Subject: GRSG 2015 Table 1 discussion for today
Date: Tuesday, February 24, 2015 8:10:28 AM

Hi All,

We need to discuss Table 1 today. So far, I think only Joy has attempted to fill this out. This information was meant to be used also in the cumulative effects analysis. I would like to get an idea of the issues people are having with the different threats given available data. Please think of how we could maybe standardize responses to allow for an informative across threats by MZ discussion. Or if anyone has thoughts on how better to capture/present this information, I welcome any suggestions!

Management Zone	Timing of Impacts (Season)	Immediacy of Impacts	Severity of Impacts	Extent of Impacts	Resource or Life stage impacted	Notes
Example	Spring (or all the time, etc.)	Happening right now (or planned)	Direct mortality (or habitat destruction, etc.)	Impacting X% of occupied range by MZ	Lekking adults, broods	This is an example...
