health Center
- (I) Fish Health Lab managed/operated by state
- (J) Aquatic Resources and Recovery Center

Table 10. National Monuments

Table Footnotes

* Monument acres administered by the Service under the authority of National Wildlife Refuge System Administration Act (16 U.S.C. 668dd-668ee, NWRSAA).

** The Service has management responsibility for these monument areas pursuant to a Presidential Proclamation or a Secretary's Order, but the Proclamation, Order, or an associated agreement with another federal agency excludes these areas from the NWRs. NWRs staff manage these areas in consultation with the Department of Energy, Department of Defense, or National Oceanic and Atmospheric Administration (NOAA), and state or territorial partners (see Table Notes).

*** The Co-managed Areas column reflects the lands and submerged lands and waters for which the Service shares management responsibility with the Department of Energy, Department of Defense, or National Oceanic and Atmospheric Administration (NOAA), and state or territorial partners (see Table Notes).

**** Includes privately owned, state owned, or other federally administered lands and submerged lands and waters.

Table Abbreviations

(AK)	Alaska
(AO)	Atlantic Ocean
(AS)	American Samoa
(CA)	California
(HI)	Hawaii
(PO)	Pacific Ocean
(WA)	Washington

Table Notes

The Service manages lands and submerged lands and waters within seven national monuments, including five marine national monuments. Table 10 summarizes all monument lands and submerged lands and waters managed or co-managed by the Service under the NWRSAA and other authorities.

The **Hanford Reach National Monument** in Washington includes the 161,486-acre Saddle Mountain NWR and an additional 32,965 acres outside the Refuge boundary. The Service manages the monument under the authority of Presidential Proclamation 7319, and through agreement with the Department of Energy, which retains authority over certain monument lands not covered by those management agreements.

The **Marianas Trench Marine National Monument** consists entirely of submerged lands and waters off-shore and adjacent to the Commonwealth of the Northern Mariana Islands and Guam which the Service manages in consultation with NOAA and the Commonwealth of the Northern Mariana Islands. Established by Presidential Proclamation 8335, the 61,077,668-acre monument includes three units: the Islands Unit, the Volcanic Unit, and the Trench Unit. Pursuant to Secretary's Order 3284, the Trench Unit and Volcanic Unit form the boundaries of the 50,532,102-acre Mariana Trench NWR and 46,779.50-acre Mariana Arc of Fire NWR, respectively, and include only the submerged lands and waters within these boundaries. Pursuant to the Secretary's Order, the Islands Unit, which includes the waters and submerged lands of the three northernmost Mariana Islands and encompasses 10,498,787 acres, is not a part of the Refuge System.

The **Papahānaumokuākea Marine National Monument** encompasses approximately 372,848,597 acres that the Service co-manages with NOAA, the State of Hawai'i, and the Office of Hawaiian Affairs. Pursuant to Presidential Proclamations 8031, 8112, and 9478, the Service manages 284,213,568 acres of marine, submerged, and emergent features under the NWRSAA (including the monument expansion, Midway Atoll NWR, and Hawaiian Islands NWR). NOAA has primary management responsibility for the marine areas in the remaining 88,635,029 acres, and the Service manages the submerged lands under the NWRSAA.

The **Pacific Remote Islands Marine National Monument** is composed of approximately 313,941,852 acres of U.S. insular possessions in the Pacific Ocean. Pursuant to Presidential Proclamations 8336 and 9173, and Secretary's Order 3284, the Service manages all of the monument under the NWRSAA in consultation with NOAA. About 1.25 million acres predate monument establishment including: Baker Island NWR, Howland Island NWR, Jarvis Island NWR, Johnston Atoll NWR, Kingman Reef NWR, and Palmyra Atoll NWR.

The **Rose Atoll Marine National Monument** consists of 8,609,045 acres of lands and submerged lands and waters of Rose Atoll in American Samoa which the Service manages in consultation with NOAA and the American Samoa government. Pursuant to Presidential Proclamation 8337, Secretary's Order 3284, and Secretary's Order 3284A1, the Service manages 1,613 acres of the monument as the Rose Atoll NWR, which includes the lands and submerged lands and waters within the mean low water line of the seaward extent of the perimeter reef.

