I might be able to trim some of the recording. Didn't realize there was that much time at the start.

Hi all,

Here's where the results of FO evaluation of CED projects will be filed on Sharepoint (~330 largest projects, by March 13) - they'll be organized in folders by state:

As Amy noted, the FWS Queries function in the CED is great - you can generate your own lists of projects by state, MZ, and threat. Here's a link to the webinar that Lief and I did today for the FO biologists doing the evaluation:
