Hello everyone:

I edited the webinar recording, so it begins at the start (and saves you from reliving the entry beeps) . No need to skip to 2:30.

Craig.

Hi all,

Here's where the results of FO evaluation of CED projects will be filed on Sharepoint (~330 largest projects, by March 13) - they'll be organized in folders by state:

As Amy noted, the FWS Queries function in the CED is great - you can generate your own lists of projects by state, MZ, and threat. Here's a link to the webinar that Lief and I did today for the FO biologists doing the evaluation:
