Morning, Mike. 2 items in advance of tomorrow's webinar with the states:

- Per your conversation with Noreen last Friday, I'll draft the email message for you to share the grazing memo with the SGTF and you can use same and the associated TPs to update the state reps at the conclusion of tomorrow's webinar. (We can hold sharing the memo w/the TF until after you give the states a heads up.)
- Similarly, given the recent Greenwire piece on our stronghold recommendations, and the recent, related FOIA request, Noreen and I agreed it would be good to take the opportunity at the end of the webinar to remind the states we shared the stronghold recommendations last October and made the maps and memo available to all publics at that time (and have recently posted it in an even more accessible location, on our GrSG site).

Holler if you want to talk on these more. I'm teleworking today so just hit my extension and you'll be connected to me and my trusty assistant Pepper.

Cheers.
