You bet.

He hasn't yet commented, but I just sent it to him earlier today. I did include (in the CCAA section) some questions/issues Angela and I solicited from him earlier.

Importance: High

Folks,

This is a friendly reminder about our meeting with NRCS next Thursday (3/5) here in Denver. For those of you in the "To" line, please confirm by COB this Friday (2/27) that you will attend and/or if another person in your shop will attend.

For folks in Portland and Sacramento, we'll provide VTC information in advance of the meeting. We'll also provide a final agenda and NRCS roster when we receive same from Tim.

Please let me know if you have any immediate questions and thanks in advance for your reply.

Matt

Importance: High

Tim,

Hope you are doing well. Please see attached a draft agenda for our meeting next week. Please

review and let me know if you have revisions. Please note I included a placeholder for your roster. A few notes on the meeting:

- We have a conference room that accommodates ~20 folks. We'll have VTC capability and a laptop projector. I anticipate 7 or so FWS folks in person and roughly ½ again that number via VTC and/or phone. In terms of our actual roster, you can expect the folks copied here, plus our other ARDs-ES (or their representatives); and key members of our technical team.
- I put the spatial data items first on the agenda be: I think we are close to tying those off and am hopeful we can spend the balance of the day working through remaining questions re: CCAAs.
- Noreen is flying back from UT that morning and has a Colorado River Recovery Program executive meeting that afternoon but will try her best to join in between those commitments.

Thanks in advance for your review and reply and we look forward to seeing you all next week here in Denver.

Matt
