Kevin,

Q1: Do you just want all easement polygon range wide and you'll clip them to MZs or do you want Jim to clip them to MZ 1 and 6 and ship over? If it's the latter, do you want us to cut of easements that cross MZ boundaries.

Q2: We've got easements, and then we've got state-owned/managed lands... let's discuss if/how we/you want to include those into the Ag risk layers.

I'll likely be teleworking the next 2 days - holler at my cell.

LW
