I'll second that - give Jeff a chance to get that other information.
Hopefully some more information from NRCS soon, too.

Hi all,

I took a quick look at the conifer chapter and I think the review process should hold off until Jeff has an opportunity to complete the draft more fully.

Thoughts?

Note from Jeff:

There are big gaps in this draft – we are waiting on significant pieces from the CED and USGS, and I am reluctant to write the elevator speech/executive summary part until the very end when we have that. I think those pieces will have a ripple effect through this entire chapter.
