I'm not sure that I've seen the parameters either.

Do you have the parameters of the FOIA? I'm not sure I ever saw it. Or is it everything that should be in the AR for this decision.

Mark

Hi guys (Mark, sorry about the repeat e-mail)! Pat says you all have responsive emails for the big FOIA administrative record. Some of them may be the same as what she has, but if you get them pdf'd and sent to me, it would be great if I could start working on this stuff. She has 35,000 responsive emails, so the sooner I can get started on naming stuff and getting it into SharePoint, the better. As I told Mark, I can easily envision a situation in which we don't really get started on this until July or August because we've been so overwhelmed with everything else, and we end up in a situation like Amy was in with the whitebark pine times 100. Perhaps we can find a time to meet and consolidate things (although I don't know that that is necessary). My schedule is pretty malleable at the moment, so whatever works for you guys works for me.
