Bridget-

Please see my note, below. We're happy to help if you wish. And if Craig has it covered, that's great. We were going to try to connect this morning, but didn't.

Thanks,

Ted

Ted -

Sorry I didn't get back to you - both our phone and internet have been intermittent for the past week. I think we are fixed now but not sure.

Craig is supervised by Bridget Fahey. I would encourage you to extend your offer to her so that she is aware.

Jesse, Pat, and Mary-

I heard back from Craig yesterday on my email below. It sounds like he's struggling to find time to work on this. I left him a voice mail this morning offering my staffs help on this.

Craig-

I just left you a voice mail. As we discussed previously, attached is my staff's draft write-up on livestock and horse impacts, primarily in Nevada, that we thought might be helpful to you in your chapter preparation. Others in the Service have reviewed this, and they expressed interest in getting similar livestock grazing information for other Great Basin states, including Oregon (Jeff Dillon?), Idaho (Dennis Mackey?) and Utah (Jay Martini?). As the chapter lead, do you want to make this request? Would you like help?

The specific ask for those states would be to, (1) identify the number of livestock grazing allotments that have been monitored for compliance with existing grazing standards; (2) of those monitored, how many currently meet those standards; and (3) identify whether there are any firm commitments with timelines

for implementation of the actions proposed in the BLM/FS plan amendment. Items 1 and 2 were in the draft EIS for Nevada/California, and item 3 was in the Administrative Draft Proposed Plan. Hopefully their respective documents have this same information. Feel free to extract the livestock information from this write-up and share it as an example if you wish.

Please let me know if you have any questions. My desk line is 775-861-6311, and my cell phone is 775-313-1910. I will be traveling all of next week and on my cell phone.

Thanks,

Ted