The **Northeast Canyons and Seamounts Marine National Monument** includes two distinct areas of submerged lands and waters in the Atlantic Ocean, one with three underwater canyons and one with four underwater mountains known as "seamounts." These areas are located about 130 miles east-southeast of Cape Cod, and include approximately 3,144,320 acres. Pursuant to Presidential Proclamation 9496, the Service manages the monument under the NWRSAA in consultation with NOAA.

The **World War II Valor in the Pacific National Monument** includes 4,950 acres within the Alaska Maritime NWR and 1,354 acres within the Tule Lake NWR. Pursuant to Presidential Proclamation 8327, the National Park Service generally manages the monument, except that the Service manages the 4,950 acres of the monument within refuge boundaries. Table 3 accounts for all acreage within Alaska Maritime NWR and Tule Lake NWR, including the monument acreage.

Report Notes

Figures in our tables may show some changes from previous annual reports. For example, decreases in acreage figures may reflect expired land leases or real property disposals made in land exchanges. An increase or decrease may be noted after new property surveys are completed or when additional information is entered into the database after the data has been transmitted from the Regions for publication. Other changes result from corrections to previously entered data or data omissions.

If you have questions about the information in the tables, please contact Ken Fowler, Division of Realty, at ken_fowler@fws.gov or 703/358-1876.

Table 1: Table 1 summarizes Service-administered acres as of 9/30/2016. For fiscal year 2016, we added separate acreage subtotals for “Within Refuge System” and “Outside Refuge System.” We also split Service-administered monument areas into separate categories, to clarify which areas the Service administers under the authority of the National Wildlife Refuge System Administration Act.

Table 1A: Table 1A summarizes all Service-administered acres by state or territory.

Table 2: Table 2 summarizes all Service acquisitions and disposals between 10/01/2015 and 9/30/2016. Negative acreages appear in Table 2 when the Service disposed of more acres than it acquired during the fiscal year.

Tables 3-10: Whereas Table 2 summarizes FY 2016 acquisitions and disposals, Tables 3 through 10 identify all acres managed by the Service.

Table 3: Table 3 summarizes national wildlife refuge acres by state or territory (note some refuges span multiple states). For fiscal year 2016, we merged the acres in the “Designated as Marine National Monuments” column into the “Acquired by Other Federal Agency: Primary Jurisdiction” column. Some users found the “Designated as Marine National Monuments” column confusing because it included only the areas added to national wildlife refuges through monument establishment and it did not include areas within monument boundaries that the Service acquired for national wildlife refuges prior to monument establishment.

Table 3A: This is a new table for fiscal year 2016. Table 3A summarizes the acres the Service manages in national monuments under the authority of the National Wildlife Refuge System Administration Act. The table includes the national wildlife refuge acres that are within monument boundaries as well as the additional NWRS-managed monument acres that are outside refuge boundaries. The table includes a total of the monument acres the Service manages as part of the Refuge System but which are outside national wildlife refuge boundaries.

Table 4: Table 4 summarizes Waterfowl Production Areas (WPA) acres. WPAs are units of the Refuge System established under the authority of the Migratory Bird Hunting and Conservation Stamp Act. The Director of the U.S. Fish and Wildlife Service and states must approve each county for WPA acquisition, and this report summarizes WPA acreage by county. The total number of WPA units reflects the total number of approved counties with WPA acres.

Tables 3 and 4: These tables include acreage transferred from the Department of Agriculture’s Farm Service Agency to the Service. When these transferred acres are within the approved acquisition boundary of a Refuge System unit (e.g., a refuge), we count those acres as part of the Refuge System unit. However, when these transferred acres are located outside the approved acquisition boundaries of all Refuge System units, we summarize the acres under FSA entries, identified as “FSA Interest {State}” in Table 3 and “{County} FSA” in Table 4. We include the acreage associated with these FSA entries in state and county acreage totals, but we do not count these FSA entries as units.

Table 7: The Ouray National Fish Hatchery in Utah is counted as a National Fish Hatchery (NFH), but it is located within Ouray NWR, and the acreage is included in Table 3 rather than Table 7.

The Hagerman NFH in Idaho is managed by the Service, but the remainder of the land is managed by the state and appears in Table 5 as the Hagerman Coordination Area.

Table 8: Table 8 identifies the Congressionally designated wilderness areas within national wildlife refuges and one national fish hatchery.

Table 10: Table 10 summarizes Service-managed areas within seven national monuments, including five marine national monuments. The table includes a total of the monument acres the Service manages, separating acreage by the authority under which it is managed.
